Tailoring & Repairing.

Men's and Boys' clothing made to order or cleaned and repaired on short notice and reasonable rates.

Shop on the street car line, between Third and Fourth streets.

PROTECT OUR BREAD.

The machinery of the law has not been put to work too speedily against the fraudulent use of ammonia and alum in Baking Powders. Both health and the pocket of the people are demanding protection. The legislatures of New York, Illinois and Minnesota have taken this matter of adulteration up, and especially that of Baking Powders. It will be in the interest of public health when their sale is made a misdemeanor in every State in the UNION, and the penalties of the law are rigidly enforced. There is no article of human food more wickedly adulterated than that of Baking Powder.

Dr. Price's Cream Baking Powder is the only pure cream of tartar powder having a general sale that is free from ammonia, alum or taint of any kind of impurity. It makes the sweetest and lightest bread, biscuit and cake that are perfectly digestible whether hot or cold. It costs more to manufacture Dr. Price's than any other baking powder. It is superior to every other known and the standard for forty years.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

Notice to Water Consumers.

Water is being wasted to such an extent and so unnecessarily that we are obliged to enforce a strict observance of the rule in regard to hours for sprinkling, viz: From 5 to 9 A. M. and from 6 to 10 o'clock P. M., and to caution all users of water to guard against leaks from faucets or other fixtures. The continuous running of water through closets or other fixtures, or permitting hose streams or sprinklers to run all night, will be deemed sufficient cause for shutting the water off from premises where allowed without further notice.

Albany, Or., July 18, 1891.
A. C. W. T. & L. Co.
WALLACE BALDWIN,
Cashier.

TO GOOD TEMPLARS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit $1,000 for any case of dyspepsia it will not cure?

Thos. Brink has just received some of the finest lounges ever brought to Albany, and he is selling them at a close margin.

SPECIMEN CASES.

S. H. Clifford, New Cassel, Wis., was troubled with Neuralgia and and Rheumatism, his stomach was disordered, his Liver was affected to and alarming degree, appetite fell away, and he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Salve, and his leg is sound and well. John Speaker, Catawba, O., had five large Fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold by Foshay & Mason, Drug store.

MILES NERVE & LIVER PILLS.

Act on a new principle—regulating the liver, stomach and bowels through the nerves. A new discovery. Anything and everything in large assortment and endless variety.

GOODS FOR SUMMER WEAR!
Latest Styles! High Novelties! Ladies, Misses & Children's.

G. W. SIMPSON,

FIRST STREET, ALBANY, OREGON.

THE PULPIT AND STAGE.

Rev. F. M. Shrout, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My Lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it.' Free trial bottes at Foshay & Mason, Drug Store. Regular sizes 50c. and $1 00.

REMARKABLE RESCUE.

Mrs Michael Curtain, Plainfield, Ill, makes the statement that she caught cold, which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from the first dose. She continued its use and after taking ten bottles, found herself sound and well, now does her own housework and is as well as she was.—Free trial bottle of this great Discovery at Foshay & Mason's Drug Store, large bottles 50c, and $1 00.

SPECULATION DANGERQUS.

Scarcely a day passes without the news of some large failure flashing over the wires—the usual result of speculation in stocks or some equally dangerous venture. The same electric current carries to dear distant friend the sad tidings of death of loved ones—too often the result of speculation in patent nostrums. Moore's Revealed Remedy is no speculation but is sold on positive guarantee. Do not fail to go to your druggist and ask for your money if not satisfied. We known you will go and buy another bottle. For sale by all druggists.

That hacking cough can be so quickly cured by Shiloh's Cure. We guarantee it. Sold by Foshay & Mason.

The Celebrated French CURE

Warranted to cure "APHRODITINE" or money refunded

Price $1 a box; 6 boxes for $5,00 Sent by mail on receipt of price.

