There is some prospect that they may come here for that purpose.

Kicked by a Horse.

On Sunday last Miss Frankie Rice, who has been attending school at Brownsville, received some severe kicks from a horse. Miss Rice had driven to the Harris school house, situated near Rowland, to attend meeting, and was attempting to hitch the horse which, becoming frightened, kicked the young lady in the breast, and also fractured one rib.

Oregon's Summer Resorts.

Salem Statesman: The mountain and coast resorts are literally filled with people on their summer vacations. The people of Oregon are beginning to appreciate the fact that this state has the grandest summer resorts the world affords—with no exceptions. When more coast railroads are built, as they certainly will be in the next few years, Oregon's summer resorts will get people from a wider territory.

NOTES FROM BROWNSVILLE.

Brownsville, July 30. William B. Smith, of this city, has just returned from the mines, having taken up a lead of machinery for the Brownsville company. He reports everything looking well at the Poorman, and as this is the only mine in the camp doing anything, the success of the entire district now lays in the working of the mill being put in by this company. The Eugene company and the Tacoma company have rich claims, and are well able to do something, but are not going ahead. The wagon road that was to be built up Blue river and Quartz creek has not yet been commenced. The Brownsville company have got the machinery for the prospecting mill on the ground, and are now erecting the first mill in the camp. Mr. P. S. Weaver, a prospector from Idaho, is in this city sitting out for a trip to the mines. W. R. Kirk and A. M. Templeton departed for the mountains for a two-weeks' pleasure trip yesterday. The grain harvest has now begun, and from all indications there will be a heavy crop in this section of the state. Mr. J. B. R. Morelock and family are at present in Merlin, in Southern Oregon, carrying on the business of farming. Matthew Carolin, while hauling hay near this city, fell from the load and dislocated his leg, but is now doing well. Rev. Aldridge, of Medford, has now moved here with his family, and will reside in Brownsville in the future. He is building a new residence in Hausman's addition. Mr. J. M. Waters and wife and J. H. Waters and family have moved back here again from Ravenna, Wash., and will remain here. W. W. Waters and family are also here. Last week was the hottest week known here for many years, the thermometer running from 95 to 100 degrees for several days in succession, but thus far the weather this week is pleasant. Brick Keeney, son of J. B. Keeney, fell from a horse-power, seriously injuring his head and neck. Erysipelas set in and, he died night before last, and was buried in the McLaughlin district.

Change of Time.

A change of time, it is said, will be made on the eastern division of the Oregon Pacific, beginning on August 5. Trains will leave here as they did last summer, in the afternoon, coming back in the morning, laying all night at Halstead. The same engineer will run from Yaquina to Halstead and back from Halstead to Yaquina the next day, the other train hands working as they do at present. The change is made to lighten up the work of the engineer, who has heretofore made the round trip run from Yaquina to this city and return. For the general public the change is not as acceptable as is the present time of running.

Down at the Seaside.

The Albany sojourners at Nye Creek, near Newport, if all accounts are true, are enjoying the seaside the next day, the other train hands working as they do at present. The change is made to lighten up the work of the engineer, who has heretofore made the round trip run from Yaquina to this city and return. For the general public the change is not as acceptable as is the present time of running.

COAST NOTES.

Interesting Items in Brief from Northwest Coast.

"Oregon on Wheels."

No decision has yet been reached by commissioners of the Board of Immigration as to who will take charge of the "Oregon on Wheels" on its Eastern tour. There are numerous applicants, but the board desire to obtain a man of education, ability and energy, who has a pleasing address and possesses the faculty of imparting to the thousands of inquirers who will be met such information as they may wish in regard to the resources and productions of the state.

A New Office.

"A postoffice is soon to be established at the Santiam mines and just now creation is being made for name for the new office. Why wouldn't Santiam be a good name for it?—Salem Statesman. One reason, why the above would not be a suitable name is that there is already a postoffice in Linn county that postmarks letters "Santiam."

Largely Attended.

The funeral of Peter Halpenny, who was killed by the runaway team near S. 10, was very largely attended at the Catholic church in this city yesterday. He was well known and highly esteemed by business men in this city.

