Attorney General, Geo. E. Chamberlain of Albany, will sound first rate, and that is about the size of it to the satisfaction of every person who knows that gentleman. He will fill the office with honor and credit to the state and himself.

Summer has come at last and the Ladies Bazaar is now fully prepared to supply you with everything in the furnishing goods line for ladies and children. They have the largest line of childrens dresses and aprons ever shown in this city and at surprisingly low rates.

John Freerksen, from Illinois, arrived in this city yesterday before yesterday to visit his brothers, Henry and Stephen, two of Linn county's solid farmers. He had not seen them for fifteen years and took them completely by surprise. He will stay several weeks.

Base Ball. The match game of base ball between the Albany nine and the Corvallis nine will take place at Lyons on the O. P. R. R., Saturday next, instead of Corvallis. An excursion train will leave Albany at 8:30 a. m., and return after the game is over. The fare will be the normal sum of 50 cents for adults and 25 cents for children under ten years of age for the round trip, thus giving every one an opportunity of witnessing the game and a first class excursion at a very low fare. Tickets will be on sale at the Wells, Fargo Express office by C. B. Winn, who has chartered the train for the trip. The city schools should take advantage of this excursion to give the young people a day's enjoyment. There are splendid picnic grounds on the banks of the Santiam near the station. Let all turn out and have a good time. More anon.

Robbery. There appears to be a class of tramp robbers infesting the Willamette Valley and operating in the city. Last night a gentleman was attacked, while on his way to his stopping place in the eastern part of the city, and left senseless by the side of the walk. When he regained his faculties his watch and money was missing. No clue has been gained of the perpetrators.

Through to Coe. Yesterday the train on the Oregon Pacific ran clear through to Coe, taking up a family of six persons who contemplate starting a boarding house at that place, and bringing out several families who have been stopping there for several weeks.

Vagrancy. Joe Emerson, J. H. McPherson and J. L. Bone were arrested yesterday and given two days each in the cooler for vagrancy.

THAT BRICK QUESTION.

Albany Has the Material to Make All Kinds.

In searching for clay for all kinds of pressed brick, including an extra quality of paving brick, as well as sewer and drain pipe, Major W. C. Cassell has been diligent and persistent, and has attained the desired quality of material. He has two different beds of clay from which quantities were sent east for a thorough test, and he has received back brick made from the clay that are perfect specimens, and the report that the test demonstrated the fact that the clay was of superior quality and perfectly adapted to the uses indicated.

A machine will be brought here and the manufacture started on a scale to meet the demands of the present and a future market.

It will give a lasting industry and add largely to the commercial importance of the city.

Evidently Afraid.

The Linn baseball club wish to state to the sporting people and business men of Albany that they called on Manager Cowan yesterday morning, as requested in the MORNING HERALD, with the hopes and sole object of arranging a game, but Manager Cowan did not seem inclined to play his polished gladiators against the Linn, nor did he try to make any arrangements towards a game. The challenge of the Linn was made on the 7th inst, and the Albany baseball club has had plenty of time to consider the matter. The Albany baseball club has, by their actions in this matter, forfeited all right to claim to the championship and Albany's representative nine, and the Linn now claim the honor of being Albany's best nine.

THE LINN BASEBALL CLUB.

The Indians are Dying.

T. J. Buford, Indian agent at the Siletz reservation, will leave for his home this morning with the seven Indians, who were brought up to testify in the arson case against Mollie Gay in the United States court. Mr. Buford, in speaking of his charges on the reservation, said that the last census gave the Indian population as 571. "The population seems to be diminishing," said he, "and this is probably due to the prevalence of hereditary blood diseases. Last year we lost twenty, and the number of deaths this year to date is seven. Most of the Indian people on this reservation are diseased, and this accounts for the great mortality." Oregonian.

The Plans Adopted.

