IT WAS A FAKE.

Not a Word of Truth In The Account of Lost Cabin Fair. Klamath Agency, Aug. 23. TOBACCO FACTORY OF THE U. S. 26th, inst., an article entitled "The Lost Cabin Claim Discovered," which was the result of an Oregonian reporter interviewing one W. L. Long. I wish to state that in so far as my name is made use of in the article, that it is an issue of lies, and misrepresentation, and in fact the whole thing is a "fake." I never went one step with the "Mythical" Lost Cabin. I think that it is likely that it was a scheme concocted by some real estate "sharpers" to work off some worthless lands. Long has I think "sufficient" ability to be a good "tool" for a "crowd" engaged in some kind of a swindling enterprise. I should think that the newspapers would be so disgusted with publishing such "rot" as Long repeats about the discovery of Lost Cabins, sacks of gold being examined etc., that they would cease to give it space in their columns.

Very Respectfully, DAVID W. MATTHEWS, U. S. Ind. Agent.

Resolutions of Condolence.

Whereas, The Great Ruler of the Universe has in His infinite wisdom removed from our midst our worthy and beloved brother: F. F. Croft, and Whereas, The relation he had during a long life of brotherhood with the members of Galapogia Lodge No. 451, O. E. F. makes it fitting that we record our appreciation of him. Therefore Resolved, That the wisdom and ability which he has exercised in the aid of our order, by council and service, will be held in grateful remembrance. Resolved, That the sudden removal of such a brother from our Lodge leaves a vacancy and shadow that will be deeply realized by all the members of the Lodge and its friends. Resolved, That with deep sympathy with the afflicted relatives and friends of the deceased we express an earnest hope that even so great a bereavement may be overruled by Divine Providence for their highest good. J. D. BOYER, J. E. HENRY, A. M. TEMPLETON, Committee.

Homestead and Free-Emption Work

County Clerk Paine has been doing quite an extensive land business during the past year. From July 7, 1890, there were 45 homestead filings and 36 free-emption final proofs made before him, and also 117 pre-emption filings and 29 pre-emption final proofs. Thomas Brink has received a stock of baby carriages which he is offering at prices as low as the lowest, and they are first-class goods.

COAST NOTES.

Interesting Items in Brief From Northwest Exchanges. Great big, fat, luscious salmon are plentiful in Yaquina bay and sloughs, and since the burning of the Baker cannery, there is but one left, that at Onecatta, Parker's, which is not running this season. Salmon fishing has just commenced in Tillamook bay. The chinook salmon now invade the bay waters. They are not plentiful at present, but when the chinook give place to the silver-side, a much larger number is expected.

Another call has been issued by the property owners of Astoria for a meeting to consider the best manner of raising the land subsidy required to secure the immediate commencement and construction of a railroad, standard gauge, from Astoria to transcontinental connection.

The destructive work of the lightning was felt Wednesday afternoon at Monmouth, when it struck and set fire to a barn belonging to James Helmke. The lightning struck the building in the top, and in a few moments the entire structure was in flames. The mow contained forty tons of hay, which was consumed, with all other contents of the building.

Two Indian children, aged respectively about 10 and 12 years, were drowned at a steamboat landing, about a mile above the town of Hood River, last week. The mother and three children were in a skiff, and somehow or other the skiff capsized. The eldest of the three, a boy, swam ashore, while the mother bravely floated with the other two, till they were drowned in her arms.

The Heppner Record learns that G. P. Muir, who resides north of Lexington, lost his entire wheat crop Monday, the 17th inst., by fire. The wheat which was in the stack, is thought to have caught from an old threshing yard which Mr. Muir had fired some time previous to leaving with his family for the mountains. The loss is about \$300.

Heppner Record: W. H. Brown, geologist and coal expert in the employ of the U. P., spent several days in town recently. As a result of his visit to the old Matton coal mine, he is of the opinion that there is a considerable body of coal there, say about 300,000 tons on an area of about 120 acres. As to the probability of striking artesian water at this point, Mr. Brown says the lava formation is not less than 200 feet thick and a flow cannot be had at a less depth.

Engene (ward): Frank Wilkinson, a lad of 15 years, was the victim of a painful accident, one that will remain for life, yesterday afternoon. He was assisting in making cider at the Hillsdale farm, adjoining Engene and by some means got the fingers of his right hand caught in the cog wheel. The last three fingers were washed and ground, but swollen so, they could not be saved, and amputation near the knuckle joints was necessary in order to save the hand. It will be a painful and slow healing wound, as hardly enough skin from the fingers could be secured to cover the ends of the fingers where amputated.

In answer to numerous inquiries as to the law protecting game birds, it can be stated that the season for shooting grouse, pheasants, quail, ducks, geese, etc., opens on Sept. 1st and not before. The season for shooting grouse and pheasants closes November 15th. There will be no legal shooting of Chinese pheasants this season, as the law protecting them does not expire till November 15th, and this protects them until after the close season for grouse and pheasants begins. The open season for ducks, geese and swan shooting lasts until March 1st.

Fruit Farm Purchased.

Mark Brownson, of Spokane Falls, has purchased 25 acres of land three miles west of this city, owned by H. J. Reece, paying for the same \$50 per acre. Mr. Brownson will plant the entire tract to fruit.

A FIGHT FOR LIFE.

Shall we Drive Slow Poison From Our Breakfast Table?

Alum and Ammonia in our Bread. A nuisance that troubled England fifty years ago is now rapidly spreading in this country, that is putting Alum in the bread we eat. This question is causing a great moment, as it is revealed that alum is being used as a substitute cream of tartar in baking powders. A story is told that a very large quantity of the baking powders sold on the market contain either alum or ammonia, and many of them contain both these pernicious drugs. Much timely alarm is felt at the wholesale use of alum in bread, biscuit and pastry. To young children, growing girls, persons of weekly frame eating bread eaten morning, noon and evening is the most harmful. If it is the small quantity taken at every meal that do the mischief, Alum is cheap, costing but two or three cents a pound while cream of tartar costs 30c, and the high price of cream of tar a has led cheap baking powder to be made of alum. If the reader wants to know something of the corrosive qualities of alum, let him touch a piece to his tongue, then reflect how it acts on the tender delicate coats of the stomach.

Following is a list compiled by the Scientific American, of the alum and ammonia baking powders that have already been tested. *ATLANTIC & PACIFIC. *ROYAL. Are You Ready For the Cry?

There seems to be an error in the statement that only foreign insurance companies lost in the recent Lebanon fire, for one of Julius Gradwohl's companies, the Oakland Home, paid Wednesday to Mr. Bach, the full value of his loss in that company to his entire satisfaction, which seems to be the usual custom of Mr. Gradwohl's companies to pay promptly their full losses as soon as they occur. Therefore if you want to insure your property well go to Mr. Gradwohl, who represents six No. 1 insurance companies with a capital of a hundred million dollars.

Ladies in the Harvest Field. The other day some visitors were looking on while the threshing outfit of Messrs. Froman & Foster was rolling out the grain. Finally Mrs. Rufus Thompson, Albany's ex-postmistress, took the leader's place, another lady took charge of the engine, while a third served the sacks as they came from the machine, thus demonstrating that ladies can successfully run a threshing machine.
