Have you smoked MASTIFF in your pipe?

Do you know that Moore's Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to the discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

Those who have just received some of the finest lozenges ever brought to Albany, and is selling them at a close margin.

TO GOOD TEMPER.—Do you know that Moore's Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to the discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

WANTED.

Ammonia Baking Powder Must Go.

Bills have been introduced in the New York, Illinois and Minnesota Legislatures compelling the manufacturer of such baking powders to brand on the label in bold type, this powder "Contains ammonia." Physicians and chemists condemn the use of ammonia in baking powders as a crime. Its constant use no matter how small the quantity deranges the stomach, neutralizing the gastric juice and destroying the complexion. It is the small quantities taken every meal that do the mischief.

It is gratifying to know there are pure baking powders to be had on the market and at no greater cost to the consumer than some of these so-called "absolutely pure" ammonia powders.

Dr. Price's Cream Baking Powder, the standard pure cream of tartar powder for forty years. Free from the taint of either ammonia or alum. None so pure—None so wholesome.

Dr. Price's Cream Baking Powder is reported by all authorities as free from Ammonia, Alum, or any other adulterant. In fact, the purity of this ideal powder has never been questioned.

THE OREGON EDITORS

Meeting of the State Press Association at Astoria.

EIGHTY MEMBERS PRESENT.

They Received a Royal Welcome From the Citizens of Astoria—Business Proceedings.

ASTORIA, Aug. 28.—The Oregon editors have received a royal reception from the citizens of Astoria. On the arrival of the steamer K. R. Thompson this morning the editors were met by a committee consisting of Senator Welch, J. W. Case, S. S. Gordon, G. W. Wainwright, E. Taylor and George Hibbert, and were escorted to Old Fellows' hall, where they were assigned to their respective homes during their sojourn in the city.

The association met in the chamber of commerce at 10 o'clock, with eighty members in attendance. After roll call several new members were admitted, and the minutes of the previous meeting were read.

The president's annual address was a comprehensive review of the work during the last year, and contained many pertinent and practical suggestions.

The morning proceedings were followed by a lively spat between President Samuel and Leo Peterson, over the admission of C. W. Hudson. The matter was referred to a special committee.

Mr. Nichols made a report of his visit to the national convention, and explained why Portland failed to get the convention. The failure of a certain letter from President Samuel to reach Mr. Nichols, together with the red tape formula in the Northern Pacific office, was the principal cause.

The Portland exposition management got a raking for its shabby treatment of the newspapers this year. Superintendent Mitchell's circular letter to the editors was made the subject of infinite jest and ridicule.

This afternoon was devoted to the reading of papers and a discussion on the subjects treated as follows: "History of Oregon Journalism," A. Nolting; "The Moral Responsibility of the Press," E. A. Mery; "Personal and Editorial Journalism," J. F. Halloran; "Business Management of a Newspaper," F. Hofer; "Acceptance and Abuse of Passes," J. M. Mitchell.

This evening there was a public reception and musicale at Old Fellows' hall. Addresses were delivered by Captain George H. Moffett, proprietor of the Evening Telegram, and O. P. Mason, proprietor Northwest Farmer, with short speeches by several editors.

OREGON'S BIG METROPOLIS.

Business brisk and the City Growing—News Notes.

PORTLAND, Aug. 28.—Business is better in Portland than in the majority of other cities of its size in America, if banking business is any indication. The gross earnings of the Portland clearing house for the week ending August 23, amounted to \$7,780,884. This is a gain of 17.1 per cent. over the corresponding week in 1890. Yesterday twenty one deeds, valued at \$20,418 were filed in the recorder of deeds' office, making a total number since the 1st of the month of 414 the value of the transactions aggregating \$724,678.50. Since the first of the year to date 4576 deeds have been filed of an aggregate value of \$7,855,638.89.

Rev. Minot J. Savage, of Boston, one of the oldest divines of the nation, is in the city. He lectured here to-night and to-morrow will leave for California.

David McFadden, a carpenter employed on Goodenough's new building at the corner of Fifth and Yamhill streets, fell from the third to the second floor at noon to-day, and sustained serious internal injuries. He will probably recover.

The Turnverein of Portland left to-night on the 10 o'clock train for Seattle to attend the Turners' festival held there from Saturday to Wednesday next week.

The Portland base ball team returned this morning after having a particularly successful trip abroad. They played twelve games and won seven. The work of the pitchers is especially commendable. Parrott won three games and Jones and Wadsworth two games each.

The Portland and Spokane will play at the lake tomorrow. Parrott, Wadsworth and Graff and Hudson and Snyder are the batteries.

FROM SALEM.

NEWSY NOTES FROM OREGON'S CAPITAL CITY.