Elegant Fashion Books.

The new Fashion Journal, "La Mode," "La Mode de Paris" and "Album des Modes," published by A. McDevell & Co., 4 West 14th Street, New York, are the most elegant of their kind ever brought to our notice. The styles are drawn by the best artists; and the books are produced by rival houses in Paris, each trying to excel the other in the character of its publications. Formerly they were printed only in French; but they are now published in English for the use of American readers. The journals furnish the styles one month in advance of any similar publications; and they have a practical department, in which the lessons are given each month on how to make dresses, etc. The admirable fashions, the lessons in dressmaking, and the giving of the styles one month earlier than heretofore are strong points in favor of the best artists; and the books are produced by rival houses in Paris, each trying to excel the other in the character of its publications.

Notice to Water Consumers.

Water is being wasted to such an extent and so unnecessarily that we are obliged to enforce a strict observance of the regulations in regard to hours for sprinkling, viz: From 5 to 9 a. m. and from 6 to 10 o'clock p. m., and to caution all users of water to guard against leaks from faucets or other fixtures. The continuing to run of water through closets, other fixtures, or permitting hose streams or sprinklers to run all night, will be deemed sufficient cause for shutting the water off from the premises where allowed without further notice. Albany, Or., July 18, 1891. A. C. W. T. & L. Co. WALLACE BALDWIN, Cashier.

Persecution or Prosecution.

The Hon. George Hermann, of Roseburg, and E. C. Kane, of Ashland, were recently subpoenaed as witnesses before the army court martial at Washington city which is handling Lieutenant Swift over the coals on a charge of not repaying money borrowed on the strength of his official position while in Southern Oregon and at other stations. The Jackson will have to stand up for the witness managed to take in the citizens of Ashland to the tune of about \$6000 while he was making his brief but brilliant sojourn there, and if he has done equally as well elsewhere he ought to have money enough stored away to purchase immunity from prosecution.

Albany's Fire Department.

The Portland Dispatch says: No city on the Pacific coast is better situated for fighting fire than Albany. Our fire apparatus is good. We have horses for night work. The water works are in good condition, the cisterns are well filled. Our firemen are efficient. In 10 years the annual loss by fire in Albany has not averaged over \$1000, perhaps \$1000 in all. During that time probably \$200,000 in premiums have been paid out. This is unequal. Under the circumstances the city is entitled to a reduction of rates. Albany should be in No. 2 book, and the restaters are invited to consider the fact.

A Long Ride.

The Prineville News, of last Saturday has the following: A messenger came to town yesterday morning for a doctor to treat Mrs. Dess of Buck creek, who is said to be ill with typhoid fever. A distance of 120 miles was covered by the messenger, who came in twelve hours. The trip was made on horseback, with a change of horses five times, the last twenty miles being covered in one hour and thirty-five minutes.

Five O'Clock Tea.

At the residence of Mrs. E. F. Sox Thursday evening a very pleasant 5 o'clock tea was given a few friends. Those present were: Mrs. F. P. Nutting, Mrs. Kate Protzman, of Portland; Mrs. Chas. Watson, of Shelburne; Mrs. G. H. Stewart, Mrs. Henrietta Brown, Mrs. Kate Burkhardt, Mrs. S. E. Young, Miss Sarah Althouse, Miss Lib Irvine.

Removed.

P. J. LaPorte has removed his shoe shop from near L. Viereck's barber shop to the building adjoining Brown's barber shop, opposite the Russ house, where he is prepared to do work in a first-class manner. He invites his customers to continue their patronage at his new quarters.

Bail in July.

On Thursday evening, after an extremely hot day, thermometer making 102°, a full thunder storm peppered the streets with a liberal supply of hail stones; the storm passed off in a short time, but left the air most agreeably cool. Hail in July is something unusual for the Willamette valley—Brownsville Times.

Myrtle Creek Gold.

Engineer Guard: Dr. L. W. Brown returned Thursday from the Myrtle Creek mines, with a portion of the clean up made this week. It amounted to 57½ ounces of gold which is worth at the mint about \$18 per ounce, and the same was deposited in the First National Bank.
