

Morning Daily Herald

ON SALE.

The DAILY HERALD will be on sale each morning at H. J. Jones' book store, where it can be procured at 5 cents per copy.

JOTTINGS ABOUT TOWN.

Oxford ties very cheap at Klein Bros. S. A. Hulien, druggist, French's corner. Anthony Klein, of Salem, is in the city. 200 parasols at less than cost at W. E. Reads. Great reduction in Oxford ties at Klein Bros. Bargains in summer underwear at W. F. Reads. Great reduction in embroidered flouncing at W. F. Reads. Mr. J. N. Bonch, of Eugene, was in the city yesterday.

Wm. Galbraith has returned from a trip in Washington. Choice pickles in bulk, or quantities to suit, at Parker Bros. Fresh comb honey, Linn county production, at Parker Bros. Have you examined that beautiful \$400 piano at Klein Bros. shoe store. The thermometer registered 95 yesterday with very little exertion. Ex-Governor Chadwick was in the city yesterday en route to Yaquina. The Scio Press says that Chinese pheasants are plentiful thereabouts.

A full line of polka dot prints in all shades just received at P. Cohe's. Klein Bros. are closing out their stock of Oxford ties at a great reduction. A full line of Dr. Warners corsets the best in the world for the money at W. F. Reads. Try Conn & Henderson's syrup, the finest in the market. Retail quantities to suit. Miss Jennie Anderson left this morning for a few days' visit in Albany.—Eugene Guard.

There is a dearth of Indian pickers this year in the hop yards of the Willamette valley. Your school tax will be delinquent if not paid at once. Look after it and save coats of collection. The Albany public school and the college will open Sept. 7. The Catholic school will open on Sept. 1.

Prof. E. G. Lorillard has returned from a trip to Prineville. He came back across the mountains. Dr. Mason received a telegram last evening summoning him to Yaquina, and he will leave to-day for that place. H. Bryant has sold to Wm. Clark, of Portland, 265 acres on the Santiam, 12 miles from Albany, for \$4100.

Rev. A. J. McCleod, of Connecticut, has declined a call to the pastorate of the Congregational church in this city. Lowest rates and best accommodations to passenger going East via Canadian Pacific Railway ask C. B. Winn for rates. You can save money by going at once to Klein Bros. shoe store and purchasing a pair of Oxford ties. The price has been reduced to close them out.

Sam May, of Harrisburg, was in the city yesterday. Wheat, he says, is selling at 82 cents in Harrisburg. He has bought several thousand bushels. An exchange down the Valley says it is so hot that the people have had to feed their hens crumpled ice to keep them from laying hard-boiled eggs.

An Illinois syndicate has purchased the Foley hot medicinal springs situated in the Cascade mountains 60 miles east of Eugene. The purchase price is \$18,000. Rev. E. B. Calk, of Decatur, Illinois, delivered an interesting lecture at the Christian church last evening. His subject was: "Why Don't God Kill the Devil?"

A fine lot of spring chickens at Hyde's market. Leave your orders early. Yaquina Bay salmon and sturgeon on hand. Chickens dressed to order on short notice. Mr. Frank Arnerberger, manager of the Postal Telegraph Co., will leave in a few days with his family for San Francisco, where they will reside. The name of Mr. Arnerberger's successor is not yet made public.

It is announced that Mr. Frank Danna and Miss Fannie Curl, of this city, were married Wednesday at Dallas, Polk county. They are both well known in this city, where Mr. Danna's parents reside. Miss Curl is a granddaughter of County Treasurer W. E. Curl. James Charlton, formerly deputy sheriff of this county during the occupancy of that office by J. K. Charlton, his father, spent Sunday in Scio, says the Press, the guest of his sister, Mrs. Martin. Mr. Charlton recently graduated from Princeton college at the head of his class and is now studying law in the office of the leading firm in New York city, and will complete his course in another winter.

Did you notice those artistic and unique posters around town about the lawn social Friday evening, August 28th, on the lawn of Geo. F. Simpson, corner of Fifth and Baker streets. If not, just take a peep at one at the postoffice, and size up the dish of ice cream you will get for 15 cents, with plenty of good, delicious cake. Genuine maple wax will be served on blocks of ice. The lawn will be decked with Chinese lanterns, and everybody is promised a good time. A small admission of 10 cents will be charged at the gate.