SALEM, Aug. 28.—Frank Wilson was brought to the asylum to-day from Douglas county. He is a native of Austria and owns a ranch on the Siuslaw. He thinks some one is going to poison him.

Mrs. John McFadden died at her home here this morning, aged 71. She came to Oregon more than twenty years ago.

On several yards on Howell Prairie, where hop pickers commenced work a few days ago, work has been stopped, as the hops are

not worth picking on account of lice. Commencement will not be made at all in several yards, while others are almost free and give a good yield.

A HORRIBLE DEATH.

A Woman Cut to Pieces by a Blasting Machine.

GRAFTON, N. D., Aug. 28.—Near Canton a yoke of oxen attached to a binder and led by a woman, became frightened and ran away. The woman was literally cut to pieces by the knives, her legs, arms and head being cut off.

A Modern Case.

GEORGETOWN, Del., Aug. 28.—George and William Walker, two brothers residing at Reynold's mill, a few miles from here, became involved in a quarrel over some horse feed, when George Walker picked up a shovel which was near by, and struck his brother a terrible blow over the head, which felled him to the ground. His skull was fractured and he died this morning. The assailant is still at large, and the Milton authorities say they will not touch the case until the family bring a charge against the assailant, which they are slow to do.

Lynch Law in Kentucky.

GEORGETOWN, Ky., Aug. 28.—At 3 this morning a mob of 100 men came into town. They went to the jail, overpowered the jailer, took the keys from him and opened the cell in which Dudley, the negro murderer of Frank Hughes, was confined. The negro was taken out and hanged to a tree. The negroes are excited and threaten to cause trouble.

Frost in Minnesota.

HECROT, Minn., Aug. 28.—Light frost last night, but no damage to corn or flax. Wheat is turning out fully as well as expected.

COLLISION AT SEA.

TWO STEAMSHIPS CRASH INTO EACH OTHER.

Twenty-Six Persons Drowned by the Disaster—Scenes of Terror on Shipboard.

MELBOURNE, Aug. 28.—A collision occurred this morning inside of Port Phillip's head between the steamers Gambier and Easby. The Easby struck the Gambier amidships, crushing in her side and sinking her in seven minutes. A scene of terrible confusion and excitement followed the collision. Most of the passengers, who were in their berths when the accident occurred, rushed for the boats, without waiting to dress. There English friends were made at sea, and when the steamer sank she carried with her five saloon and fifteen steerage passengers and six of the crew. The Easby remained alongside the Gambier and rescued many of the latter's passengers and crew. The Easby was considerably damaged. It is claimed by many persons that proper lookouts were not on either steamer.

NINETY MILES AN HOUR.

The Highest Speed Attained on Any Railroad.

PHILADELPHIA, Aug. 23.—A mile in thirty-nine and four-fifths seconds, or at the rate of ninety miles per hour, is the fastest run ever made by a railroad train. This unparalleled feat was accomplished to-day on the Bound Brook road between Neshaun Falls and Langhorne by engine No. 206, drawing two ordinary coaches and President McLen's private car. The fastest ten miles was made at an average of forty-three seconds per mile.

The Rain Makers Are Jubilant.

FORT WORTH, Tex., Aug. 28.—General Drenth, in charge of the government rain experiments at Midland, is jubilant over his successful experiment. He says the principle is correct beyond question.

Vinnie Was Tart.

Miss Gray (the evening before her wedding)—Suppose the clergyman should want to kiss me after the ceremony, dear, what shall I do?

Miss Vinnie Garr (her dear friend)—He won't want to.

An Afflicted Female.

Judge Duffy (to female witness)—What is your age, Madam?

Witness (hesitatingly)—I have seen sixteen summers.

Judge Duffy—How many years were you blind?—Texas Siftings.

Tit for Tat.

Husband (reading the morning paper)—Here's a woman who was so grieved when her husband died that she killed herself. That's the kind of a wife for a man to have!

Wife—That's the kind of husband for a woman to have!

A Better Job.

"Are you working men?" asked the lady who had given them each a good big piece of pie.

"Not just at the present time, ma'am. We find it easier working women. Eh, Jim?"

IN FOREIGN LANDS

Famishing Russian Peasants Resort to Violence.

SOME OF THEM KILLED.

The Export of Excesses the Trouble—Crops Are Badly Damaged in England and America.

ST. PETERSBURG, Aug. 28.—Details of the rioting at Vitebrsk, capital of the government of that name, occasioned by the people protesting against the exportation of rye, show a disturbance of a serious nature. The governor reports there is evidence that a general revolt of the peasantry was planned. Peasants attacked the railroad officials, claiming that no more rye should leave Vitebrsk, and severely beat a Jewish grain dealer who was blamed for the whole trouble.

