

Morning Daily Herald.

20 CENTS A WEEK.

ALBANY, OREGON, WEDNESDAY, MAY 27 1891

VOL. VI--NO. 151

AIDED BY MEXICO.

A Report That the Chilian Insurgents Are Receiving It.

THE EMERALDA HAS COAL.

War Material from San Francisco transferred to a Ship Belonging to the Insurgents.

New York, May 26.—A private letter received to-day from the city of Mexico written May 19, by a business man who has utmost facilities for getting correct information, says there is much reason to believe that the Mexican authorities are quietly giving aid to the Chilian insurgents. The Emerald has been able to get all the coal she wanted, and private advices from Mazatlan say that war materials brought from San Francisco was transferred early this morning to a ship belonging to the insurgents.

MOB LAW IN KANSAS.

One Way of Driving an Obnoxious Tenant off a Farm.

Topeka, Kas., May 26.—Joseph Bennett, who bought a farm in Washington township, borrowed money from a Jewell City firm to make the first payment and put in his crops. When the note fell due Bennett did not have the money to take them up, and his farm was sold by the sheriff. He refused to give possession and was ejected. Joseph Kindlesberger then occupied the farm as a tenant of the parishes. Bennett is a member of the farmers' alliance. Thirty or forty masked men, with Bennett at their head, went up the place Sunday night, and requested the new tenant to leave. He refused to do so, whereupon revolvers were drawn and he was told to get out either at once or his dead body would be carted off. Bennett was then reinstated, and still holds the place. Kindlesberger has the names of the leaders of the mob, and will institute civil and criminal proceedings against them. The officers in this county are all farmers' alliance men, including the prosecuting attorney.

THE SILVER CERTIFICATES.

Their Issue is Soon to Be Largely Increased.

Washington, May 26.—Attorney General Miller has decided that the secretary of treasury has no authority under the act of July 17, 1890, to issue the treasury notes provided for by that act, except in payment for bullion purchased, but that the general obligation arising from the coinage of bullion under the act, when paid into the treasury becomes a part of the general cash and may be used like any other. The seigniorage fund now amounts to \$4,000,000 and under this decision the issue of silver certificates may be increased to that extent.

A WITNESS MISSING.

It is Regarded as a Strong Circumstantial Evidence.

New Orleans, May 26.—When the case of Deputy Sheriff White, charged with bribing in connection with the Hennessy case was called to-day, Leon Burthe, the principle witness for the state, was found to be missing. Inquiry elicited the fact that he had gone to St. Louis, after a summons had been served on him. The shipping away of the principle witness in the first of the bribers' cases called, is regarded as strong evidence against the accused.

IT CARRIED DEATH.

Two Men Killed By an Explosion of Glycerine Powder.

Leadville, Col., May 26.—Yesterday while Morris Donovan and Adolph Koffman, were working a drill in the Ivanhoe tunnel, the drill struck an old charge of glycerine powder, causing an explosion and literally tearing into fragments both men.

Many Cases Settled.

Washington, May 26.—The United States supreme court during the term ending to-morrow, completely smashed all previous high records of cases disposed of at one term of court, setting 617 cases against 470, which heretofore has been the largest number passed upon at one single term.

Cash is Short.

Atlanta, Ga., May 26.—The largest dry goods house in Atlanta, South, Ryan & Sons, was closed by the sheriff to-day. Liabilities are estimated at \$1,000,000 with assets probably aggregating \$800,000.

Work on the Great Northern.

Tacoma, May 26.—Laborers are being hired here to go to Montana to work on the Great Northern railroad. They are promised \$2 per day and two years work.

For Lame Back, Side or Chest.

Use Shiloh's porous plaster. Price 25 cents at Foshay & Mason.

New Spring Novelties in Dress Goods and Dress Silks, in Colors and Black in Great Variety at Samuel E. Young's.

WHEAT WILL GO EAST.

Prospects Are That Little Will Be Shipped From the Coast.

BUYERS FLOCKING THIS WAY.

Railroad and Ship Rates Will Have a Big Effect on the Shipment of Oregon and Washington Crops.

