INDIANS AS SOLDIERS.

The war department is not meeting with flattering success in its scheme of enlisting 2000 Indians as soldiers. Reports received at Washington show that the Indians will not enlist in the infantry under any circumstances, as they detest walking, and that they will not enlist in the cavalry except as scouts, because they are not willing to bind themselves to five years' service nor to be subject to removal to distant parts of the country. In addition, they want to take their squaws with them, which is another obstacle to their enlistment.

As a matter of fact the Indian is too lazy to be made into a good soldier. Some Indians, like the Apaches, are capable of wonderful feats of energy and endurance when there is any devilry on foot but their exertions are temporary and spasmodic, and when they have accomplished their purpose even the Apaches relapse into the sloth and torpor which seem the normal condition of the Indian.

It is said, however, that the thirty-five or forty Apaches who are prisoners at Mount Vernon barracks, Ala., are ready to enlist. These Indians are said to be progressing rapidly in the path of civilization, and it is reported—for the twentieth time—that Geronimo is a prominent teacher in a local Sunday school. Before Geronimo and his band of Apaches are enlisted in the United States army the matter might profitably be submitted to the vote of the people of Arizona, who have had occasion to know the newly made Sunday school teacher and his gang of cutthroats and robbers. It is safe to say that the suffrage of the Arizonians would be very largely against recruiting the army from such a source.

The nomadic Indians may be good for something, but as yet it has not been discovered what it is. The best suggestion that has been made is to compel them to take up agricultural pursuits and earn their living in that way. As soldiers it does not appear that they will be of any use, and the less they have to do with rifles the better it will be for the people.

EX-SENATOR BLAIR is inclined to be facetious over the reports that the Chinese government will refuse to recognize him as American Minister because of his strong opposition to coolie immigration. If China should fail to receive him it would establish beyond any doubt that the Chinese government does desire to have its subjects admitted to this country. The actions of the consulate officials in San Francisco have always laid them open to the suspicion of encouraging the influx of coolies, but the home government has disavowed any interest in this immigration and has even professed to desire the complete checking of it. The reception or the rejection of Blair will settle the question. Even Chinese diplomacy cannot squirm out of this corner.

THERE is no occasion for alarm over Italy's threats to expel American citizens in that country, and close all diplomatic intercourse with the United States. Italy cannot afford to leave home to fight any country, for her old world foes would swoop down upon her if left unprotected. This war talk is simply a little variation in the annual spring style of war clouds, which appear with their accustomed regularity in Europe. This time the United States is an involuntary factor in the controversy.

THE Washington Post, after referring to the possibility of "America for Americans," being one of the rallying cries in the next campaign, says: "It is regarded as quite within the range of probability that the national platforms next year will favor restrictive immigration laws, or they may recommend that all foreigners who engage in business in the United States and enjoy the protection of this government shall become naturalized citizens. If Italy had not been so aggressive the issue would not have been so well defined. If the sentiments that are now expressed privately by senators and representatives of both parties in Washington find and echo in the platforms they will make interesting reading."

THE Minnesota legislature is wrestliang with bill to prevent actresses from appearing on the stage in tights without skirts. The members all went to the theatre Friday night to witness the "Crystal Slipper" opera, to make a close study of the question. The Minnesota lawmakers ought to be ashamed. It is bad enough for them to take front seats to witness the ballet, without demanding that the poor girls remove their tights.

THE people of Oregon will be glad to see Portland and her suburbs consolidate, making a big city of which the state will be proud to call a metropolis.

BUILDING in Albany is already assuming healthy proportions, and the record of the approaching summer will make a big showing.

How Severe Colds Are Broken Up In Montana.

From the Virginia City, Mont. Madisonian.

When we find a medicine we know to possess genuine merit we consider it a duty, and we take pleasure in telling the public what it is. Such a medicine we found Chamberlain's Cough Remedy, last winter, when la grippe was prevailing. We are satisfied that we warded off several attacks that were threatening by the use of this syrup, and we have since relieved, in a few hours, severe colds, also in the course of two or three days, entirely broken them up by its use as have several of our friends whom we have recommend it. It is all that it is represented to be by the manufacturers. If you have a cough and want to stop it, Chamberlain's Cough Remedy will do the work. For sale by Foshay & Mason

Liver
Regulator
One Dose
WORTH

100 Dollars.

DEAR S. L. R: I consider one dose of Simmons Liver Regulator worth $100. was constipated, had Headache, could eat only a little, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinine, and every remedy suggested, but only obtained temporary relief. One dose of S. L. R did me more good than $100 worth of doctors and doctoring. Respy, J. C. MARTIN.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely cured by Simmons Liver Regulator. I found it to be of so mild a character in its action as not to interfere, in the least with my duties in the school room. To those similarly situated and subject to the same, I cannot too highly recommend Simmons Liver Regulator.

FOUND AT LAST!

—THE WATERPROOF—

OIL BLACKING,

For harness, boots, shoes, carriage and buggy tops, patent leather, etc.,

CANNOT BE EQUALED

in numbers of good qualities. The following are a few of its qualities:

1st. It is lasting and durable.
2d. It does not rub off on the hands or clothes.
3d. It is perfectly waterproof.
4th. It softens the leather to its natural state.
5th. It gives the leather a new and glossy appearance.
6th. It contains not one ingredient that is injurious to either the leather or stitching, but is a preserver of them.
7th. It can be used on the finest boots and shoes and not prevent the use of the common boot-blacking, but will soften and keep them from cracking.

Now, my friends, if such an oil as this would suit you, go to the drug store of Hulin & Dawson, where you can get it for 50 cents per box. One box will oil more than one set of harness. Receipt for making the oil is sold only for individual use.
