TO GOOD TEMPLARS.

Do you know that Moore's Reveled Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

Two Girls Drowned in the Willamette at Independence.

THE BODIES RECOVERED.

Gold Robbery of Ohtamien at Salem—The Usual Budget of News From the Salem Capital.

SALEM, Sept. 1.—Two young ladies, Edith Lee, daughter of Dr. Lee, and Mabel Skinner, daughter of Geo. Skinner, all of Independence, were drowned this afternoon at 1 o'clock in the Willamette at Independence. The bodies were recovered between 3 and 4 o'clock. The girls were about 14 years each.

Robert Christiansen, a Dane from Portland, has been committed to the asylum for the insane. He has a mania for tearing up furniture, destroying property, etc. The case has excited the town and is an entirely different way. The violence that the best physicians maintain convinces me of this.—St. Louis Globe-Democrat.

ENGLAND'S SITUATION.

It May Yet Be Made a Very Uncomfortable One to Occupy.

BRISTOL, Sept. 1.—The National Gazette argues that the initiative in the Dardanelles matter falls upon England, saying: "It would be an exceedingly bitter irony of fate if, immediately after the Portsmouth reception, England should be compelled by Russia, France's ally, to defend her interests."

Results of the Prairie Fire.

FALGON, S. D., Sept. 1.—It will be several days yet before the effects of the awful prairie fire of Friday evening is realized. So far no loss of life has been reported, but the losses of property are incalculable.

BY MASKED MEN

A TRAIN HELD UP AT THE POINT OF RIFLES.

Three Thousand Dollars Was Taken From the Express Car—The Robbers Escaped.

CANYON CITY, Colo., Sept. 1.—Seven men held up the east-bound Rio Grande train last night near topaxi. The highwaymen compelled the flagmen at Texas creek to give up all torpedoes in his possession, and also forced him to flag the train.

SHOOTING AFFRAY.

Revolvers Used Effectively to Settle a Dispute.

SONORA, Cal., Sept. 1.—Last night while Frank McCann, superintendent of the Stanley mine, was sitting in the Yonahite hotel conversing with James F. Nougann, he was interrupted by John Sevenoaks, superintendent of the Badger mine, whose manner was resented by McCann. Pistols were drawn and four shots fired. Two bullets lodged in Sevenoaks' body; one entered the right breast but passed around on the rib and was cut out at the right leg. His wounds are not considered dangerous. McCann escaped without injury. No arrests so far have been made.

TROUBLE IN ALASKA.

Rumors of Difficulties Among the Indians at Chitkat.

NEW YORK, Sept. 1.—News of an outbreak among the Indians at Chitkat, Alaska, has been received from Sitka. According to advices, the United States gunboat Pinta was summoned by citizens of that place and remained there three days settling the difficulty. On the return of the Pinta to Sitka the officers were reticent, and it was impossible to obtain from them any news of the trouble, excepting that it was through a reduction in wages that the Indians engaged in season fishing. It was understood at Sitka that the matter had been settled without bloodshed, but at this writing of advices the Pinta is preparing for a second visit to the place.

THE RUSSIAN JEWS.

Proposition to Send Them Here in Large Numbers.

LONDON, Sept. 1.—The objection of the Argentine Republic to the extensive settlement of Jews, proposed by Baron Hirsch, has led the heads of the Jewish relief movement to turn their eyes again toward the United States, and it is reported that a determined effort will be made to overcome any restrictions that might prevent the United States from being a general refuge for the exiled Russian Jews.

KOCH'S REMEDY.

It is Being Used by Physicians in This Country.

Since the papers have thrown Koch's cure over the rail it might be supposed that was abandoned. It is really gaining a foothold among the medical profession only since it was dropped. My firm importing the lymphi, importing it in large quantities, and I am selling it in large quantities, and I am selling it daily all over the country. I sell in proportion to its value. You must remember that an ordinary beer bottle full of

ALL QUIET IN CHILI

Several Prominent Government Officials Will Be Shot.

