A MYSTERY EXPLAINED.

The papers contain frequent notices of rich, pretty and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklyn Miles, says all such girls are more or less hysterical, nervous, very impulsive, unbalanced; usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. NOTED VISITORS.

They Are Very Much Pleased With Oregon—A Soldiers Home.

PORTLAND, June 30.—Terrence W. Franklin, of Hartford, Conn.; General A. L. Pearson, of Pittsburg; Governor Steele, of Oklahoma, and Major E. M. Morrill, of Hiawatha, Kan., comprising a portion of the executive board of the National Soldiers' Home, arrived here this morning en route to the East.

"Do you think a National Home will ever be built in the Northwest?" queried a reporter of General Franklin.

"No. It is not at all probable. There is no necessity of such a place in this locality as the Home at Santa Monica is large enough for all the old soldiers in the country."

"What do you think of Oregon?"

"There is nothing like it! The weather is glorious and the valleys of the lower part of the state are lovely. We saw nothing in California that equals it. One would judge that Portland is Oregon, therefore I must say that Oregon should feel proud of herself. It is not a wonder that these cities wanted to consolidate. That step should have been taken years ago. Looking from the Heights, it seemed that I could see a city of 85,000 or more inhabitants.

"If I was a young man, I would come to this country and stay. It is the coming state."

AT CAMP GRANT.

The Militiamen are Enjoying Their Outing—Dancing in Open Air.

The Balance in the Treasury Exclusive of Fractional Silver.

WASHINGTON, June 30.—The United States treasurer's statement to-day shows a net balance in the treasury exclusive of fractional silver and deposits in national banks to be $44,778,354.

No special significance is attached to a cabinet meeting now being held, at which all members are present except Secretaries Blaine and Proctor, and Attorney-General Miller. THE HORRORS OF WAR

BALMACEDA ORDERS MEN SHOT DOWN LIKE DOGS.

Indignation Among the Friends of the Dead Slowly Starved to Death.

NEW YORK, June 30.—A correspondent at Santiago, writing May 30, says: "In this city to-day the shooting of the officers and the sailors of the torpedo launch Gualda was the special feature of a wholesale execution. The men were marched to the plaza where they were shot down by a company of sharpshooters. This butchery not only caused indignation among the friends of the dead but also among Balmaceda's ardent defenders. The dead sailors and officers were in charge of the steam torpedo launch Gualda, in Valparaiso bay. One night the commander proposed to his crew to desert and go over to the constitutional party. All acquiesced except one. He notified the authorities at once, and the men were captured and taken to Valparaiso and thrown into prison. One by one they were tortured and literally made to go without food and water for two or three days at a time. The cells which the men occupied were reeking with filth and vermin. On the day on which they met their doom they were so weak they had to be assisted to walk. The tortures to which they were subjected to by Balmaceda's agents are almost past belief."

The correspondence relates other horrible atrocities by the adherents of Balmaceda. Information, he says, reaches there that the insurgents have about 10,000 men at Inquique, and that they are waiting for word to march to Coquimbo and the south. Balmaceda fears this and extraordinary activity reigns here, everything possible being done to receive the money. It is stated all negotiations for peace have ended.

Several Lives Were Lost and Great Destruction of Property Occurred.

ST. LOUIS, Mo., June 30.—A special from Nebraska City, Neb., says the Missouri river overflowed its banks about that city yesterday and is still rising. At St. Joseph the river is running over the bank on the Kansas side. Many farms in Kansas are submerged and crops of wheat and corn ruined. At Beatrice, Neb., the Blue river has been rising rapidly, and an overflow is threatened. It is reported that at Wilbur and Dewitt stations, six and twelve miles above the city, dams were washed away by the river, and several lives were lost and great destruction of property occurred.

The Frenchman got overheated, and dropped dead while protecting his house from the fire.

ENGLAND'S LITTLE PET.

He Is Trying to Assume the Role of Respectability.

LONDON, June 30.—As an evidence of the popularity of the Prince of Wales, it may be stated that the levee held by the prince on Saturday was one of the most brilliant ever held in Queen Victoria's reign, and was attended by more than the usual number of the better class of nobility. The prince appeared in the best of spirits and had evidently made up his mind to be more democratic in the future. He smiled in a winning way, and there was an utter absence of the stolid hauteur which the prince used to wear to such effect.

DISTRESS IN INDIA.

Inhabitants of India Suffering for Something to Eat.

LONDON, June 30.—Advices from India report a distressing condition of affairs in and about Madras, owing to lack of rain. BLOWN TO PIECES.

The Boiler of a Locomotive Explodes With Terrific Force.

WHITEHAVEN, Pa., June 30.—The boiler of the shifting engine of the Central railroad of New Jersey exploded last night near Mesquehony Junction. Engineer Thomas Trip, of Mauch Chunk; Fireman J. Pope, Linsford; and Brakemen Gallagher and Smith, of Mauch Chunk, were instantly killed. The body of Engineer Trip, crushed and bruised in a terrible manner, was found 100 yards from where the explosion occurred. The brakemen were blown in an opposite direction. It is evident from the wounds they were killed instantly. No trace of Fireman Pope's body has been found, and it is thought he was blown to atoms. The locomotive was totally wrecked, and the boiler blown 300 feet up the mountain side. There was a defect in the water pipes, the fire underneath the boiler dying out, and vapor issued through the firebox. The fireman had just descended from the cab to examine the boiler when the explosion occurred.

Notes From London.

"Thank Yous" Not to Be Omitted

New York Sun.

Are you a thoroughly well-bred woman? If you are there are some little "thank yous" that you never omit in public and to strangers. You never forget to say "thank you" to a man.

Who stands aside to let you step into the elevator ahead of him.

Who gives you his place in a line of waiting persons.

Who stays a moment in his hurry to hold a door open for you.

Who steps aside to let you pass on a stairway.

To the policeman who helps you across the street.

To a servant who renders you a personal service.

To a horse-car conductor who stops the car carefully exactly where you asked him to.

To the postman who gives you your letters on the street.

To the newsboy who folds your paper neatly and closely for you.

A Chivalrous Lad.

"Mamma," said Willie, "that little Susie Harkins called me a donkey to-day."

"What did you do?"

"Well, of course I couldn't slap a little girl, so I told Sister Mary, and she just scratched Susie out of sight.

Expert Opinion.

"What is the matter with me, doctor?" the patient asked in a despairing tone.

"Matter with you, man?" was the doctor's cheery reply. "Matter with you, do you say? Why, man, you're sick."
