FUTURE OF WHEAT CULTIVATION.
The course of the cultivation of wheat, in the United States, for years, has in a measure depended upon the ruling prices paid for the cereal.

The course of the cultivation of wheat, in the United States, for years, has in a measure depended upon the ruling prices paid for the cereal. At least such has been apparently the situation, though the present year is an exception.

The magical effects of Wisdom's Robustine as a beautifier and preserver of the complexion have been attested by thousands of leading ladies of society and the stage. It is the only article ever discovered which gives a natural and beautiful tint to the complexion, removing tan, sunburn, freckles and all roughness of the face and arms, leaving the skin soft, smooth and velvety.

The trotting breed stallion Alwood Breeze will stand for service at Erlens Bros. stable, Albany Saturday's of each week until further notice.

Have you examined that beautiful \$400 piano at Klein Bros. shoe store.

Dr. HUMPHREYS' SPECIFICS are scientifically and carefully prepared prescriptions, used for many years in private practice with success, and for over thirty years used by the people. Every single specific is a cure for the disease named.

On the important question why boys leave the farm, John W. Bookwalter, in the Forum says that the answer is self-evident—perpetual toil in good weather all through the busy season, and perpetual loneliness in bad weather and most of the winter season.

directed, and all ages and both sexes enjoy their long winter evenings together?
The crooks and turns that the lovers of strong drink will take, to secure their ardent that is so ardently wished for, are wonderful to behold. In the staid old city of Hamburg, Connecticut, prohibition was supposed to be actually in force, and no place in the city would sell liquor for a beverage. But the citizens have been cruelly undecieved by the death of Kildeer Huff, a man supposed to be deaf and dumb and badly deformed by a bump on his back. After his death the villagers found that Huff's deformity was a padded sack, inside of which were found bottles containing various kinds of liquors, and in his pockets was found \$197, mostly in dimes and nickels. The old man has been a walking barroom and the mystery of how he supported himself is solved.

The avidity with government bonds are taken up, by the people, is really a matter of astonishment, considering that private individuals and banks find no difficulty in loaning money at three and four times as great a rate of interest as the bonds now bear. The Chronicle says that nothing shows the gain in the credit of this government like the case with which low interest bonds are absorbed by investors. It was slow work during the war to float the 7 per cent, and even when the war was over there was no keen desire to secure the six and 5 per cent, but when the rate fell to 4 per cent there was a great rush for government securities, and this has not diminished now that the rate of interest is down as low as 2 per cent.
