JOTTINGS ABOUT TOWN.

Oxford ties very cheap at Klein Bros. S. A. Hollin, druggist, French's corner. Great reduction in Oxford ties at Klein Bros. Rev. E. N. Condit went to Salem yesterday.

Great reduction in embroidered flouncing at W. F. Reads. Choice pickles in bulk, or quantities to suit, at Parker Bros. Mr. Will Galbraith has returned from a trip to the sound country. Wanted on Lebanon canal a number of good teams at \$3.50 per day.

Have you examined that beautiful \$400 piano at Klein Bros. shoe store. Klein Bros. are closing out their stock of Oxford ties at a great reduction. A full line of Dr. Warner's corsets the best in the world for the money at W. F. Reads.

A special and ice cream supper will be given at the W. C. T. U. hall Friday evening. Try Conn & Hendrickson's syrup, the finest in the market. Retail in quantities to suit. Conn & Hendrickson have secured the services of Archie Blackburn in their grocery store.

All kinds of fruit boxes in quantities to suit at the Sugar Pine Door & Lumber Company's. I am receiving choice early Crawford peaches daily from Ashland. Quality unexcelled. C. E. BROWNELL.

Don't miss the funny show, Dan'l Sully's "Corner Grocery," at the opera house Saturday evening. Mr. Lamar, the electrician and driver of the Albany street railway, will leave next week for Southern California to spend the winter.

W. E. McPherson sold yesterday to John H. Kay, of South Dakota, the farm of A. E. Ayers near Peterson's Butte, consisting of 125 acres, for \$25 per acre. John Isom, Jack Warner, Wm. Cowan, Al Boenicke, Arthur Leimer, Claud Strahan and Wm. Davidson, went to Salem yesterday to witness the ball game between the Salems and Portlanders.

The Lutheran immemorial congregation is kindly requested to meet in the Pearce church of Albany on Saturday Sept. 5th at 2 o'clock p. m. Services will be held Sunday Sept. 7th 9 a. m. by Rev. Gust E. Myer. J. G. Crawford the photographer, has returned from Yacina, where he obtained some fine views male about that popular seaside resort. Messrs Crawford and Paxton are also finishing a quantity of unique advertisements for Conductor Kennedy's Sulphur Springs near Corvallis.

An Ice Cream Social. A social will be held at the W. C. T. U. hall Friday evening, September 4. Song—"Baby and the Fly"—Emma Sox, Mattie Hearst, Myrtle Chamberlain, Flo Nutting, Leta Blain, Frances French. Reading—Mrs. Fannie Brown. Song—"Prof. W. H. Young." Question box. Lunch—Ice cream and cake.

Probably Drawn Off. Salem Steamboat: The Oregon Pacific's light draft steamer, Three Sisters, was due on Monday night, but failed to reach here, nor did she put in an appearance yesterday. It is probable the Oregon Pacific company has decided to take this vessel off the route until there is a better boating stage. She could make it all right every day of the year, were it not for a low offending snag and bars. The withdrawal—if she has been withdrawn—of the Three Sisters leaves the river without a boat ploughing its bow in above Oregon City. The government snagboat Corvallis, is now working with the snags between wheel and the mouth of the Yamhill. Preparing for a Brick Trade. Mr. W. F. Read, the popular dry goods merchant, has received for the coming fall and winter trade a stock of goods that for both quality and quantity cannot be excelled, and one that cannot but please his customers. Mr. Read says he looks for a heavy trade this fall and times, he thinks, in view of big crops and good prices, cannot be dull. His elegantly arranged store is filled on both lower and upper floors with a splendid assortment of dry goods of kinds, and he says his prices will be lower than ever.

A CHAPTER OF ACCIDENTS.

Marshall's Leg Broken—A Young Man Killed at Sweet Home. Mr. Marshall, while hauling hay near this city yesterday, met with a severe accident. One wheel of the wagon came off, throwing him to the ground. A bale of hay struck his leg in falling, breaking both bones below the knee. He was brought to this city and the broken limb dressed by Drs. Maston & Davis.

News has been received in this city of a fatal accident at Sweet Home. A young man, whose name could not be ascertained, was hauling hay. His team ran away and he was thrown off under the wheels. He was kicked by the horses and run over by the wagon and crushed to death. He was a German aged about 20. A farm hand working for Thos. Froman yesterday was hauling straw. He fell off of the load and was severely bruised and cut about the head. Dr. Ellis, of this city, dressed his wounds.