A WRITTEN GUARANTEE is given with every $5 order received, to refund the money if a Permanent cure is not effected. We have thousands of testimonials from old and young, of both sexes, who have been permanently cured by the use of Aphroditine Circular free. Address

THE APHRO MEDICINE CO.
Western Branch, Box, 27, Portland, Oregon.
For sale by Foshay & Mason, who esale and retail druggists, Albany, Oregon.

SURGICAL OPERATION

Mrs. Lowry, of Jackson, and Ira Adams are Subjects.

THE REQUISITION ACCEPTED.

Governor Pennoyer Makes no Objection to Letting McDougal Go to North Carolina.

SALEM, August 14.—Mrs. Lowry, of Jackson county, for a long time a sufferer from injuries sustained in a fall, to-day had her leg amputated just above the knee.

The hand of Ira Adams, who accidentally shot himself at Turner yesterday, was also amputated here to-day, that member being taken off about the middle of the wrist.

Governor Pennoyer to day issued a warrant for the arrest, upon a requisition from Governor Holt, of North Carolina, for D. A. McDougal, for the crime of murder. McDougal is now under arrest at Albany and will be returned at once to North Carolina for trial.

UMATILLA AGENCY.

Southern Pacific Engine Burned at Salem.

SALEM, August 14.—J. W. Crawford, recently appointed agent of the Umatilla Indian reservation at Pendleton, is in receipt of his commission from the department, and leaves for the agency Sunday to take charge of affairs.

The Southern Pacific had quite an expensive fire here this morning. Engine No. 351 was disabled at the Labish trestle last night, and when brought to Salem at 1 o'clock was on fire. It was put under the tank and flooded and at 5 o'clock this morning fire broke out again and the engine burned. The cab and jacketing were all burned and a good deal of the tender.

WATERLOO IMPROVEMENT.

A Company Formed to Improve the Falls.

SALEM, Aug. 14.—The Waterloo Development Company to-day filed articles of incorporation with the secretary of state. The principal office is Waterloo, after January 1, next, and before then, at Albany. Capital stock, seventy thousand dollars. Incorporators, E. C. Montague, J. O. Writsman, W. C. Davis. Object of the company is to develop Waterloo water power.

A BIG GAME.

Four Legged Chips up Into Thousands.

The game began at Texarkana. It was the oddest one of the biggest poker games ever played. It was early in the fall last year when four big ranchmen who owned between them thousands of acres and ten of thousands of cattle in Texas met at the terminus of the Iron Mountain road.

They were bound for Chicago, where they intended to sell their cattle, and as the wealthiest of the great Southwest often do, they perferred to make the journey in the caboose of a stock train.

The value of the clips was stated in unusual terms, a white standing for a steer, a red chip for five steers and a blue for ten steers.

From Texarkana to St. Louis the players, luck was about even, although 100 hands were played in that time. But when they struck the Alton and entered the homestretch for Chicago the contest grew fiercer, and at about every third hand the betting ran high.

Luck turned in one of the players' favor—the man who had least rocks, by the way—and when the multiplying lights on the prairie showed that the train was nearing Chicago the game ended.

The other three men had lost every chip they had, had borrowed again and again with the same result. And when the winner counted up he found he had won 40,000 head of cattle belonging to the other three men in the game, or in dollars close upon $250,000.

An Italian Queen Bee.

O. H. Cobb has received from the east a pure Italian queen bee says the Polk county Itemizer. It came in a box containing a cake of sugar for her queenship to feast upon en route. Over the box is a wire gauze. He will place the whole concern in a hive and let the bees gradually get acquainted with their new queen through the netting. The cake of sugar is so placed that they can by degrees eat it up and then gain access to the queen. She will this fall lay several thousand eggs, from which there will in three weeks come so many pure Italian bees. It will interest anybody to study beeology.

Making Rain to Order.

