Come to the corner of Water and Ferry sts. for all kinds of Feed. P. W. SPINK, Albany, Or.

AUSTRALIAN MATTER

Constitution Proposed For the New Federation.

SUBMITTED TO THE PEOPLE.

If Ratified It Goes to the English Parliament, After Approved the Queen Appoints the Governor-General.

SAN FRANCISCO, May 15.—Australian advices, per steamship Alameda, give a synopsis of the draft of a constitution for the proposed federation of the Australian colonies, which was prepared by a convention that closed its sittings on April ninth. The constitution will be submitted to a vote of the people and when accepted by the three colonies as it stands, for they cannot amend it, it will be sent to the imperial parliament. If ratified by that body, Queen Victoria will proclaim the day when the commonwealth of Australia is to be established, and will also appoint a governor general. On the latter's arrival the Australians will proceed to form a ministry, and elect a parliament. The constitution provides that the federation shall be known as the commonwealth of Australia, and the colonies to be called states. The legislature to consist of a senate and house of representatives, to be called parliament, and shall be in session at least once every year. The governor general is to be appointed by the queen at a salary of not less than £10,000.

The senate is composed of eight members from each state, chosen by the houses of parliament of each state, and are to be chosen for six years, one-half of the members to retire every three years. The president of the senate is to be, in all cases, entitled to a vote and when the vote is a tie, the question is to pass. Representatives are to be chosen by the people of the several states, each state to have one representative for every thirty thousand people, but the minimum number of representatives for each state to be four. The speaker is to be elected by the house and when a vote is a tie the speaker is to have the casting vote. The life of the house of representatives is three years. The powers of parliament in regard to law making include the regulation of trade, commerce and coinage, and in general all matters delegated to congress by the constitution of the United States. The governor is to be advised by the executive council of ministers, not exceeding seven in number, who are to be members of the federal executive council, and the queen's ministers of state for the commonwealth. The ministers may sit in either house of parliament. The supreme court is to consist of a chief justice and not less than four other judges, all to be appointed by the parliament, and hold office during good behavior. As soon as a uniform tariff has been imposed inter-colonial free trade is to prevail among the colonies.

AFTER THE CHARLESTON.

The Esmeralda Said to Be in Pursuit.

CITY OF MEXICO, May 15.—A dispatch received late last night from Acapulco says: "The Chilian cruiser Esmeralda entered this port yesterday and sailed again today. Several of her officers were ashore, used the wires and made various inquiries regarding the action of the United States, showing they were informed the cruiser Charleston had been sent in pursuit of the Itata. It is believed she steamed north to intercept the Itata and protect her, should the Charleston attempt to capture. The officers who came ashore were very reticent, but from one of the sailors it was learned they expected to sight the Itata and act as her convoy down the coast. The Esmeralda has a numerous crew, and, in appearance, they are veterans and will fight."

The above dispatch is confirmed at the war department, but officers are inclined to be reticent. An official said the cruiser was warned not to remain in port, as Mexico was not harboring insurgent vessels, and did not not recognize any other government in Chili than that of Balmaceda.

A Drain of Gold.

LONDON, May 15.—The Times believes that the Russian government will withdraw £3,000,000 from London within the next month or two, and it is doubtful whether the Bank of England will be liable to draw that amount from America. Besides which, adds the Times, there is a strong probability of a partial failure of European crops, which would cause a drain of gold to America in the future.

A Mysterious Affair.

Friday the sheriff of Yamhill county received notice that a woman had been shot at North Yamhill and he left immediately. The affair created considerable talk and is mysterious, and as far as could be learned happened as follows: A family of French people by the name of Monthyon live several miles from North Yamhill, in the Pike neighborhood. Friday morning while Mr. Moathyon was in the fields at work some one knocked at the door, and upon Mrs. Monthyon opening it she found a man masked with a revolver in his hand. He said, "You know too much!" and aiming the revolver at her, fired. She threw up her hand and the ball penetrated the hand. The man immediately left and no trace of him has been found. The family immediately packed up and left for Portland. It is reported that in the seven years' residence near North Yamhill Mrs. Monthyon has not once appeared in the town. The family were not sociable and little is known of them. It is a strange case and is a fit subject for a novelist, who, no doubt, could weave a thrilling tale from the circumstances known.—McMinnville Telephone-Register.

NEBRASKA GOVERNORSHIP.

The Case in the Supreme Court.

WASHINGTON, D. C., May 15.—Justice Brewer of the United States supreme court, to-day, granted an application for counsel for Mr. Boyd, who was elected governor of Nebraska, for a writ of error to the supreme court to test the question involved in the decision of a majority of the supreme court of Nebraska, who decided he was not an American citizen, and therefore not elegible to the office of governor of Nebraska. The supreme court meets again on the 25th, and it is the intention of Boyd's counsel to move to advance the case on the docket and secure a speedy hearing.

