Grounds in front of the court house are being put in condition and some interesting games will be forthcoming in the near future.

In this age of keen competition a man must advertise and advertise wisely. He must give the same attention to his advertising as he does to his stock and store. An advertisement forms an impression on the mind of the reader and it means a great deal to the advertiser that that impression be a favorable one and that it be fully sustained in the establishment.

Will Make Some How.

The spring season being so late in opening up, and being over-soaked in ladies Oxford ties we will for the next 30 days, sell them at greatly reduced prices. We mean just what we say. Call and get prices. We have over 30 different styles to select from, at Klein Bros. exclusive shoe store.

A VETERAN ACTOR.

John Jack and Anna Firmin Will Appear in Albany on May 1.

It is doubtful if there is any one on the stage whose name is more familiar to the old residents of the Pacific Coast than John Jack. For years he has been a familiar figure on the stage, and has won an enviable reputation as an actor. Anna Firmin, who appears with him, is an actress of marked ability, and being supported by a good company they always give a good entertainment.

Mr. W. C. Young, until recently manager of the Hopkin theatre, is in the city arranging for their appearance at the Albany opera house on Friday May 1.

The Hopkin Washingtonian says of them: Miss Firmin is one of the most talented American actresses now traveling. Mr. John Jack is an old-time popular actor, a leading support of the great tragedian Edwin Forrest and Neil Davenport of Wallack's. He supported Charlotte Cushman at Booth's theatre, New York, on the occasion of her farewell to the stage; is the great Falstaff of the present day; and he and Miss Firmin have made the longest starting tour of any American artists, which lasted five years, and embrace every portion of the globe where the English language is spoken. By reference to their advertisement, will show a bill of rare excellence and great merit. Master Jack has a reputation, and Prof. Richards is an accomplished pianist.

Miss Firmin will sing during the scenes the following songs, heard for the first time on the coast: "Riley's 400," "Maggie Murphy's Home," "Taking in the Town" and "Lambert's 400." Miss Firmin possesses a fine voice of great range and compass.

It is Nearly Always This Way.

The following is from the Ashland Times: A young man was begging assistance on our streets last week who had had the greater portion of his jaw bone removed by the surgeons of the Stockton hospital where he had been for some weeks. His infirmity brought him in considerable money, which was promptly spent at the saloons, he becoming so boisterous in short time that Deputy Marshal Smith gave him seven minutes to leave town in H. H. H. "The Man with the Iron Jaw" would stand no chance against the "Man with the Iron Jaw" bone-wrapped up in a piece of paper in the vest pocket.

The Albany Cornet Band.

The Albany Cornet Band has been organized with sixteen pieces as follows: First E flat cornet, David Link; 2nd E flat cornet, Albert Humphrey; 3rd B flat cornet, F. Schell; 4th B flat cornet, D. Barrone; Frank Blodgett; 5th B flat tenor, Ben Stellmacher; 2nd B flat tenor, Wm. Wallace; 1st alto, Lee Gross; 2nd alto, Frank McVicker; solo alto, Wm. Conant; tuba, Chas. Sears; bass drum, Tom Bean; snare drum, Claude Yank; 1st B flat clarinet, L. Ross; 2nd B flat clarinet, Geo. W. Bohring; the officers are: President, F. Blodgett; treasurer, L. Ross; secretary, Tom Schell; sergeant-at-arms, Chas. Sears.

A Narrow Escape.

C. N. Scott late receiver of the old narrow gauge railroad had a narrow escape from a fair prospect of drowning on the North Santiam, the other day. He was out with others looking at land above Browns mill, and on returning had to cross the river in a skiff. In jumping from the skiff to the bank he lost his balance and would have fallen into the swift flowing stream if the quick hands of a fellow voyager had not intervened. Very few escape such a fate in the rapids of the swift current of the North Santiam.

A Novel Way Of Catching Salmon.

Some fishermen living at the house on Sand Island have adopted a new method of catching salmon. They make one end of the net fast to the island and allow the other end to trail around at its own sweet will. The plan is working splendidly and they capture from twenty to thirty fish per day. The reason for not making belly end fast with the ordinary method is that the net is set in a shallow stream that it will go right through them. A small boy went out with about forty feet of net at low water recently and caught two large salmon.—Astoria Bulletin.

A Fire Engine in Corvallis.

Albany is not alone. Corvallis was visited by two fire engines yesterday evening. The family belonging to R. Addison, known as the Gaylord family, was entirely destroyed. In a shed back of the family, used as a barn, two cows were burned. In the opposite end of town, and almost at the same time, a barn belonging to J. W. Will, was fired and also burned to the ground. Both were of incendiary origin, and an arrest will probably be made.

The Moral is Obvious.

Newberg Graphic: A man stole a suit of old clothes in Portland the other day and the court sentenced him to two years in the pen, or one year longer than Sandy Oids got for killing a man. Moral: If you want a man's life, take it, but leave his personal effects alone, they are valuable.

