PROTECT OUR BREAD.

The machinery of the law has not been put to work too speedily against the fraudulent use of ammonia and alum in Baking Powders. Both health and the pocket of the people are demanding protection. The legislatures of New York, Illinois and Minnesota have taken this matter of adulteration up, and especially that of Baking Powders. It will be in the interest of public health when their sale is made a misdemeanor in every State in the UNION, and the penalties of the law are rigidly enforced. There is no article of human food more wickedly adulterated than that of Baking Powder.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder having a general sale that is free from ammonia, alum or taint of any kind of impurity. It makes the sweetest and lightest bread, biscuit and cake that are perfectly digestible whether hot or cold. It costs more to manufacture Dr. Price's than any other baking powder. It is superior to every other known and the standard for forty years.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

Notice to Water Consumers.

Water is being wasted to such an extent and so unnecessarily that we are obliged to enforce a strict observance of the rule in regard to hours for sprinkling, viz: From 5 to 9 a. m. and from 6 to 10 o'clock p. m., and to caution all users of water to guard against leaks from faucets or other fixtures. The continuous running of water through closets or other fixtures, or permitting hose streams or sprinklers to run all night, will be deemed sufficient cause for shutting the water off from premises where allowed without further notice.

TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure? This, Brink has just received some of the finest lozenges ever brought to Albany, and he is selling them at a close margin.

SPECIMEN CASES.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and Rheumatism, his stomach was disordered, his Liver was affected to an alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Salve, and his leg is sound, and well. John Speaker, Catawba, N. C., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Foshy & Mason, Drug Store.

MILK'S NERVE & LIVER PILLS.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Dr. Miles' Pills specify cure biliousness, bad taste, torpid liver, piles, constipation (unequalled for men, women, children, smallest, mildest, surest) 50 doses for 25 cents. Samples, etc., at Standard & Casick.

Cakes of all varieties, fancy and plain at the Delmonico restaurant.

THE PILGRIM AND STAGE.

Rev. F. M. Shurt, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My Lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and an sound and well, gaining 26 lbs. in weight."

REMARKABLE RESCUE.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold, which settled on her lungs; she was treated for a month by a famous physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefited. She continued to use it until she was cured. Her bottles, found herself sound and well, now does her own housework and is as well as ever. Free trial bottle of this great Discovery at Foshy & Mason's Drug Store, large bottles 50c. and \$1.00.

SPLENDID DANGERS.

Scarcely a day passes without the news of some large failure resulting from the wires—the usual result of speculation in stocks or some equally dangerous investment. Many of our present carries to dear distant friends the sad tidings of death of loved ones—too often the result of speculation in stocks or some equally dangerous investment. Many of our present carries to dear distant friends the sad tidings of death of loved ones—too often the result of speculation in stocks or some equally dangerous investment. Many of our present carries to dear distant friends the sad tidings of death of loved ones—too often the result of speculation in stocks or some equally dangerous investment.

That hacking cough can be quickly cured by Shiloh's Cure.

We guarantee it. Sold by Foshy & Mason.

The Celebrated French CURE

Warranted to cure APHORODITE, or money refunded.

the generative organs of either sex whether arising from the excessive use of stimulants, tobacco or opium, or the neglect of medical advice, over indulgence, etc., such as loss of Brain Power, Wakefulness, Bearing Down, Loss of Power and impotence which if neglected often lead to premature old age and insanity. THE APHORODITE MEDICINE CO. Western Branch, Box 27, Portland, Oregon. For sale by Foshy & Mason, who solicit and dispense, Albany, Oregon.

ASYLUM RECRUITS

Contract Let for the New Asylum Farm Buildings.

SALEM WATER POWER

New President of Willamette University—Funeral of the Oldest Old Fellow—Freight Reductions.

SALEM, Or., Aug. 11.—The latest arrivals at the asylum are H. H. Wolfe, from Bandon; C. C. Shepard, from Eugene, and Silvestre Ligonier, from Astoria.

The board of asylum commissioners, at a meeting to-day, awarded the contract for the construction of a farm house, cow barn and horse barn on the asylum farm to E. F. Hutchins for \$14,870.

Water was turned into the Santiam ditch last night and arrived here in force this morning, being of sufficient head to turn all the wheels of the machinery. Since the repairs to the race are completed, the race carries much more water.

Geo. Whitaker D. D., the Willamette University's new president, arrived this morning with his family. He has had an active experience of 26 years in the pulpit, and comes highly recommended as a fine teacher and able divine.

