The Toledo Coal Company have procured the necessary drills and tools to thoroughly work the coal mine, and are pushing the work in earnest.

Mr. John Waters and family have returned to their old home in Brownville, after a sojourn of a few years in the sound country near Seattle.

The largest core wheel ever made in Oregon is being cast by the Albany Iron Works for the Salem Water Company. It will be completed by the first of the week.

We are informed that Mr. and Mrs. P. H. Wigle, of the Lynton House, Harrisburg, have decided to make Brownville their home, and will probably erect a hotel there.

The way the sign painters connected with the Leak advertising car painting and decorate large surfaces with really artistic lettering is a caution, and usually attracts large audiences as well as does the car itself.

Mr. Peter Hume, who has been a leading Linn county citizen and Brownville business man, now living in Roseburg, came in this week with his family. His wife and children are at Sodaville. He was in the city yesterday on his way to Yamhill county to visit relatives.

The Play To-night. This evening there will be presented at the opera house Newton Beers' lyric spectacular production of "Lost in London." It has achieved success the past three seasons, solely through giving a meritorious performance that all classes of theatre-goers can appreciate. The play is a simple story of woman's weakness and a man's devotion told in good English with an easily defined plot. It gives, however, a faithful picture of English north country life. The special features introduced are strong and original, making the entertainment doubly interesting and attractive. The special scenery of this production will be placed on the stage as advertised, and a thoroughly satisfactory entertainment is guaranteed.

GOVERNMENT SURVEY.

How it is Progressing up the Santiam, and Other Items.

ROCK CREEK, Aug. 7. The government surveyors are working on township lines on the south side of the Santiam river. They are in range 4 add 5, township 10.

There is strong prospect of a sawmill being put up at Minto on the O. P.

Harvesting is well under way here. Con. Miller has purchased a self-binder to cut his large crop on King's prairie.

Postmaster Robertson is better. T. Henness and family have gone to the top of one of our highest mountains to rusticate.

Kimnor has it that Mr. Wiggs has sold out and contemplates moving to Albany.

The Henness brothers talk of prospecting in Eastern Oregon.

Huckleberry picking is the rage at present.

If signs do not fall workmen on the O. P. R. R. will on arriving at this place about "change cars for Quartzville." I am of the opinion that inside of ten years there will be a large city at that place with a branch railroad running there.

Several persons who visited these parts last year from Indiana are coming back.

The hop crops of Hester and Turnridge promise well.

Mrs. Lamson has purchased a house of Mr. Foster.

It is astonishing the amount of land is held by filing on it, by men who do not live in it nor do they intend to do so.

E. S. Barzee has discovered a large potato mine on Potato Hill. Capitalists may do well to invest in it.

Hesselman & Barzee shipped a large amount of strawberries and blackberries this season.

Harvey Ward's happy shout is heard all over the land as he peddles beef to all.

The Stratton Times published the story that four people were suspected in the case of the lost man Tucker. Persons giving vent to such assertions should consider that they are stepping on dangerous ground and are liable to be called on for proof. Those men accused undoubtedly are innocent. They are among our best citizens, and none believe such trash that know them.

How They Do It. Over on the Sinalaw they climb the tall fire trees to shoot the bear. At least that is what the "West" says about it. This is the way it relates the incident: "It must certainly be a very large bear or an exceedingly brave one that will 'tree' three full grown men, and all these men armed with shooting implements. Such is the story Messrs. Kimball, Stevens and Koefoed told on themselves upon their return from an exploring tour in the mountains one day this week. The story would probably not have leaked out had not the trio been more or less maimed in their mad scramble for the topmost branch of a giant fir tree. When they were once seated at a safe distance from bruin they began firing and after seventy-three shots had been fired his bearship laid down and died."

The Wheat Field. The harvest has progressed far enough to demonstrate that the yield will be fully up to expectation. On Hon S. A. Dawson's farm, whose threshing has been completed, the yield will over run 30 bushels to the acre. Mr. Shaw on Mr. Strader Froman's farm has also finished the fall wheat crop, and reports a 30 bushel yield. The presence of wild oats in wheat is reported to be more than usual, and it is said that the weight will probably not average as high as last year. That already delivered goes about 61 or 62 pounds to the bushel. The crop is a good one, however, all around.

About Fire Insurance. There seems to be an error in the statement that only foreign insurance companies lost in the recent Lebanon fire, for one of Julius Gradwohl's companies, the Oakland Home, paid Wednesday to Mr. Bach, the full value of his loss in that company to his entire satisfaction, which seems to be the usual custom of Mr. Gradwohl's companies to pay promptly their full losses as soon as they occur. Therefore if you want to insure your property well go to Mr. Gradwohl, who represents six No. 1 insurance companies with a capital of a hundred million dollars.

Coal On The Bay. Yaquina Post: The Toledo Coal Co., has been vigorously driving a tunnel this week through the hard rock to reach their 8-foot—the lower—ledge. Reaching the 8-foot, they will then be under four ledges of coal, measuring a total of nineteen and a half feet, perpendicular, of coal, great beds of black diamonds that apparently stretch out longitudinally all through the flat-topped mountain, which hides millions of tons of the best of fuel. The company hopes to be prepared to shovel out hundreds of tons daily of prime coal next month.

What Cupid is Doing. Two marriage licenses were granted by the county clerk, breaking the ice of serenity that has prevailed in that department for about two weeks. William M. Downing and Emma E. Clark, J. A. Elliott and Anna Minnie have decided to go through the walks of life together. To offset, three divorce suits were entered on the docket for the October term.

