According to the London Education Times, they point out the direction of the written characters has a marked CALIFO RNIA influence on the position of the body. In "straight" writing the scholar faces his work, and is spared the twist of the body and neck which is always observable in those who write slantwise, and one common cause of spinal curva ture is thus obviated. The erect method is, therefore, expressly recommended for use in schools in preferable to the ordinary sloping lines.

No less a personage than the Emperor of Germany himself puts the story that the German habit of drinking Zwi lager beer is one of health and sobriety, among the other harmful prevarications of the age. He has caused stringent restrictions to be placed upon the drinking habits in that country. The law that it is proposed to enforce not only prohibits the selling of liquor to minors and habitnal drunkards, but also forbids its sale at any places except where bona fide eatables are retailed, which ore practically suppress the saloon. It also arranges for the inspection of beer manufacturies to see that they issue only a pure a step in the direction of prohition.

But two men in Williamsburg, New York, still persist in maintaining that witches exist. One John Kramer appeared before a justice and wanted his wife detained for bewitching him. Later on a former husband put in a similar ples, and as he also made an accusation of bigamy, the lady was ordered to appear for examination. The poor bewitched men are surely to SPECIAL PARCEL DE-Le pitied.
