A MYSTERY EXPLAINED.

The papers contain frequent notices of rich, pretty and educated girls eloping with negroes, tramps and coachmen. The well-known specialist, Dr. Franklyn Miles' says all such girls are more or less hysterical, nervous, very impulsive, unbalanced; usually subject to headache, neuralgia, sleeplessness, immoderate crying or laughing. These show a weak nervous system for which there is no remedy equal to Restorative Nervine. SCIO AND SALEM WILL PLAY.

Articles Incorporating the Coos Bay Stone Company Filed—The Asylum's New Superintendent.

SALEM, August 1.—Articles incorporating the Coos Bay Stone company were filed to-day with the secretary of state. Incorporators: C. W. Tower, H. A. Moss, F. J. Sliter. Capital stock, $2,000. Principal place of business, Marshfield.

The hop louse question continues to be an exciting one. Those who have visited yards in this part of the county find the pest in all of them. In some yards they are very thick, while in others there are only a few. Spraying is being carried on in only a portion of the yards. Without the lice there would be a big crop, but the indications now are that the yield will not be over medium.

Dr. L. L Rowland took charge of the asylum this morning as superintendent, Dr. Harry Lane having retired after filling the position for five years.

There is going to be a big crowd at the ball game here to-morrow. The Scio boys have lots of friends here, a good many Salemites being old Scionians.

As a result of stirring up the elements over the recent fire scare, the city council is advertising for twenty-five new fire hydrants.

SHROUDED IN MYSTERY.

After Many Years a Murderer Confesses His Crime.

ALPENA, Mich., Aug. 1.—Word has just reached here from Rogers City, Presque Isle county, of the unraveling of a sixteen-year-old mystery by a confession. Albert Moliter was then treasurer of Presque Isle county, and was called the king of the county. One night he, in company with Edward Sullivan, his bookkeeper, was in the office when the windowglass was shattered by a bullet and both fell dead. The crime was a mystery until to-day. William Repke confessed to participating in the murder, and in the confession implicates a number of prominent citizens of Rogers City, among whom are August Goslin, Carl Vogler, August Forest, Ferd. Brude, Henry Jacobs, Gottlieb Lambert, Herman Menzi, Charles Wesselgert and August Thurman, all of them well known. The crime was committed August 12, 1875, and Repke says he confessed because bad luck has followed him in the past few years, his children dying and his sleep being broken, his property burning, all on account of the crime.

A NOVEL RACE.

With Five Contestants and Will Last Four Months

SAN FRANCISCO, Aug. 1—What promises to be an interesting race begins to-day, when the ships Shenandoah and S. P. Carlton, both wooden vessels, and the Strathearn and Balkamah, iron ships, will go to sea. Yesterday the iron ship Port Stanleo went out, making no less than five vessels in the race. Of this number all but the Strathearn are bound to Havre, while the latter is bound to Queenstown. The twenty-four hours start gained by the Port Stanley is a small matter in a race that will last at least four moths. Quite a number of bets have been made on 'change on the result. and in every instance the Strothearn has been the favorite in spite of the statement that her bottom is far from clean.

Death of a Newspaper Man.

OAKLAND, August 1.—Derrick A. January died suddenly yesterday afternoon of paralysis of the heart. Deceased had been drinking heavily lately, and his sudden death was thus probably produced. He was 25 years of age and from St. Louis, where his parents are wealthy, his father having been a banker of that city. For several years he has been engaged in newspaper work on this coast, having been employed at different times on the San Francisco, Tacoma, Seattle and San Diego papers.

A PERSISTENT WOOER.

He Succeeds in Being Snubbed by an English Princess.

LONDON, August 1.—It is said the Prince of Naples has been badly snubbed by the Princess Maud of Wales, to whom he took the opportunity, on his visit to England. Maud is rather the prettiest of all the prince's three daughters, and has sweet and engaging manners. The meeting with Naples, however, was the first time that she had been brought nearer than a mere introduction to the Italian, and her emphatic way of repelling his polite approaches is said to have been amusing to the select party present on the occasion. Naples evidently felt it deeply. It was not the first time he has been been snubbed by the royal Teutons. About a year ago he went courting the young Princess Marguerite, sister of the kaiser. The kaiser himself was not unwilling, but Marguerite evinced from the first an insuperable repugnance for the youth, and would have nothing to do with him. She was sustained by her mother, the Empress Frederick, who is devoted to Marguerite. Where the Italian will get his next snub is as yet uncertain, but the indications are that he will have to seek a wife among the royalties of Southern Europe. The North has given him very chilling treatment.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest.