The funeral of Father Henry Armstrong, the old old fellow, will be conducted by the lodges here to-morrow afternoon.

The board of railroad commissioners, at a meeting to-day, adopted a rate of ten per cent. of the Southern Pacific company's rate on grain on all of that company's lines in Oregon. There will be a reduction on green fruit, vegetables, live stock and lumber, to go into effect September 1.

FISHERIES BUSINESS.

The Poachers Have to Scramble Out of Alaska Waters.

WASHINGTON, August 11.—The navy department has received, under date of Omatkaska, Alaska, July 11th, a long letter from Commander Cotton, of the United States steamer Mohican, commanding the United States naval force in Behring sea. He says in part: "Commander Turner, of her majesty's ship Napier, has adopted a rate of ten per cent. of the Southern Pacific company's rate on grain on all of that company's lines in Oregon. There will be a reduction on green fruit, vegetables, live stock and lumber, to go into effect September 1."

Commander Turner, of her majesty's ship Napier, has adopted a rate of ten per cent. of the Southern Pacific company's rate on grain on all of that company's lines in Oregon. There will be a reduction on green fruit, vegetables, live stock and lumber, to go into effect September 1."

NEWS CONFIRMED

The Steamship City of Panama Was Detained.

STARTED WITHOUT PERMIT

That Was the Excuse for Stopping Her—The Real Cause Was That Some Refugees Were on Board

NEW YORK, Aug. 11.—The report that the Pacific Mail steamship City of Panama had been detained by the authorities of San Salvador at La Libertad was confirmed last night by Superintendent H. J. Bulley, of the Pacific Mail company. "We received a dispatch this morning from Captain White of the City of Panama," said Mr. Bulley, "which gives us very meager information, and has evidently been through the hands of the San Salvador authorities. We gather from the dispatch, however, that there are some political refugees aboard the City of Panama, either citizens of Guatemala or San Salvador, whom the San Salvador government wanted to get hold of. The City of Panama left La Union on August 5 without the regular permit of clearance papers. Captain White had waited long after the allotted time for his papers, and so he started off without them, as is often done in special cases and in case of stress of weather and the like. Our steamships cannot afford to be delayed at one of the Central American ports over time. We have a contract with these Central American republics to carry their mails, and if our ships are held in one place the other countries suffer. When Captain White got to La Libertad, another demand was made for the refugees, apparently, and then the vessel was seized. Whether it was on account of the failure to give up the refugees or on account of Captain White's leaving La Union without a permit, does not appear. At last account the United States war vessel Kiger was at La Libertad, and although she is not a dangerous craft, I think she will answer the purpose in the case of the San Salvadorians if necessary. We will probably have more definite information from Captain White in a day or two."

Trying to Destroy Grasshoppers.

SAN FRANCISCO, August 11.—Alfred Koebel, who introduced the Australian ladybug into California which proved so beneficial in the destruction of injurious fruit pests, will sail on the Australia to-day for the Southern seas in search of a parasite that will destroy the grasshopper pest of this and other states of the union. He goes as special authorized agent of the department of agriculture and of the state board of horticulture. A minute parasite has been discovered in Australia which is claimed to have destroyed innumerable bands of the devastating grasshopper. A test will be made with these parasites in this country.

The Charleston Going to China.

NEW YORK, Aug. 11.—A Washington special says orders were issued to-day for the Charleston to prepare to sail for Shanghai. This means she will leave San Francisco Tuesday or Wednesday. She will go via Honolulu, and her immediate destination is not reported she will continue on her journey, which, it is intimated, can be completed in fifteen or eighteen days. This will bring her into Shanghai during the first week in September, when it is expected that one of the Chinese students should occur, and her services be most needed.

A Woman Burned to Death.

LARIMORE, N. D., Aug. 11.—At Grosveol Larimore county, sixteen miles north of here, Sunday night, Mrs. Herman Boelter was burned to death, her shanty evidently having been fired. The barn was also burned separately from the house. Will Elm Boelter, her father-in-law, is missing, and it is thought he may be in the ruins of the barn. It is believed Wilhelm set fire to the dwelling after filling his daughter-in-law, and has taken his own life.

Safe From an Invasion.

LONDON, Aug. 11.—The Swiss government has nearly completed the work of fortifying Mount St. Gothard, thereby making it impossible for a hostile force to descend into Switzerland from that quarter. This renders the country secure against invasion at a point which has heretofore been vulnerable, and an army endeavoring to pass through the gaps of the mountains would be exposed to an exterminating fire.