Affairs in Spain.

LONDON, May 15.—The draft of the Anglo-Portuguese agreement with reference to East Africa has been signed in London. The news of the signing of the agreement has produced an excellent impression here.

Foreign merchants here propose to appoint three delegates—one French, one English and one German—to take action in common with the Portuguese committee on the public debt.

RUSSIA AND JAPAN.

LIKELY TO BE TROUBLE BETWEEN THEM.

The Recent Attempt Upon the Life of the Czarowitz Explained-The Mikado's Dignity.

SAN FRANCISCO, May 15.—Among the passengers on the steamer Alameda, which arrived yesterday, was W. J. Ford, of New York, who has resided in Japan for the last four years. "In my opinion," said Mr. Ford, "the assassin who attempted the life of the czarowitz was not so much of an assassin as an over enthusiastic patriot. There is a great hatred between the Russians and the Japanese. The Russian church is the finest and tallest building in all Yokohoma, not even excepting the palace of the mikado. Situated on a considerable eminence, the church looks down and over the palace, a thing that is a capital crime in the Japanese code. Still the Russian consul lives at the Russian church and for the sake of international amity the thing has been tolerated though not condoned. Last fall the first Japanese parliament was opened by the mikado in person. On the way from the imperial palace to the house of parliament the mikado had to pass the Russian church. There was a great throng of Russians and other foreigners assembled to witness the imperial pageant. The Japanese were so outraged by the sight of the hated Russians gathered high above their heads and looking down on the mikado that they broke all bounds and fairly mobbed the church, hurling stones and other missiles at the spectators at the windows. Their most sacred custom had been violated, and in their rage they acted like demons. The Russians defended themselves in turn. They tore off tiles from the roof and used them as missiles. They did considerable execution, and in the melee a great many more Japanese were killed and wounded than Russians. Of course, this affair only widened the breach between the Russians and the Japanese, in spite of the fact that the Russian government took no official notice of the occurrence. But this attack on the czarowitz, following so closely upon the event of last fall, will surely bring matters to a climax between the two governments, and there is little doubt in my mind that Russia will now demand indemnity and reparation for the attack upon the Russian church and people."

An Insane Woman's Deed.

AUSTIN, Tex., May 15.—Mrs. Headsheth, wife of a highly respected citizen, attempted to poison her whole family by putting rough on rats in the soup. Mrs. Frye, an aunt, died in great agony last night, while Mr. Headsheth stands a show to recover. Mrs. Headsheth is demented.

The Markets.

SAN FRANCISCO, May 15.—Wheat nominal at 1.70 @ 1.72½ per cental; choice milling lots 1.80 @ 1.82½.

NEW YORK, May 15.—Money on call easy, closed offered at 3; prime merchantile paper unchanged; sterling exchange firm; 60 day bills 4.83¾; demand 4.88¼.

IMPORTANT DECISION

An Iowa Judge Renders One That Will Attract Notice.

INTER-STATE COMMERCE LAW

That is the Question Involved, and the Case Affects the Railroad—Rights of the People Asserted.

DES MOINES, Ia., May 15.—Judge Shiras of the federal court rendered an important decision, under the inter-state commerce law today. The plaintiffs in the case were grain shippers, of Carroll, Iowa, and the defendent was the Chicago & Northwestern railroad company. The plaintiffs claimed they were charged 19 cents per hundred pounds on grain shipments to Chicago, while the shippers at Blair, Neb., had a 11 cent rate for the same distance haul. The judge ruled that the rate was a violation of the inter-state law and the plaintiffs have a right to recover the differences between the rates, and also interest on all money paid in excess of the Nebraska rate.

AN OREGON ENTERPRISE.

A New Kind of Railroad to Be Put in Use.

UNION, Or., May 15.—J. B. Mahana, president and general manager of single rail and saddle car railroad company of this city, returned from Washington, D. C., where he went several months ago in the interest of the company. He secured four patents covering the entire system. The company have accepted a subsidy of $210,000, to construct a line between two Vermont towns. The business manager has been instructed to negotiate with a mechanical engineer and machine shops for the construction of a single rail engine.

The Presidential Train.

ALTOONA, Pa., May 15.—The special train bearing President Harrison and party, arrived this morning. The party stood on the rear platform and listened to cheers from a large crowd assembled. The president delivered a short address, and was followed by Secretary Rusk.

PITTSBURG, Pa., May 15.—The president's train passed through here early this morning, en route to Washington. But seventeen minutes were spent here. No demonstration.

The Attack on the Czarowitz.

