20 CENTS A WEEK.

ALBANY, OREGON, FRIDAY, JUNE 26 1891

VOL. VI--NO. 177

## DR. PRICE'S Cream Baking Powder.

Used in Millions of Homes—40 Years the Standard

## PLAINFIELD!

### CONSOLIDATION -- LOTS

The Cheapest and Best Buy in the Market.

## WHY

Because the lots are 50x100; because they are inside property; because they are all clear--no stumps, no roots, no rocks; because the land is elevated and has a fine view of the city; because they are near three motor lines--not in contemplation, but all now in operation; because they buy no. 10, to-day, for the 10th day of next month they will advance \$25 each; because they are a snap. Ask those who have seen. Seeing is believing. Are you in it?

R. F. ASHBY, Manager,  
No. 65, Washington Street, Portland, Oregon.

## We are at the Front!

Our Spring and Summer Stock will be found larger and more complete than ever.

### DRESS GOODS WHITE GOODS

Very attractive lines in new colorings and latest novelties. Anything and everything in large assortment and end- less variety.

### THE PULPIT AND STAGE.

Rev. F. M. Shront, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and an sound and well, gaining 25 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, Coughs, Colds, and Cures, has done for me. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at Foshay & Mason, Drug Store. Regular sizes 50c. and \$1.00.

### HEIGHT OF CRUELTY.

Nervous women seldom receive the sympathy they deserve. While often the pictures of health, they are constantly ailing. To wit-hold sympathy from these unfortunates is the height of cruelty. They have a weak heart, causing shortness of breath, fluttering, pain in side, weak and hungry spells, and finally swelling of ankles, oppression, choking, smothering and dropsy. Dr. Miles' New Heart Cure is just the thing for them. For their nervousness, headache, weakness, etc., his Restorative Nervine is unequalled. Fine treatise on "Heart and Nervous Diseases" are marvelous testimonials free and guaranteed by Stannard & Cusick.

### MILLS NERVE & LIVER PILLS.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills speedily cure biliousness, bad taste, torpid liver, piles, constipation, unequalled for men, women, children. Smallest, mildest, surest! 50 doses for 25 cents. Samples free, at Stannard & Cusick.

### SPECTER CASES.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Salve, and his leg is sound and well. John S. Taylor, Calaway, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Foshay & Mason, Drug store.

### A MYSTERY EXPLAINED.

The papers contain frequent notices of rich, pretty and educated girls eloping with negroes, traders and coachmen. The well-known specialist, Dr. Franklin M. Jones, says all such girls are suffering from hysterical, nervous, very irritable, unbalanced, usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. These show a weak nervous system for which there is no remedy except Dr. Restorative Nervine. Trial bottles and a book, containing many marvelous cures, free at Stannard & Cusick, who also sell, and guarantee Dr. Miles' celebrated New Heart Cure, the finest of heart tonics. Cures fluttering, short breath, etc.

### TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

### The Celebrated French CURE

Warranted to cure APERODITIVE or money refunded. For particulars apply to Dr. Restorative Nervine, 15 E. 1st St., Albany, Oregon.

THE APERODITIVE is given with every \$5 order and refund the money if a permanent cure is not effected. We have thousands of testimonials from old and young, of both sexes, who have been permanently cured by the use of Aphroditine. Circular free. Address: Dr. Restorative Nervine, 15 E. 1st St., Albany, Oregon.

Frequently accidents occur in the house-hold which cause burns, sprains and bruises; for use in such cases Dr. J. H. McLean's Volcanic Oil Liniment has for many years been the constant favorite family remedy.

### WATERS RECEDING

Several Lives Lost and Much Property Destroyed.

### MANE FAMILIES HOMELESS.

The Country is Greatly Damaged and Farmers Will Lose Their Fatire Crop.

STOCK CITY, Ia., June 25.—Additional particulars of the flood at Cherokee indicate it is the worst ever known in the state. It is stated that hundreds of houses are washed away, rendering from 1200 to 1500 families homeless. Reports are coming in from all quarters of unprecedentedly high water in the streams. The injury to railroad property in loss of bridges and destruction of crops along the rivers is awful. The waters are receding this morning. The destruction to property in Cherokee alone is about \$200,000, besides almost all the stock pastured along the Sioux river is drowned. No further loss of life is reported at Cherokee beyond the four whose drowning is already noted. It is not known, but possibly eight persons lost their lives around and about Correctionville.

The St. Paul road suffered severe washouts on its Sioux City, Iowa and Dakota divisions. Traffic is only delayed, however, on the first division. The telegraph wires are down, and the amount of damage is not known.