Portland, May 26.—E. C. Michener, manager of the Pacific Elevator company, has just returned from an extended trip through the grain growing section of Eastern Oregon and Washington. Michener says that within a few weeks Eastern Oregon and Washington will be flooded with Eastern people buying wheat to ship East, and under favorable circumstances the whole grain crop of that region may go East. Rail rates to the coast and rates at which ships can be chartered will be prime factors in the movement. The high rates charged by shippers last season caused much grain to go East, and unless there is a reduction in railroad rates and ship rates, the prospect is that but little wheat raised in the inland empire will be shipped from this coast.

JOE CHOYNSKI WINS.

He Knocks Out an Australian in Short Order.

Melbourne, May 26.—A prize fight which came off here yesterday between Joe Choynski and Tooley was the shortest combat ever recorded in the history of the ring. The result showed that Tooley was no match for Choynski, for the latter knocked him out in one minute and eleven seconds. From the moment the men entered the ring Choynski adopted bustling tactics and in a short time he drove Tooley to the ropes. When the men faced each other in the second round it was further demonstrated that Choynski was the superior of Tooley. The latter was completely overpowered and when eleven seconds time allowed for the second round had expired Choynski made a drive at Tooley and knocked him completely out. Choynski, who was a favorite in the betting at odds of five to four, received no punishment at all.

CHYOINSKI WILL FIGHT AGAIN.

A match for £400 has been arranged between Choynski and Joe Goddard for July 20.

AN ENDORSEMENT.

The Farmers Alliance of Kansas to Ratify the Cincinnati Conference.

Topeka, May 26.—The farmers' alliance of Kansas is making preparations for a grand ratification of the Cincinnati conference work at a regular meeting of 3000 sub-alliances of the state, at which time the platform will be considered, a vote taken and a report forwarded to headquarters and to the reform papers. The sub-alliances are charged to be very deliberate in their actions and give every proposition a thorough examination and discussion.

MUCH MARRIED MEN.

Indictments Returned by the Grand Jury Against Mormons.

Floresce, Ariz., May 26.—The United States grand jury to-day returned 42 indictments, 27 of which are under the Edmunds polygamy law. A number of Mormons indicted are charged with adultery. Ten of the indicted immediately got married and were left off with small fines.

He Did Not Talk.

Lincoln, Neb., May 26.—Governor Thayer to-day received a letter from President Harrison in relation to the alleged interview concerning the Boyd-Thayer controversy. The president says simply that it is unnecessary to make an explanation, as he could not and would not have indulged in a discussion of the gubernatorial muddle while a guest of the people of Nebraska.

Purchased a Railroad.

Tacoma, May 26.—The Canadian Pacific railroad has either leased or purchased outright the Bellingham Bay & British Columbia railroad, extending between Sumas, on the boundary line, and New Whatcom. The Canadian Pacific steamship Premier will make daily trips between Tacoma and Whatcom.

Officers Elected.

Cincinnati, May 26.—The American Baptist Missionary Union this afternoon elected Rev. G. W. Northrup, of Illinois, president, and Rev. H. S. Burrage, of Maine, recording secretary.

Secretary Blaine Comfortable.

New York, May 26.—Secretary Blaine rested quite comfortably last night.

Crops and Business.

We scarcely remember a year when the reports from the different sections of the west were at this date so generally and decidedly hopeful. Winter wheat, which started, has made excellent progress since; spring wheat has a large

NEWS OF THE COAST.

The Officers of the Robert and Minnie Arrested.

AND HELD IN HEAVY BONDS.

A Baker City Boy Blows Himself Into Eternity Because His Father Used the Hazel on Him.

LOS ANGELES, May 26.—The United States grand jury to-day returned indictments against Geo. A. Burt, superintendent of cargo, and Captain O'Farrell, of the schooner Robert and Minnie, and bench warrants were issued for their arrest. Burt was arrested and gave \$10,000 bail, when he was released. O'Farrell has not given bonds but expects to do so in the most important. The demand for it has become astonishing. Already the treatment of heart disease is being revolutionized, and many unexpected cures effected. It soon relieves short breath, fluttering, pain in side, arm, shoulder, weak hungry hungry spells, oppression, swelling of ankles, smothering and heart dropsy. Dr. Miles book on Heart and Nervous Diseases, free. The unequalled New Heart Cure is sold and guaranteed by Stander & Cusick, also his Restorative Nerve for headache, fits, sprees, hot flashes, nervous chills, opium habit, etc.