The young woman who was shot at the Russ House Tuesday evening is still in a critical condition. The attending physician, Dr. Davis, thinks she will recover. She was accompanied by a young man named Cunningham, an employe in the Oregon Pacific office at Corvallis. The woman's right name is Mrs. Truck. Her husband lives in Independence.

The fourteen-year-old son of Daniel Kaines, who resides near Mill City, had his arm torn off in the harvest field on Sunday. The lad was working about a threshing machine, and caught his left arm in a pulley, tearing the arm from its socket. The wound was properly dressed and the unfortunate boy was alive at last accounts, and may recover.

Wheat Beginning to Move. Oregonian: General Manager McNeil, of the Union Pacific has returned from a trip over the lines of this division. He reports harvesting pretty well over in the Walla Walla country and well advanced in the Palouse region. "Grain is coming in rapidly," he said, "and we are loading 400 cars per day. The farmers are feeling good on account of the big price they are receiving for their grain. The railroads are well prepared to take care of the crop and will move it rapidly, but it is possible that on account of the large amount to be offered for immediate shipment there may be off times when the demand for cars will temporarily exceed the facilities of the companies."

Property Valuations. A preliminary statement by the census office, showing the assessed valuation of real and personal property of the several states and territories for 1890, presents the following figures for Oregon: Total assessed valuation, 1880, \$52,522,084; 1890, \$177,025,731; population, 1880, 174,768; 1890, 213,767; assessed valuation per capita, 1880, \$300.52; 1890, \$529.14. The increased per cent of population was 23.53 and assessed valuation 216. 11.

A Card. Some person or persons have seen fit to circulate the report that I intended to leave Albany. Such reports are calculated to injure me in a business way and I wish to state that I am here and here to stay, and can be found at my old stand in Stewart & Fox block better prepared than ever to do all kinds of work in a painter's and paper hanger's line. Very Respectfully, GENE E. LARRIMORE.

Campmeeting Announcement. At the Methodist, South, campmeeting at the William B. Gore place, one mile north of Lebanon, Bishop W. W. Duncan will preach on next Sunday. It is expected that there will be a large attendance throughout the entire meeting, which lasts from September 2, to September 10.

AGENCY AT HERRINGBURG. It is learned that Mrs. Wigle, of the Harrisburg hotel, was robbed Tuesday evening of \$35. It is supposed to have been taken by some one stopping at the hotel.

"BRINGING COALS TO NEWCASTLE."

To the Editor of the Herald: I have heard of "Bringing coals to Newcastle," and could find a reasonable excuse for it, as the ship had to have ballast, and coal was worth more than ballast in Newcastle; but for some of the leading business men of Albany to organize a company to engage in the fruit business in Southern Oregon is too deep for me to find an excuse for.

Southern Oregon already has so much of the fruit business that properly belongs to Albany and vicinity, without Albany business men giving it another boost and Albany a kick. I am a strong adherent of liberal advertising, but must confess that a very little advertising such as the company are giving Albany will be a general sufficiency. For all kinds of fruit, berries and vegetables, the vicinity of Albany cannot be excelled, and why Albany business men should go away to a place no more productive, organize a company and load a thousand acres of land for fruit raising, is difficult to explain, unless they wish to discourage newcomers who are beginning to engage in the business here.

It is a fact that the finest peaches in the Albany market are raised right here, and they sell 50 cents more a box than do any others, while the home of the famous Oregon prunes is in the Willamette Valley, of which Albany is the hub. The success of the Salem cannery, and the known productiveness of this locality for fruit, vegetables and berries of all kinds, is sufficient argument that such an establishment as the one these Albany men propose to start elsewhere ought to be built up right here at home.

Albany business men should learn the value of patronizing home enterprise, if they wish to build up this city instead of some other. ALBANY. ODD AND INTERESTING. A woman in Atlanta is the mother of twenty-one children, all living and unmarried. The youngest is twins, and have just been born.

The "city article" of the London Times informs its readers that Chicago is destined to become one of the greatest grain growing states in the Union. There is a post at the corner of the public square at Fairmont, Mo., which gets a bolt of lightning from nearly every thunder storm that comes along. Three men, five horses and twenty or thirty sheep have been electrocuted at the spot.

