There was a pretty little trotting race out at the fair grounds track at Salem Friday between three horses now in training there says the Statesman. They were A. S. Beggs, "Dick Flaherty," Bright & Cox's "Rosemon," and George Good's "Thokydeeds." It was for the best two in three, and in the first heat only "Rosemon" and "Thokydeeds" were started. The former took the heat; time 2:55. In the second "Dick Flaherty" won the heat by a neck, over Good's pacer; time 2:45. The little trotter was shut out. Flaherty is a pretty good horse, having defeated Oneco, Glanier, and Maude Knox in three straight heats at City View. He was sired by Fearnaugh. Beggs issues a challenge to "Thokydeeds" for the best two in three, race to be on the fair grounds here early in September. A Cent a Mile to The World's Fair.

F. C. Vierling, a Chicago alderman, who passed through Portland Friday on his way to San Francisco, in speaking of the world's fair, said: "The committee is now working for a rate of 1 cent a mile over all the railroads for the round trip. That would bring your Oregon people to Chicago and carry you back again for \$25. Another thing we intend to do, and that is to bring the New Yorkers, who have so far done all the kicking, for between \$10 and \$15 the round trip. The main point we are aiming at now is to get the round trip rates down to 1 cent a mile." The thrashers on the farm of Obe. Green, near Lincoln, report some remarkable yields of grain. COAST NOTES.

Interesting Items in Brief From Northwest Exchanges.

Pendleton East-Oregonian: Tuesday night's east-bound train, No. 8, collided with a landslide near Unity, beyond Baker City. A huge mass of rock and earth descended upon the engine, knocking it from the track. Engineer Jacobson, a popular railroader, was well known in Pendleton, was thrown out of the cab and had a leg broken. The fireman and every one else on the train escaped unharmed. Just in front of the engine fell two or three large rocks, each about half the size of a coach, which would have demolished the train had they been heaped to strike it. The track is badly blocked and will not be cleared until some time to-morrow trains being compelled to transfer. No. 7 arrived at 2:55 o'clock, having on board Mr. Jacobson, who will be taken to Portland.

Ashland Tidings: Contractor Erickson, who has been at work filling in the railroad trench between Ashland and Wagner Creek, a distance of five miles, with a force of 100 men is about ready to rush operations. He is now putting up tents at Farham's field to increase his force of men to four hundred next Monday, when work commences on the big cut, which will do away with the dangerous curve around the bluff this side of the mines. This will move the track up the mountain some 60 feet farther. The cut will be about 300 feet long and about fifty feet deep and will require the removal of much dirt.

Robert Terry, the 10-year-old son of Mrs. J. L. Terry, living on Pine street met with an accident Monday afternoon, which came near blowing him into the kingdom come. While playing with two smaller children of the family he found a can of gun-powder which he took into the yard, placed some on a board, touched it off and commenced pouring the contents of the can on to his hands and knocked it high in the air and smashed it into a complete smash-up. The boy's face is a blister, his hair singed, and his right leg and right arm up to the elbow was burned. He will recover. The family came here from Spokane Falls several months ago and purchased the G. L. Dean place.

Hillsboro Independent: The case of the State vs. Lyda and McLeod, charged with throwing sawdust into the creeks near their mills, was tried before Judge Humphreys last Thursday, result guilty as charged, and fined \$100 and costs. He at once took an appeal and the case will come up at the next term of Circuit Court, when the constitutionality of the act will be tested. Mr. McLeod was acquitted, the proof against him not being so clear as against Mr. Lyda, or it may be that, his being a jury trial, the jurors were influenced somewhat by their sympathies.

S. W. Cresson, of Heppner, was robbed by two confidence men on the train from Arlington to Pendleton.

The thrashers on the farm of Obe. Green, near Lincoln, report some remarkable yields of grain. Sixty acres of oats made an average of fifty bushels per acre and the average on twenty-five acres of wheat was forty bushels.

At last accounts the body of Mr. Wiley, drowned in the Umpqua river at Hendler's place, below Elkton, had not been recovered. He was about 30 years old, unmarried and had no relatives in this country so far as known.

Business men complain that the steamer Wilmington is not making regular trips as was promised when she was put on the route between Coos bay and Portland, and goods supposed to be shipped on her, have been long overdue.

W. B. Singleton, of Roseburg, fell backward into an excavation, striking his back and head, causing an injury to the spine and a congestion of the brain over the right eye. He is now lying at his residence in an unconscious condition.

Harrington Haskin, of Bridgeport, who was reported thrown from a horse and dragged to death, is alive and has met with no accident whatever. The Baker City Democrat, which first published the item, was imposed upon by an anonymous letter.

The road leading from Pine valley at Little's Landing, on Snake river, leading to the Seven Devils, is completed. The funds were furnished by Union and Baker counties, and the cost was \$465.22. The road is in a passable condition but lacks a great deal of being first-class.

In the matter of the death of Frank Kenyon in Canas valley, in which poisoning is alleged, Judge Riddle, of Douglas county, has concluded that he has no authority to order a post-mortem examination, as petitioned for. He has written to the justice there to exercise his own discretion in the matter as acting corner.

The case of John Austin and Guttridge, who were arrested at Pendleton, has been continued until the arrival of Miller & Lux's agent. It is stated that a telegram from Miller & Lux has been received from San Francisco to hold these men for prosecution, and that every effort will be made by the cattle kings to convict them if they are guilty.

A big ditch to tap the Owyhee river will be dug this fall. The head of the ditch will be six miles from the mouth of the river, where it empties into the snake. The new canal will be built by English capital and the cost is estimated at \$250,000. Its capacity will be 200,000 miners' inches, and will irrigate 200,000 acres of land in the Owyhee valley.

There seems to be an error in the statement that only foreign insurance companies lost in the recent Lebanon fire, for one of the Owyhee House paid Wednesday to Mr. Bach, the full value of his loss in that company to his entire satisfaction, which seems to be the usual custom of Mr. Gradwohl's companies to pay promptly their full losses as soon as they occur.
