Yesterday forenoon Ubbie Peters' team became frightened and ran away, going up Ferry street to Fifth, where they were stopped by straddling a tree. The only damage done was the tearing down of the corner of M. Sternberg's fence.

The funeral of James F. Hall Sunday afternoon was very largely attended. The services were held in the Methodist church, and Rev. S. E. Meninger preached the sermon, assisted by Dr. S. G. Irvine. The Odd Fellows, I. O. O. F., K. of P., Firemen and a detail from F. Co. were present in uniforms. The burial services were conducted under the auspices of the first named societies.

One of the gentlemen who was in Albany looking after bridge bids was C. H. Campbell, of the Pacific Bridge Co. His company were the contractors of the suspension bridge at Oregon City, the Morrison street bridge in Portland, the Santiam bridges on the Oregonian railway, which have so successfully withstood the floods, and recently the longest steel span in the state, the Springfield bridge of 430 feet, and the railroad bridge across the McKenzie above Coburg. His company have a wide reputation for successful bridge building.

MINES AND MINING.

Extensive Developments in the Santiam and Calapooya Districts.

Mr. Lech Harnett, the well known mining expert, has been in the city for a day or two. He has returned from the Calapooya and Santiam districts, in the former of which he has money invested. He will return to Portland, but expects to be in Albany again in a few weeks, and will have something to say to the people of this city about the rich mines tributary to Albany, which are now being developed.

To representative of the Herald Mr. Harnett said yesterday: "There is no question but that the Santiam and Calapooya mines are as rich and valuable as the Coeur d'Alene region. After a careful examination of these mines and the light of recent developments I am thoroughly convinced of this, and the Herald can say so without fear of exaggeration. This coming from a gentleman of the mining knowledge and experience of Mr. Harnett can be relied upon, and means no small things for these mines. Mr. Harnett went further and said that this region, which has heretofore been known only in the light of prospecting work, is now being developed on legitimate business basis. Capital is being invested which will bring profitable returns. We are no longer depending on an unknown quantity," he said. Well defined ledges paying ore are in sight, and mining operations of important magnitude have been commenced.

There will be great activity in this region as soon as these operations are a little further under way. You cannot keep people away any more than you can keep capital from being invested, and the developments of the present season will demonstrate this fact. Oregon is a state of boundless resources, and next to her agricultural wealth comes her mines. In this region we have mines which are equal in richness to any in the Northwest, which are the most accessible and can be worked with less expense and labor and equal profit, when brought into comparison with the best mines of the country, and I will say the world, for the ore taken from these mines is a higher grade than the average ore from the best mines of the globe, and they are situated contiguous to the great Willamette Valley, one of the finest and most productive agricultural regions in the world. There is absolutely nothing wanting to contribute to the successful development of these mines, and with them the whole country, for every dollar invested in them contributes equally to the growth and prosperity of the cities and towns to which they are tributary.

A Very Close Game.

Promptly at 3 o'clock yesterday afternoon Empire Jack Warner commenced calling "play ball," and it was due to his persistence that the truckmen and barbers were finally on the ground and the contest commenced. The game progressed nicely for several minutes and many beautiful catches were made. The fifth inning was interrupted by a few lights, after which playing was resumed. At 6 o'clock substitutes were furnished and the players were allowed to go to their evening meal. The umpire had also become exhausted and E. P. Nutting attempted to finish the arduous task only to go the same way his predecessor did. Jack Stanley was the next man that was found with sufficient nerve to tackle the job. Many brilliant plays were made and several home runs are recorded on the score sheet, a portion of which we have before us. Up to the hour of going to press, 3 o'clock this morning, the score stood 31 to 26 in favor of the barbers, and it is probable they will be able to show the longest list of tallies before the finale is reached.

Will Speak at Athenaeum.