The Gold Beach Gazette says this has been the greatest fishing season ever known on Rogue river. The catch has been immense.

Dr. L. W. Brown, of Eugene, returned Thursday from the Myrtle Creek mines, with a portion of the clean up made this week. It amounted to 60⅜ ounces of gold, which is worth at the mint about $18 per ounce.

At a meeting of the directors of the Lake County Agricultural Association, held July 17, 1891, it was decided to hold a county fair for three days beginning September 30, 1891, and continuing through October 1 and 2.

Eugene has become tired of drinking Willamette river slop and will sink wells for a supply of pure cold water. The Guard says: "The water taken directly from the river is often discolored.

Probably Coming in September.

It has been announced that Sells Bros'. circus has made an exclusive contract with the Southern Pacific railroad company to carry their circus over the lines of the company to the exclusion of any other circus this season; that the management of the Forepaugh circus sent a man to the San Francisco headquarters of the railroad company to make arrangements for transportation after the contracts with Sells Bros. was entered into; that he went there and demanded transportation, saying the Forepaugh people would enforce their rights from the company as common carriers; that he was told by the railroad management that he had come a long way to instruct them as to their legal obligations; that the Southern Pacific was a common carrier and was ready to enter into a contract at once to carry the circus—at local rates from town to town—amounting to about $13,000 a day, as much as any circus can take in. The Forepaugh circus will come to Portland, but could not, it has been said, come up the Willamette valley. The state railroad commissioners are looking into the matter. They don't exactly understand how the Sells circus can be given an "exclusive" rate by the Southern Pacific. The interstate laws, if not the state laws, will admit of no such discrimination, and it is quite probable that Forepaugh will visit Albany in September as announced. The law is to the effect that a railroad company shall not charge any person more for similar and contemporaneous service than it charges another.

LONGSTREET WINS

The Famous Swayback Tenny Beaten Twelve Lengths.

IT WAS AN EXCITING RACE.

Betting Was Slightly in Favor of Tenny—25,000 People Witness the Greatest Race of the Season.

MORRIS PARK, Aug. 1.—The great Tenny-Longstreet race has been won and lost. Fully 25,000 people witnessed the struggle for supremacy. The horses were in splendid condition and run the race of their lives.

A more perfect day could not have been made. The sunshine was tempered with a pleasant breeze and the track was made perfect by unceasing work since yesterday. There was very little choice in betting, but there seemed to be a slight lean toward Tenny, but each found plenty of backers in the hotel and theater lobbies and clubs last night. Several wagers were made of $500 to $400 on Tenny. On the other hand, a Western man who had seen Longstreet perform at Jerome Thursday, bet $1000 to $900 he would be the first under the wire to-day. At the track this morning Tenny was slightly the favorite with bookmakers; odds being, Tenny, 3 to 5; Longstreet, 4 to 5.

The gongs sounded for the struggle and the crowd surged to the best point of view—hanging over the railing that divides the betting ring from the track, all excited, almost breathless to see the start.

"They are off," passed along the line. Longstreet came down the homestretch twelve lengths ahead and 10,000 voices simultaneously shouted, "Tenny is beaten." The riders were, Longstreet, Hamlin, and Tenny, Barnes. Each jockey rode at 126 pounds.

THE SAN DOMINGO TREATY

A New Market Opened Up for American Products.