THE DELIGHT OF THE LADIES.

An Exhibition of Art Work by the Slinger Sewing Machine Co.

A beautiful art display is now on exhibition at the store of F. M. French on First street, by the Slinger Sewing Machine Co. The work is all done on the improved Slinger machine without any attachment whatever and much of it is being done every day in the presence of visitors. First to attract the visitor's eye is the wonderful Kensington work. The best piece of this are in appearance of oil painting. It is done with the finest sewing silk as well as the heaviest of rope silk, on any kind of material. Among the pieces displayed are a cow's head, which took the gold medal at the Paris exposition, a basket of grapes which show the foliage and bloom of the fruit as natural as can be produced by an artist's brush; "three dogs at the master's grave" is also a wonderful production. One great beauty of the work is that both sides are exactly alike where silk is used in the shuttle.

The rope silk work is done from the under side, thus enabling the operator to work from a stamped back. This work is used on the heavier materials such as plushes and velvet, for curtains, pillows, cushions, portiers, etc., including fringes. Nothing is finished by hand, but everything is completed with plain machine, and when done looks much more like hand work and better finished than hand work.

This improved machine does lace, feather stitch, smolign work, and take tinsel arsenic, etc., direct from the shuttle, without any attachment.

A beautiful doll's dress is exhibited, made of the finest lawn, and sewed with No. 100 cotton, showing smoking and feather stitch.

The work will be on exhibition until Wednesday evening, at which time a fine piece of art work will be given away. All ladies who call will be given a ticket entitling them to a chance in the drawing.

Mr. Henry McFarland is extremely ill with la grippe.

Measles, mumps and la grippe are present at present, and all who have been affected are well on the road to recovery. Although we have had some severe cases of la grippe, there has been no fatal terminations of this painful disease.

Prospects were never better for an immense yield of fruit than at present. The trees are full of blossoms, and the cloudy weather, accompanied by warm showers, bringing vegetation rapidly forward.

W. R. Bishop, of Portland, arrived in town Friday.

The recent rains have been of great value to our vines, which are making a luxuriant growth, with every prospect of a good stand.

Oats are scarce and in demand at 50c a bushel and as high as 55c has been paid for seedling purposes.

Call early and secure the best patchaloms to order at cost. Zaches, the tailor, opposite post office.

OREGON CROPS.

Prospects Were Never Better for a Beautiful Grain Yield Throughout the State.

Following is a crop-weather Bulletin No. 7 issued by B. S. Pague, of the Oregon Weather Bureau at Portland, it being based on reports received from 144 correspondents in various portions of the state: Western Oregon—Cool, cloudy weather with rain prevailed during the week, there were general light frosts, which did no damage on the 19th and 20th; some hail fell in various sections on the 23rd doing no damage.

Along the coast and in the Willamette valley from one to two and a half inches of rain fell. In southern Oregon less than an inch of rain fell. The temperature ranged from one to two degrees a day, below the average for the week. There was sunshine at intervals, but far from the average amount.

The rain was very beneficial to crops on uplands. On the lower lands seeding is not all done and it will now be further delayed. Fall sown wheat and oats have fine growths, and in sections it is being pastured down, spring grain that has been sown is doing finely.

The fruit crop is thriving. Apples are generally in full bloom. Present indications point to a phenomenal fruit crop this year. Hops have a good growth. They are from one to two feet above the ground. The hop acreage has been increased. More potatoes than usual have been planted.

Straw and other small berries are coming on finely, berries promise to be unusually plentiful. Lambs are doing well. Preparations are being made for shearing, which will be in full blast next week. The week closes with most favorable prospects for western Oregon.

Eastern Oregon—The weather has been more crops and productions. Cloudy during the past week than for a long time and light rains were general. Over one half an inch fell throughout the section. The temperature has been slightly below the average with occasional light frosts.

The rain that fell was needed, for the soil was becoming dry and late sown grain already up and greatly assists that not yet appearing. The rain that fell is worth a vast sum to the present week. The increased average and more favorable weather will produce a much larger crop than the phenomenal yield of last year.

Grass on the range is growing and finishing good feed. Stock are flattering. Shearing is in progress. Fleeces are large and wool of good quality.

Fruit promises unusually well. In Washington there has been a largely increased average of water melons. Vegetables in gardens are growing rapidly.

As in western Oregon, the prospects were never better for a bounteous crops throughout Oregon.

Young Writers Encouraged.

Alford A. Walters, who was arrested at Oregon City last January for obtaining money under false pretenses, has been discharged by the Clackamas county grand jury, there being a reasonable amount of doubt.

Only a Few Left.

And they are dying fast with la grippe and starvation, the people who do not trade with Mueller & Garrett, the leading grocers, who always have the finest assortment of eatables.