MYSTERIOUS DISAPPEARANCE.

J. N. Combs & Drayman. Leaves His Home in Unaccountable Haste.

J. N. Combs, who has been engaged in the truck and dray business in this city for nearly a year, has astonished his family and friends, by suddenly quitting his home without giving any reason for so doing, or leaving any clue as to his place of destination. He was last seen Wednesday evening. He left his home in the third ward, without saying anything to his family, and about 9:30 in the evening going toward the depot, with his coat upon his arm. Whether he took the overland train or walked into the country is not known. His wife says she had no idea he was going away, as he said nothing about it, and she does not know where he has gone. His sons are also ignorant of any intention on his part to leave and the family are naturally surprised and very uneasy about him.

Mr. Combs is about 65 years of age. He has had some financial trouble recently, but it was supposed he had settled it in a satisfactory manner. He had experienced no family trouble, and his disappearance seems unaccountable. He had only a little money when he left.

Resolutions of Condolence.

HALL OF BROWNVILLE LODGE, No. 26 A. F. & A. M. Aug. 23.

At an emergency meeting of this Lodge held this afternoon the following preamble and resolutions were unanimously adopted. Whereas, In the exercise of his supreme will it has pleased almighty God to remove from our midst our esteemed brother F. F. Croft therefore be it

Resolved, That while we as free and accepted masons must vow in submission to all the decrees of omnipotence, yet we can but mourn the loss of one whose place in our affections can scarcely be filled.

Resolved, That in the death of Brother Croft, the institution of free masonry has lost one of its truest votaries the community one of its best citizens and the family one of the tenderest of protectors.

Resolved, That the sympathy of this lodge heartily and profusely be tendered to the grief stricken wife and children of our brother, and with them the solemn pledge of our fraternal constancy and assurance of our fraternal protection.

Resolved, That a copy of these resolutions be sent to the family of our deceased brother and also to the Brownville and Albany papers for publication.

Geo. W. Cox, C. E. STANARD, O. P. CORNWELL, Committee.

Better Service Needed.

A good many citizens are complaining that better service is needed from the water company. In many cases property owner cannot use the sewers and have no water privileges because the water mains are not extended, as they should be. In the other cases the pressure is so low that after 6 o'clock, during the hours the lawns are being sprinkled, water will not run in a good many buildings especially on the second floors. The company since it enjoys the advantages of the franchise to provide the city with water should extend its mains so that it can be used in all portions of the city and should certainly be able to keep at least a moderate pressure of water in the hottest season when the water is especially needed.

Hot Weather.

Oh! how hot is the prespiration, clamor from everyone that fills the air, and lots of people think it perfectly horrible to think that the thermometer records 90 degrees in the shade. But just think of humanity over in India where the record was for the last week in July: Monday 142 degrees, Tuesday 137.5, Wednesday 138, Thursday 138, Friday 144, Saturday 144, Sunday 146. A Tokio paper, commenting on this record says: "We are not so badly off as we might be. The news reaches us opportunely, for to-day appears to be rather above the average in warmth, but the above account may have the effect of cooling some one." From which we infer that the merrily has been playing pranks in Japan this summer.

Improving the Willamette.

Work on the Upper Willamette is progressing finely under the careful management of Captain George Rabbe, who is in charge of the Corvallis range. All the dangerous snags have been pulled, and now attention will be concentrated on the building of wing dams and other necessary improvements.—Portland Telegram. The upper river ought to be sufficiently improved to permit navigation all the year round. It is thought to be able to reach Albany all summer, and could if the river channel were properly improved.

Adjusting the Loss.

Mr. W. H. Poulter, freight agent of the Southern Pacific Railroad Co., was in the city yesterday adjusting the loss of a shipment of books consigned to H. J. Jones, of this city. They were lost by the sinking of a ship on the Atlantic coast after leaving New York, and strange as it may seem the responsibility was assumed by the Southern Pacific Company.