WASHINGTON, Aug. 1.—The president to-day issued a proclamation announcing reciprocity with San Domingo under the tariff act of last October, which, with a view to securing reciprocal trade, exempted from duty sugars, molasses, coffee and hides imported into the United States. By this treaty the following articles manufactured in the United States will be admitted free of duty in the Dominician republic after September 1, 1891: Live animals, meats of all kinds, excepting smoked; corn, cornmeal and starch, oats, barley, rye and buckwheat and flour, hay, bran and straw, trees, plants, vines and seeds, cotton-seed oil, meal cake, pitch tar, turpentine and rosin, coal, mineral waters, ice machines, mining machinery, agricultural implements, railway material, wrought and cast iron and steel in pigs, bars, rods, beams, etc., and wire nails, screws and pipe, zinc and lead and roofing material, copper and lead pipe, brick, cement lime, stone, marble and paving tiles, fence wire, telegraph wire and apparatus, wood and lumber of all kinds, material for ship building, school furniture, books, pamphlets, printed matter for newspapers, inks, gold and silver coin and bullion.

The proclamation closes with a promulgation of the acts, and is signed by the president, and William A. Wharton, acting secretary of state.

Wheat Crop of Kansas.

KANSAS CITY, Aug. 1.—The wheat circulars of the national farmer's alliance, advising the holding back of grain for higher prices, have just been received in Kansas, and stories of obedience of farmers in thisstate are decidedly premature. If the circulars are to have effect there is not yet time for them to habe accomplished anything. There is undoubtedly a disposition among farmers who are in a position to do so to hold wheat, but nearly all of them are in pressing need of money. and there are enough of these to harvest wheat as fast as it can be moved by the railroads, and if the grain is not moved fast the railroads are to blame. The large yield this year has had the effect of stimulating farmers to put in a large acreage, and next year the wheat area will be greatly in excess of this, especially in Western Kansas.

Chinese Attacking Foreigners.

LONDON, August 1.—Dispatches from Foo Chow, China, state that rioting is imminent. The town is wholly unprotected. Placards with notices threatening foreigners have been posted in the public thoroughfares. It is reported the mission building at Yen Pinge, province of Foo Kien, has been attacked by a Chinese mob and several inmates killed.

Chinese Ironclads Coming.

SAN FRANCISCO, Aug. 1.—It is stated a fleet of three Chinese ironclads, under Admiral Ling are now at Yokohama, and will visit San Francisco before long.

Are Now Hunting Otter.

SAN FRANCISCO, Aug.—Since the sealers have been driven out of the Behring sea, many of them have turned their attention to otter hunting. Quite a number of the American and British Columbia sealers are now in the Japan sea, according to private advices just received, and others are on their way. It now appears that the Japan sea is also to be closed against them. Advices state that the Japanese government purposes sending a man-of-war to drive out all foreign schooners hunting without permission of the Japanese goverement,

California Wheat Shipments.

SAN FRANCISCO, August 1.—Stocks of wheat in all the call board warehouses on August 1 aggregate over 30,000 tons as against 74,000 tons August 1, 1890. The total sales of wheat on call during the month of July amounted to 116,000 tons. The American ship cleared for Havre yesterday with the largest cargo of wheat on record, 112,000 centals.

LISBON, Aug. 1.—The new Balmacedan war vessel President Errazuriz sailed for Chili to-day, having apparently found her complement of men by some secret means. It is supposed that previous to making this port yesterday she made, arrangements to take on board outside the harbor the additional men and stores wanted, and for this purpose anchored off shore shortly after leaving the river.

A Colored Family Poisoned.

JEFFERSONVILLE, Ind., August 1.—A colored family named Parker, at Memphis, a small town near here, were poisoned this morning by drinking out of a well in which a white powder was found. It is believed by every one of the family that some enemy attempted its extermination. All are in a dangerous condition.

Eight Hour Law in Omaha.

OMAHA, August 1.—The eight hour law, passed by the last legislature, went into effect to-day. Employing job printers of this city refused to comply with it this morning and locked out all of their employes.

Will Attack the Chilian Cuiser.

LISBON, Aug. 1.—The Journal del Commercio to-day states that it is reported a congressional cruiser with torpedoes is cruising off the coast of Portugal, awaiting an opportunity to attack the President Errazuriz.

The President Catching Crabs.

CAPE MAY POINT, August 1.—President and Mrs. Harrison and several friends this morning went crabbing. The best part of the day was spent in the water.

The Pope Saved It.