A dispatch from Midland, Texas, says that the United States Department of Agriculture rainfall expedition has so far made two successful experiments. One of the party in an interview said today: "On Saturday and Monday a preliminary trial of part of the rain-making apparatus was had and about ten hours after the explosion heavy clouds gathered and rain fell over many miles of surface. We do not think that the explosions actually produced the storm, but they were undoubtedly instrumental in precipitating the moisture which the clouds brought to that locality and greatly increased the intensity of the storm. The amount of precipitation was greatest in the vicinity of the operation. We will continue to make tests as to the density of the atmosphere, so the bombs may be adapted to meet every possible condition. When sufficiently satisfactory upon these and similar points a decisive experiment will be made." The rain to day was the first good rain in this vicinity for several months.

THE WAR IN CHILE.

Former Reports Denied—The True Status of the Case.

LONDON, Aug. 14.—Cable dispatches from Balmacedan sources in Santiago de Chile have been received here denying the reports that fighting had taken place between the government troops and the insurgent forces at Valparaiso and Coquimbo. August 31, according to these dispatches, the government torpedo boat Almirante Condell attacked the congressional party's cruiser Esmeralda and a number of transports at Caldera. A number of torpedoes were discharged from the Almirante Condell, but as the attack was made at night, and as it was very dark, the results were not known. None of the rebel vessels have since been seen near the provinces held by President Balmaceda. The dispatches further state that reports as to strained relations between Chile and Bolivia, growing out of the latter's recognition of the insurgents as belligerents, are untrue, and that the stories of cruel punishments inflicted by the government are pure inventions.

PANAMA, Aug. 6.—Late Chile mail advices from the southeast bring but little news of interest from the seat of war. There has been slight fighting on land, which in one case resulted in the congressional forces capturing a colonel, and on the other hand, their forces were driven out of Vallenar and that town recaptured for Balmaceda.

A dispatch from Iquique says that the congressional steam transport Mateo brought a large supply of munitions of war, including seventy-five Krupp guns of different calibers and 12,000 magazine rifles, with a plentiful supply of ammunition. It is not known where they were embarked.

El Nacional, the congressional organ, came out with a scathing article against United States Minister Egan, who, in a letter addressed to the Iquique junta, expressed the opinion that it is impossible for them to overthrow Balmaceda. This incident, along with the Itata business, has caused a bitter feeling against the United States.

WELL THRASHED.

That was What Happened to a Bridegroom Expectant.

A report from Marshalltown, Iowa, says that one of the most sensational domestic episodes that city has ever known for years occurred recently. Dr. Rosa Upson, secretary of the State Pharmaceutical Association, has a daughter by a former marriage, Ella Martin. A young blacksmith named George Brock has been keeping company with a girl for about a year clandestinely, owing to her mother's opposition, and they were engaged to be married.

Last night Brock went with a hack to the Upson domicile to get the girl and effects. Mr. and Mrs. Upson assaulted Brock, got him down on the floor of the hall, and while her big lord held him Mrs. Upson beat him terribly over the head with a buggy whip, badly disfiguring his countenance. Brock managed to blacken Upson's eyes and both were covered with blood. Mrs. Upson then walked the streets, wailing like one crazy searching for her daughter, who had slipped away during the encounter.

Mr. and Mrs. Upson were arrested at 1 o'clock this morning and gave bonds for futher hearing to-morrow. Brock is a son of Claud H. Brock, clerk of the Senate of the last General Assembly.

It Should Have Been Done Before.

The subscription started by G. Wingate at Clatsop beach last Monday is to place two tin bouys, secured by mushroom anchors, 400 feet apart at the line of extreme low tide. Lines are to be run from the buoys with a sufficient number of floats on them. Between the side lines others will be run from shore 50 feet apart, to the outer line. On the shore will be a reel containing 1000 feet of line with a belt attached to the end, that can be placed about the body of any person who is sent out among the breakers to assist in rescuing any bather in danger. Within the life lines thus described the bathers will be supposed to go in, and always be within easy access of good swimmers. If the swimmer is unable to return he will be pulled in by those on shore.—Astoria Talk.