The Oregonian says that Mrs. A. S. Dunaway, has accepted an invitation from the citizens of Athena, Unatilla county to deliver the Fourth of July oration this year in their beautiful grove near that thriving and hospitable Eastern Oregon town. The citizens of the entire country are to join in the festivities of the day, for which extensive and elaborate preparations are in progress. The committee on programs is especially jubilant over its success in securing Mrs. Dunaway as orator in advance of numerous other points where her services have been solicited for the day.

As Viewed in Halsey.

The Halsey News, in referring to the recent acquittal of Caleb Gray, of that place, in the circuit court here, says: "Mr. Gray received hearty congratulations from every one in the court room as many had known him for many years as a man of sterling integrity and probity. Upon his return he was met at the train by the band and he was given a right royal reception. Music, firecrackers and cheers announced the fact that the city rejoiced in the triumphing of the one persecutor."

The Second Game at Salem.

In the second game of base ball at Salem Sunday between a picked team from Albany and the Salmons, the score stood 13 to 6. The Salmons acknowledged that the Burns Bros. was one of the best batteries ever on their diamond. Charlie Burns easily fanned out Reilly, Salmons' cracket batter, who has heretofore proved to water 20 that no pitcher could do that little job, but Burns did it neat. The Albany club, however, needs practice.

Have you seen those beautiful cement walls in the cemetery, put up by E. W. Ashton, at all the cost of stone.

A MODEL DAIRY.

McReynolds, of Camas Prairie, Turns out Eighty Pounds of Butter a Day.

D. W. Jarvis, in a letter to the Athena Press, says: McReynolds' dairy ranch in Camas Prairie contains 2800 acres, but at present they are milking only sixty cows. But few people who have tasted of the excellent butter made at this dairy, have little idea of the process of making it. Everything is done by steam. The cream is separated from the milk immediately after it is milked. This is done by a Swedish DeLavel cream separator. The milk is emptied into a metallic bowl, revolving 8000 revolutions per minute. The cream being lighter than the milk rises to the top and is forced out of the bowl through a small slot. The milk is forced through a tower hole in the bowl. Nine-tenths of all the cream is separated from fresh milk in this manner. The cream was separated from seventy gallons of milk in 30 minutes. It can then be churned immediately. The churning and butter working is all done by steam. Mr. McReynolds makes about eighty pounds of butter per day.

A Fatal Fall.

A dispatch from Salem says: Mrs. I. N. Gilbert, one of Oregon's pioneer women, met a sad and awful death at an early hour Sunday morning, or some time during the night. Her body was found in the morning at the foot of the stairs where she had fallen. Mrs. Gilbert came to Oregon from Indiana in 1847, and was the widow of the late I. N. Gilbert. She has a son, Frank, in Portland, and a sister, Mrs. William Knapp, in Salem. Mrs. Gilbert's father, Stanton, lives in Salem, and she has a daughter, Mrs. Sindy Sladden, at Eugene, and a daughter here, Mrs. Palmer. When the body was found it was cold and rigid, and she must have fallen about midnight. She was dressed in her night clothes, having no doubt arisen from bed to administer medicine to a little grandson, who is sick and living with her. The boy and Mrs. Gilbert were alone in the house at the time, and nothing was known of the accident until this morning when the boy found the body, bruised and bloody, at the foot of the stairs.

A Large New Warehouse.

From the Salem Statesman we learn that a wharf and warehouse is soon to be built on the site of the old Oregon Pacific in Salem by Hon. R. P. Boise. It will be a very convenient structure, to cost somewhere near \$2000. The warehouse will be built on the river bank with a slanting wharf to run from the warehouse south to low water mark. The wharf will have a frontage of 170 feet and will be built on a crib instead of piling, thus making it stronger and less liable to wash away. The warehouse is to be 40x50 feet and is to have the side and ends formed of floors, which in case of flood can easily be removed and by this means present less resistance to the water. The dock will be rented to the steamer Elwood's owners and operations on it will commence as soon as the water recedes sufficiently for the working to begin the wharf at the lowest stage of water.