THE GREATEST STRIKE.

Among the great strikes that of Dr. Miles in discovering his New Heart Cure has proven itself to be one of the most important. The demand for it has become astonishing. Already the treatment of heart disease is being revolutionized, and many unexpected cures effected. It soon relieves short breath, fluttering, pain in side, arm, shoulder, weak hungry hungry spells, oppression, swelling of ankles, smothering and heart dropsy. Dr. Miles book on Heart and Nervous Diseases, free. The unequalled New Heart Cure is sold and guaranteed by Stander & Cusick, also his Restorative Nerve for headache, fits, sprees, hot flashes, nervous chills, opium habit, etc.

A BOYS DEED.

Severs His Connection With the World With a Pistol.

Baker City, Or., May 26.—Willie Privett, aged 13 years, was found this morning lying near his home, about five miles from this city with a bullet hole through his breast. A 44 caliber British bulldog revolver was lying near his right hand and a box of cartridges by his side. The boy was chastised last evening by his father and it is thought this caused him to take his life.

TRUE BILLS.

The Jury Makes a Report in the Walla Walla Lumbering Case.

Walla Walla, May 26.—The grand jury reported to the superior judge this afternoon that they had found a number of true bills against certain persons implicated in the lumbering of Hunt. The names of the parties are not made public, and it is probable that no arrests will be made until the investigation has proceeded further.

IN THE DEAD LETTER OFFICE.

Where a New Hampshire Woman Found Her Wedding Present.

There is likely to be a recovery over at the dead letter office, and the museum will lose one of its choicest treasures. When the department festival was held there the young woman who had "dead letter" by her took some of the museum curiosities to put in a letter. Among them was an elephant that had been supposed to have been destined for some infant prodigy. It is a peculiar infant. On one side it is of the breed of England, on the other it is of the United States, the two being connected by a line of straggling links. The elephant occupied a place of honor. Suddenly there was a cry, "That's my elephant!" and a woman made her way to the elephant and gave the beast a cordial welcome. Then she explained that years ago a friend of hers, an American, had married an Englishman named Link, that accounting for the queer design on the elephant, which had been intended for a wedding present. The woman lives in New Hampshire and was here on a visit when she recognized her lost quadruped. The elephant is still on his accustomed shelf in the dead letter museum, but his creator will soon visit the office, go through the necessary formalities and start the elephant once more on his trip to Mr. and Mrs. Link.—Washington Post.

Whiskered Catfish in the Columbia.

Astoria Bulletin.—Captain Will Warner, of the steamer Fisher, brought up a catfish about fifteen inches long yesterday which was caught in one of the traps near Sand Island and is one of the breed known on the Eastern rivers as yellow cats. It is an ugly looking brute with a mouth out of all proportion to its size and has whiskers about three inches long on each side of its face. These destructive fish are said to be multiplying quite rapidly and in due course of time will succeed in diminishing the salmon supply. If the brainless idiot who first conceived the idea of stocking unfiled Western waters with these ugly, worthless fish would find some method for removing them he would confer a blessing on all interested in the salmon industry.

While the Electric Lights Were Off.

A story comes to me from Athens which is almost too good to be true, but quite too good to be withheld. The Privy Council had a meeting in the room set apart for them in the glaring, white atmosphere of the electric light. The president had just risen to address his colleagues, laying, according to custom, his gold watch on the table in front of him, so that he might mark time. Suddenly the electric light went out, but after a short interval returned. Then the president discovered that his watch, which was a present from his royal master, was missing. He lamented, and invited his col-

LEAGUES TO REPLACE THE WATCH.

There was no response. He reminded them that the door was locked and that the watch must be in the possession of one of them. He next put such member on his word of honor to say that he had not got it; which little performance was promptly got through. The president then remarked that the situation had become embarrassing; but as he wished to make things easy for the culprit, who had doubtless yielded to temptation in a moment of weakness, he would order the lights to be again extinguished in order to give him an opportunity of recovering the watch. This was done; and when the lights were turned on the president found that not only had he no watch, but that he had also lost his silver inkstand!—Vanity Fair (London).