CHURCH AND STATE

The Old Question Likely to Be Received in England.

THE CLERGY ARE ALARMED

Clergymen Who Have Been Convicted of Infamous Crimes Still Serving in the Pulpits.

LONDON, Aug. 14.—The Church of England clergy are much alarmed by the evident anxiety of the radical faction of liberals to make disestablishment an issue in future elections. The government and clergy are surprised at the strength of the opposition in the closing hours of parliament to the clergy discipline bill, and this opposition is now reflected and reinforced in the non-conformist and liberal gatherings throughout the country. This measure was intended to make it easy for bishops to get rid of a minister who has been guilty of a degrading crime.

At present a clergyman convicted of an offense that may utterly destroy his usefulness, and serving in prison under sentence, can still remain rector of a parish and instances of the kind have been witnessed. While the church and government have desired to put an end to this scandal, the radicals have refused to agree to the measure, preferring apparently that the church should suffer dishonor in order to make the public disgusted with the spectacle and anxious for disestablishment. At present there are several disgraced clergymen who have served time in the treadmill, in charge of English pulpits, and they cannot be got rid of under the existing law. The non-conformist bodies also oppose the free education act for a similar reason; they believe it gives too much authority to the clergy and their schools, and that it would tend to strengthen the hold of the church upon the people. Meantime the clergy are not inactive and preparations are being made to carry on an aggressive campaign in behalf of the church at the next general election, before which it is believed that parliament will have an opportunity to pass the discipline bill.

A NOTED EMBEZZLER.

He Is to Be Released From Prison but Will Be Rearrested.

PEORIA, Ill., Aug. 14.—J. Finley Hake, Peoria's noted forger, was released from Joliet penitentiary to-day, but the Merchant's National bank, of this city, has caused warrants to be issued for his rearrest. The Hake case has become one of world-wide renown, from the fact that it was through it that extradition treaties between the United States and Canada were established. When Hake embezzled $250,000 from the Merchants' National bank he escaped to Montreal, where every effort was made to keep him. The proceedings in the Canadian courts from the justice of the peace to the high court of the queen's bench, and it was finally ordered that Hake should be returned to the United States on a charge of forgery. There are yet nineteen other indictments hanging over him.

Were he charged with any other offense than forgery the prisoner would have to be returned to Canada, from whence he came, and there is some doubt at the present time whether this will not be the case anyway. If extradition papers signed by the Canadian government covers more than one case of forgery, then there will be no doubt whatever as to the jurisdiction of the United States over the defendant. There will be a hard legal fight before the status of the case is established.

Denmark Will Be at the Fair.

COPENHAGEN, Aug. 14.—Fred Peck, of the Chicago world's fair commission, has returned to Copenhagen. Peck had an interview with King Oscar at Gothenburg. Three hundred exhibitors at the Gothenburg exhibition have resolved to send exhibits to the Chicago fair. The king of Denmark gave a luncheon to the Chicago fair commissioners yesterday. The crown prince and all members of the cabinet were present. The king, in toasting the world's fair and delegates, said Demark would be largely represented at the fair.

Balmaceda's Arrogance of Power.

WASHINGTON, Aug. 14.—The Chilian congressional envoys at Washington have received advices from Chili which they say confirms their statements heretofore made that President Balmaceda had removed all the judges of the country and had appointed other persons to their places. The envoys say this action of Balmaceda is in direct defiance to the constitution of Chili, which provides that these judges shall be appointed for life, and shall be removed only after being found guilty of misdemeanor.

The Church is Now Angry.

