All remark on its delightful, cooling and refreshing properties. No imitation found in any similar preparation on the market. Sold everywhere.

Important to Housekeepers. COAST NOTES.

Chittum bark gatherers are again in the Luchnamite bottom, as of yore. This chittum tree bark is peeled and shipped to San Francisco, where it is used for medicinal purposes.

About 11 o'clock Friday night some incendiary poured coal oil over the jail at Fossil, Gilliam county, and set fire to it. Luckily the fire was discovered and extinguished before it did much damage.

Every owner of orchards should examine his trees to see if they are infected with vermine of any kind. If he finds any pests in the trees he should take steps to destroy them at once. United action will exterminate them.

Washington county has quite a number of pioneers within its borders, including Mrs. Walker, of Forest Grove, the oldest of the pioneer women, and Mr. Griffin of Hillsboro, who started the first newspaper in this territory.

E. A. Kellenbach, the man who attempted to kill himself by cutting his throat with a butcher knife last Monday at Burns, Harney county, will recover. He gave as a reason for his rash act that he feared God and was afraid of the secret order styled "101," which exists in that county, and he would rather kill himself than be killed.

Already come reports of forest fires. There was a big one last week on the middle Nehalem which destroyed thousands of dollars' worth of timber.

The artisan well which is being sunk near Baker City promises to be a successful venture. The depth of the well is eighty six feet and water flows from the pipe two feet from the surface of the ground.

Last Monday a German named Crambush, who lives in Harney county, went into a butcher shop during the absence of the proprietor, took a knife and drew it across his throat, making a deep and dangerous wound. Physicians sewed the gash up and he will recover.

Steam was generated in the boilers of the Nehalem Lumber Company's sawmill for the first time on the afternoon of May 30, and saved a few plank. If H. Downing carried away the first plank as a memento of the first lumber turned out by a steam sawmill on the Nehalem.

Mr. Wendell, an officer of the national farmers' alliance, from South Dakota, will deliver an oration at Pendle on July 4, President Polk being unable to come. Mr. Wendell will organize a state alliance for Oregon July 8 at Portland. He is reported as being an able and eloquent speaker.

A disreputable character from Portland, by the name of Kincaid, who came to Hillsboro with two immoral women, now occupies quarters at the jail, awaiting the action of the grand jury. He is lucky in not having been dealt with by a citizen committee, says the Hillsboro Independent.

The Dunlap placer mine, in the Fox valley mining district, for the want of water, has worked but very little this season, says the Long Creek Eagle. It has become almost necessary for the miners of that section to construct a large reservoir of some kind, and thereby reserve all the snow water, to insure them a long and profitable season.

At Squally Hook, near The Dalles, last week, a very fortunate accident happened to a work train. Two cars, the sleeper and kitchen, fell down an embankment, a distance of fifteen feet, and turned completely over. No one was injured except a Chinaman, who received slight bruises on the head. Such an accident might not happen again for long years without fatal results.

F. Davis recently returned from Cornucopia, where he has been to examine the wreck of his quartzmill, which was destroyed by a snowslide last winter. He reports that the buildings were in comparatively good shape, being shattered into splinters and scattered over the country for a considerable distance. The machinery fortunately escaped with less damage; much of it can be repaired at a moderate cost. It is possible another mill will be erected.

ABSOLUTELY PURE

OREGON CROPS.

The bulletin of the Oregon Weather Bureau for the week ending Saturday, June 6th, says: The weather conditions have been exceedingly favorable to cereals, causing the prospects for harvest to be extremely bright. General reports indicate that crop to be unusually heavy; wheat and oats to be in better condition than for many years, if ever better at this season. The cool weather and rains have not been favorable to the strawberry crop, which is now ripening and berries plentiful. Stone fruits will not be an average, especially in the Willamette valley. The warmth in January, the cool spring and frosts, which at the time were supposed to have done much damage, did really do great damage. Fruit is falling off, some trees dying. Cherries and plums are especially injured. Cherries are beginning to ripen. Better reports in regard to the fruit is received from portions of Douglas and Josephine counties, and Curry counties. Corn acreage has been increased and doing well. Vineyards are unusually thrifty; clusters are forming. Hops are doing well, in some sections ice are reported in others, especially about Lebanon, Linn county, no ice are found.

In Eastern Oregon the general crop prospects were never better, at this season of the year, than they are at present throughout this section. Farmers are jubilant over excellent prospects, and rains were copious timely and very beneficial. New life and vigor has been imported by the rain to all vegetation. The hot winds of two weeks ago did some damage, but it has been more than compensated by the benefit the rain has been to winter and spring wheat. "I have never seen a more promising prospect for crops" writes a correspondent from Morrow county and similar reports are received from every county during the present month. Damage in Malheur county. Irrigation is in progress in Baker county. In Wasco and about Milton, Umatilla county, strawberries are very plentiful, and cherries are ripening. Absence of hot winds during the present month will allow of the present excellent prospects to be realized.

B. S. PAIGE, Observer U. S. Weather Bureau.

I have been bothered with catarrh for about twenty years; I had lost sense of smell entirely, and I had almost lost my hearing. My eyes were getting so dim I had to get some one to thread my needles. Now I have my hearing as well as I ever had, and I can see to thread as fine a needle as ever I did, my sense of smell is partly restored, and it seems to be improving all the time. I think there is nothing like Ely's Cream Balm for catarrh. Mrs. E. E. Grimes, Bend, Ore., Co., O.