Cherokee is shut in by a vast expanse of water, and it is feared there will be the already suffering that threatens the farms of lumber, as all the surplus stock of provisions was destroyed by the flood. There is no prospect of reaching the people from any direction until the water subsided.

FORT DODGE, Ia., June 25.—Reports say that in the sixty miles traversed by the storm, hundreds of acres of crops were devastated and the destruction of other property is enormous.

WATERLOO, Ia., June 25.—Most of the destruction in Cherokee was wrought by the extraordinary rise in the Sioux river, resulting from the tremendous downpour of water. The big truss bridge, on which the Illinois Central crossed the river, has been borne down already. The night the Little Sioux was at the highest stage ever known. The best information indicates that the Illinois Central rails are under water continuously for many miles on the Omaha branch, and that the damage to railway bridges has been enormous. Traffic will be delayed for many days. Other railroads besides the Illinois Central can scarcely have escaped great damage, particularly the Chicago & Northwestern and the Chicago, Milwaukee & St. Paul. As near as can be learned the storm already has not only a huge stretch of country in Iowa, but a large portion also of Minnesota and Nebraska.

Reports from Sioux City say the storm has almost devastated that portion of Iowa. No trains are running. The Chicago & North Western is inundated for thirty-five miles north of the city. The town of Merrill, Hinton and James are completely submerged. Thousands of acres of crops are under water.

THEY ARE SPLITTING.

All is Not Harmony in the Farmers' Alliance Camp.

JACKSONVILLE, Fla., June 25.—A Jackson (Miss.) special to the Times-Union gives some interesting gossip about Union National Farmers' Alliance matters. It says that since the nomination of the legislative committee, headed by President Hall, of the Missouri alliance, last February, Hall has been working vigorously against the sub-treasury scheme, and with his coadjutors has succeeded in organizing a movement covering the entire Southern states, as is shown by a call for a meeting of the anti-treasury league at Dallas, Tex., in July next. Within the last month President Polk has advised Hall to desist or resign from the committee. He was given until June 25 to do so. It is believed this decisive stroke was to frustrate the objects of the anti-treasury league and influence the less intrepid opponents of the measure than Hall to steer clear of Dallas. Those who know Hall assert he will decline to be coerced, and the result will be a split in the national alliance.

GLADSTONE IS SICK.

The Grand Old Man May Leave This World.

LONDON, June 25.—The St. James Gazette this afternoon says: Gladstone's physicians fear the veteran statesman may not recover from the effects of the attack of influenza from which he suffered in the spring. He is left rather weak by it.

A LOST CHILD.

Is Kidnapped and Thrice Crosses the Ocean.

CINCINNATI, June 25.—Detectives have, after a year's search, located the 7-year-old son of Patrick Conway, a well-to-do resident of

Springfield, Ky. The boy was kidnapped a year ago by enemies of Mr. Conway. He employed detectives to search for him, and spared no expense in trying to find his child. The detectives traced him to San Francisco, and from there to Australia. They must have passed the kidnapers on the way, for by the time they reached Australia they had retraced their course to this country. Steadily they followed the trail, which led them back to San Francisco, then across the continent to New York. From there the boy and his kidnapers took a steamer for Ireland, and it was only to-day that the father received word that the boy had been found in a seminary in Ireland. Mr. Conway will take immediate measures to have the boy brought back home.

WITH RAILS OF STEEL.

Work on the Railway Between North and South America.

WASHINGTON, June 25.—Advises received at the inter-continental railroad commission show that two civilian surveying parties are now well advanced in the work of surveying the country in the vicinity of Quito and Ecuador, for the proposed railroad between North and South America. Members of the survey are afforded every possible facility in the way of promoting their work by government officials in Ecuador.

Mortar Battery at San Francisco.

WASHINGTON, June 25.—Acting Secretary Grant has just approved the recommendation made by the fortification board, making a small allotment to delay the expense of a survey in connection with the selection of sites for mortar batteries for the defense of San Francisco. The most important recommendation which was approved was that the cost of ordnance be authorized to construct some new 12-inch rifles 45 feet in length.

The Queen Will Not Attend.

LONDON, June 25.—Contrary to recent report, Queen Victoria has no intention of taking the place of the Prince of Wales as escort to the German emperor on the visit of the latter to London. The prince and all the members of the royal family who can attend, except the queen, will be present.

### TREACHEROUS REDS

THESE FIENDS ARE AT WORK IN ARIZONA.

Threats to Kill the Whites and Forebly Take Their Children Military Aid Asked.

