THERE apparently is no cause for apprehension on the subject of a supply of the toothsome cod for the lovers of that staple article of fish diet, although there has been a turmoil over the fishing grounds, and the amount of fish taken is simply wonderful. It is said that the sea around the shores of Newfoundland yield from sixty billion to one hundred billion codfish every year; but this need not alarm those who are fond of "Cape Cod turkey" when it is remembered that a single cod yield something like 3,500,000 eggs each year, and that over 8,000,000 eggs have been found in the roe of a single cod. There ought to be codfish enough there for the fishermen of all nations.

IT is said that a Russian engineer has invented a stove in which only from one-third of one per cent to three per cent of the heat escapes up the chimney, while in ordinary stoves and grates from 80 to 90 per cent of the fuel consumed is wasted. It is estimated that if these stoves could come into general use throughout Europe alone the saving in fuel would annually pay the taxes of the whole continent three times over. Probably however the buyers of the article will want a written guarantee that it will not smoke the inmates out of the house, as well as to retain the heat inside.

IT is said that the average number of American patents issued yearly is about 20,000. Compared with the number issued in any other country this is very large. England, which comes nearest to us, issues only about 4,000 to 5,000 a year, and its system is very much more lax than ours. Patents are issued without any conditions as to novelty or merits, and not two applications in a hundred are rejected. In Prussia the number granted annually is less than a hundred; in Belgium 1,500 to 2,000. The American inventive genius has become, it would seem, almost a monopoly.

THE report is being promulgated by parties in the east, especially by Elkins and Arkell, that Mr. Blaine will soon issue another letter, declining to allow his name to be used in connection with the candidacy for president. That may be the facts, but if the matter was left to the choice of the people at present there is not much doubt but Mr. Blaine would stand far ahead of every other man in the country.

THE Chronicle makes the following "kick" against the presidential party. Probably the majority will agree with it: The only adverse criticism thus far passed, on the presidential excursion has been that the party does not include Baby McKee. It is well enough to speak of General Harrison as the president, but the people of California wanted to see the actual ruler of the White House, and they feel that the party is incomplete without him.

THE New York Sun is now starting out to out do all the other newspapers in the country in the matter of a tall building. It poses to put up a building high, divided into 24 stories, upper portion to be made of and run to an apex. The Sun then look down on its neighfrom its apex and scatter illnated editorials from its cenr the air above the slums of Got

IF the reports are correct South America, that the rebe in Chili is over, it will be a faction to all who have been ways cognizant of the condition of affairs in that cou of late, for the accounts bucheries and massacres have sickening in the extreme.

It is said that a canal, to connect Venice with the Gulf of Spezia, is now under consideration in Italy. Its length, according to present estimates, would be 273 kilometers (about 170 miles) and its average breadth 75 meters (about 250 ft.) There will be in all 73 locks, and the cost of construction is estimated at about $200,000,000. They had much better give their attention to matters of that kind than to be looking after a scrimmage with this country.

THE race for the place of head city in the manufacturing interests of the country has been sharply contested between Philadelphia and New York. The 188[illegible] census gave New York the start by about $150,000,000, but 1890 census turns the table and gives the palm to Philadelphia by $78,000,000. The growth has been phenomenal in both cities.

LIEUT. FRED SCHWATKA whose fame as and Arctic explorer is untarnished, whatever may be the condition of reputation in other directions, it appears is about to commence an exploration over an immense tract of unknown Alaska, with Bonner of [illegible] as the source of his supplies. It is well that he is again employed.

THE director of the United States mint, Leech, has invited the artists of the country to prepare new designs for the new silver coins, the half dollar, quarter dollar and dime. It is hopeful that they will give us something artistic this time.

THE Agricultural College commission of our neighboring state of Washington are still working over the location site, with not very flattering prospects of coming to an agreement.

THE Chinese government seems to have a decided antipathy to Blair, and emphatically refuse to have him as minister to that country. They are hard to please.

ake
'immons
Liver
Regulator
One Dose

WORTH

100 Dollars.

DEAR S. L. R: I consider one dose of Simmons Liver Regulator worth $100. I was constipated, had Headache, could eat nothing with satisfaction or appetite had the blues, and felt altogether out of sorts. I resorted to Blue Mass, Calomel, Quinin, and every remedy suggested, but only obtained temporary relief. One dose of S L R did me more good than $100 worth of doctors and doctoring. Resp'y, J C MARTIN.

I have been a teacher for twenty years, and during that time have had repeated attacks of headache, produced by torpid Liver, and have been entirely relieved by Simmons Liver Regulator. I found it to be of so mild a character in its action as not to interfere, in the least with my duties in the school room, to those similarly situated and subject to the same, I cannot too highly recommend Simmons Liver Regulator.

E. E. CRESS Campbellsville Ky.

FOUND AT LAST!

—o—

—THE WATERPROOF—

OIL BLACKING,

For harness, boots, shoes, carriage and buggy tops, patent leather, etc.,

CANNOT BE EQUALED

in numbers of good qualities. The following are a few of its qualities:

1st. It is lasting and durable.
2d. It does not rub off on the hands or clothes.
3d. It is perfectly waterproof.
4th. It softens the leather to its natural state.
5th. It gives the leather a new and glossy appearance.
6th. It contains not one ingredient that is injurious to either the leather or stitching, but is a preserver of them.
7th. It can be used on the finest boots and shoes and not prevent the use of the common boot-blacking, but will soften and keep them from cracking.

Now, my friends, if such an oil as this would suit you, go to the drug store of Hulin & Dawson, where you can get it for 50 cents per box. One box will oil more than one set of harness. Receipt for making the oil is sold only for individual use.

J. C. DEVINE, Manufacturer and Agent, Albany, Oregon.
