THEY MUST BE PAID

The Oregon Pacific Trouble Assuming Serious Proportions. CANNOT WORK WITHOUT MONEY. Unless the Employers are Paid They Will Quit Work—A Tie up Threatened—Something Must be Done.

The trouble between the Oregon Pacific Railroad Co. and its employees, on account of the non-payment of the men, is assuming serious proportions. About two weeks ago a committee of employees waited upon manager W. M. Hoag, at Corvallis, and explained to him that they could not work any longer without pay, the company being six months behind in the payment of all its employees. Mr. Hoag promised to do all in his power to pay the men by August 1st or August 2nd at farthest. Mr. Hoag, however, has gone to San Francisco, the 3d of August is past, and the men have received no money. A meeting of employees at Yaquina was held there Monday evening, and yesterday Conducted Tway, came to this city as a committee for the meeting to act with a committee from the employees in Albany and on the eastward division. Their purpose is to procure legal advice and ascertain if their wages can be collected by law, which will be done to-day. Judge M. L. Pipes, before whom the matter would regularly come has left Corvallis and gone to Chicago to be gone several weeks. The employees stated to a HERALD reporter that in the meantime the men will use every honorable means to collect their wages and if they cannot, they will simply quit work, which would mean the stopping of trains and traffic over the entire length of the road. The men are as quiet, courteous and faithful employees as ever worked on any railroad. The trouble is they have simply worked as long as they can without money. Some of them have spent all the money they possess, and they have all agreed to act together. It will not be a strike, for there is no dissatisfaction to occasion a strike. They simply cannot work any longer without pay. Their claim should certainly come first and they should be paid. This is a matter which deeply affects Albany. This city has always aided and encouraged the Oregon Pacific railroad in every way, and is interested in its success and extension eastward, but the people also sympathize with the men and want to see them paid. Merchants have not hesitated to extend credit to the men, but the latter do not want to ask it indefinitely when they have the money due them. Something must be done, and that promptly. The car is earning money to pay its employees and the men are certainly entitled to it, and can collect it, the trouble being the delay attending a legal process and the danger of a tie up on the road, which would be a condition of things to be greatly deplored.

IMPORTANT TO FARMERS.

Samples of Grains, Grasses, Fruits and Other Linn County Products Wanted. The attention of the farmers of Linn county is directed to the fact that on September the 1st the Oregon Board of Immigration will send a car through all the eastern states to advertise Oregon. This car will be laden with the very best samples of grains, grasses, fruits, vegetables, etc., that can be obtained throughout the different counties of the state. Linn county has secured a certain space in the car which it is desired to fill with the very best samples of grains, grasses, both in the sheaf and also threshed, so that it can be put in jars. The samples in the sheaf should be selected from the best grain, and it is desired to have the straw full length of the same if possible. All fruits should be carefully selected and not bruised any. Those in charge of the undertaking ask the farmers to lend a helping hand in this matter and if they have any fruits, grains or grasses that would make nice samples to bring them in as soon as convenient or notify where they can be obtained and they will come after them. All samples should be brought to Burkhart & Keeney's real estate office, or word left there where the same will be attended to at once.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest. The salmon pack on the Columbia river is expected to be 50,000 cases short of last year. The wheat crop of Eastern Oregon and Washington is estimated at 20,000,000 bushels for the present year, against 20,000,000 last season. There is every reason to believe that the growing of hops could be made a success in this county. A number of these vines have been planted by the resident of this town and the vines in most instances have a wonderful growth.—Ochoco Review. Mr. Meyer, the wholesale cigar manufacturer is here at work. Part of his stock is already here and he has sent for men to work in the shop. One comes from Albany, Or., one from Portland and two from Pendleton. His wife and children will also arrive in a few days. Mr. Meyer will buy a residence here and make Weston his future home.—Weston Leader. A daily paper called the Morning Glory made its appearance at Lynden last week. The Arlington Times tells the late of the new venture: "One morning this week the paper went to glory—a result naturally to a town whose council gives all its advertising patronage to the side of a barn." A big waterspout occurred last week on Little Butte creek. It started at the upper Day ranch and swept down the stream, washing out all the bridges as far as Butte creek, and a large quantity of hay. All the stock men along the creek, are losers to a more or less extent. Probably 200 tons of hay was carried away by the resistless rush of water. Luckily, no loss of life occurred. The Medford distillery people talk of working up the small peaches of next year's crop into peach brandy. This will make a market for culls which are usually a dead loss. Within a few months it is expected that the first single rail and saddle-truck railroad will be built in Oregon. About \$60,000 has been subscribed in the construction company, the preliminaries are being carried forward with a vim, and work on the first location has been commenced at Portland. Mr. Mahana is confident that the trial of his new railroad system will result in complete success, and certain it is that the invention commends itself to everyone to whom its workings have been explained.—East Oregonian. The biggest excitement on the north side last week was caused by a big whale over 150 feet long that drifted ashore and died near Tioga last Thursday. It created a good deal of interest and will create a good deal of trade as the weeks go by. Along about the 20th, if the wind holds fair, the folks in that vicinity will think some one has started an oil factory.—Astoria. Gram's Unrivaled Atlas. The new edition of this unrivaled work is now being delivered by the agent, Mrs. A. M. Tait. The work is a most excellent one, and this edition is a great improvement upon former ones, giving all the latest data and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing O. Box No. 69 Albany Oregon.