WASHINGTON, June 25.—Commissioner Morgan, of the Indian bureau, has received a telegram from Superintendent Collins, of the Moqui Pueblo Indian school in Kean's canyon, in Arizona, in which he states the Indians are threatening to kill the whites and forcibly take their children from the school, and asks that military reinforcements be sent to the school. The commissioner returned the telegram to the war department, with a recommendation of additional reinforcements be forwarded, and the ranger lead in the present trouble be arrested, and be held pending the difficulty. The present trouble has grown out of the fact that the Indians are opposed to having their children attend school.

Found in a Well.

SAN FRANCISCO, June 25.—The body of Nicholas Stein, who was employed at the Magdalen asylum and who has been missing since the 17th inst, was found in a well at the asylum to-day. It is believed to be a case of suicide.

Two Presidents.

Philadelphia Press. A day or two ago a gentleman, whom I believe to be a well-known hotel, New York, and walked up Broadway for some distance. He was not far from 70 years of age. His beard was quite gray, though his complexion was rosy; the beard had recently been trimmed, apparently, so that it was as short as was that which General Grant wore. The gentleman strolled on with an easy gait, now and then pausing to look in a window. Just after he had passed the Victoria hotel a very stout gentleman, who had apparently been recently shaved, who wore a light brown mustache, whose cheeks were very bilowy, and over whose shirt collar appeared a billowy mass of flesh, came from the Victoria. A few persons recognized him, and when they saw the stout man, they looked at him. He walked along, indifferent, apparently, whether any one noticed him or not. He was scarcely twenty feet behind the other gentleman.

Thus, in Indian file, they went up Broadway for several blocks, each unconscious that he was so near such distinguished company. There was a lesson in this little scene. It was the suggestive lesson of the fate of ex-presidents, and how quickly the greatest ruler on earth, when he lays down his office, becomes a plain, everyday citizen. The first gentleman was Rutherford B. Hayes, and the second one was one of his successors, Grover Cleveland.

### STATE AND COAST.

Baptist Women's Foreign Mission Society Convenes.

### HOP GROWERS' ASSOCIATION.

A Call Issued for the Annual Meeting. President Harrison's Father-in-Law in Portland.

SALEM, June 25.—The woman's foreign mission society of the Baptist church convened here to-day. Miss Alice E. Skinner, a graduate of the McMinville college, was accorded as a representative of his board on the foreign mission field. The report of the treasurer showed that during the past year \$1600 had been received and \$500 on hand. The afternoon session was devoted to home missions. The next meeting of the Willamette Baptist Association will be with the church at Astoria. Miss Mary Burdette, sister of Bob Burdette, is shortly to visit the churches of Oregon in the interest of home missions.

By order of the president, E. C. Herren, the acting secretary of the Willamette Valley Hop Growers Association issued a call for the annual meeting of the association at Salem on Thursday, July 24, for the election of officers and of the business.

The city council's street and public property committee this afternoon opened bids for paving one block on Commercial street. The cost will run from \$7000 to \$15,000, and the matter will be submitted to the council at the next meeting.

BAKER COUNTY MINES.

They Have Suffered a Great Lack of Water—Little Snow Fall.

PORTLAND, June 25.—Captain Joseph Myrick, superintendent of the Connor creek mines, in Baker county, came down from Baker City yesterday.

Captain Myrick says the entire district has suffered for the want of water. Little snow fell last winter, and what did fall came in February and was soon melted and absorbed by the earth. There was not sufficient to fill the streams and as a result, the placer miners have suffered materially.

In fact, placer mining has almost been exhausted, not alone because of the lack of water, but for the reason that the supply of dirt has nearly given out.

The captain says that outside of one or two plants, the district embracing the rich deposits of Baker county has never been systematically mined. Little more has been done than prospecting, and therefore development is necessarily slow.

HENRY VILLARD SAILS.

Financial Troubles Said to Have Troubled Him Back.

New York, June 25.—Mr. Henry Villard, with his family, sailed from Bremen for New York on the steamer Havell last Tuesday morning. Officers of the North American Company deny that Mr. Villard's return to this country is rendered necessary by any financial disturbance in that company. They say that the company is not in distress, but on the other hand, has a glorious future in store. The recent contract made with Thomas A. Edison is regarded as a very valuable asset. It is sweeping in its character and makes the company a full partner with Edison in all his inventions pertaining to electrical railways, now existing and to come. In addition to this, the company is under contract to supply Cincinnati with a full electric lighting system, and it has almost completed the transformation of the entire horse railway system in Milwaukee into an electric railway on the trolley plan.

