OREGON FRUIT PALACE.

One of the Great Attractions of the approaching State Fair.

The matter of properly representing the great fruit interests of the state is to be taken up by the State Fair through the enterprise of a fruit palace. Minnesota at St. Paul has an annual ice palace, Iowa at Sioux City a corn palace, and it is fitting that at her annual state fair, Oregon should have her leading industry represented by a fruit palace. The Salem Journal says: Good progress is being made on the Oregon fruit palace to be erected at the state fair grounds. One of the committee who is an experienced builder, has taken charge of putting up the building. The raising of funds is well under way. The committee are meeting with fair encouragement and trust all who can will give as liberally as they can in place of waving the committee off with as small a subscription as possible. Once erected the Oregon fruit palace will be a permanent feature of the fair, only to be enlarged or decorated from year to year. There will be no individual money-making or advertising features connected with it. It is going to be the great and original feature of the fair and as this is Oregon's greatest fruit year, an exhibit should be made that will arrest the attention of the whole world. The contractor for procuring the piling for the new bridge, Mr. D. M. Large, has gotten out the piling at Gatsville, and they will commence arriving by the train on Monday. We are assured that the work will not be delayed. Hop Prospects. Mr. Geo. Ross, who has a large hop yard near Lebanon, was in the city yesterday, and reports the prospects in his yard as being very good at present. It is engaged for the balance of this week near Linola and is reported to be thoroughly cleaning out the channel.—Salem Journal.

THE NORTHWEST HOP CROP.

A Product Which Contributes Wealth to the State.

The hop crop is yearly becoming a more important factor in the great state of Oregon. Many growers in the Willamette Valley have made comfortable fortunes by continuing in their culture, and this year in spite of the much talked of hop louse, growers will secure a good yield. Some of the best hops in Oregon are to be seen in Linn county on the river bottoms in the vicinity of Harrisburg, where the industry is carried on extensively by Dr. H. A. Davis, and others. GENERAL INFORMATION. Ezra Meeker is probably better informed on hops in the Northwest than any other person in Oregon and Washington. He has written an article for the Washington Herald of Trade on "Hop Culture," which will soon be issued as one of his bulletins. It will be of as much interest in Oregon as in that state. Hop culture in Washington, says he, dates back to 1805, when Jacob R. Meeker planted a peck of hop roots near the town of Nappah. He sold one bushel, all that he raised, for 85 cents per pound. This drew attention to the industry, which has grown every year since. More than 200,000,000 has come into the state through the sale of hops during the last twenty-five seasons; and 15,000 persons have annually found employment. Every succeeding year has witnessed an increasing production, culminating in a crop of 50,000 bales, or 9,000,000 pounds, in 1890. THE PROFITS. The one question which is always confronting growers is: Will there be enough pickers? If so, will they arrive in time? A great deal of trouble has been encountered by growers in this. When the hop industry commenced there were 23,000 people in Washington, now there are 400,000 and it would seem that no difficulty will be experienced from this source in the future. "Hop raising pays very well," says Mr. Meeker. "It is about the most profitable kind of farming. An average crop in England and New York is 650 pounds to the acre. In Washington it is 1600 pounds to the acre. In England it costs 15 cents per pound, to raise hops in New York 15 cents and in Washington 10 cents, so that we can make a profit where they are losing money." For five years, 1886 to 1890 inclusive, Mr. Meeker kept a close account of a farm of sixty-one acres. During that time 57,602 pounds were sold from it. They sold at an average of 17 1/2 cents per pound, aggregating \$101,129 95. The cost of production was 9 cents per pound, thus leaving \$9,415 77, or a year profit of \$122 92. In view of the fact that this immense profit would secure that higher wages would seem pickers in abundance. THE DAMAGE FROM LICE. At the present time we are now approaching the twenty-sixth annual harvest without a failure in the past. We have demonstrated, says he within the last three weeks that the danger once threatened from the lice can be averted by the usual diligence of the ordinary farmer. He does not think that any damage will be sustained through the lice. It is thus out to be the case, it will make the twenty-sixth consecutive year without a failure. In Violation of Law. Frasier & Berry had made arrangements to offer the Atherton house and contents on College Hill at Eugene as a prize to purchasers of lots in College Hill Park. The attention of the prosecuting attorney being called to the matter he looked into the state law and finds that such action is in violation of the lottery law. He informed Messrs. Frasier & Berry of this fact and warned them not to go any farther in the matter or he would be obliged to prosecute them. He has written to the attorney general for his opinion on the case, and the chances are the \$10,000 prize will have to be withdrawn.—Eugene Guard. Arm Broken. Wm. King met with a most painful accident at his home Saturday, says the Stayson Times. While working with a fresher the boxing became heated, and in working with it his left arm was caught between a belt and a pulley, breaking both the radial and ulna bones, the former protruding through the flesh. It is thought amputation will not be necessary. Church Notice. Preaching services will be resumed to-day at the Presbyterian church at 11 a. m. and 7:45 p. m., conducted by the pastor. Sabbath school at 12:45 p. m. Y. P. S. C. E. meeting at 7 p. m. All will be made welcome at these services. On Tuesday Jacob Thomas, Esq., the Warm Springs Indian lawyer, came up from the agency with a backload of watermelons, which he readily disposed of, and on Wednesday morning started back to his home full of happiness. The Esq. is said to be a shrewd lawyer and well up in the science of examining witnesses; is well educated, for an "Injun," and talks English fluently. The house of John Ryan, at the head of Vinson canyon, near Pendleton, was totally destroyed by fire Wednesday afternoon. Mr. Ferris, who cut his knee a few weeks since, in Curry county is suffering from blood-poisoning and there is but little hope of his recovery.