DEMAND FOR THE REFUGEES.

Balmaceda is Making Across the Andes, and is Practically Beyond Pursuit—Winter May Catch Him.

VALPARAISO, Sept. 1.—Order is gradually being restored in Chili. General Balmaceda has been recognized as president ad interim of the republic by the members of the junta here, and little doubt is felt but what this action will be ratified by the members now en route from Iquique. The government troops at Concepcion, Talcahuano and other places have, through their commanding officers, notified the congressional list authorities that they have finished fighting, and are ready to obey orders from the junta, and only Copulimbo promises to make trouble.

All that remains to be done now is to put down the cases of disorder, bring to trial such of the Balmaceda officials as have been guilty of outrageous acts of tyranny, and prepare for the elections, which will again give the republic an unqualified constitutional government. Several prominent government officials will be shot to morrow after a trial by martial law. Balmaceda's officials at Copulimbo have cut the English cable there and will make a fight. The Esmeralda with the Lynch, goes to Copulimbo to-night. Transports with troops will follow.

The first and so far the only execution which has the appearance of having been prompted by revenge, occurred here to day. The Procurator Fiscal, who prosecuted the cases against the men who are alleged to be in a plot to blow up the torpedo boats Almirante Lynch and Condell, and the transport Imperiale, which resulted in the execution of Cummings and two others, was taken out and shot.

FROM BEHRING SEA

FOUR SEALING SCHOONERS RETURN TO VICTORIA.

A Russian Gun Boat Made a Raid on a Poacher and Shot the Captain.

VICTORIA, B. C., Sept. 1.—Four more sealing schooners have returned to port—the Carotta C. Cox, Annie C. Moore, Borealis and Geneva. The Carotta C. Cox brought 1513 skins; Geneva, 498 skins; Annie C. Moore, 1650; and the Borealis, 1500. All were cause of several conferences and much ill-feeling. Among the more prominent of those who have sought asylum are Don Claudio Vicuna, who was elected to succeed Balmaceda as president; Senator Barros, ex-minister of war; Espinosa, ex-minister of the interior; Domingo Godoy, ex-minister of state; Peres Montt, ex-minister of justice, and Oscar Viel, ex-intendente of Valparaiso.

For two months, when contracting for hops should have been very lively, nothing has been done. The market has been dull throughout the country, and in New York especially. In Oregon the prevalence of lice and uncertainty as to the damage which they might do has in a great measure restrained farmers from selling.

The contracts are: For one for 10,000 pounds at 16c per pound, and two for 800 pounds each, for 15c per pound. They are to be delivered in October. The contracts were made through one of the largest dealers, who, of course, will not divulge the names of the parties. The first lot is to be supplied by one grower, and the two others by a second. There has not been many contracts made this season which are larger than these.

THE INLAND EMPIRE.

Wheat Prospects in that District Are Good.

PORTLAND, Sept. 1.—A grain man from Eastern Washington was in the city to day and spoke in strong terms of the wheat prospects in that section. The farther south a person goes, generally the better crops are seen. In the northern part it has been a little too dry. A singular fact is also noted that often one part of a field will be dead ripe, while 20 rods away it will be decidedly green. Warehouses are being erected by the farmers' alliance, especially in Whitman county.

New Kind of Railroad.

The Salem Statesman learns that a new kind of a railroad is to be constructed by R. Scott of Scott's mills, Butte creek, Marion county, who has been planning for some time to build a single track railroad from his mill to a Mount Angel station, was in Portland a few days ago on business connected with his scheme. The road is to be built, and on a more extensive scale than was at first contemplated. It is not probable that it may run from Oregon City, via Willhoit springs, to Salem, a distance of about fifty miles. The style of the road is something entirely new in this

He Raised Wages.

BERLIN, Sept. 1.—Baron Stomms, one of the largest employers of labor in Germany, has decided to pay higher wages to all his employes while dearness of food continues, and to increase the pensions allowed the widows of employes and others.