HARRISON'S FATHER-IN-LAW.

The Aged Gentleman Now in Portland.

PORTLAND, June 25.—One of the few men in this country over 90 years of age is in this city to-day, for the first time in his life. His name is Rev. John W. Scott, born in Beaver county, Pennsylvania, January 22, 1800, and he is therefore nearly 91½ years of age. In addition to his advanced age he is more prominently known as the father of Mrs. Harrison, the wife of President Harrison, and is a resident of the White house, at Washington.

THE SEAL FISHERIES.

Orders of the United States Government to Its Agents.

WASHINGTON, June 25.—The government has notified the agents on the seal islands to stop the killing of seals by the North American Commercial Company when it has taken 7500, the number of seals which the administration in its correspondence with the British government for a "close season" made one of the conditions of agreement, on the ground that it was necessary to permit the sealers' company to take this number as compensation for the expense of supporting and providing for the welfare of the 300 and odd natives who live on

the islands and derive their livelihood from the sealing industry. When this number has been taken seal killing is to be stopped and further orders awaited. It has heretofore been supposed that this order would not be issued until after the English parliament had passed the Behring sea bill and an agreement had been formally arrived at between Great Britain and the United States to submit the dispute to arbitration, but the president must have been satisfied that the affairs were in such shape that only some necessary formalities about which there was little or no question remained in the way of a complete understanding, for the revenue cutter Rush, when it sailed northward some days ago, carried the order limiting the season's catch of the company to 7500 and providing that, at least so far as the year 1891 was concerned, the year 1891 should be particularly a "close season" in the seal industry. The Treasury department refused to make public the orders of the Rush at the time she sailed. It was supposed from what was made public that the Rush had no orders changing the "catch" of the company, and that if a close season should be ultimately determined on it would be necessary to send another vessel to the seal islands with stop orders, but the fact now learned for the first time shows that the government has put into actual operation its proposition to Great Britain on the belief that there was no reasonable doubt but that seal killing with the limitation stated would be forbidden by both Great Britain and the United States, pending a settlement of the long controversy. If, after all, the recent negotiations should be suddenly broken off and contrary to the universal opinion here the efforts of the two governments come to naught it will be necessary to send a vessel to notify the seal company's agent of the fact and authorize a continuance of the now generally prohibited seal killing.

The University Boat Race.

New London, Conn., June 25.—Cornell won the boat race to-day, Pennsylvania, second; Columbia, third.

PARNELL AND MRS. O'SHEA ARE MARRIED.

It Was a Strictly Private Affair. Only the Necessary Witnesses and Registrar Being Present.

LONDON, June 25.—Parnell and Mrs. O'Shea were married to-day. At 6:30 o'clock this morning a closed carriage left Parnell's residence at Brighton and was driven by a coachman who displayed a white favor to Steyning, a small town in Sussex county, ten miles distant from Brighton, where the ceremony was performed by the registrar, the only witnesses present being two clerks employed in that functionary's office. Parnell and his bride started for parts unknown immediately after their marriage at Steyning.

British Vessel Wrecked.

LONDON, June 25.—The British ship New York, from Swansea, February 6, for San Francisco, was wrecked on Staten Island, belonging to Terra Del Fuego, while attempting to round Cape Horn. The crew narrowly escaped drowning.

Will Have a Higher Position.

WASHINGTON, June 25.—Chief Postoffice Inspector Rathbone to-day handed the postmaster general his resignation, to take effect July 28. On July 1 Rathbone will be appointed fourth assistant postmaster general.

Warner Miller Going East.

SAN FRANCISCO, June 25.—Hon. Warner Miller will leave to-night for Chicago in company with General Alger and will not return to the West until autumn, when he will visit Portland, Seattle and Tacoma.

Fire at Elmira, N. Y.

ELMIRA, N. Y., June 25.—Spaulding & Co.'s planing mill and saw factory and two dwellings were burned to-day. Loss \$75,000.

Gone and Forgotten.

New York Weekly. First Plague (on the way to a city)—What are you?

Second Plague (traveling in the same direction)—I am a Common Cold.

First Plague (loftily)—You might as well stay away. Nobody recognizes you any more, I am the Grip.

What? asked the teacher of the history class, "can you say the age of Pericles?" And the smart bad boy at the foot of the class said that "he was in his non-age when he was born, attained his marriage at his wedding, and was in his dotage when he died." The teacher looked pleased, and said: "That is very correct; now, if you will step out into the passage a moment, I will give you a message that will enlighten you on your homage." So saying, he took the message down from the nail. It was long and kind of twisted like, and had the bark peeled off in places.