Elected Superintendent.

Mr. Ed Moyer has been elected to fill the position of superintendent of the Albany woolen mills, made vacant by the recent death of F. F. Croft. Mr. Moyer is thoroughly acquainted with the business and will fill the position well.

My indigestion compelled me to drink Coronado water.

There is no use talking, Coronado water has been my best and only friend since I was troubled with my kidneys.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest.

William King got his arm caught in the belt of a threshing machine at Whiteaker Monday, and it was so badly broken and bruised that he will be crippled for life.

The sturgeon season has begun in the lower Columbia. Some of the fishermen have already made contracts for their entire season's catch at a cent and a half a pound. Monday while a thrashing crew were at work on the ranch of Mrs. Ellen Love, near Wasco, a spark from the engine set fire to the grain stacks and 250 sacks of grain were destroyed. Loss, \$1000.

The people of Mill City, on the North Santiam, are making an effort to have a wagon bridge put across the santiam river. Marion county commissioners have taken favorable action upon the matter.

A. K. Cutting, the "rat" printer who came very near involving the United States and Mexico in a war a few years ago, is in Astoria. He has been working at South Bend under the name of Hyde.

The sheep industry in Oregon is a growing one. Oregon is now furnishing sheep for the Black Hills country. The other day 145 carloads left Pendleton for Mandan, Dak., where they will be put on the range.

The committee on the Oregon fruit palace has employed an expert to gather up the finest specimens of ripe fruit now in season and preserve it in glass for their great exhibit at the state fair. The assistance of all who grow any fruit is asked in this matter.

It is said that the East Oregon Railway Company will commence a preliminary survey in the near future. The company was organized some months ago at Pendleton, for the purpose of building a railroad to the Butter creek coal mines and the Greenhorn mining district, the main line to lead from Heppner to the coal mines, thence to Alba, and thence to Greenhorn, a branch to be built from Pendleton to the coal mines.

The editor of a Sissions paper recently ascended to the summit of Mt. Shasta, and says: "On the summit the wind was blowing a perfect hurricane from the south. It was so strong that a strong man could not raise a cane fishing pole with a small flag attached to a perpendicular. It was bitter cold also, the thermometer registering 4 degs, below zero at 10 o'clock P. M."

Geo. W. Cox, C. E. STANARD, O. P. CORNWELL, Committee.

Body Not Found.

The Oregonian says: R. S. Perkins came back from Clatsop yesterday, where he has been searching for the body of Todd Bingham, the lawyer. He was accompanied by Dr. John Bingham, of Walla Walla, brother of the deceased, who left last night for home. Joseph Knott and his sister still remain at the scene of the tragedy. Mr. Perkins says they have been patrolling the beach up and down for two or three miles near the fatal rocks, but without finding any trace of the body. He is confident that Mr. Bingham was instantly killed by being hurled against the rocks before he sank.

Coffee as a Disinfectant.

It has been demonstrated that coffee has disinfectant properties and is very effective in killing fever germs. Dr. Luderitz, who has paid close attention to the subject, did not use strong effusions but found that certain harmless micrococci died in a 10 per cent. coffee solution in from three to five days. The bacillus of typhoid fever perished in from one to three days under coffee influence, and the cholera bacillus in from three to four hours. The germ of anthrax or apoplex fever died in from two to three hours, but the latter germs perish in from two to four weeks only.

A Chance for the Granger.

Sprague Apvriter: "It seems a little strange, but it is a fact, that two-thirds of the eggs used in Sprague are shipped from the East; there not being enough in the country to supply the city. Here is a chance for some enterprising granger to get rich by raising chickens. There is more clear money in one good hen than there is in a bushel of wheat." Yes, but the bushel of wheat will have to be raised to feed to the hen all the same."

New Church at Sodaville.

Articles incorporating the Free Methodist church of Sodaville, Linn county, were filed in the office of the secretary of state Wednesday by G. W. Elloes, A. P. Flory, and W. J. Bowman. Their object is to buy sufficient land on which to build a church and a parsonage. The estimated value of the property and money belonging to the church is \$250.

THE LILY'S JOKE.