The peasantry also plundered the residences of the grain dealers and finally combined in an attack upon the railroad station. The railroad officials sent for the assistance of the military, and the latter tried to dislodge the rioters from their position in and about the station. The rioters resisted stubbornly, and their supporters outside the railroad station made a fierce attack upon the soldiers.

Finally the officer in command of the troops, after repeatedly threatening the crowd, gave the order to fire upon the rioters. The soldiers then fired a volley, killing three peasants and wounding a number of others. The rioters soon dispersed.

Other and somewhat similar disturbances are reported from Dunally, Nint, and other places, but no details have yet been made public.

THEY WANT OUR GRAIN.

America Can Export Millions of Bushels for England.

LONDON, Aug. 28.—The Standard to-day in discussing the grain shortage advises the consumption of maize, saying the United States could export 400,000 bushels of maize and that an extra shilling per bushel would attract all the maize in America necessary to supply Europe with wholesome, nutritious food.

Mitchell and Corbett.

LONDON, Aug. 28.—Through the Herald, Mitchell formally takes up Corbett's challenge to fight for \$25,000. He is ready to deposit the money as soon as Corbett by cable announces his acceptance. In addition, Mitchell says he has English friends willing to back him for \$100,000 against Corbett. It must be a fight to finish and Corbett can decide whether the fight is to be in America or England.

English Crops Badly Damaged.

LONDON, Aug. 28.—Telegrams from all parts of England and Ireland say the result of the continuous heavy rain is distressing. Crops are all under water, and will certainly be spoiled unless saved by subsiding soon. In several sections potato disease has appeared.

Gladstone Denounces Gambling.

LONDON, Aug. 28.—Gladstone has written a letter denouncing gambling as a formidable and growing national evil. He adds that he is ready to give his aid to any efforts aiming at the extinction or mitigation of gambling.

Chilian Affairs.

WASHINGTON, Aug. 28.—Nothing official or unofficial was received at either state or navy department to-day of the reported surrender of the Chilian congressional army at Vno del Mar on Tuesday.

A CRAZY HUSBAND.

He Killed His Wife and Children and Himself.

NEW YORK, Aug. 28.—Tenants in a four story tenement house last night heard pistol shots from the apartment occupied by a family named Baxter on the third floor. No one, however, sought to learn what the shooting meant until this morning, when it was noticed that none of the Baxters had yet been seen. A policeman went up stairs, forced the door, and there found John Baxter, a painter, 30 years old, his wife Mary, aged 28 years, and their child Katie, 6 years old, and John, 4 years old, all lying dead with bullet holes in their heads. Beside the body of the husband and father lay a 38-caliber revolver with four cartridges discharged. It is supposed he killed his wife and children and then shot himself. On the table was a letter written to his mother, in which he told her his intention to kill his family and himself.

There were no evidences of a struggle by any of the victims. Baxter was probably insane, as no other motive for the horrible crime is known.

A HORRIBLE SCENE.

The Fate That Overtook a Guilty Couple in Michigan.

GRAYLING, Mich., Aug. 23.—James Burns has been living on a farm near Red Oak for four years.

He was 18 years old, apparently of cons. Burns means an culture, and lived with a handsome girl 18 years old, whom he said was his daughter. Burns had not been seen for several days but the neighbors paid no attention to the matter, as he was reserved, and seemed to care only for his daughter. Yesterday Herman Grosty went to the house, but could not get in. He found a gamishing horse in the barn and then broke in the rear door of the house. A horrible stench nearly drove him back, but on going into a back room he discovered Burns' body on a bed with the girl's body lying across it. A light cord around the girl's neck showed that she had died of strangulation. There was no sign of a struggle, and everything in the house was in order. The supposition is that Burns died a natural death or committed suicide by poison, and that the girl, on discovering his death, strangled herself. Papers in the house showed that the girl was not Burns' daughter.

Muzzling the American Press.

New York, Aug. 28.—M. T. Magee & Co., of 70 Wall street, were informed yesterday that President Diaz, of Mexico, had ordered a young American writer to leave the country because he criticized some act of the president. Efforts were also in progress to learn the identity of another American journalist who recently sent from the Mexican capital an article exposing the methods of the administration. According to Magee & Co.'s advice, a number of Mexican newspaper men are in jail for daring to point out mistakes made by President Diaz. The administration newspapers are advocating the expulsion of several American correspondents who do not praise President Diaz' management of Mexico's affairs.

DEADLY CLOUDBURST

GREAT DAMAGE DONE IN NEW YORK STATE.

Several People Drowned and Property Destroyed to the Extent of Half a Million Dollars.

TROY, Aug. 28.—The whole eastern part of New York state was deluged by a cloudburst last evening. Three dams were