Railway statistics show that the American takes twenty-seven trips a year, the Englishman nineteen, the Belgian eleven, the Frenchman, the German, Swede, Norwegian and the Spaniard five each, while the Turk, the Swiss and the Italian take one each.

A man living in Georgia met his death in a curious manner last week. The boys were subject to fits, and hearing that a rope used in hanging a person would cure them, the father came to town and got a piece of the rope Sam Snelling was hanged with, and returning home, tied it around his boy's neck. The boy had a fit shortly afterward and it is supposed the convulsions caused the neck to swell, and the boy was choked to death before the cause of the trouble was discovered.

A farmer named Shurtz, residing near Sulphur Springs, was up at the cranberry marsh at work, says the Cincinnati Enquirer, when he found six pretty round eggs, and so greatly pleased was he at their appearance that he picked them up and put them in his pocket to take home to his children. The warth of his pocket spoiled the eggs as playthings for the children or when he reached home Mr. Shurtz found that he had five little blackens in his pocket, one of the eggs failing to hatch.

A Fine Piece of Work. The finest job of interior decorating we have seen in the city is that just completed by Gene E. Larrimore, in the residence of A. B. Seal in Ellsworth St. The graining is especially fine and displays Mr. Larrimore's taste and ability in this line. We recommend him to any wishing work in this line.

Sack of Gold. The Baker City Blade says it had the pleasure of lifting and viewing a sack of pure gold, running up to the amount of \$1000 or \$1200, brought to the city by W. A. Weatherby from his Chicken Creek mines, where he has been for four or five days in the interest of their mines; and the sack speaks for the mines as to their flourishing condition.

NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest. After having been used as a freight depot for twenty-one years in succession, the Southern Pacific freight office at Salem, has been transferred to the new depot, where the coast freight business will be transacted.

The bridge across the North Santiam at the new station at Minto is completed, and the tramway to Leedy's sawmill is about finished. The mill will soon be shipping lumber. Trains have not as yet begun stopping at the new station.

The life crew at Fort Stevens went out in the breakers Tuesday morning and picked up a two-masted fishing boat, and had oars, poles, provisions—everything but occupants. There is no clue to those hapless wanderers of the sea.

Last Saturday the thrashing crew of Moses Miller discovered a bear on the farm of Mr. Nickerson, in the suburbs of Lebanon. They surrounded him with sticks, drove him into another field where he was dispatched, one of the men cutting his throat.

W. S. Byers has recently put \$1500 worth of new machinery in the Pendleton roller mills. Walla Walla Statesman: G. W. Hunt, of this city, has secured a contract of grading thirty-five miles of the Great Northern railroad, from Albany Falls west of Little Spokane and he is now sending his teams and scrapers to commence work.

The cattle in the vicinity of Sulphur Springs, Benton county, are evidently stethic to the last degree. One old cow, making investigations of a dinner basket, devoured a hand mirror, but, being disturbed, was not long in finding another basket. Here she ate the top of the basket and then a cake, never stopping to take it out of the napkin in which it was wrapped. She was discovered in time to save a table cloth, but afterward finished her meal by breaking into a tent and eating the cabbage.

DEADLY AMMONIA FUMES. The Lancaster, Ohio, Republican gives the details of a terrible explosion of an ammonia tank in a local brewery. Four persons were overcome by the ammonia fumes and were restored with great difficulty. One of them was a three year old child playing some distance away. As soon as the ammonia fumes struck it, it fell, and afterward finished her meal by breaking into a tent and eating the cabbage.

The use of ammonia in various manufactures has greatly increased of late, and accidents are of frequent occurrence, owing to the carelessness of those who are in danger not only from such accidents as that at Lancaster, but the effects of its daily absorption into the system are very injurious. Men who work in its manufacture suffer from this slow ammonia poisoning. Its effect is first noticed in their complexions, which assume an unhealthy, blotched appearance.

In this connection Professor Blyth, Health Officer of the Marylebone district in London, cites the case of a man who works in gunpowder factories where ammonia is given off freely. There is noticed among them a peculiar discoloration of the skin of the nose and forehead. A daily absorption of ammonia, in very minute quantities, will cause the complexion to lose something of its natural freshness. Professor Clifford Mitchell in his chemistry says ammonia poisoning may be so prolonged that death will not occur for several months. The length of time he gives for an immediately fatal dose to kill is four minutes.
