EXCURSION TO LYONSVILLE.

The Albany Defeat the Corvallis Base Ball Nine.

A train of five coaches laden with excursionists from this city and Corvallis went to Lyonsville yesterday. The day was fine and the run was made without accident. A most enjoyable time was experienced. Some of the excursionists took their lunch baskets and dined on the banks of the roaring Santiam, many dined at the Lyonsville, and some went to Mehan's. The managers of the excursion deserve credit for its complete success.

The event of the day was a base ball game between the Albany and the Corvallis nine. The clubs were composed of the following players:

Albany—Smiley C. Larimore, P. Marshall 1 b, Blodgett 2 b, Magers 3 b, Wilson ss, Leimert 1 f, Young c, Welch r. Corvallis—Tennor, c, Bennett p, Bryant 1 b, Wilson 2 b, Allen 3 b, McFarland ss, D. Nash 1 f, P. Nash c f, Cunningham r f.

The game was called at 2 o'clock, but only eight innings were played, as the game was not finished at the time for the departure of the train.

The score by innings stood:

Albany..... 1 0 3 7 2 2 4-22
Corvallis..... 3 0 1 0 1 4 2 0-11

Some good playing was done on both sides. Larimore distinguished himself in the pitchers box, as also did Smiley behind the bat, fanning out 13 men. Good ball was played up to the fifth inning, when the game went wild and the score began to pile up. In the sixth inning Welch was struck in the eye by a ball from his own bat, knocking him senseless and disabling him for the remainder of the game.

The Albany boys on their return home drove up the street in a track decorated with flags and bearing aloft a dozen brooms in token of their victory.

Base Ball Supper. Mayor Cowan tendered the victorious Albany a supper at the Delmonico restaurant last evening. A toast was proposed, and the following response was tendered to Mayor Cowan by the club:

Mayor Cowan:—On behalf of the Albany Base Ball Club, permit us thank you for this act of kindness extended to us. For this third consecutive time this season have we crossed the willows with good teams and each time been crowned with victory. Addition's quotation might be slightly changed to read: "Tis not in mortals to command success, but we'll do more, Mayor, we'll deserve it." Perhaps I might further be permitted to say that we ascribe much of our success to the fact that we have the best wishes and assistance of yourself and many other of Albany's public spirited and leading citizens. We have the city's best wishes for success and that we appreciate it is proven by our victories on the field. The Mager part of us are now Young and Stable at our success but we'll soon be getting too old to enjoy the amusement of this the greatest of all national games. Only too rapidly are the home runs now being made, and the score recorded by the marble slabs in the great city of the Je. J. Soon we all will be marshaled into that great decisive game which has but one umpire and from whose decisions there is no appeal. Again we thank you.

A Sale of Wood Saws. I have sold my two wood saws. One to Amos Howard, a gentleman well known here for honesty and industry. The other to Wm. Needy who sawed wood here last year and became popular as an accommodating gentleman. These two men are worthy of the patronage of the good citizens of Albany. They each have families to support and are identified with us in the prosperity of the city. Mr. Needy expects to start his saw Monday or Tuesday. Mr. Howard will start the latter part of the week. D. M. Joske.

Leaves for Chicago. Mr. Frank E. McMillan, who has for the past seven months filled the position of night operator in the Western Union telegraph office, taking the Herald's Associated Press report, leaves today for Chicago. He is a first class operator, accommodating and gentlemanly, and has made many friends who will regret to see him depart. His place will be filled by Mr. A. W. Fodl, an old timer, who began taking the Herald's report last night.

Road Open. Information from W. R. McKennon, of the Canyon Creek Home, above Sweet Home—and, by the way, a popular resort, where hay and grain for horses and the best of accommodations for men can be found at valley prices—says that the mountain road is now open, several parties having crossed both ways. This will be welcome intelligence to many who are anticipating crossing the mountains.

THE Y. M. C. A. CONVENTION.

Exercise of the Session in This City Will Be Conducted To-Day.

The Y. M. C. A., of the Northwest, which has been in session in this city for the past three days will conclude the exercises to-day. The delegates present are:

From Albany, Dr. O. C. A. W. Ayres, G. S. Achison, W. Fortmiller, C. H. Hart, W. H. Lee, H. F. Merrill, E. F. Fox, S. M. Steele, H. W. Young. From East Portland, A. D. Soper. From McMinnville, E. S. Harding. W. P. Risley, J. L. Stratton. From Portland, D. G. Bender, J. M. Taylor, J. A. Dummit, state organizer; H. A. Townsend, physical director of Portland Association. From Astoria, D. S. Butebaugh.

