DISCONTENTED EASTERNERS.

A Chat With Mr. E. W. Langdon About Immigration to Oregon.

Mr. and Mrs. E. W. Langdon and little daughter Gracie returned from an extended trip to the Eastern states Sunday evening. Mrs. C. C. Crandall, who has been visiting in New York, joined them at St. Paul last Thursday and accompanied them home. Mrs. Langdon and Mrs. Crandall left here April 15 and Mr. Langdon about four weeks ago. Mrs. Langdon spent several weeks in Indiana and Ohio, visiting relatives, and later, joined Mr. Langdon at the home of his parents in Algona, Iowa. There occurred a reunion of the Langdon family, being the first time in twenty years that they were all together. Mr. and Mrs. Langdon, Sr., and their daughter, Miss Ella, will be remembered very pleasantly by many in Albany, they having visited here.

In speaking yesterday with a Herald reporter of his trip, Mr. Langdon said that traveling at this time of year isn't what it is cracked up to be. He went East via the Canadian Pacific, and enjoyed himself immensely owing to the beautiful scenery and pleasant weather. Returning, however, it was so hot and dusty that the picturesque route of the Northern Pacific proved anything but interesting, although the run from St. Paul to Portland was made in a little more than three days.

The middle states, particularly Iowa, Mr. Langdon believes, present a more thrifty and prosperous appearance than they did a few years ago. This year crops are proving abundant and every one is confident of a good winter.

But notwithstanding this fact thousands of residents are looking toward the Pacific coast, and Oregon is generally the objective point. Continued reports of Oregon's wonderful farms, grain fields, and timber lands where the soil under the giant trees is as rich as that in the more favored valleys, has proved a powerful lodestone to draw marked attention from all quarters. Although no effort has been made financially to make known the varied resources of Oregon, and compared with other western states there has been a remarkable dearth of advertising matter scattered among the discontented Easterners, every one appears to be posted to a noticeable degree, the Willamette valley, of course, appearing to be the most attractive.

Mr. Langdon and the other members of his party appear unburned and hearty as if the heated period in the tropical East agreed with them. All are glad to be home again, and are more than ever satisfied with Oregon and Albany. Coming Home in May. The following self-explanatory letter has been handed us for publication: VINELAND, N. J., July 27, 1891. Mrs. S. A. Chamberlain, of Women's Home Missionary Society, Albany, Oregon: DEAR MADAM:—I was pleased to get your letter and enclosure of \$25 for Lizzie McNeil, of Cape Palmas, Liberia. I have to report that the money is on the way and will reach her in September. Latest news from the sister tells us she is about as poorly as before going to Madiera, and she will likely come home with the bishop in May next. I have lately sent her money that will tend to lighten her burdens. I would like to print all her letter, or letters, but the people can't bear all the truth. I know your money is going to one of the best missionaries and will be used unselfishly. Your brother, C. E. WELSH, Editor of the African.

Shot and Killed.

A dispatch was received by T. M. Munkers, of Munkers station, yesterday stating that Dan Christian, a brother of A. B. Christian, of Linn county, and a brother-in-law of Mr. Munkers, who was on the police force at Silver City, Idaho, had been shot and killed. No particulars were given. Mr. Christian was well known in this county, having lived here for years and was highly esteemed.

To Advertise Linn County.

Mr. R. F. Ashby, who is now in Portland, has made a proposition to the Board of Trade to distribute free of charge advertising matter for Albany and Linn county and act as general immigration agent in the metropolis. All he asks is for the Board of Trade to furnish the printed matter. Mr. Ashby is a rustler, and could do the city and county much good.

Delinquent Tax Notice.

School taxes are now delinquent. The clerk is making out the delinquent list which will be in the hands of the sheriff as soon as completed. Those who have not paid, had better do so before costs of collection are added. Last notice.

A Burning Treatle.

The overland train last evening was half an hour late, owing to fire which was burning brightly in the ill-fated Lake Lash trestle. The train was flagged and stopped. All hands helped to put out the fire and the train crossed safely.

New Delivery.

Deranger will take your order for all kinds of meats at your house or at his shop and deliver them promptly free of charge, as he has his own wagon. Leave your orders at the shop as early as possible.

The Sodaville Railroad.

The property owners of Lebanon have offered for the Sodaville railroad the right of way and terminal facilities asked for. The road will be built this fall.

ANOTHER BRIDGE ACCIDENT.

A Wagon and Team Precipitated Through an Unsafe Bridge Above Scio.

Another serious accident took place at the bridge crossing Thomas creek above Scio Saturday. It will be remembered that Mr. Miller and his team fell from the giving way of this bridge, falling to the bottom of the creek, a distance of over 25 feet.

