C. G. BURKHARDT, District Clerk.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

SLAUGHTER OF SEALS

The English swear by the shrewdness of Scotland Yard men, and Americans of course, by the New York detectives. After three years residence in China I do not think either of the three bodies are entitled to the credit given them. The Chinese beat them all. They are at one time the most expert thieves and at another the most skilled detective in the world. A Chinaman can steal your watch while you are looking at it, and he can catch the man who stole it, if it happened to be some other than himself, when a French detective could not. I have seen evidence of detective ability among the Chinese which would startle even Zola. It is impossible for an evildoer to long elude the Chinese detectives. They scent a crime and follow it to the last before civilized detectives would know of it. In a country of so many people, who all look alike, this is remarkable. I heard of one case which will serve to illustrate their shrewdness. A family in Tonquin was murdered and there was no apparent clue to the murderer. The entire detective corps of three provinces were placed upon the case, and in three weeks the murderer—no other than the chief of the secret police, who handled the case for the murderer—was arrested and beheaded. Think of that. The Chinese detective force is a secret body, and the best organized in the world. They have an eye upon every man, woman and child, foreign or native, in China, and in addition watch over each other. Informers are encouraged, and collusion is impossible. The head of the Chinese police is not known, but there is one, and a very active one too. I have that the present head was once an ambassador to a European country, but really do not believe that any one knows who he is. There are said to be over 60,000 men under him and his assistants, who control the various districts.

Bellicose Act of Great Britain Denied.

IT WAS SIMPLY A PICNIC.

The Officers Returned to Their Vessels—Press Comment—The Sultan in Better Spirits.

LONDON, Sept. 15.—A dispatch just received from Constantinople says there is no foundation for the story of British armed occupation of the port of Sigi, on the island of Mitylene, that is found in the fact that a party of British naval officers on Saturday last left their ship for the purpose of picnicking on a deserted island of Cape Sigi. The party embarked the same evening, and their vessel sailed.

The News and Chronicle both say the report of the occupation of Sigi cannot be without foundation and that, if true, the seizure would be nothing less than a bellicose act of which Lord Salisbury could hardly have been capable, since he escaped Beaconsfield's influence. They hope the government will, without delay, inform the public of the real facts.

The Chronicle says: The fail in American railroads can only be temporary. Even if the worst fears of European complications are realized, a war would mean a rise in grain to benefit American farmers and trunk lines.

VIENNA, Sept. 15.—The political correspondence of this city, in explanation of the reported occupation of Mitylene by the British fleet, says a reaction has occurred in the sultan's mind, in that he has recognized he has been the "victim of a shameful intrigue." The same paper adds that the sultan is no longer suspicious that a plot against his life is in existence and requested an audience of the British minister and of others in order to learn the truth in regard to the recent occurrence, in which the Turkish empire is interested.

FIENISH WORK.

Men Try to Wreck a Train for the Purpose of Robbery.

CHICAGO, Sept. 15.—A bold attempt was made to wreck the Cannonball express on the Pittsburg, Fort Wayne & Chicago railroad last night. When the train was two miles east of Whiting, Ind., Engineer Pierson saw an obstruction on the track, and reversing the lever, the engine came to a stop just as the pilot pushed its nose against a barrier of railroad ties. While the passengers and trainmen were standing about the engine discussing the narrow escape from death, Charles Howard, of Whiting, an employe of the Standard Oil Company, came running up and said he knew all about the attempt to wreck the train. "There were five of them," Howard said, excitedly, "and it was their intention to wreck the train and then rob the express messenger and the passengers." Howard then told how he met the five men at Whiting during the afternoon, and that they invited him to walk down the Pittsburg, Fort Wayne & Chicago tracks after Herring had set in. It was about 7:10 o'clock when the party reached the spot where the ties were placed on the track. Howard says that all of the men were armed, and pointing their revolvers at him, they compelled him to aid in putting the timbers across the rails. He attempted to run away and warn the trainmen, when the robbers threatened to shoot if he moved. His story was not believed and he was arrested on suspicion of being one of the wreckers and brought to this city. A score of officers from South Chicago are hunting through the Indiana marshes to-night after the five men.

DEMOCRATS IN SESSION.

The usual committees were appointed and the convention took a recess until to-morrow morning.

The Anti Third Party.

ST. LOUIS, Sept. 15.—The anti-third party and anti-subversive league, the national farmers' alliance met at 10:30 this morning, not more than half the number of delegates expected being present. The convention was called to order and temporary organization effected by the election of U. S. Hall, ex-president of the Missouri alliance, as chairman. A five-man committee of five to outline a plan of procedure to be presented to the convention this afternoon at 12:30. A recess was taken.

The Reports Do Not Agree.

OTTAWA, Ont., Sept. 15.—A majority report of the Langevin-McGregory investigation committee concerning the boodle charges, but blames McGreevy and some other public works officials, and recommends prosecutions. The liberal minority report is that the charges of corruption are fully established.

A Hint to Athletes.

No one who frequents the gymnasiums during the summer season can have failed to notice men tugging and straining at their flannel shirts in a vain endeavor to get them off. A flannel shirt especially an undershirt, when wet with perspiration, sticks considerably closer than a brother, and hundreds of them have been torn this summer by trying to remove them in the manner that is usual when they are dry. But a wet shirt has no terrors for any one who knows how to handle it. Cross the arms, take hold of the left side of the shirt with the right hand, and the right side with the left hand, and the garment can be pulled off with perfect ease.

TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol, that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

Thos. Brink has just received some of the finest lounges ever brought to Albany, and he is selling them at a close margin.

Army Maneuvers Satisfactory.

BREITEN, Sept. 15.—The German army maneuvers have proved more successful than those of last year, for the reason that the troops are more accustomed to their novel weapons and to the smokeless powder. At first it required the utmost care and watchfulness on the part of the officers to prevent the men from being demoralized by the smokeless powder, which they were unable to understand. But now this peculiar feeling is generally overcome and the new recruits are steadied by the example of the older men. The Kaiser has stated his entire satisfaction with the conduct of the troops.

Swore Falsely for Hire.

DETROIT, Mich., Sept. 15.—Frank Parrish, who was brought here last week from St. Louis as a very important witness in the Perrier indictment case, wrote a letter yesterday to John Considine, one of the alleged abductors, stating that he (Parrish) had lied on the witness stand when implicating Considine, because he hoped to get \$700 from Perrier for testifying against Considine. Parrish has been shown up in several ways to be a pretty hard character.
