The barbers have challenged the trackmen to play a game of base ball in the near future. It would be an interesting game if paddles were used for bats and crossing out was allowed.

Great interest is manifested in Salem over the game to be played Saturday between the home club and the Albany vi-tors. Those posted say it will be as good as any of the league games. Mrs. J. K. Weatherford and her niece, Miss Tina Gregg, left last evening for San Jose, California, having been summoned by a telegram announcing the serious illness of Mrs. Weatherford's father.

BRIDGE MEN HERE

Contractors Who Will Bid on the Big Albany Bridge To-morrow.

About a dozen bridge men, representing different bridge companies of the Pacific coast and elsewhere, are already in the city, for the purpose of bidding on the bridge which is to span the Willamette at this city, and the indications are that there will be some close bidding by responsible firms. Among these bridge men are, Geo. W. Cott, vice-president, and H. Kruse, chief engineer, of the San Francisco Bridge Co.; L. B. Doe, of the firm of Doe, Hunt & Co.; Messrs. J. C. Andrews, J. A. McManis, H. Fry, H. W. Jack, H. C. Campbell, Lee Hoffman, Robert Wakefield, representing other companies. Several other contractors will arrive to-day, and there will be a healthy array of bids to be opened on Saturday afternoon.

The people of Albany have waited long and patiently and have worked earnestly and vigorously for a bridge, and there must be no going back on it now. A little harmonious action just now at the critical juncture will accomplish the much desired end, and this summer will witness the spanning of the Willamette at Albany with a permanent structure which the city and country adjacent have long needed.

Hop Grower's Meeting.

Engine Register: The Hop Grower's Association of Lane county held an interesting meeting in the board of trade rooms last Saturday. There was a large attendance and the hop house was discussed freely. Nearly all the yards are infested by the lice; some more than others. A great many growers are spraying. Sam Howard stated that he had tried a spray pump and pronounced it a success. The pump gives force sufficient to force all the leaves up, thus giving the liquid a chance to touch all parts of the vine. All present strongly advocated vigorous measures for the extermination of this pest.

A Native Silk Worm.

Mr. C. B. Winn captured a peculiar looking moth the other day, and being somewhat of a naturalist himself, he sent it to Prof. F. L. Washburn, entomologist at the state agricultural college, at Corvallis. It was a beautiful specimen, resembling in size a full-plumaged butterfly. The professor, in acknowledging the receipt of the specimen said it was an American silk worm, telea polyphemus, which is not common enough in this country to be of economic value.

Returned.

Fred Reed has returned to Eugene. He is a timber land swindler and escaped from the jail in this city about two years ago with several others. W. W. Cochran has watched for him ever since and yesterday arrested him in Portland and brought him up on last night's train. He is in the jail again this morning, and is telling how they escaped and complaining of the food they got while in confinement.—Register

Juvenile Ball Players.

Yesterday forenoon a game of base ball was played by the Thompson Hustlers and the Moonlight Alley Rustlers. The score stood 32 to 19 in favor of the latter club. In the afternoon the Weatherford nine played a picked nine, defeating them by a score of 54 to 22. To-day a game will be played between the Young Willamettes and the Lebanon Juvenile club.

Engines Disabled.

The overland engine of the north-bound train is lying disabled at the Southern Pacific depot in this city. Its driving machinery broke yesterday morning, near Harrisburg. The freight engine was sent up to take its place. A remarkable coincidence was that this engine too broke its machinery before reaching this city, and a third engine was required to pull the train on to Portland.

The Nine Selected.

Following is the official batting order of the Albany base ball club for the game at Salem Saturday: A. Marshall 1 b; Ed Blodgett c f; Chas Burns, p; B. Magers, 3 b; Gene Larimore, s; R. Huston, 2 b; Dick Burns, c; A. Diemert, 1 f; F. Breckenridge, r f; Herbert men, B. Chamberlain, McFarland, Will H. Cowan, Manager, GENE LARIMORE, Capt.

Flenic Near Tangent.

The Sunday school picnic at McFarland's grove near Tangent yesterday was well attended, and was a great success. The Tangent band furnished music for the occasion. A game of base ball between the Tangent and Oak Creek nines resulted in a score of 46 to 9, in favor of the former.

CIRCUIT COURT.

The Jury Out in the Case Against the Southern Public Company.

The case of the state vs. Mr. E. P. Rogers, general freight and passenger agent of the Southern Pacific Railroad Co., on a charge of discrimination in freight rates in violating Sec. 4, the long and short haul clause, of the Hoell law, was tried in the circuit court yesterday. Hon. W. D. Fenton appearing for the defendant and Attorney General Geo. E. Chamberlain and District Attorney Geo. H. Bingham for the state. The case occupied nearly all day Judge Base in instructing the jury delivered what the attorneys present agreed was an able and clear expounding of the law as relating to common carriers, both on hauls within the state and under the inter-state law. The case was given to the jury at 5 o'clock, and up to the time of the adjournment of court last evening no decision had been reached. W. H. Galtra vs. Wm. Sharp and Elmer Morris, to recover money; dismissed without prejudice. N. Mills vs. J. C. Lyons et al., ejectment; judgment for plaintiff. J. Put Smith vs. C. T. Craft, to recover money; continued. State of Oregon vs. M. C. Bingham; bigamy; continued. On trial, Will & Link vs. Jacob Miller et ux.

