Why Dr. Price's Baking Powder is

Superior to all others.

No great efforts are made by other manufacturers to procure and use pure materials.

It is true that one other company has the facilities, but its greed and cupidity induced it in an evil hour to use ammonia, in order to swell its profits. Hence the Price Baking Powder Company stands alone in its fight for a pure baking powder.

No other article of human food receives greater care in its production, or has attained higher perfection. Dr. Price's Cream is surely a perfect baking powder. Free from every taint of impurity. No other article used in the kitchen has so many steadfast friends among the housewives of America.