BERLIN, May 15.—The latest reports received by the Japanese legation here concerning the attack on the czarowitz is that he and Prince George were returning incognito from a place of amusement when they came in conflict with police officers, who asserted themselves too vigorously until the princes were revealed. The princes were without escort at the time. The slightness of the czarowitz's wound is explained by the fact that Japanese policemen use blunt swords.

Rumors of Financial Trouble.

LONDON, May 15.—The influenza epidemic is seriously increasing in South Russia. In Russia Poland the disease has decimated the population of many villages. Influenza is spreading among the members of the English parliament, and eighty-four members of commons are suffering from the disease.

Indicted for Criminal Assault.

LOS ANGELES, May 15.—Rev. Samuel J. Fleuring, who was until recently a methodist clergyman, was convicted to-day on a charge of an attempt to commit a criminal assault upon the young nurse girl who was formerly in his employ.

Killed By a Horse

SEATTLE, May 15.—This afternoon Daniel Welch, an engineer, started out a horseback riding. The horse reared backward onto the sidewalk lower than the street bed and falling over, crushed his rider almost to jelly. The man died in about ten minutes. He was 28 years old.

Elected Bishop of Georgia.

SAVANNAH, Ga., May 15.—Rev. Thomas F. Gayler, chancellor of the University of the South, at Sewanne, Tenn., has been elected bishop of Georgia by the diocesean convention of the Protestant Episcopal church.

Influenza Increasing in Russia.

LONDON, May 15.—The stock exchange here and the bourse in Paris were greatly agitated to-day by a failure in Berlin. A later telegram was received from Berlin containing an absolute denial of the report.

Blown Off with An Immense Blast.

TACOMA, May 15.—The mass of rock and earth which overhangs the Northern Pacific track at Eagle Gorge, has been blown off by an immense blast and the officials of the company anticipate no further trouble at that point.

An Explosion.

Last evening as the night operator was busily receiving press dispatches he heard a tremendous explosion in the back alley; thinking it was the "cracksmen" at work he grabbed a "sawed-off" shot gun and a few pistols and rushed back to investigate. The explosion was harmless, however, as it was only the night watchman giving vent to his pent up feelings in regard to merchants leaving boxes in the alley for the purpose, as he thought, of retarding the watchmans' progress.

HOME AGAIN.

Ten Thousand Miles Travel Without Accident.

WASHINGTON, May 15.—The presidential train arrived this evening at 5:30 o'clock, exactly on schedule time. Before the train reached the city the president summoned to the observation car every person who had accompanied him on the trip, including railroad employes about the train, and made a short address. He said he found he had made 139 speeches since leaving Washington on the 14th of April, and thought this was a good time to make the number a round 140. He referred to the unprecedented excellence and perfection of railroad service throughout the entire trip, and said the fact that they had been able to travel over 10,000 miles of territory in a splendidly equipped train, without accident or mishap, or one minutes variation from the the pre arranged schedule, must always be regarded as a most remarkable achievement. He returned thanks individually to every person who had rendered service on the train and gave all the employes a substantial token of his appreciation. The arrival in Washington was unmarked by any demonstration beyond the presence at the station of a small knot of officials and several hundred travellers. The president and family quickly went to the white house.

Cabinet Resigned.

LISBON, May 15.—The Portugese cabinet has resigned.

LOVE AND CRIME.

HE WADED THROUGH SEAS OF BLOOD FOR HIS LOVE.

But to No Avail—His Crimes Were Known and His Career Cut Short Before She Consented.

PARIS, May 15.—The police of Landers have arrested a man named Meuniot for murder and other crimes. Meuniot, who is an ex-officer of customs, and a widower with two sons, courted a wealthy girl named Jactel, who rejected him because he was poor. Meuniot then engaged in a number of robberies, and finally murdered a priest and his servant. Having got some money he renewed his suit, but the girl's mother objected to the man's children. Meuniot thereupon set fire to the girl's residence, the occupants of which had a narrow escape. Meuniot had not been detected in any of these crimes. After another interview with the girl, who then seemed to be willing to marry him, he smothered his eldest boy, and finally shot and seriously injured the girl's brother, who had forbidden the proposed marriage. When arrested, Meuniot confessed to all but the double murder.

PORTAGE RAILWAY.

Meeting of the Board—Work to Commence.

PORTLAND, May 15.—A meeting of the board of commissioners appointed by the legislature to build the portage railway was held this morning at Salem. A letter was read from Major Handbury, which gave the consent of the government to build a narrow gauge portage road around the Cascades through the government land. The lines to be followed are those made by the local engineers. All this is permitted on the coudition that the state would build the entire road.

The officers appointed are: G. S. Farley, of The Dalles, to be superintendent, and S. L. Lovell, of Salem, to be clerk. Instructions were given for work to commence immediately.

Governor Pennoyer, who is a member of the board, said to-night: "We have been so delayed with red tape at Washington, that the high water may interfere with the work, but baring such a delay we will have the portage completed within three or four months. We have hopes of completing the road within the $60,000 appropriated by the legislature. We also have to build wharf boats."