Mrs. Langtry Slips Ice Down the Prince of Wales' Back.

The Jersey Lily's recent troubles call the story of the first masterpiece of advertising by which far-seeing beauty paved her way to fame and ducats. It is past ten years since that historical supper party at which the Langtry made herself the foremost actress of her time by slipping a piece of ice down the Prince of Wales' back as he stooped over to pick up her napkin. Everybody remembers the incident, the details of which kept the ocean cables hot for a week after the occurrence. "Sassity" was thrilled to its inmost core at the account of how his royal highness shrieked, turned pale, gasped, shuddered, tried to stand on his head, and was only prevented from incontinentally disrobing by the combined efforts of his staff. But the sequel to the wanner bit of "advance work" is not so well known. Everybody wondered at the time that the presumptuous beauty was not promptly dragged to the tower at the very least. The fact was that as the lump of ice was being finally removed from the Prince's left stocking the victim observed the ghastly attempts being made by the bystanders to conceal their amusements and he at once decided upon a horrible revenge. Assuming a morgue-like merriment he declared the joke was quite too awfully beastly clever for anything, don't-cher-know, and immediately passed it on by wedging the ice down the collar of his nearest neighbor. The reader is already guesing the result. Every thing the Prince does at once becomes the fashion, and for the rest of the season at all swell London entertainments bowls of cracked ice were set all over the room and furnished with silver tongs for the ladies. Eye-witnesses of the carnage relate that all the men were provided with celluloid collars, and wore a line of porous plaster reaching from the back of their necks clear down to their heels. It was no end of fun to behold some stately peer or other suddenly nurse a crick in his back, and the select circles of Clementia street still refer to it as the "cold season of '81."—San Francisco Examiner.

Want a Receiver.

The Portland smelting works are yet free from litigation. The Oregonian says that there is a prospect for some kind of a settlement upon a matter involving the stockholders of the Portland smelting and refining works being argued at before long, at least temporarily. Mr. William Selover and Mr. C. F. Bucker, et al., the "als," meaning some sixty stockholders, yesterday applied to the court for a receiver to take charge of the company's property. They urge that there is a necessity for the sale of the plant, as ordered by the court on an attachment of I. R. Dawson, and works set running, in order that the proceeds can be made to pay of the liabilities of the company. Mr. J. T. Gove yesterday began suit against the company to recover the sum of \$2186 due him. He was employed by the company to purchase ores, and \$2000 of his salary is due, and a retention of \$186, which he expended of his own funds for the company. An attachment was issued, and Deputy United States Marshal Miller last evening attached a lot of ore belonging to the company, and stored on the steamship wharf.

Going to Chicago.

Mrs. E. W. Allen, wife of the Portland seedsman, left Portland yesterday for Chicago. The Northern Pacific railroad to attend a meeting of the board of lady managers of the Columbian Exposition, called to meet next Tuesday at Chicago. Mrs. Allen has been doing some active work during the past few months in the interest of the woman's department, and while matters are at a standstill relative to the state making an exhibit as a state, there is no question but what Oregon will make a good showing in the woman's department of the great exposition.

Had Had Experience.

Merchant—You want a place in my store, you say? Applicant—Yes, sir. "Ever worked in a store before?" "Yes, sir." "Let me try you. Suppose a lady should come in with a piece of cloth and wanted to get a number of yards to match it, what would you do?" "I'd send her to the next counter." "I guess you've had experience."—Munsey's Weekly.

THE WORLD ENRICHED.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Springtime or, in fact, at any time any the better it is known the more popular it becomes.

Important to Housekeepers.

It gives Julius Gradwohl great satisfaction in selling his fine Golden Rule teas and baking powder, with elegant prizes or will-out them, that his customers who have purchased invariably say they are well pleased, that the tea is No. 1 and the baking is as good as the best. All his teas and baking powder bears the name of Julius Gradwohl's Golden Rule Bazaar, and are expressly put up for his business, and he still continues to give with each pound of tea or baking powder an elegant piece of glassware.

Mothers!

Castoria is recommended by physicians for children feeding. It is a purely vegetable preparation its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mothers' friend. 35¢ per box, 65¢ cents.
