The Yamhill hop growers have determined to organize at once, in order to prevent the secret agents of the Puyallup yards from seducing their Indians. Great hardship was worked in Yakima last year by this course of the outside hop growers; besides, the Indians were loaded up with bad whiskey, and returned in a demoralized condition. Mr. Sam Daw, the veteran prune raiser, of Peoria, was in the city last night. He reports that the late frosts that injured the fruit trees so much, destroyed his crop of prunes almost and killed nearly all of the petite or French variety. A few Italian fruit trees bore some from one of which he gathered eight prunes that weighed two pounds. His silver prune trees have some fine fruit upon them.

On Track of a Jail Bird.

Sheriff Scott received word the other day that Joseph L. Miller, the man who recently broke jail, had been seen over near Silverton, and immediately went over to investigate. He found very unsatisfactory clues until he found a gentleman near Stayton, who was employed in getting out wood for the railroad, and who several days before had been astonished by the appearance of a well-dressed stranger of very bleached out complexion stepping out of the thick brush near by. At first the stranger appeared disconcerted, but immediately recovered his composure and proceeded to narrate that he was a wood contractor for the Southern Pacific, and wanted to buy all the wood the local men could furnish and would do much better by them than the railroad officials could, as he had a large contract to fill. He wound up by saying that he had missed his road in looking around for wood and had not yet breakfasted. Of course this brought out the best of the gentleman's house afforded for the enan of selling the wood at an advance was worth looking after. After filling up with a good square meal the stranger branched out on the wood contract again and engaged board when he should come to make the final arrangements and gave directions to count the present meal in, and he would pay for it with the week or more board he should want then, and took his departure. It finally dawned upon the woodman that he had been imposed upon, and his description of the stranger tallies exactly with the description of Joseph L. Miller.

A Fine Specimen.

Doctors Maston & Davis received yesterday all the way from Paris a human skeleton, which is perfect in a marked degree and a fine specimen. Every bone, some 200 of them, is complete and every joint is articulated with fine springs. The skeleton is over six feet high and possesses a finely shaped head with a massive under jaw. Who the French gentleman was, whose skeleton is now to aid science and medical skill is of course not known, but one cannot but imagine that he belongs to some aristocrat of the gay French capital, whose body perhaps fell into the hands of those whose business it is to turn even these dry bones to some account. It is a specimen so complete and perfect as to make it highly prized and of great value.

Bound Over.

The preliminary examination of J. P. Schooling, charged with adultery with Mrs. Geo. Howard, was held at Junction Monday morning. The state was represented by Prosecuting Attorney E. W. Condon and the defendant by Hon. J. K. Weatherford. He was bound over to await the action of the grand jury in the sum of \$1,000 bonds which he promptly furnished and was set at liberty. Mrs. Howard had returned and has been reinstated in the home of her husband.

Nursery for Marriage.

A practical nurseryman of many years experience was in this city yesterday on his way to Harrisburg where he expects to start a nursery. He thinks land in that vicinity is well adapted to the purpose and proposes to purchase land and commence planting as soon as possible.

A Fruit Palace.

The fruit growers of Marion county are arranging to erect a fruit palace at the coming State Fair, which is to be filled with the product of the county. It will be a unique and interesting feature of the fair.

Australian Bank Failure.

MELBOURNE, Aug. 17.—The suspension of the British bank of Australia is announced. The liabilities are \$1,000,000, half of which is owed by creditors in England.

THE OREGON PACIFIC TROUBLE.

The Court Directs Recs for Hogg to Pay the Men on or Before August 31.

