NUMBER THE STREETS.

The City Council Should Take Favorable Action on This Subject.

Albany's streets should be numbered. Recorder J. N. Henon has received a proposition from Robert H. R. of Racine, Wis., offering to furnish the names of streets on solid iron cards, and the matter will be considered by the city council.

Let the city council take favorable action on this subject. The expense would be small, while the benefits that would accrue therefrom would be large indeed.

SCIO MATTERS.

Press: We are reliably informed that the S. P. switch running into Scio will be completed and ballasted up in good shape immediately. Orders have been received to commence work on the main switch, and it is probable that within another month the iron horse will be hauling the best flour in the valley away from the Scio roller mills.

Last Monday Harvey Shelton sold to his brother, William Shelton, of Jordan, the property formerly owned by G. L. Sutherland, consideration \$900. Mr. Shelton will move to Scio with his family by Oct. 1.

Work Progressing.

Work on the government locks at the Cascades is progressing rapidly. One who has made a thorough inspection tells The Dalles Chronicle: "More work has been done and more real progress made during the past six months than ever took place in the same length of time before. The masonry of the south side of the lower gate is all finished but the coping, and it is the finest piece of work I ever saw."

Further inquiry elicited the following: At present fifty stonecutters are employed, about fifty laborers and twenty more who are working in the quarry. Soon the water will be low enough to allow the canal to be pumped out and then the work will begin on the north side of the gate. After the gate is finished work can go on at any stage of the water. This is cheering news to the people of Eastern Oregon, whose patience is waiting for the completion of this improvement has been many times nearly exhausted.

Grant's Unrivalled Atonic.

The new edition of this unrivalled work is now being delivered by the agent, Mrs. A. M. Talt. The work is most excellent one, and this edition is a great improvement upon former ones, giving all the latest data and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing P. O. Box No. 60 Albany Oregon.

Bound Over.

Sam Sing, the Chinaman who skipped out from San Wa and other Chinamen's money and was brought back yesterday by Marshal Hoffman, was examined before Justice Coslow and bound over \$300 bonds to answer to the grand jury at the October term of court. In default he languishes in the county jail.

Turning Out The Grain.

Several threshing outfits have already taken the field, and the hum of the cylinders and shriek of the steam whistles is abroad in the land. The yield is fully up to expectations.

Big Hay Crop.

W. W. Crawford informs us that thirty acres of his crop of wheat hay turned out between 75 and 80 tons of number one hay. That is pretty good for hay. Who can do better?

New Sidewalks.

In various parts of the city the new sidewalks are taking the place of the worn out ones, much to the better appearance of the city. Let the good work go on.

KILLED BY A TEAM.

Skull Crushed by the Brake Beam Underneath the Wagon.

Yesterday a terrible tragedy occurred at the farm of William Mespelt, near Scio, caused by a runaway team, and resulting in the death of Peter Halpenny. He, with his partner, F. E. Mann, were engaged in baling hay and had just moved the baling machine upon the Mespelt place. Halpenny had the horses hitched to the wagon to come to Albany to procure some baling wire. He started to remove the halters from the horses heads, and in order to do it had to take off the bridles. As soon as they were removed the horses lunged forward, knocking Mr. Halpenny down and running over him.

The forward wheels passed him harmlessly, but he must have raised his head then, for the cross bar under the reach, carrying the brakes, struck him on the head and crushed the skull. This is known from the fact that hair was found adhering to the bar. He lived but a few moments.

Mr. Halpenny was a sober, industrious, hard working man, and highly respected by all who knew him. He was single and had no relatives on this coast. A brother and other relatives, we are informed, live in Wisconsin, from which state he came. He was about 40 years old.

The funeral will be attended to from the Catholic church in this city.

The Astoria Railroad.

The Oregonian says: Hon. C. W. Fulton, of Astoria, was at the Portland yesterday. He is disposed to view the newly formulated project of building a railroad from Hunters to Astoria as likely to be carried to completion. He says the personnel of its promoters is such as to inspire confidence. Mr. Fulton's idea is that a railroad to Astoria would help both that city and Portland. It would help this city by insuring the outgoing commerce of the inland empire for the Columbia, the bulk of which would continue to be handled by Portland capital. To Astoria it would bring very great advantages: partly on account of the increased wheat trade, but much more by reason of the fish and lumber. The Astorians naturally feel that with direct railway communication to the Eastern Northwest they might easily supply a large proportion of the lumber of that region. As it is now this industry, with an unlimited supply of unsurpassed timber, is handicapped to a large degree by the extra expense entailed in handling the product of its mills again in Portland, an item which very largely enters into the cost of that commodity. The company is to meet to-morrow to perfect organization.

A Cunning Tramp.

People in Portland enjoy a joke on a man who was distributing samples the other day. He went into every store on his side of the street, leaving there a small piece of tobacco for the sample. As the dispenser entered the store a seedy looking man went into the one immediately behind this one, and while the man who was giving away the tobacco came forth each time with one less piece, he who followed him came out with his store increased by one of the samples. A good deal of quiet laughing was done at the expense of the agent. No doubt when the day was over the dispenser of tobacco felt satisfied that he had faithfully served his employers. There is no doubt that the man was content, for he had tobacco enough to last him for many days.

More Camping.