Saturday morning at 9 o'clock the session opened with devotional exercises conducted by H. A. Townsend, after which the subject of business management was discussed by C. L. Stratton, of McMinnville, who also holds a position on the executive committee of the Pacific Northwest. Interesting discussions followed the paper read. After this the order of the programme was set aside for a short time to give place to some business of the convention, after which it was again resumed with the paper on the foundation work of all other association efforts, viz:

The study of God's word, the Bible, presented by A. Soper, of East Portland. Then followed the following subjects of interest: "The Young Men's Era," A. D. Soper; "Secretarial Institute," H. A. Townsend; "Corresponding Members," J. A. Dummit.

The usual excellent dinner, prepared by the ladies of the several churches, was served at the W. C. T. U. hall.

Squatters Rights. Mr. E. S. Hansen, of Coe, had a man by the name of Carr arrested for trespassing on, entering into and refusing to quit the cabin of the said Hansen when so ordered. The case was tried before Judge Goodell of Mill City, who after hearing all the evidence in the case fined the said Carr \$5 and costs, which amounted to \$17.05. The facts in the case are as follows: On or about the 1st of last November, Mr. Hansen spotted on what was supposed to be an abandoned claim, and went to work and placed up the house, and made some other improvements on the place, live there for a short time when he locked up his house and leaving his bedding and provisions in the house went out to work; intending to return in time to put in a garden, but circumstances kept him longer than he expected to be away and on his return he found this man Carr in possession of the place which he refused to vacate, and on the strength of which Hansen had Carr arrested. Carr's and Hansen's versions are about the same as regards the facts, with the exception that Hansen claims he locked the door and Carr claims that he found it unlocked and took possession of the same on the suggestion of a Mr. Pary who resides near the claim.

Patrolize Vernon Enterprise. Price & Vernon of this city are manufacturing the Vernon hay press, an invention of Mr. G. O. Vernon, which is pronounced a first class press. Those desiring a good hay press at a reasonable figure should not neglect to see them. Call on Mr. H. W. Price at Wade & Co's hardware store, or at the factory at the foot of Baker street. Mr. Vernon has sold a half interest in the business to Mr. Price and it will be an Albany enterprise. Those who contemplate purchasing should see these gentlemen before placing their orders.

Nearly Drowned. Mr. O. A. Cheney of Albany, while on a visit to Mill City, says the Gazette, had a narrow escape from drowning and becoming food for the fishes that swim around Mill City. While out fishing and walking on a large log that lies near the bank he suddenly became dizzy and fell from the log towards the river near the dam. After considerable floundering around in the water he managed to reach the log and gained the bank.

Farm Sold. Geo. W. Keeney sold yesterday an executive of the estate of Geo. Warmouth, 300 acres of land near Halsey, to Wm. F. Spurling for \$5400.

THE WILLAMETTE VALLEY.

Census Superintendent Robert Porter Says it is the Finest Country he Ever Saw.

Mr. Robert P. Porter, superintendent of the late census, was in Portland Friday. To a telegram reporter he said: "Your papers roasted me during the heat of battle, but when you see the wonderful statistics on the industrial development of this country, the people of Oregon will say, 'God bless Mr. Porter.'"

"For instance, the coal and iron interests. These have grown out of all expectations. The census will show that last year 16,000,000 tons of coal were mined west of the Mississippi river, and of that amount 6,000,000 tons are credited to the Pacific states.

This amount is greater than all the coal fields of the United States put on in 1870. Oregon has wonderful iron deposits. With Washington's coal and Oregon's iron, these two states should form a combination which would make them two of the great states of the Union, and I predict that they will yet be west of the Illinois and Ohio of the West.

The commerce of the Northwest country is unparalleled. I was surprised to see the printed returns. When the public can see the printed returns, every one will be astonished as well as deeply interested.

THE BEAUTIFUL WILLAMETTE. This development is the result of agricultural interests being properly prosecuted. The Willamette valley is the fairest country I ever saw. It reminds me of Kent county in England. While I was greatly struck with the grandeur of the scenery of California, and her tremendous cascades and mountains, my attention was at once arrested at the sight of the Willamette valley. The possibilities of the country cannot be over estimated. The valley alone is capable of supporting 1,000,000 people with perfect ease.

"As a statistician, I believe Oregon should direct all her energies toward settling up that country. Once developed her tremendous agricultural lands on the south, with mineral and timber abounding on all sides, the city of Portland will be the pivotal point of a small but delicious universe. All these things will build up commerce. The manufacturing will come here when the people are here. Agriculture must stand behind the manufacturer.

"The next ten years will find fully 600,000 people in Oregon. The next ten years will see greater development in Oregon and Washington than was made during the past ten years. Washington has made enormous strides. She has immense coal fields, putting out nearly 7,500,000 tons of coal annually. Coal is essential for manufacturing purposes. Water-power is good, but it cannot be developed without coal.
