SALTON LAKE.

More Accurate Information About the Change.

A PERMANENT CHANNEL CUT.

In Some Places Twelve Feet Deep—Streams 100 Feet Wide Flowing Into the Lake.

SAN FRANCISCO, July 15.—The Examiner this morning prints a communication from its correspondent at Salton who made the trip by boat from Yuma to Salton over the Colorado river and the new route, Colorado desert, below Hanlon's the party left the Colorado river and turned northwest into the wide along, and after proceeding about 25 miles ran into a lagoon of the Colorado river. This was the first place where they saw the water leaving the Colorado river on its way to the desert. It seemed to be breaking out of the river in many places. There was a bar forming, and the correspondent expressed the opinion the river will probably eventually change its channel and throw a great volume of water into the desert. There is water all over the bottom lands, which is a great calamity, and in one of the channels 100 feet wide and 12 feet deep. The current continued north and the party followed it, the extent of the flooded district becoming greater as they advanced. At a point about ten miles from Adams, another stream 100 feet wide and 12 feet deep joined theirs. For miles from here their course was through a succession of lakes connected by channels from 200 to 400 yards wide, and all very deep. A number of waterfalls were met with where the stream cut its way through the sandhills. At some distance after they entered the so-called Salton lake proper, they entered another stream, supposed to be Carrasco creek. This and the channel are the only streams flowing into the desert. The correspondent states that while the water seemed to be falling and was from one to five feet deep in Salton lake, the water in the channels of water which must apparently come from various lakes along the route, and that the streams themselves are carrying much silt and mud into the channel permanently cut, and that it will always contain water except in the lowest stages of the Colorado river.

THE LION CAUSED IT

A PERFECT PANIC AT A CIRCUS WITH INJURIES TO MANY.

A Lion Gets Loose and the People are Frightened and Apparently Demented.

ROCK ISLAND, July 15.—Furrough's show exhibited at Rock Island to-day and gave a scene not down on the bills. The afternoon performance was attended by some 6,000 people. Just as the crowd started to leave the tent, there was a cry heard at the entrance, "The lion is loose." The passage-way out of the tent was packed with people, and back of them were some more pushing to get out. The alarming cry was repeated and the circus employees rushed in to force the crowd back into the tent. Women shrieked and children cried, while men lost their heads in confusion. Pickpockets took advantage of the opportunity to do their work, and succeeded in several instances. One woman was carried to the nearest house and a doctor summoned. Others got off with bruises. That so few were hurt in such a stampede is a wonder. The cause for the alarm was not imaginary. An employee went to the cage containing the lions with a piece of meat. Opening the door to throw the meat into the cage, he fell, and the bloodily bones dropped to the ground. One of the lions made a dash after it and jumped out of the cage, and the beast was soon driven under the wagon, where it was held by loose pieces of iron fence until the crowd could depart, but it was some seconds before the people could be made to feel that the danger was over, and during this interval the wildest confusion ruled. Men, women and children rolled under the canvas, while others climbed upon benches, many of them shrieking.

SCANDALOUS CANADA.

The New Government Broom Sweeps Up Lots of Dirt.

OTTAWA, Ont., July 15.—The boat made when parliament met that the liberals would upset the conservative movement before the session was over, is liable to be realized. Since the opening of the investigation, the disclosures in the inquiry in the public works department have cropped up, and to-night two officers of the government are under clouds, which, when they break, will probably sweep the government left by Sir John Macdonald out of existence. John Haggart is postmaster general of the Canadian cabinet and is credited with having a penchant for pretty faces. It is about to be disclosed that for the past few years Haggart has been providing for Miss Craig, a young woman of Montreal, who was at one time his typewriter. The story goes that he misled the girl and sent her here, continuing her salary on the books of the department, for which she has not since given any service, at least to the government. The whole story will come out before the committee in a day or two. Another scandal, really of much more seriousness, is the disappearance of the superintendent of the printing bureau, Senecal, who, though said to be away sick, is probably an absconder, as it has been discovered that his accounts are all mixed up, and that there is a very large deficiency in them. The exact amount is not known. A clerk named McCabe was dismissed to-day for illegally drawing money, and there are charges against him to be made in connection with every department of the government. The derelict officials in each case are thorough conservatives and hard party workers.

JAILED FOR PROFANITY.

The Dallas Chronicle: Two men named James McLean and Bert Rhoades, of Salem, was arrested and fined the other day at Turner for profane swearing. If this kind of profanity should increase to any considerable extent there would not be jails enough in the country to hold the prisoners.

FIRE AT TESINO.

By Hard Work a Destructive Conflagration is Averted.

TESINO, Wash., July 15.—At 6:30 this morning fire was discovered in the upper part of the store of Allison & Allinger's general merchandise store. The fire spread to Gilman's barber shop on one side of the store, and on the other to George Sumption's boot and shoe store, then to Gilmore's confectionery and ice cream parlor, then to Johnson's business building, which was vacant. Thompson's meat market was conceded by his opponent since last evening, but the sturdy determination to refuse, after the formal result should be assured, the time-honored courtesy of a unanimous nomination, brought dismay in the hearts of all those who declare that in a united and harmonious democracy rests the only hope of victory in the coming campaign. The vast music hall in which the convention was held was packed to its capacity long before the hour of meeting arrived. The decorations, as usual, consisted largely of American colors. Suspended above the stage was a vast floral creation by the hand of the greatest "Democrat of Ohio, welcome to Cleveland."