Wallis Nash, of Corvallis and J. T. Apperson, of Oregon City, were in this city yesterday, and, as members of the board of regents of the State agricultural college at Corvallis, with Governor Penoyer decided to accept the plans of W. D. Pacue, the architect, for the construction of the new student's hall at that institution. The bids for the construction are advertised for elsewhere in the Statesman this morning. The building will be three stories high, with a stone basement, and will be used as the boarding school for the boys. The present building is much too small for the accommodation of the many scholars in attendance there at present.—Statesman.

Sugar Beets in Eastern Oregon.

Pendleton East Oregonian: Sugar beets can be successfully cultivated in Eastern Oregon and that the manufacture of beet sugar will become one of the leading industries of this section there is no doubt. Umatilla county will probably be one of the first counties east of the mountains to test beet culture, and this will probably be greatly assisted by irrigation, which is now in its infancy, but which promises to become a giant in this county within the next year or so.

Train Robbers Surrounded.

From the Sac and Fox agency May 18, comes the news that an Indian scout from the posse chasing the Dalton gang of train robbers, arrived there Monday, for reinforcements. The gang has been located twelve miles from the agency, and are surrounded by the posse. A bloody conflict is looked for.

Portland and Coos Bay.

Advices from San Francisco say that the steamer Wilmington went on the dry dock Monday. She has been sold to a new company, and will be in Portland to place a line of steamers on between that port and Coos Bay.

Picnicing.

A party of ladies and gentlemen have chartered one of the largest houses in the city, and intend to spend a delightful day on the top of Knox Butte today.

OF INTEREST TO SETTLERS.

Those Who Have Already Filed Pre-Emptions Will be Protected. Pendleton East Oregonian: Registers of the United States land offices in the Northwest have received a long list of instructions from Washington for the benefit of those who intend taking up land under the homestead act of March 3, 1891.

The following sections from Commissioner Carter's instructions will be of special interest to those who have filed under the timber culture act in this district.

It will be observed that by the first section the laws providing for the entry of public lands for timber culture purposes are repealed so far as regards future entries, but continued with certain prescribed modifications as regards the adjustment of existing claims, initiated prior to such repealing act.

Hence no further entries of this class will be allowed unless the right to make such entry had accrued or was accruing at the date of said act. In dealing with existing entries the provisions of the first section of the repealing act will be observed. It will be seen that by the fifth provision of the act the right is extended to persons having certain qualifications to commute their entries in certain cases at the rate of \$1.25 per acre. For this purpose it will be necessary:

First.—That the person shall have in good faith, complied with the regulations of the timber culture laws for four years.

Second.—That he shall be an actual bona fide resident of the state or territory in which said land is located.

Final proof for the commutation of timber culture entries under this provision shall be made as other timber culture proofs are made and shall satisfactorily exhibit the facts necessary to entitle the applicant to make purchase thereunder. Returns will be made as in commuted homestead entries under existing practice, but with proper annotations on the returns to indicate the character of the transactions as a commutation of timber culture entry under said act.

For final proof in timber culture entries, the registers and receivers shall be allowed the same fees and compensations as are allowed under previously existing laws in homestead entries.

The instructions also contain the form for filing on homesteads and also forms for filing under the desert land entry.

NOTES OF INTEREST.

The board of railroad commissioners is densely making a thorough inspection of the Union Pacific road. The special train which left Pendleton Friday morning had only reached Huron at night, a station on the mountain, thirty two miles distant from Pendleton.

The placer mining season at El Dorado and Malheur is a dismal failure, says the Baker City Democrat. As yet a drop of water has run through the El Dorado canal, and there is not likely to be. This is the worst season for water ever seen in that country.

R. P. Wallace, while crossing the Umatilla river near Yoakum station, noticed a brand new pair of handcuffs lying in the middle of the stream. They were locked and Mr. Wallace has them in his possession.

In the college at Corvallis the students are required to work on the farm one hour each day. The students are instructed in military tactics in order to fit them for the duties of the soldier in case they should be called upon to bear arms in behalf of their country. Prof. Letcher is colonel and commandant.