The Agricultural College.

The closing exercises of the state agricultural college at Corvallis took place Wednesday, and the assembly hall was crowded to its utmost capacity long before the opening hour. The exercises were opened with prayer by Rev. J. P. Plummer, after which the salutatory was delivered in a most creditable manner by Miss Anna Allen. The essay of J. F. Alexander, on "Country Roads," showed careful preparation, and contained points of much practical value to farmers. The valedictory by John Fulton, of Edinburgh, Scotland, was a masterpiece both in subject matter and excellence of delivery, and he was the recipient of many well-earned congratulations. After the conferring of degrees by President Arnold the closing address was made by Prof. Thomas Condon, of the University of Oregon. A large number of distinguished guests from abroad were present. The exercises were interspersed with choice music by a fine orchestra. The alumni reunion took place in the evening, and again the assembly hall was taxed to its utmost to accommodate the vast concourse of people, who for two hours were entertained with a fine literary and musical programme. So ends the most prosperous year of Oregon's agricultural college. With the opening of the fall term the new dormitory and other buildings provided for by the last legislature will be completed, and the facilities for the comfort of student increased in every way.

From Tree to Press.

Mr. Singler has made an interesting experiment as to the time required to print his Philadelphia Record upon paper direct from the tree. This is the record: Chopping one and one-half cords of poplar wood, stripping and loading on boat, three hours; time consumed in manufacture of wood pulp, twelve hours; manufacturing the wood pulp into paper, five hours; transporting to record office, one hour and twenty minutes; setting paper preparatory to printing, thirty minutes; printing 10,000 records, ten minutes. Total time from tree to paper, twenty-two hours.

One hundred and thirty-eight watches of different makes were sent in. It has been officially announced that a Seth Thomas watch stood first in the trial and the Seth Thomas watches averaged the best. COAST NOTES.

Interesting Items from Exchanges Throughout the Northwest.

F. S. Ivanhoe has sold the Border signal to E. W. Barnes. Salem's steam fire engine will not go to Eugene on the Fourth. A picnic of states will be held at Salem, July 4th. Some contemptible brats have been poisoning animals throughout Lane county. The Ashland Tidings says that 60,000 boxes of peaches will be shipped from that thriving locality this season. Various counties in Oregon are issuing bonds for required improvements, and these in every instance are sold at a premium. The Salem fruit cannery is working on strawberries this week. That establishment will put up 2,000,000 cans of fruit this year. The Marion county grand jury found no true bill against Editor McMahon, of the Woodburn Independent, who was charged with libel. Eastern Oregon rejoices over the present rain. Umatilla county sends word that there are large tracts there this year that will average fifty five and sixty bushels of wheat to the acre. The farmers' alliance members of Eight Mile, Gilliam county, have appointed a committee to select a suitable location for a general merchandise store in that neighborhood, to be erected in the fall. There are several other farmers' organizations in different parts of the state considering a similar scheme. Mrs. Rivers, of Baker City, who has been adjudged insane and committed to the asylum, is a victim to the cocaine habit, and it is stated that since her residence in Baker City she has purchased cocaine from a certain drug store to the amount of one dollar's worth per day, and her attack of insanity is no doubt the result of it is habit. An attractive feature of the 4th of July celebration at Pendleton will be the colt show. Several handsome prizes are offered, and many farmers and stockmen have announced their intention of competing. The range lands and ranches of Eastern Oregon will show up some valuable stock at the exhibition. Parties are now on the way from the east to Weston to look over the field with a view of putting in a \$25,000 machine shop plant for the manufacture of a combined pulverizer, feeder and harrow, a bonus of \$6,000 being offered by Weston people. A strong effort will be made to secure the location of the shops there. The size of the salmon caught this season are unusually large, says the Bay City Tribune. Some of the fish bring as high as \$2.25 to the fisherman. The buying of fish by the pound is being generally adopted by the canners. Ninety-nine sacks of oysters, 3,074 bundles of shooks, and 51,300 feet of lumber were shipped from Astoria one day this week. Before winter begins it is expected that a number of miles of the new railroad to be built from the Dalles to the Fossil coal mines will be completed. Work will be begun on it immediately after the Fourth, and it will be pushed as fast as possible. The road will develop a rich section of agricultural country tributary to The Dalles, and farmers are anxiously awaiting its completion. Last Monday Dr. G. H. Smith was called to Paradise by Frank Smith. It seems Smith is the owner of a twenty-two caliber rifle which became so dirty that the bullet lodged about half-way along the barrel, and thinking he might remove it by filling the barrel with powder and placing another cartridge behind the powder fired. Failing to remove the bullet in this way he placed the gun in the fire thinking to melt it out. After it had remained there some time he went to examine it, arriving just in time to receive the charge of powder, (which he had failed to discharge on firing,) in his face and eyes, the cartridge shell passing through the rim of his hat. The doctor says one eye is in a bad condition, powder being embedded in the eyeball.—Border Signal.