Wild Blackberries Plentiful.

This is one of the grandest wild fruit seasons Oregon has known, and the luscious wild blackberry is larger and more abundant than ever before. In the woods near this city one can fill a gallon bucket in a very short time. More especially is this the case just across the river in Benton county where these berries are ripening very fast. It will probably be about two weeks before they will ripen back in the mountains.

Free Gold.

Canyon City News: Jack Chambers and a prospector named Bush have found a ledge of free gold bearing quartz at Canyon mountain a short distance above the ditch. The ledge is narrow, but the precious metal sticks out in a manner calculated to encourage prospecting. They will investigate the extent, as the ore is the richest yet found in the camp, except "float."

Card of Thanks.

Mr. and Mrs. Chas. Wagner desire to extend their most heartfelt thanks for the kind sympathy and aid extended to them during the sickness, death and burial of their daughter, Lottie. May the same kind attention be meted out to all in like deep affliction.

A Tenor's Danger.

"I trust, young man," said the preacher during his call on the family the other evening, "that you are pursuing the even tenor of your way?" "I'm pursuing the even tenor of our church choir's in my way," replied the youth's hotly. "If he doesn't stop blurring with my girl I'll lamen him."

Instrumental Music Taught.

Miss McClurg, a graduate from the Ohio academy of music, will meet all desiring lessons in instrumental music at Will & Link's music store next Tuesday afternoon, at 3 o'clock. Miss McClurg, who is just recently from the East, is a thorough teacher and guarantees satisfaction.

AN OFFICIAL STATEMENT.

As to the Cost of Maintaining the Morrison Street Draw Bridge.

Since the cost of maintaining a draw bridge, and especially that of the Portland Morrison street bridge, has entered into the question of a bridge at Albany, and some figures have been given as to the cost, the Herald publishes for request, a statement from the president of the Morrison Street Bridge Co., as follows: We paid in three years \$11,000 in repairing the draw rest alone; we also paid \$3500 for a new turn table, and \$1100 for wheels, besides expenses. We employ regularly four men to operate the draw at salaries of \$75 per month, amounting to \$3000 per year. I cannot give the detailed items of the annual cost without recourse to the books of the company.

OBTAINED MORE RELIEF.

From a Can of O. K. T. Than Anything He Ever Used. The writer of the following is a Baptist minister of many years standing, well known as a missionary to the Indians, and is now a teacher in the school recently established at Forest Grove for the education of the Indian youth: Forest Grove, Or., March 8. I have been troubled many years with weakness of the kidneys and tried many different remedies, sought aid from different physicians, and even changed climates to obtain relief, but have not withered success. Hearing through a friend of the Oregon Kidney Tea, I obtained a box of it and have derived more benefit from it than from any thing else I have yet found.

COAST NOTES.

The Columbia Investment Company has incorporated at Astoria. D. K. Warren, All Kinney, Ben Young and W. G. Smith are the promoters.

The Forest Grove Cannery Company have contracted with J. A. Gilbert, of the Oregon State of North Yamhill, for seven tons of blackberries and 300 bushels of tomatoes.

Miss Charlotte Nicholas, of Empire City, shot and killed a bear on the old Camman road last week. It was a daring adventure, and a very few of the feminine class would have the courage to attempt such a feat.

Mr. I. A. Macrum has commenced active operations on his new residence Forest Grove, and now has a large force of men employed on the masonry of the foundation. When completed it will be far the finest residence in Washington county.

The Union county pioneers met at La Grande on Thursday. The old officers were re-elected: general, F. H. Stevens, president, E. McComas, secretary and Ben Brown, treasurer. The association now numbers eighty-six gentlemen and 145 ladies, a total of 331.

The fruit trees near Dexter, say the Eugene Guard, have lately been covered with a heavy coating of aphids. In the last few days count a few numbers of black bugs, about one quarter of an inch in length, having made their appearance, exterminating the aphids in a hurry.