Early Desperados.

We clip from the Oregonian the following: T. W. Davenport, who was at the Umatilla reservation during the winter of 1882-3, relates an incident which goes to prove that the gamblers "ran" Walla Walla in the early days. A Umatilla Indian drove a team to Walla Walla, where a gambler stepped up, claimed one of the horses as his own, unhitched it and led it into a livery stable near by. A number of white men witnessed the occurrence, but notwithstanding the Indian's protestations, not one raised a hand to prevent this injustice. Mr. Davenport corresponded with the United States district attorney, who told him that the only way to recover the horse would be for the white witnesses to go into court and swear that the horse belonged to the Indian. Mr. Davenport says that the white men on the agency who knew the horse offered to make up a purse to buy the Indian another horse, but positively refused to go to Walla Walla and testify for fear of the gambler's revolver. One Mr. Flippin said he would sooner swear to a lie than run the gamblit of those Walla Walla desperados.

Lost Schooner.

The revenue cutter Bear, which arrived in the Sound yesterday, brings the news that the schooner Premier and Dashing Wave were lost about Shumagin islands in April. Capt. Healy brought down ten of the Premier's crew. The bear will coal and take on the board other supplies and probably be ready to sail for Behring sea about June to join the Rush.

The canvas was caught by a fire and many people were trampled upon. Two of the tongus, Burt McCanley and John Morey, were fatally hurt.

The Rev. Samuel Small has addressed a circular to the people of America concerning his troubles with the Ogden (Utah) university, of which he was elected president. He calls the university a "private snap speculation," and refers to the Rev. J. Wesley Hill, of the first Methodist church at Ogden, as "that infamous liar."

Scio is Fortunate.

A great many persons who nowadays style themselves "Dr." and claim to have special fitness for treating certain diseases, prove to be frauds upon trial, and successful only in transferring large fees from the pockets of the confiding and suffering humanity to their own. The suffering from disease, like the drowning man who grasps at a straw, will readily part with his money, hoping to get relief from his ills thereby, and the unscrupulous quack is always ready to take advantage of his desire for relief. The true physician is therefore a blessing to suffering humanity in that he is a man who restores the victim to health. Female weakness and diseases pertaining thereto are regarded as being among the stubbornest of complaints and yield less readily to remedial agents than any other class of ailments. At Astoria, in this city, seems to have peculiar fitness for treating these complaints, and the unusual success he is having with all of his patients according to their own testimony, stamps him as a physician of rare merit. He is called among us a "stranger," but by taking several patients without any other charge than that they should state to the world their condition, after treatment by him, by written testimonials, he has gained the confidence of the people, and he is rapidly building up a lucrative practice in consequence. Testimonials published in former issues of the Press together with those appended proves beyond a doubt his ability to treat successfully all classes of female complaints. Dr. Ahlborn will be found at his office every Tuesday and Wednesday and Sundays, and generally on other days. Consultation free. Anyone who suffers from diseases above referred to, will do well to consult him soon, as he contemplates removing to Salem in the near future.

TO AFFLICTED FEMALES.

As a matter of justice to Dr. Ahlborn, and as a duty to suffering females, I wish to state that I have been afflicted for a number of years, and have tried a great deal of medicine and been under the care of two physicians, who treated me for stomach, liver and female troubles, but with little success. Although I am paying Dr. Ahlborn for his services as a physician, I feel it is right for me to make the fact public, thus judging from the progress made in my case since he commenced treating me, I consider him the most competent physician in this line that I have ever known. Two ladies having female troubles I would say that I believe it a safe investment to try his treatment. Yours sincerely, Mrs. C. S. HARNISH, Scio, Or., May 12, 1891.

GOOD WORDS FOR DR. AHLBORN. Mrs. R. Phillips says: "During the past three weeks I have improved wonderfully under Dr. Ahlborn's treatment, and would not go back again to where I was before he began treating me for one thousand dollars."
