THE ALBANYNS WERE NOT IN IT.

Defeated in the Ball Game at Salem by a Score of 16 to 0.

Concerning the game of base ball yesterday at Salem between the Albany and Salem there is not much to be said. The home club was not in it. The boys went into the game under a disadvantage, Ala Marshall, first baseman, being ill and one or two of the other players being disabled.

The game was called at 2:30, with Theo. Potter as umpire. Reilly went to the bat for the Albany. He was their heaviest batter and hit safe to first, stole second and third and scored on a passed ball. Stanley and Leveque were each fanned out, and Smith sent a sky-scraper to center field, which Blodgett pulled down gracefully, retiring the side.

Ala Marshall went to the bat for the Albany. He found Leveque's twisters, but went out at first. Blodgett and Dick Burns each struck out.

In the second inning the Salems also got a soose egg. Cross went to first on balls. Minto was fanned out. Cross was assisted out neatly by Magers at third, and Mellen retired at first.

The Albany came up smiling. Magers flew out to pitcher. Larimore hit safe to first, but went out trying to steal second. Huston struck out.

Up to this time the Albany had played good ball, and a close and exciting game was promised, but in the opening of the third inning Charles Burns, Albany's favorite pitcher sprained his arm, and never did a nine go to pieces any quicker than did the home club.

The Salems made five scores, and the Albany again got none.

In the fourth inning two scores were made by the Salems and two men out, when Burns left the pitcher's box, his place being taken by Larimore, who fanned out the third man. Burns then left the diamond. Stites took third base. Magers second and Huston short stop.

In the fifth inning the Salems piled up six runs, and the Albany again took their medicine, a big round goose egg. They were discouraged and played indifferently. Brockenridge was enjoying an afternoon nap in right field and did not see a daisy fly until it landed near him, and the other boys played much the same way.

The Salems changed pitchers getting Jack Jacobs, an Indian from Chemawa, but the Albany did not get a score nor did a man reach second base.

A hot fly caught by Stites at third was one of the features of the game, which brought down the crowd.

The official score of the game is as follows:

Table with columns: Name, AB, R, H, ER, PO, A, E. Lists statistics for both teams.

Score by innings: 1-0, 2-0, 3-0, 4-0, 5-0, 6-0, 7-0, 8-0, 9-0.

Summary—Fanned runs Salems 3; two base hits, Stanley 2, Smith 1; stolen bases, Reilly 1, Stanley 1, Leveque 2, Levan 2, Jacobs 1, Smith 1, Cross 1, Minto 1, Mellon 1; bases on called balls, by Burns 2; by Larimore 6; struck out, by Leveque 6, by Jacobs 7, by Burns 1; by Larimore 6; passed balls, Burns 3; wild pitch, Burns 1; time of game, 2:05.

There was no "kicking" at the umpire. The Salems simply played too hard ball. Several of them are professionals and they are a strong team. The Albany's best players, they have been material for a good team, but have not played together.

About 200 excursionists went down on the Hoag from this city to witness the game. On returning they left Salem at 5 o'clock and reached this city at 10:30. The boat left Salem before all of the excursionists had returned from the ball grounds, and about 75 of them were left, which caused considerable indignation.

The Albany will make some changes in their nine, put in some new men and play another game to-day.

THE COLT SHOW.

It Was One of the Largest and Best Ever Held in This City.

This city was filled with horsemen yesterday to witness the colt show. About 2 o'clock First street was paraded by the finest lot of colts ever seen in this city.

The procession was composed of as beautiful an aggregation of young horses as could be found in any country, numbering about 300.

About ten beautiful colts from Wm. Riley's shire stallion Cannock were exhibited.

J. A. Zimmerman's shire horse Dunsmuir Lad was represented by several very fine colts.

Peter Riley's gray Percheron horse Desirus showed some superb looking little fellows.

A well built lot of animals were those from Fred Blumberg's horse show.

Huston Bros. had a fine array of colts from Galloway, Clyde, the yearlings and two year olds, also from Deo, Percheron.

Jas. Blackburn's Cleveland Bay, Golden Emperor, showed a very pretty lot of colts.

Eugene LaFayette's trotter Dick LaFayette was to the front with a perfect beauty from Jas. Elkins' standand bred mare.

Wheeler Bro. horse Nizer was on hand with some good colts.

John Probst and James Owenby exhibited two fine, large colts from James Elkins' black shire horse, Reynard.

A large number of others were to be seen, among which were several from adjoining counties.

That Albany Woolen Mill Assessment. ALBANY, Or., June 27, 1891.