DRESS REFORM

Kate Field's Ideas on the Proposed Scheme. Miss Kate Field, when asked what she thought about the proposed Chautauqua dress reform for women, said that she hardly knew what the Chautauqua people were driving at. "There is one thing sure," Miss Field said, "the projected change in woman's dress won't be carried out unless the fashionable leaders say so and set the example, no matter how much the reform is agitated at Chautauqua or anywhere else. Take shop girls, who perhaps as a class are the silliest of business women. They certainly need the free use of all their muscles, but do you think that they would adopt any dress but a conventional one? "The reform, as I understand it is more particularly for professional and business women, but they are by no means heedless of fashion. But the fact remains that our dress naturally and by the prevailing styles hampers us. We all know that our own girls' waists are too loose and too scant." "Would you do away with corsets to make a beginning of the reform?" "Oh, no; that could never be with the present fashion-makers. Why, the leading dressmaker will not make a garment for a customer unless she wears a corset, and they dictate just the kind of a corset she shall wear, too. If these women reformers propose a sort of enervating bathing suit for a walking dress—well, all I can say is that I have seen some very pretty bathing suits."

TOO SHARP FOR THEM.

Tried to Catch Him With Decoy Letters but Failed. OMAHA, Aug. 11.—Three thousand dollars in gold has been stolen from the Merchants National bank and the thief has not yet been apprehended or definitely located. It is a mysterious case, that has been causing the Merchants National bank no end of trouble. Suspicion fell upon Paul Tate, a young bookkeeper, who has been working for the bank, and it was only a few days after the loss of the money that young Tate informed the bank officers that he was going to leave, their employment, having secured a better salary. His resignation was accepted and he left the city. A detective found that Tate had not gone where he had announced. A year or so ago he met a young lady from San Francisco, who was visiting in Omaha with the family of a prominent banker, and fell in love with her. He has been corresponding with the young lady since her return home. This fact came to the knowledge of the detective and he at once began to lay a trap into which the young man might be led by his affections. Decoy letters were sent inviting him to California, and a nice little scheme fixed up for the young man's benefit, but it has not worked as yet.

THE CRUEL SEA RELENTS

And Yields Up the Bodies of the Victims. PORTLAND, August 11.—A telegram received by Postmaster Steele this morning brought the news that the body of his adopted son, Will Steele, had been washed ashore. The body was recovered on the beach near where the fatal accident occurred. The remains will be brought up this evening on the boat for interment.

ASTORIA, August 11.—The body of Mr. Jennie M. Parker, who was drowned at Clatsop yesterday, was found at 10:30 this morning on the rocks that jut out from the shore below the cove at the Seaside house, over a mile from where she sank from sight yesterday afternoon. The drowned woman's husband had kept up a ceaseless patrol of the beach as long as daylight lasted yesterday, and began his search again at daylight this morning. He was rewarded by finding at that watery mortal a beloved wife of more than ordinary worth. The remains were brought to this city.

Charged With Robbery.

PORTLAND, August 11.—Henry Liebe, the young highwayman, who knocked Antoine Anderson senseless and rifled his pockets of several dollars on Third, between E and G streets, will be examined in the police court to-morrow on the charge of robbery. Liebe and Anderson are intimate friends but the former needed money to pay his gambling debts and got it in the manner described. He committed the robbery Monday night but was not caught until yesterday afternoon when Detectives Barry and Griffin surprised him in a bowling alley on Third, between E and G streets. His bail was fixed at \$1000.

Demand of Decency and Humanity.

Lewiston (Idaho) Teller: It is inhuman and disgraceful not to have women accessible to women in the station houses, hospitals, poor houses and insane asylums. Decency, humanity and science concur in demanding that this natural right of misery shall be respected. So long as politics only controls county appointments to places of patronage, decency, humanity and science have little chance of recognition. Just received at the Ladies Bazaar The "Sensation" the latest novelty in hats. If you are hungry go to Parker Bros. and get a loaf of the best bread in the city. New and complete stock of spectacles and eye glasses just received at F. M. French's. Every pair fitted by John's Patent eye-meter, every pair fully warranted to fit.

University of Oregon

—AT EUGENE.

Next session begins on Monday, the 21st, day of September, 1891; tuition free. Four Courses: Classical, Scientific, Literary, and a short English course, in which there is no Latin, Greek, French or German. The English is pre-eminently a business course. For catalogues or other information, Address J. W. JOYSON, President.