An effort is being made to secure more militia service during the state fair, by having a large encampment in Salem at that time. A Salem report says that it is not likely that the Second Regiment, O. N. G., will go into encampment here three days during the week of the fair. Colonel Lovell says it will take about a day for substance for the men, and if this sum can be raised the encampment is assured. The boys want further instruction. The six companies of Marion and Linn counties are anxious for it, as are also the other companies of the regiment.

A New Industry.

Eugene Register: A new industry has been opened here, that of gathering and shipping the roots of the wild grape. Mr. S. H. Friendly has large quantities of these roots at the depot and they are to be shipped to a wholesale drug firm in Detroit, Michigan, and used in making medicine. A large amount of these roots can be obtained in this immediate vicinity. Mr. Friendly has also purchased three or four car loads of chitten bark, which will also be shipped in a few days to the same place and be used for the same purpose.

Another Big Rattler.

Zebie Morse can see Charley Carlson's big rattlesnake and go him several better. He claims to have killed at Seven Mile, on McKay creek, a mammoth rattler with twenty-one buttons. Zebie is a pretty tough snake yarn, but Zebie cites an indisputable authority. Bob Adams, for proof. The reptile at the biggest part was as large around as a man's arm.—East-Oregonian.

Wild Cats and Bears.

The Astorian relates that a Mrs. Johnson shot a wild cat four feet long in the woods near Hoquiam a few days ago, and a man working in the woods for Alexander Poleson, near Montesano, last week accomplished the feat of killing three bears in quick succession with but three shot from his rifle.

NEWS OF THE COAST.

Interesting Items from Exchange Throughout the Northwest.

While fishing J. G. Megler at Brookfield, Clatsop county, last Monday night, John Fisher dropped dead in his boat. Farmers in the vicinity of Butteville, Marion county, have incorporated and are building themselves a large warehouse there. W. W. Neely, of the Sinslaw, is negotiating for the purchase of the steamer Coos, and if satisfactory arrangements are made she will be taken there and ply between Florence and the head of the tide.

On Saturday last a young man named Wes. Heward, living on Tigh Ridge, was bitten by a rattlesnake. A doctor living near, antivenoms were promptly administered and the young man's life was saved.

Thomas Lane, of Seaton, Lane county, has been committed to the insane asylum. He is quiet and inoffensive, but is inclined to be very liberal, giving away all his property and then helping himself to that of others.

California's new taxation law provides for the payment of taxes on the installment system. One half of the present year's assessments is due and payable on October 5, 1891, and if not paid before November 30th, following, 15 per cent is added and the taxpayers given till January 4, 1891, to pay the balance, with 5 per cent added one hundred and fifty bishels, received at the Red Crown Mills. It is pump and solid.

Cloud Burst on Little Butte Creek.

Pendleton East-Oregonian: A big water spout occurred last evening on little Butte creek. It started at the upper day ranch and swept down the stream, washing out all the bridges as far as Butte creek, and a large quantity of hay. All the stockmen along the creek are losers to a large extent. Probably 200 tons of hay were carried away by the resistless rush of water. Luckily, no loss of life occurred.

Special Meeting.

St. Johns Lodge A. F. and A. M. was met at a special hall this evening for work in the first degree of masonry. A full attendance is requested.

New Wheat.

The first new wheat of the season arrived in this city yesterday. Many hundred and fifty bushels were received at the Red Crown Mills. It is pump and solid.

Notice to Water Consumers.

Water is being wasted to such an extent and so unnecessarily that we are obliged to enforce a strict observance of the rule in regard to hours for sprinkling, viz: From 5 to 9 A. M., and from 6 to 10 o'clock P. M., and to caution all users of water to guard against leaks from faucets or other fixtures. The continuous running of water through closets or other fixtures, or permitting hose streams or sprinklers to run all night, will be deemed sufficient cause for shutting the water off from premises where allowed without further notice.

A DUAL LIFE.

Has Been Led on by Ohio Lumber Dealer.

FINDLAY O., July 29.—During a trial to test the validity of a mortgage it was brought out in evidence that Peter S. Williams, widely known throughout Northwestern Ohio as a big lumber dealer, was leading a dual life, and that he was keeping up two establishments, one in this city and the other in Fostoria, only fifteen miles away. By many people his home was supposed to be in Fostoria, where he has a wife and two children, while by others he was considered a Findlay man, as he has a house and wife here.

The wives knew nothing of his double life, as his business kept him on the road much of the time, until financial reverses growing out of this mode of living marred his prospects and fortune. Williams was present in court this morning when the case was begun, but the officers could not find him this afternoon, and he is supposed to have fled the city, leaving his wife and creditors to settle his affairs as best they can. Both woman are young and handsome.

THE WORLD ENRICHED.

The facilities of the present day for the production of everything that will conduce to the material comfort and enjoyment of man are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Springtime or, in fact, at any time any the better it is known the more popular it becomes.

Important to Housekeepers.

It gives Julius Gradwohl's great satisfaction in selling his fine Golden Rule teas and baking powder, with elegant prizes or without them, that his customers who have purchased invariably return and say they are well pleased.

Attention!

The very latest news is that you can buy at Julius Gradwohl's Golden Rule Bazaar, for net cash, 15 pounds of granulated sugar for 10 cents. All his teas and baking powder bears the name of Julius Gradwohl's Golden Rule Bazaar, and are expressly put up for his business, and he still continues to give with each pound of tea or baking powder an elegant piece of glass ware.