COAST NOTES.

Interesting Items in Brief from Northwest Exchanges.

The Coos Bay News says that parties living in the neighborhood of North slough are killing spotted fawns. This is against the law, and people doing so are subject to arrest.

Some fine yields of grain are reported from Yamhill county, in the vicinity of Dayton, where the threshing machines have been at work for several days. Smith Stevens succeeded in getting 3600 bushels of a 100 acre field, the average being thirty-six bushels to the acre. John Campbell's field averaged thirty-seven bushels, and that of Neil Verstat thirty-eight bushels to the acre. Reports of big yields from Marion county wheat fields have not yet commenced to come in, the harvest having been a few days later here.

Last week while Chas. Becker was returning from Baker City the conductor asked him for his ticket, whereupon he said he had given it to him, but the conductor said not and Becker insisted yes. So the conductor stopped the train and put him off, for which he asks the road to pay him \$20,000. The conductor's story may differ from Becker's. The "Mailheur cattle king" afterwards found that he still had a ticket in his pocket, and that the conductor simply treated him in a customary manner. He can hardly recover damages under the circumstances.

Harman Larsen killed one of the largest bears ever seen in these parts on Hynes slough, last week. The bear had been killing hogs in that neighborhood, and when overtaken showed fight. Harman shot him several times and then had to climb a tree to keep out of his way, the animal showing a disposition to fight to a finish at close range. He finally got a bullet in the right place and bruin's days were numbered. When skinning him he found three old bullet wounds in the carcass, and part of one foot was off, as if the animal had been caught in a steel trap a long time before. The hide is nearly as big as that of an ox.—Coos Bay News.

Tariff On Woolen Goods. In a report dated New York, May 8th, Mr. Consul-General Booker thus refers to the effect of the McKinley Tariff upon the United States worsted and woolen industries: "The worsted goods industry has been marked by fresh life, since the Tariff has to a great extent cut off the importation of the lowest grades of such goods. All the old factories have started up, and are making goods on safe orders; and new mills are being erected by European and British capitalists with a view to manufacturing a finer class of dress goods, &c., than ever before has been produced in this country. The woolen goods industry, apart from ladies' clothes, does not show any perceptible signs of improvement, but keeps on a slow, steady gait, apart from carpetings and woolen underwear. Both of the latter industries have been unusually busy during the last six months at fairly profitable prices."—London Economist, July 11.

A Deep Sea Port. Astorian: Captain Sewell, of the American ship Solitaire, who crossed in from sea at 11 o'clock yesterday morning, reports finding thirty feet of water in the shallowest part. The captain of the schooner Norma, when he came in yesterday, crossed right over where Peacock spit used to be, and found 25 feet of water. A high tide there is from 24 to 28 feet of water, according to the height of the tide; at lowest low tide 27 feet in the shallowest places. The Columbia river bar is abolished. It has ceased to be. The port of Astoria is as much of a deep water port as any seaport in the United States.

\$500.00 Prize for the Best Short Story. We have read with much pleasure Brains, a semi-monthly journal for literary folk, published at Mendocino, Pa., by the United Publishing Co. It is devoted to practical literary details, aims to help the writer and has such eminent contributors as Albion W. Tourgee, Julian Hawthorne and Thomas Wentworth Higginson. The publishers are offering a prize of five hundred dollars for the best short story submitted to them before December 1. They make it a requirement that all competitors be subscribers to the paper, and will forward sample copy and rules upon request.

Getting Involved. Theodore Tennyson, a young druggist has left Tacoma and is now en route to Minneapolis. He is about \$800 in debt here, principally to personal friends, but he has written a letter from Portland stating that he would make good all his accounts on reaching Minneapolis. About two years ago Tennyson realized handsomely on some real estate investments and cleared up from \$12,000 to \$14,000. His fortune was spent in gambling. He was married seven months ago and sold out his drug business Saturday to one of his wife's relatives.

The Rains. The remarkable continuance of rains at this time of year has raised considerable alarm, for fear that the crop of wheat would be injured. Nearly every day during the week there has been some rain and on several occasions copious showers. However, no material damage has been done yet, and if the bounteous supply shut off with the present week, there will be no special damage, with the exception of delayed work.

Serious Accusation. In her application for divorce from her husband, Mrs. Arthur N. Miller, of Puyallup, alleges that she believes him to be worth \$100,000. They were married about six years ago, and she asks to be permitted to resume her former name, Kate Vandusen. In addition to alleging private iniquities, she accuses Miller of driving her father, the late Dr. Shouery, who committed suicide a few weeks ago by swallowing poison, from the house, and on the night that he suicided allowed him to lie all night in the front yard. She says that Miller refused to allow her to leave the house without his permission. Both were previously married.

Change of Time. The following notice regarding a change of time on the Oregon Pacific has been received. Commencing with August 5th, the Oregon Pacific trains, east of Albany, will run on the following time; No. 1, leaves Albany, going east, at 12:40 p. m., arriving at Halstead at 3 p. m. No. 2, leaves Halstead at 7 a. m., arriving at Albany at 9:40 a. m. On Wednesday and Saturday of each week, this train will run through to Coe, arriving there at 4:05 p. m., and leaving there at 2:10 p. m., arriving at Halstead at 5 p. m., where it will lie over night, leaving for Albany at 7 next morning. This is an advantageous arrangement for nearly every one who desire to reach this section of the country, starting north, south or west of Albany, as they are not compelled to lie over one day. Albany, O. P. Co. enables parties living on the line east of Albany to come there and transact banking or other business, and return home the same day.
