I am an old man and have been a constant sufferer with cataract for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Att'y, Washington, D. C.

TO GOOD TEMPLERS.
Do you know that Moore's Roveled Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

THE PULPIT AND STAGE.
Rev. F. M. Shront, Pastor United Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial and convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all, and cures when everything else fails. The greatest kindness I can do my many thousand friends is to urge them to try it." Free trial bottles at Foshay & Mason, Drug Store. Regular sizes 50c, and \$1.00.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and J.

OUR CANDID ADVISE.
It is seldom that an adviser of family physician but there are times when we feel justified in calling the attention of our many subscribers to an article of true merit. We feel justified in saying that Moore's Roveled Remedy contains more actual merit than any medicine it has ever been used for. It is a fortune to test. One trial will make you as enthusiastic as the writer.

Best Root Product.
LONDON, Sept. 12.—With improved weather and sunshine, beet roots are progressing well everywhere. Favorable forecasts must be based on continued fine weather, because the weight, as yet, is below that of 1890, though the quality makes up for weight. Some factories are working in Moravia and Hungary, but the bulk will not be in operation until October. It is expected that Germany's yield will almost equal that of 1890, and that Austria's yield will be in excess of that of 1890, and there will be a great increase in the yield in France.

A Trick of the "Heathen Chinese."
Tucson, Sept. 12.—A Chinaman in jail here yesterday revealed to his brother prisoners one cause of the exodus of Chinese from Mexico who are attempting to enter the United States. He says that seen Chinaman was just taken to San Francisco who had sent his earnings from Mexico, where he had lived several years, to China, and then deliberately crossed into Arizona, that he might be captured and sent to China at the expense of the United States.

KILLED IN A DUEL.
A duel was fought here a day or two ago by Jesse Moore, of Berrien county, and R. P. Fletcher, of Irwin county, from the effects of which Moore has just died. There has been blood between the men for some time, and when they recently met, each accompanied by a friend, they agreed to fight with their fists. After a few rounds, their hatred of each other became too intense to be satisfied with such mild methods and they drew their revolvers. When five shots were exchanged, Moore fell mortally wounded, but not seriously, and he fled from the state without delay. He has not been apprehended.

WHERE IT IS COLD.
ANOTHER EXPEDITION TO THE NORTH POLE.
A Well-Known Explorer to Undertake the Trip Next Year—Dogs Will Draw the Sleds.

LONDON, Sept. 12.—Another expedition to the north pole has been planned. Dr. Fridtjof Nansen, the well-known explorer, has decided to undertake the perilous trip next year. As Ekroll has invented a new kind of sled boat, his plan is to use the considerable interest in the geographical circles of Europe. Professor Lupan has a long article in the last number of Petersmann's Mittheilungen upon Ekroll's plans and inventions.

The vehicle invented by Ekroll, writes the professor, "consists of a number of sleds so constructed that they can be turned into boats when necessary. The boat is to be used in the open waters of the polar sea, while the sleds are for travel over the ice. The sleds will be drawn by dogs trained for the purpose. The expedition is to consist of as few people as possible, at most six, and the greatest possible number of dogs. But little baggage and few provisions will be carried. The peculiar construction of the sleds and the snowshoes with which the travelers are to be provided will facilitate the passage of the caravan." As Ekroll will be able to use either boats or sleds, as occasion demands, he will be, in a certain sense, independent of wind and weather. Besides, he will be able to choose his path, and take, if he wishes, the shortest road.

Miss Braddon has written fifty-two novels, representing in the original editions 156 volumes, or about 50,000 pages of printed matter, which means about 2000 pages a year, or an average of six pages of printed matter daily.

Colonel Webster Finnegan, the Texas gentleman who immortalized himself by the query: "What are we here for?" is at last about to get a satisfactory solution of his question. He is to be appointed collector of customs at El Paso.

Edward Bulwer Lytton Dickens, who has been elected to parliament from New South Wales, is pretty heavily handicapped as to his name. It will take more than the ordinary amount of genius to bear up under such a combination.

TALK ABOUT OREGON

Hermann and Dolph Tell What They Have Done

SOMETHING ABOUT YAQUINA.
What This State Can Do in the Fruit Line—Senator Dolph Will Speak in Ohio.

PORTLAND, Sept. 12.—Congressman Binger Hermann is in Portland. Since his return from Washington he has visited and personally inspected the improvements being made and conditions in affairs at the mouth of the Coquille river, at Coos bay, Yaquina and Alsea, for all of which appropriations have been made, and more will be made. He also visited the Siletz reservation where the work of allotting lands in severally to the Indians is going on.

Hon. J. N. Dolph, United States senator, returned yesterday afternoon from an extended tour in the southern part of the state. In an interview, he said: "I went to Yaquina and looked at the government work there in progress, which is in good condition. When completed in accordance with the proposed plans, commerce will be greatly benefited by the improvement of the bar and harbor."

"All through the Willamette valley the crops are looking finely, and the yield this year will be large. In my opinion the fruit culture is yet in its infancy, and is destined to be very prominent."

"In regard to prunes we can raise here the very best of Italian prunes, superior even to California, and the indications are that in a few years the crop of Oregon will be of more value than the wheat crop. This state has a grand future before it in respect to the production of fruit and should be able to export largely."

Next Saturday I leave for Washington, and when there shall confer with the leading members of the party. If they think I am needed in Ohio, I can do any good for McKinley, I may go there and make a few speeches."

Dalton in his conversation admitted that his brother Robert and Emmett are guilty of the Alia train robbery, but said they are safe from capture.