NORTHWEST NOTES.

Mrs. M. E. Watkins, widow of W. H. (Bill) Watkins, died at the asylum in Seaside on Monday after lingering illness.

The people of Salem raised a suitably for the big woolen mill, it being agreed that 250,000 pounds of wool a year should be manufactured into cloth. The mill used to be the first year and is now on the market for 400,000 pounds for the second year's run.

THE SURVEYORS FOR THE SIALAW RAILWAY COMPANY HAVE NOW CROSSED THE SUMMIT OF THE RANGE OF MOUNTAINS THAT DIVIDE THE SIALAW FROM THE WILLAMETTE VALLEY, AND THE CHIEF ENGINEERS REPORTED TO THE WEST THAT THE GREATEST GRADE WAS LESS THAN 1 PER CENT OR A LITTLE BELOW FORTY FEET TO THE MILE. THIS IS FAR BELOW WHAT WAS EXPECTED AND NO ONE CAN LONGER DOUBT THE FEASIBILITY OF THIS ROUTE FOR A RAILROAD TO THE SEA.

THE FLOOD OF LAST YEAR COMPLETELY COVERED THE COURSE OF COQUILLE RIVER FOR A FEW MILES UP, AND THE SOUTH CHANNEL, WHICH RAN BY GOLD BEACH, AND ON WHICH THE CANNERY, STORE, WHARVES, ETC., ARE LOCATED, IS COMPLETELY CLOSED ABOVE AND NO WATER PASSES THROUGH IT. THE RESULT IS THE FORMING OF A LARGE MUDFLAT IN FRONT OF TOWN. BOATMEN ARE FORCED TO PULL ALONG TO THE MOUTH OF THE RIVER, SALES THE GAZETTE, AND THEN UP, IN ORDER TO REACK THE CANNERY, AN EXTRA PULL OF ABOUT TWO MILES AND IT IS ONLY AT EXTREME HIGH WATER THAT SCHOONERS CAN REACK THE WHARF. IT BEGINS TO LOOK AS THOUGH GOLD BEACH IS DESTINED TO BECOME AN ISLAND TOWN.

LONDON'S GROWTH.

The Population Estimated at Nearing 5,000,000.

How steadily London is growing! The process of expansion seems to go on with the relentless silent force of nature herself. During many years there has been an annual addition to the number of houses in the metropolis of about 1,000 or an average of something like 900 a month. There has been remarkably little variation in the total yearly addition. It might have been supposed that the last winter, with a long-continued severe frost, would have indicated that some check had been given to the movement. But it is not so. The increase for the year ending March last is exactly 11,097. Building seems to have gone on as usual.

MILLIONS OF CRICKETS.

J. C. Luckey, Indian agent at Warm Springs, was in Prineville recently and reported that crickets had destroyed nearly all the crops and gardens on the reservation and had also eaten most of the grass on the range. They made their first appearance about the middle of last week, coming from the northeast, and arrived at the agency in swarms, and are traveling west into the Cascade mountains, where they will probably be frozen to death. The army of crickets is about eight or ten miles wide, and they cover an area of field of grain they take everything, leaving the ground bare. The Indians are very much discouraged to see their crops thus destroyed by an enemy they cannot subdue. Mr. Luckey says this raid by the crickets will leave the Indians without provisions for the next year and there will be considerable suffering among them if they have to rely on their own resources for provisions.

A HUSBANDS MISTAKE.

Husbands too often permit wives and parents their children, to suffer from headache, dizziness, neuralgia, sleeplessness, fits, nervousness, when by the use of Dr. Miles' Restorative Nerve such serious results could easily be prevented. Druggists everywhere say it gives universal satisfaction, and has an immense sale. Woodworth & Co., of Fort Wayne, Ind., Snow & Co., of Syracuse, N. Y., J. C. Wolf, Hillsdale, Mich., and hundreds of others say it is the greatest seller they ever knew. It contains no opiates. Trial bottles and fine book on Nervous Diseases, free at Stander and Cusick's.

REMARKABLE RESCUE.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited from the first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as was.—Free trial bottle of this great Discovery at Foshay & Mason's Drug Store, large bottles 50c, and \$1.00.