LAGGARD CHARLESTON.

She Is Not Yet in Sight of Acapulco.

CITY OF MEXICO, May 15.—Acapulco advices state that the Chilean cruiser Esmeralda is still off that port waiting to see if it is possible to obtain coal. Another strange steamer outside is supposed to be the Itata. There is no American steamer in sight.

An Editorial Change.

ST. LOUIS, May 15.—John A. Dillon, for eight years managing editor of the Post Dispatch, left tonight for New York, to assume the editorial control of the World.

THE ODD FELLOWS

Their Annual Grand Lodge Just Closed at Seattle.

OFFICERS FOR THE YEAR.

The Next Session to Be at Walla Walla—Appeals to Sovereign Grand Lodge.

SEATTLE, May 15.—The state grand lodge of Odd Fellows has finished its fourteenth annual session. The officers were chosen as follows: Grand master, C. A. Hasbrauck, Tacoma; deputy grand master, W. G. Alban, Walla Walla; grand warden, J. C. Mitchell, Seattle; grand secretary, L. F. A. Shaw, Walla Walla; grand treasurer, George W. Hall, Seattle; grand representative to sovereign grand lodge, O. C. White, Olympia.

The minor officers appointed were: Marshal, J. B. Kimball, Spokane; conductor, E. E. Butler, North Yakima; inside guard, Dr. Phillip Funk, Puyallup; herald, Frank T. Wait, Dayton; chaplain, W. F. Hoffsenger, Pomeroy; and one district deputy grand master for every county. Walla Walla was chosen for the next place of meeting.

Two appeals will go from this grand lodge to the sovereign grand lodge. Past Grand Master H. E. Holmes, of this city, appeals on the question of substitution of the scarlet river insignia instead of the regulation collar, which the grand lodge refused to allow. The other appeal is that of L. S. Hynes, who was expelled from the subordinate lodge at Port Angeles, for failing to convey a piece of real estate which the lodge entrusted him to purchase, the grand lodge confirming the action of the subordinate lodge.

THE GREAT NORTHERN.

Over 300 Miles Shorter Than the Northern Pacific.

SPOKANE FALLS, May 15.—A special correspondent of the Review, detailed by that paper to inspect the country, traversed by the numerous surveys of the Great Northern road, and to learn the route to be followed by that road across the state, telegraphes that the road is now practically located from St. Paul to Puget Sound and that the board of directors have adopted all of the recommendations of Chief Engineer Stevens. From Chattaroy, north of Spokane the road will run down the Little Spokane to Coulee creek, and thence will ascend to the great plateau of the Big Bend, from there to Coulee City, Grand Coulee. It will closely parallel the Central Washington, but running north of that line and gaining advantage by a close proximity to the best part of the grain belt, crossing the Grand Coulee, the road runs southwest to Moses Coulee, which it descends to the Columbia river, crossing that stream near Rock Island. It then runs north twelve miles to the Wenatchee river which stream it ascends for twenty-five miles. It then cuts across to the left fork of Nason creek, which it ascends to the summit, through Steven's pass; at an elevation of 3300 feet it enters a two mile tunnel. On the western slope it descends Skykomish and Snohomish rivers to Snohomish City, where it effects a junction with the Montana and Seattle, striking first tide water at Port Gardner and thence on to Seattle.

It is claimed that this line will be 350 miles shorter than the Northern Pacific and have an advantage of six hours in grades and that it will carry through passengers to the world's fair in 1893.

Railroad Deal.

WINNIPEG, Man., May 15.—It now seems to be an absolute certainty that the Canadian Pacific has purchased Northern Pacific lines in Manitoba. It is confidently asserted to-day that the deal between the roads has been completed. The Canadian Pacific takes all the Manitoba lines and the terminals of the Northern Pacific almost immediately.

Cable from Admiral Brown.

WASHINGTON, May 15.—A lengthy cable dispatch was received at the navy department this afternoon from Admiral Brown, commanding the flag ship San Francisco, now at some Chilean port. Information as to its contents was refused, further than to say it was an answer from Admiral Brown to instructions cabled him last week.

Snow In Wyoming.

CHEYENNE, May 15.—Twelve inches of snow fell to-day at Sherman, 40 miles west of here, the highest point on the Union Pacific road. Several inches of soft snow fell here. The weather is not cold and cattle ranges will be immensely benefitted.

The Donner Treasure Found.

TRUCKEE, Cal., May 15.—There is a great excitement in Truckee over the discovery of a portion of the treasure buried by the Donner party in 1846-7.

Very Low and Sinking.

SAN DIEGO, May 15.—Ex-Secretary Tait is very low and sinking rapidly.
