Arrives Departs

POLITICS AND MINING

There is food for reflection for those interested in the Albany mines in an incident which recently occurred in our neighboring state of Washington.

A young man at Coeur d'Alene, Idaho, sent his father a copy of the "Miner" of the place.

Everybody was proud to tell our Montana visitors about the big dividends from the Coeur d'Alene mines, but it remained for A. M. Eiler, manager of the Helena & Frisco mine, to tell them what made these dividends.

Among all the advanced movements in educational circles within a few years that are in favor of incorporating the kindergarten into the public school system is at once the most interesting and promises the most beneficial results to the country at large.

Under Cleveland Silver, 92c. Lead, \$3.50. Under Harrison Silver, \$1.19. Lead, \$5.10.

Those who are familiar with Cleveland's anti-silver sentiments will appreciate the hit scored. This country wants no exclusive gold standard. The people believe in the silver dollar as well as gold, and both should be maintained at a parity.

Among all the advanced movements in educational circles within a few years that are in favor of incorporating the kindergarten into the public school system is at once the most interesting and promises the most beneficial results to the country at large.

Dr. Humphrey's Specifics are scientifically and carefully prepared prescriptions, used for many years in private practice with success, and for over thirty years used by the people. Every single specific is a cure for the disease named.

It has not now become a part of many public school systems, but it is soon to be adopted in all our principal cities if the signs of the times are read correctly.

Unusual attractions will be offered to the breeders of fine stock and the owners of thoroughbred cattle in the domestic and fat stock show that will be one of the greatest features of the Portland Industrial Exposition.

THE manner of escape successfully followed by Balnaceda, the deposed Chilean president, has the pure elements of romance in it sufficient amount to satisfy the most enthusiastic in that direction.

Disguised as a drunken United States sailor he reels into a waiting boat and is swiftly conveyed on board the man of war San Francisco, with the connivance of Admiral Brown. Were it not for the memory of the many cruel acts he was guilty of, the method and facts of his escape would be universally approved here.

The development of the tin plate manufacture in this country, has developed the fact that cotton seed oil can take the place of tallow, which entered largely in the process as practiced in England. As this will give an enlarged market for one of the principal products of the southern states, probably the ultra free traders will begin to acknowledge that their is a chance yet for good to evolve from the McKinley bill.

ENCOURAGE manufacturing enterprises. A big plow factory wants to come to Albany. Well, Albany wants it to come; the wish is mutual. This city has never been backward about aiding such enterprises, and the same public spirit exists here now.

THERE is talk of establishing a fruit cannery and evaporator in Albany. It is an enterprise that is greatly needed here. No city in Oregon offers a better field for profitable returns in this business than does this city.

THE contractors of the big bridge promise to have it completed in time for wagons to cross before Christmas. The people will be satisfied with that.

ALL the element of commercial activity point certainly to a prosperous business year in Oregon.

OREGON'S state fair is proving a great success, notwithstanding the lowering clouds.

BUSINESS men report a steadily increasing volume of trade in this city.

Ladies, you can save money by purchasing your hosiery at the Ladies Bazaar. Call and examine our new line.

Mr. J. S. Morgan has just completed having a fresh kiln at his brick yard one mile west of the court house, and is prepared to fill all orders. A man will be in waiting at the yard to attend to all callers for brick.