This time Mr. Chapman of Scio was hauling lumber with a team of mules, having on his wagon about 1000 feet of lumber. Not feeling secure about the bridge he sent his son across the bridge first with orders to wait for the team on the other side, and then sent the team over by themselves, staying on the other bank until they had crossed. When the team reached the center of the bridge it went down with them, completely demolishing the structure, smashing the wagon and injuring the mules so seriously that one of them had to be killed to get it out of misery. The bridge will not be repaired this time, it being too much of a wreck.

In the matter of bridges we are informed that the first bridge above Scio on Thomas creek is in an unsafe condition and if not repaired at once is liable to go down. Also it is said that the bridge across Rock creek below King's prairie that was built last summer is in a bad condition and will not look after will fall down.

THOS. MONTEITH, P. M.

Jumped from the Train.

Yesterday morning as the north bound local train passed the depot, preparatory to backing up on the east side switch, a young man named Vaughn from Eugene, thought it at the train was going to stop and jumped off upon the platform while the cars were still moving rapidly. He was thrown violently upon the hard boards and almost rolled under the wheels as the train whizzed past. The engine stops to take in water just before reaching the station, and his supposition that the train was pulling out for Portland was not unnatural, if he did not hear the brakeman's announcement, "Twenty minutes for dinner." He was not seriously hurt.

Nearly A Wreck.

The north-bound Roseburg mail yesterday collided with a freight train, and tore a large hole in the rear coach of the passenger. The freight was on a side track at Wilbur and attempted to back out before the other train had cleared the track, and the result was as above stated. The passengers were pretty badly frightened and women screamed and ran for the car doors.

Notice to Water Consumers.

Water is being wasted to such an extent and so unnecessarily that we are obliged to enforce a strict observance of the rule in regard to hours for sprinkling, viz: From 5 to 9 A. M. and from 6 to 10 o'clock P. M., and to caution all users of water to guard against leaks from faucets or other fixtures. The continuous running of water through closets or other fixtures, or permitting hose streams or sprinklers to run all night, will be deemed sufficient cause for shutting the water off from premises where allowed without further notice. Albany, Or., July 18, 1891. A. C. W. T. & L. Co. WALLACE BALDWIN, Cashier.

The Scios and Salems.

The game of base ball at Salem Sunday between the Salem and Scio nines resulted in a score of 31 to 6 in favor of the capital city nine. It was a good game for about five innings. In the tenth the scores stood 3 to 4 in favor of Salem. Ralph Gill, catcher for the Scio team, made a home run on the Salem giants. In the sixth inning Scio's pitcher gave out and the runs were then piled up by the Salems in a reckless manner.

OREGON CROPS.

Harvesting Operations Progressing Favorably—The Yield was Never Better.

The Crop-Weather Bulletin of the Oregon weather bureau for the week ending August 1st, issued by Mr. Pague, observator, says: The week has been warm, though there has been an absence of excessively warm days. The maximum temperature ranged from 80 to 90 degrees; the minimum temperature ranged from 55 to 65 degrees. The winds have been generally northerly and of light velocity. On the 30th a few drops of rain fell, in sections sufficient to lay the dust. The weather has been generally cloudless, with light smoke appearing. Fall will be nearly all cut and stacked. Threshers will begin operations next week. Reports all indicate that the fall wheat was never better both as to quality and quantity. Spring wheat is being cut in places. Root crops in Douglas county has seriously affected spring wheat. Spring oats are being cut in places; some early oats are being delivered and a report from Corvallis says that it weighs 100 pounds to the sack. Some young orchards were injured by the extreme heat of the 23d. All reports indicate that the 23d was the warmest day on record. Hop lice have developed rapidly in the past 10 days and serious results are feared from them. The codlin moth's ravages continue. Southern Oregon fruit is better than that of the valley countries, i. e., more plentiful and more free from insects. In Curry county 5 and 6 tons of clover hay to the acre was secured; timothy hay averaged 3 to the acre.

In Eastern Oregon the warm weather has continued and no rain is reported since the 23d. The maximum temperature ranged from 85 to 100 degrees, the minimum temperature ranged from 60 to 70 degrees. Few clouds have been seen, and smoke is appearing in the atmosphere. The weather conditions have been favorable to the wheat harvest which is in full operation. As was expected the wheat has never been better, both as to quantity and quality, than in the counties which in the past have been generally poor and this year is no exception. Sherman county has an extra good crop, larger than ever before. Morrow, Gilliam, Sherman, and Wasco counties will ship about 1,300,000 bushels of wheat, last year these counties shipped 900,000 bushels. Umatilla, Wallawa and Baker counties have fine prospects, in these counties harvest is later than in the previous mentioned counties. Throughout this section the hay crop is the largest on record.
