Do you know that Moore's Bile Beans is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure? Those Bile Beans just received some of the finest lozenges ever brought to Albany, and he is selling them at a close margin.

Palmer Elected

HE IS COMMANDER-IN-CHIEF OF THE G. A. R.

Only Two Ballots Were Necessary

Pensioners Asked for Soldiers Who Were in Rebel Prisons.

DETROIT, Aug. 6.—To-day closes the business session of the G. A. R. reunion, but even now the veterans are leaving the city. No less than eight national organizations are in session or have adjourned, and the encampment in its many innovations certainly has been the greatest success of any preceding one. A sensation was created by the address of the president of the National Association of Union Prisoners of the war, E. H. Williams, of Indiana. Referring to the treatment accorded ex-prisoners, the president said: "As an organization, and in view of the great and peculiar hardships and sufferings endured as prisoners, we believe special compensation due us for a number of years bills have been presented in congress looking to such measures as we felt due us, but so far all appeals have availed us nothing. For twenty-five years our government has never to much as given us a vote of thanks for the sacrifice made." This portion of the president's address was formally approved by the association. Among the reports of committees made is one embodying a bill to be presented at the next session of congress on behalf of soldiers who were in prison for a period of not less than sixty days or more, providing they shall receive \$2 for every day of their confinement from the government.

Stephen M. Long, of East Orange, N. J., was elected president. A society known as "Comrades of the Battlefield," which includes the blue and the gray, met and effected a national organization by the election of Major-General Dilton, of St. Louis, president. The association will hold its next meeting in Chicago.

Immediately after the meeting of the encampment this morning, the election of commander-in-chief was declared the first business. It was announced that New York had united on Colonel John Palmer for commander-in-chief, but Colonel Weisner's friends relied on the encampment going to Washington, and thereby insure victory for a candidate from the West. When the time finally came for nomination, the names of Weisner, of Wisconsin; Smedburg, of California; Hurst, of Ohio; Palmer, of New York and Lincoln, of Washington, were presented. Hurst withdrew in favor of Palmer and the first ballot resulted as follows: Palmer 322, Smedburg 177, Weisner 270. Smedburg then withdrew and the second ballot resulted in the election of Palmer.

A FATAL DISASTER.

Twelve Men Killed Instantly in a Railway Accident.

OTHERS FATALY INJURED.

The Wreck Took Fire, Adding to the Sense of Horror—It Was Caused by the Conductor's Carelessness.

SYRACUSE, N. Y., August 6.—This morning a freight train on the West Shore railroad, going west, broke in two between Port Byron and Montezuma, and a fast train following crashed into the rear end. A brakeman who went back toward the passenger train was killed. Eleven Italians were killed, and practically the question of the illustration of the daily newspapers in a way to afford information to all who are interested in journalism. Asent the local scandal, Gen. Adam Badeau of Grant's staff, who was afterwards secretary of Legation in London and saw much of the English aristocracy, writes an article on "Gambling in High Life." "The Cuckoo," by Pelham Clinton, is another article which will please those who take an interest in the great country houses of England. Thomas A. Janvier, who is always delighted with his pen, gives a quaint sketch of the old dual town of Uzes. To those interested in education, President Gilman of the Johns Hopkins furnishes food for thought in an article on the "Southern university." The cartoons which have been made of Bismarck, furnish a subject for Murat Halstead, reproduction of many of the most noted cartoons, illustrating the paper. There are articles by Pelham Clinton, with instantaneous photographs, and one on the Court Justices of England, by Miss Esther Singleton, who is making a reputation as a graceful writer, besides the usual departments by Edward Everett Hale, Brander Mathews, etc.

Of the eleven Italians injured, four will probably die. They were in the smoking car of the St. Louis express, which crashed into the freight train. Twelve cars of the freight train were wrecked and piled up on the track, completely blocking the road. Hardly a whole piece of timber is left in the wreckage. The wreck took fire and the passenger train was burned, with the exception of three sleeping cars. The train was made up of two express cars, baggage and smoking car, a day coach and four sleeping cars. J. J. Sullivan, of this city, was on the train. He was in the car behind the smoker. Regarding the accident, he said: "The freight train which crashed into the passenger train was running on the passenger train time. When the crash came, the scene was terrible. The smoking car was smashed to splinters, and the shrieks of the wounded and the groans of the wrecked were heartrending. The accident occurred at three o'clock. When I left the dead and wounded were scattered about on the ground inside the tracks, and the surviving passengers were doing all they could for the relief of the wounded. The victims, so far as I could see, were all men who were in the smoking car. Some of the passengers in sleeping cars were injured."

A STAGE ROBBER.

Two Highwaymen Hold Up Stage in California.

REDDING, August 6.—Tuesday evening, when the outgoing Redding and Big Valley stage was about three miles from town, it was stopped by two highwaymen. The robbers demanded the express box, from which they secured about \$50. The one passenger on board was robbed of \$12 and a silver watch. The stage then proceeded, and no news was brought to town until the next morning by the returning stage. The express box was smashed, but the mail bags were not touched, showing that the robbers were new at the business. Nothing has been heard of them yet.

FOUGHT LIKE A TIGER.

A Drunken Finn's Fiendish Resistance of Arrest.

FORT BRAGG, Cal., August 6.—In a drunken fight among Russian Finns at the Oleone site camp last night, Charles August seriously stabbed another Finn. City Marshal White and Constable Golden went out to arrest August, when he attacked the officers with a hewing ax twelve inches wide, nearly severing the constable's hand and cutting White's hat on his head. The marshal then shot August in the arm and mouth, after which he submitted to arrest and was brought to this place.

AMSTERDAM, August 6.—A new cabinet has been formed, with Tienhaven as premier and minister of the interior; Tak, minister of commerce and industry; Smidt, minister of justice; Cruicker, minister of the colonies, and Pierson, minister of finance.

THE PEOPLE'S PARTY

A PERMANENT ORGANIZATION EFFECTED.

A Synopsis of the Platform—It Has Some Sensible as Well as Unreasonable Features.

SPRINGFIELD, O., Aug. 6.—At the people's convention to-day permanent organization was effected by the election of Hugh Cavanaugh as chairman. The report of the committee on resolutions was presented and adopted. The platform demands that taxation—national, state or municipal—shall not be used to build up one interest or class at the expense of another. The abolition of national banks as a bank tenure and as a substitute for national bank notes is demanded, and that full legal tender currency notes be issued in sufficient volume to conduct the business of the country on a cash basis. The payment of all bonds of the government instead of extending them in such money as is originally made payable in; the government ownership of all the means of transportation and communication, and liberal pensions to union soldiers is favored. A woman suffrage plank is included in the platform. The platform favors government loans directly to the individual; it favors the free coinage of silver, opposes the alien ownership of land, and demands that congress devise means to obtain all the land already owned by foreign syndicates; it also demands that all lands held by railroads and other corporations in excess of what is actually needed, be reclaimed by the government and held for actual settlers only. It demands a graduated income tax; demands the enactment and rigid enforcement of laws for the suppression of all forms of gambling, lotteries, and a strict enforcement of the laws against adulteration of food products. The election of United States senators by popular vote is favored. The platform also demands the forfeiture by the Standard Oil Company of its charter. A resolution was adopted favoring government or state control of the sale, manufacture, importation and exportation of spirituous liquors as a recommendation to the national convention, as a solution of the liquor problem. A number of nominations of candidates for governor were made and recess taken until 1 o'clock.