The hearing of the petition of the employees of the Oregon Pacific railroad company for an order directing the receiver to pay them the amount due for services since February 1st, was held at Corvallis yesterday afternoon before Judge Pipes. The employees were represented by Attorney-General Geo. E. Chamberlain and Hon. J. K. Weatherford, of this city. An order was made by the court, directing the receiver, Col. T. E. Hogg, to settle with the employees on or before August 31st, and empowering him to negotiate his certificates to raise the necessary funds. It is probable that he will be able to raise the money within the time, but if he fails so to do proper showing will have to be made to justify a disobedience of the order of the court. It is sincerely to be hoped that no further delays will prevent these faithful men from receiving their hard earned dues.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest. J. H. Stine has sold the St. Helens Mill to J. R. Beagle. There is talk of connecting Hillsboro and Portland by telephone. It is estimated that Sherman county will raise a million bushels of wheat this year. Dr. Linklater, editor of the Hillsboro Independent, has gone to Scotland for a four months' visit. Tillamook county is one of the counties in the state that has none of its citizens in the penitentiary. A smart confidence man was at work in a Pendleton saloon Friday night and succeeded in getting about \$16 on a change racket. He left the city on a freight train. A large field of wheat belonging to S. R. Slayton, three miles from Prineville, is so damaged by rust that it will not be worth cutting, and Mr. Slayton intends turning logs into it and let them do the harvesting. Joe Howard also has a field on McKay which the rust has ruined. The Ochoee Review says that a large number of people from Albany, Salem and Silverton are enjoying the delightful climate of Crook county's pleasantest summer resorts. The expenses of Yamhill county for July, 1891, as shown by bills allowed by the county court, amount to \$3,698.36; those of August amount to \$3,152.47. Several cases of diptheria are reported in Crook county. Two children of John Savage, who lives two miles from Prineville, have died, and another was dangerously ill at last accounts. Baxter Weldon, a young man who recently went to Bay City and started a brick yard, skipped the town after fleeing a good many of its citizens. Later he was arrested in Portland for forgery committed in Birmingham, Ala. The expenses of Yamhill county for July, 1891, as shown by bills allowed by the county court amount to \$3,698.36; those of August amount to \$3,152.47. The principal item of expense is the building and repairing of bridges. Dr. Griffin, a co-laborer with Dr. McLaughlin in pioneer days of Oregon, is making a movement to erect a Congregational university at Hillsboro to cost \$12,000. He donates twenty acres of land adjoining the town for university grounds, and the people promise to raise funds for the buildings. A visit to the government jetty at the mouth of the Columbia a ride on the new mail steamer, a South Coast railroad, a dinner at the Gearhart Park hotel, and a dip in the boom of Mother Pacific, etc., are among the attractions at the meeting of the Oregon Press Association, at Astoria. Clams, crabs, salmon, and other brain food, at the seashore, can not fail to have a beneficial effect on the Oregon editors and their wives.

MARRIED.

YANK—SMITH.—At the residence of the bride's parents near Albany on Tuesday, August 18, 1891, Mr. W. H. Yank and Miss Martha A. Smith.

THE STATE FAIR.

The Grounds Being Improved for the Big Opening Sept. 14.

Contracts have been signed and work commenced putting in the electric light system at the state fair grounds. This will be a great protection to the exhibits at night. It will cost about \$60,000 and will enable the fair to be thrown open at night, and possibly afford horse races by electric light. The Society, says the Salem Journal, has had a small army of men at work on the grounds nearly all the year. The underbrush in the big grove was all removed, and the trees trimmed up at an expense of \$400, so that it presents the appearance of a pretty oak park. About a hundred old buildings have been taken down and carried away. They were useless, unsightly and had to give way for something better. In all the repairs and general clean-up, nearly \$20,000 has been expended. The secretary's office building and the office was moved, and all finished up in maple, so that official will not recognize the former barn like building which was officially designated as principal place to "cuss" and be "cused." There will be four new water closets built. All the buildings, except on the race course, have been painted in bright colors. The G. R. A. Women will run the big restaurant in the building on the grounds. A good many refreshment privileges have already been granted, and from now on the fair will be a new state fair. The Presbyterian ladies will have the pink rotunda. Superintendent J. Q. Wilson has made a great improvement in the appearance of the whole fair grounds. He proposes to have all the grounds moved again and the people who will be pleased at the result of his labors. The electric railroad has spent several thousand dollars in tracks and platforms on the grounds and has virtually built a first-class steel-rail line of over a mile for the benefit of the state fair. No fair grounds in America is better equipped with transportation facilities than this. Vestibule-cars with the trailer running twenty miles an hour, will carry the public back and forth every ten minutes, during fair week, and a number of nice new cottages will be built on the grounds before the fair opens, Sept. 14th. The baseball grounds will prove a great addition to the fair.

THE WORLD ENRICHED.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time any the better it is known the more popular it becomes. The trotting bred stallion Alwood Breeze will stand for service at Trites Bros. stable, Albany Saturday of each week until further notice. SURE CURE FOR THE LIQUOR OR OPIUM HABITS. The East India cure for these awful habits can be given without the patient's knowledge, and is the only known specific for the purpose, it is not injurious in the least degree; manufactured by Emerson Drug Co., San Jose, Cal., and for sale at J. A. Cunningham's drug store only. BECKLEY'S ARNICA SALVE. The best salve in the world for Cuts, Bruises, Sores, Ecers, Salt Rheum, Fever sores, Tetter, Chapped Hands, Chilblains, Corns, and skin Eruptions, and positively cures Piles, or is a good remedy.