To the Editor of the Herald. In a communication in this morning's Herald, over the signature of Citizen, in regard to the assessment of city property, a statement is made in regard to the Albany Woolen Mills company that I deem it proper to notice.

I don't propose to defend the city, school and state assessors in the matter of their assessment of this property, as they are sworn officials, and I presume can take care of themselves; but I will say this much, which I stand ready to verify, that the property of the Albany Woolen Mills company is assessed higher, in proportion to its value, than any other property in the city of Albany.

The main thing I wanted to notice in Citizen's communication was his fling about the bonus paid to the Woolen Mills company by the citizens of Albany.

Now, in the first place, I defy any person to say that any member of the Woolen Mills company ever asked any one to subscribe a cent to that bonus. Said bonus was entirely voluntary on the part of the citizens of Albany.

After the same was accepted the Woolen Mills company went ahead in good faith, and with the integrity of the subscribers, and not only performed the letter and spirit of the written contract, but did more. Instead of putting in a lot of second-hand machinery, as its contract called for, it put in new machinery from top to bottom, and has operation as good a mill of its size as can be found anywhere, and one that is a credit to the city.

And now, while the company has more than performed its part of the contract, I am sorry to say there is still in round numbers \$15,000 still due on the bonus, and it seems that we are to be forced to the painful necessity of appealing to the law for its collection.

In conclusion, let Citizen come out over his proper signature and let's see how much he pays taxes on and how his property is assessed. I am ready and willing to compare the assessment of the Albany Woolen Mills company with his, and will guarantee that said company will take nearer what its property is assessed at for the same than Citizen will, if he has any.

THE MINING INTEREST. Mr. Legh Harnett, the mining expert of the state of Oregon was in the City yesterday, and is enthusiastic over the prospects of the mines contiguous to the Willamette Valley in the Cascade mountains.

He says that in no locality on the known face of the globe are so rich and favorable situated mines as are these that are tributary to the wonderfully fertile valleys of the Western Oregon. Mr. Harnett reviews the mines in the Brownsville Times, in which he says:

Now, for a movement, let us state, in absolute terms that admit of no qualification what these developments are: First, the character of the ore in the different districts, improved so rapidly as to have attained, that the Albany and Salem people put up a small prospecting mill to test the ore at all points; the result was large "gold bricks" as they are termed, that not only delighted the owners of properties, but settled the question as to the character of the ore, and induced the local capitalists to "begin the end" and put up a thoroughly equipped mill of twenty-five stamps. The boiler for this mill was hauled over the mountains last week and is now at its destination. So, before the month closes, the mill will be in full operation. Then Santiam becomes one of the recognized mining camps of the world; for, if the little prospecting mill could produce such wonders, what will the large mill produce? Let the unbelievers wait three months and see.

Next, on Gold Hill, in the Blue River district, twenty miles south, the Tacoma company, have had seven mill tests of unselected ore in bulk, made at Tacoma Reduction works. The first test was \$7 in gold and a fraction in silver. Then through all the grades of increasing excellence, the last test went up to \$80 in gold and silver; on these results, the company resolved to put up a thorough first class mill and the machinery is now on its way from Chicago. To aid in the enterprise, the Eugene people, with their usual liberality, subscribed pretty near \$1000 in a day to build a wagon road from the McKenzie river to the mill site, while the miners and local residents guaranteed to put in 74 days work. So, before the snow again flies, here will be another mill at work on ore that averages \$25 or \$30 a ton and so pure in character, that it only costs \$1.50 a ton to mill it. Again we may ask, what will be the result?

In addition to this large mill at Gold Hill camp, the Brownsville people, who are largely interested in the mines, are also putting up a two stamp prospecting mill, only a better one in principle than the Albany people first used at the Santiam. With such ore to work on as is now on exhibition in Brownsville, it cannot fail of itself to establish the reputation of the camp. The Brownsville and Eugene people are now thoroughly alive to the importance of these mines. The general public may rest assured that they will meet with alacrity every call that may be made upon them in the future.

Lastly, we may observe that a long way over ordinary discoveries have been made at Bohemia, 25 miles to the south, enough and more to satisfy the requirements of an experienced well-to-do quartz miner from California, who has joined the camp this summer and means to stay there. Such a man will do much good for the camp.

Now for a few words on final results. Suppose these pioneer mills to be thoroughly successful, and of that there is no doubt, for the days of uncertainty are gone forever. Where is the man living, however prophetic in nature, who can realize fully their influence upon Central Oregon, from Cottage Grove to Salem? By nature one of the loveliest spots on earth, it will become as celebrated for its business and commercial activity, as it is now for its agricultural wealth, charming climate and picturesque scenery.