LONDON, Aug. 14.—A Dublin letter says that the prelates propose to take some action in view of the repeated attacks by Timothy Harrington, member of parliament, on the church of Ireland. Mr. Harrington has of late been very bitter in his language, and has reflected on the motives as well as the conduct of the Irish clergy in opposing Parnell. He has also denounced the federation as a fraud, without solid organization, and practically maintained and managed by the clergy. All these and other similar assaults have at length provoked the Irish hierarchy beyond endurance, and Harrington will undoubted be called to account, both as a punishment for his own rashness, and as a warning to others.

FOOLISH GIRLS.

Marry In Haste and Will Have to Repent at Leisure.

ST. LOUIS, Aug. 14.—Two stage-struck girls, Misses Julia and Alice Bailey, have caused a great social sensation by eloping with and marrying two men in the theatrical line. The girls are sisters, and their father is John J. Bailey, chief bookkeeper for the Hoffett West Drug Company. The family is very well known. The father has been for years actuary for the mercantile and public school libraries. The girls are very handsome and have fine voices. They have often appeared in amateur theatricals, and both aspired to shine as professional stars. About the middle of July an opera company was organized in St. Louis by an Englishman named W. R. Williams, who, it is said, came to this city well provided with proper references. Among those whose services he succeeded in enlisting were the Bailey sisters. They knew their parents would object, so a scheme was fixed by which the girls pretended to be taking music lessons from Mr. Williams. The family home is in the extreme south end of the city, and the girls easily deceived their parents by pretending to visit friends up town, The company was organized and a tour arranged of small near-by Illinois towns. The parents thought their daughters were with some acquaintance in the city until they received a letter announcing that Miss Alice had married Williams, the manager of the enterprise, and Julia had married Harry B. Morgan, the tenor of the troupe. The father started after them, and to-night it is said that the girls will leave their husbands and return home with him. The weddings were duly and religiously solemnized by a minister in Flora, Ill. Williams is said to have brought good credentials with him but nobody seems to know where he comes from, except indefinitely from the East. Morgan seems to be unknown. Julia is 21 years old, and Alice is 19.

Does Not Believe In It.

SAN FRANCISCO, August 14.—Lieutenant Farley, signal officer, does not believe that the government rain-making party in Texas has yet demonstrated its ability to cause rain artificially in any instance. A series of barometic troughs have been forming on this coast and have been moving eastward ever since July 15, fringed with rain on both sides. On the dates of the experiments indicated by the rain-makers, rain would have fallen in Texas without fail if there had been no rain making machines in existence. He is carefully watching the weather maps and forecasts and reported progress of the experiment. When rain fell in Texas it also fell in showers over a wide area, covering thousands of square miles.

Freak of an Oakland Girl.

OAKLAND, Cal., Aug. 14.—A young woman walked into a newspaper office to-day and left a notice to the effect that Miss Minnie Frates, of North Oakland, would be married to James Fair, son of Senator Fair, at St. Ignatius' church in San Francisco, at 8 o'clock on the evening of August 15th. Inquiry was made and the girl found. She is acting as a nurse girl. She denied the story, and finally said it was her cousin who was to marry Fair. She is regarded as a victim of delusions. Several years ago she filled the newspapers and the public administrator with stories about a mythical estate which that official worked to recover for her till he found it had no existence except in her mind.

A Young King Badly Smitten.

LONDON, Aug. 14.—A Vienna dispatch says that amid all the gaiety of his reception in Austria, the young King Alexander, of Servia, did not forget the czar's daughter, Xenia, to whom he sent repeated telegrams, in care of the czarina, telling of his progress. The boy king seems to be deeply smitten with the young imperial beauty, and none of the array of young Austrian child princesses have been able to efface Xenia from his mind. There appears to be a rivalry between the Russian and Austrian courts as to who shall capture the youth, and with him royal influence in Servia. So far the Russians are ahead.

Paying for the Cruisers.

WASHINGTON, Aug.—The navy department has made the ninth payment, amounting to $53,880, on cruiser No. 6, now being built by the Union Iron Works at San Francisco.

Buy your gasoline stoves of Hopkins Bros.