EMBARGO ON AMERICAN PORK RAISED

PARIS, July 15.—It is believed the government has decided to accede to the request of Reid, United States minister, to remove the embargo upon American pork, as it is known the government has agreed to bring forward a bill modifying the general customs tariff of May 5, 1881, and fixing the duty at 20 francs per 100 kilos on all salted pork, ham and bacon imported from the United States.

HER LOVE WAS STRONGEST.

LITTLE ROCK, Ark., July 15.—Miss Adelaide Mansfield, daughter of Justice Mansfield, of the state supreme court, attempted last night to commit suicide. The cause of the attempt is withheld, but it is admitted that she ran away from school, and was prevented by relatives from eloping with her lover, Miss Mansfield took a large dose of morphine, and her life was saved with the greatest difficulty.

BAD WRECK ON THE ERIC ROAD.

BINGHAMTON, N. Y., July 15.—A serious freight wreck occurred on the Erie railway last night near Sparrowbush, eight miles west of Fort Jarvis. The wreck was a very bad one, as both tracks were completely blocked. It is reported that two brakemen were killed and several other employes dangerously injured.

SAFE-CRACKERS AT WORK.

LOS ANGELES, July 15.—The safe of the Union Lime Company was blown by crackers last night and robbed of valuable papers and a large sum of money. It was done by the same crew of safe-crackers who blew open the safes of Stoll & Co. and the Santa Fe office.

ROCHESTER SHAKEN UP.

A Gasometer Explodes With Great Destruction.

ROCHESTER, N. Y., July 15.—At exactly midnight last night a sharp concussion, resembling an earthquake, was felt all over the city. Later it was learned that the gasometer of the Rochester Gaslight Company, situated on Litchfield street, had exploded. The gas-

OMETER WAS 100 FEET IN DIAMETER

and forty-five feet high, with a capacity of 300,000 cubic feet. The tank was hurled in fragments in several different directions. One piece struck a canal boat, injuring the captain, whose name is unknown, so badly that it is reported he will die. The watchman of the gas works is supposed to have been killed, as he has not been seen since the explosion. The company has been preparing to clear the tank, and to-day it lacked three inches of being full of water, with all the vent holes in the top open, consequently there is a mystery as to the cause of the explosion. The tank was valued at \$60,000.

TORONTO, July 15.—Reports from all parts of Ontario indicate that all grain and root crops will be above average, and that hay will be away below it.

SECRETARY WINDOM'S ESTATE.

WINONA, Minn., July 15.—The inventory of the estate of the late Secretary Windom places its value at \$199,700.88.

OHIO DEMOCRATS

NOMINATE CAMPBELL FOR RE-ELECTION AS GOVERNOR.

Much Puffing and Hauling and Loud Talk, but He Gets There Just the Same.

CLEVELAND, July 15.—One of the largest and at the same time, most inharmonious conventions ever assembled in the history of the Ohio democracy met this morning in this city. The renomination of Governor Campbell has been conceded by his opponent since last evening, but the sturdy determination to refuse, after the formal result should be assured, the time-honored courtesy of a unanimous nomination, brought dismay in the hearts of all those who declare that in a united and harmonious democracy rests the only hope of victory in the coming campaign. The vast music hall in which the convention was held was packed to its capacity long before the hour of meeting arrived. The decorations, as usual, consisted largely of American colors. Suspended above the stage was a vast floral creation by the hand of the greatest "Democrat of Ohio, welcome to Cleveland."

Chairman Norton called to order at 10:30, and Rev. J. W. Campbell opened with prayer. Chairman Norton then announced the program. He introduced Allan W. Thurman as temporary chairman.

In taking the chair Mr. Thurman denounced the republican party and its methods and especially congress and McKinley, and said:

"The time has come when the people will express their belief in a complete and not a restricted reciprocity; when they will no longer sustain any party which levies and collects one dollar of taxes over and above that which is required to wisely and economically administer the affairs of the government; when they will give due notice that in any industry that have been nursed for a hundred years have arrived at an age when they must take care of themselves; when they will brand a protective tariff as stealing, its advocates as beggars, and demand that we must have a tariff for revenue only. I earnestly beseech the farmers, whose interests are identically the same as my own, to follow this course. Wild schemes of the government loaning money upon warehouse certificates or on lands, taking possession of the railroads and telegraphs by government, internal improvements that are demanded, are minor issues that all lead, not only to greater taxation, but to the very kind of socialism. I say to put them on one side and stick to the tariff issue until you get what is due you."

The committee on permanent organization reported that ex-Congressman Leblond had been selected as permanent chairman of the convention. The committee escorted Leblond to the chair. Chairman Leblond's speech was brief and to the point. He thanked the convention for the honor conferred, and then denounced the republican congress for its bad legislation and its attempts to pass the force bill.

General Armstrong, of Cleveland, moved the convention adopt the picture of a victorious rooster as a device to designate the democratic ticket, the recent ballot-reform law requiring some device. The motion was adopted by acclamation.

An acrimonious contest was carried on over the delegates from Hamilton county.

The platform adopted opposes the McKinley tariff; advocates an income tax and the free coinage of gold and silver; opposes prohibitory laws; favors commercial relations with Canada; also pensions for soldiers and denounces the Russian persecution of the Jews. A minority report on platform was set down upon.

Governor Campbell was nominated for re-election, on the first ballot. Lieut. Gov. W. V. Marquis was renominated by acclamation and T. E. Peckinbaugh for auditor.
