How many intending visitors to the great Portland Industrial exposition, have ever seen the Indian in his native ceremonies and wild, weird dance? How many have ever seen a war dance or a ghost dance, such as came so near plunging the country into a bloody Indian war last winter. Those who have not will have an opportunity to witness these peculiar ceremonies of the savages at the coming exposition, as Superintendent Mitchell has succeeded in procuring from the Umatilla reservation a number of noble red men for this purpose.

SALAD FOR SUNDAY.

Ebert, Crisp Notes to be Taken With Your Toast and Coffee.

The silver leaves on ample trees in autumn turn to gold. But ever fluttering in the breeze the simply turn to mold.

When the autumn winds whistle the leaves dance.

Albany society is suffering a season of quietness.

Who is holding the Albany bridge? Echo answers who?

Beautiful speckled trout are brought to this city from Yaquina.

Sells Bros., are filling an eight day engagement in San Francisco.

Will Albany be connected by motor line with Sodaville by next summer?

It begins to look like Albany would really have an orphan home and hospital.

Old maids have one thing to be thankful for. They will never become mothers-in-law.

The new United Presbyterian church will be one of the city's most beautiful ornaments.

The time given property owners to connect with sewers has elapsed and the evil is still permitted.

A Salem man announces that he will put up \$50 that he can pick ten chickens or more against any man in the county.

A Chicago dentist says too much kissing causes the teeth of Americans to decay. Old maids must have sound teeth if this is the case.

The history corrector is now trying to prove that Abe Lincoln never split rails. The more important fact was proven long ago when he prevented the rebellion from splitting the union.

Now that the exposition at Portland is a thing of the present, the county clerk will soon be busy counting a marriage license to happy couples who will spend their honeymoon in the metropolis.

A man will go into a bar-room and pull out a handful of money, but when he goes to church he fishes around for a single coin, and not a very large one at that.

In the Solomon islands you can buy a wife for ten thousand coconuts, and the fact that she is a woman warrants the supposition that if you play it right you can get her to go out and pick the coconuts for you.

A Wichita, Kan., woman who rides a safety bicycle, straps her baby on her back, Indian fashion, when she goes out for a spin. The infant enjoys the sport, and will probably lead a fast life. There's good stuff in the mother and baby.

The farmers of South Dakota are said to be leaving that state because they cannot get water. What do they want of water? It is all a matter of habit. Just grip it down and say "ahem" two or three times and you don't need water.

Big fires are occurring all around us, and no one can tell when Albany may be visited. There is hardly a cistern in the city that an hour's pumping would not exhaust. The platforms along the river front ordered by the council all prove a great benefit.

The father of a frail consumptive Connecticut girl who wanted to attend a dance sent her in a carriage with two servants, but made her put a pedicler in her pocket. When she got home in the morning it indicated that she had danced enough to cover thirty-one miles in a straight line. The above is true to life. If such a girl were asked to help her poor, tired mother wash dishes, she would have too bad a headache.

What the practical people of Oregon want is to call the attention of the practical people elsewhere to the resources of the state with a view to their development. Oregon does not desire an influx of visionary people who, possessed of the idea that this place where everything grows luxuriantly without cultivation, come here with the one thought of making a living without the slightest exertion on their part. It does desire such an addition to the population of practical, industrious, upright citizens as will cause it to become in due time a great state through the intelligent development of its national resources. That a proper exhibit at the world's fair will secure this and all will admit. Will Oregon be represented.

A Narrow Escape.

Quite a distressing accident happened at Grabsburg, this county on Saturday forenoon, that for a while was thought would result fatally to the little four year old son of Mr. and Mrs. Henry Ray. The little fellow was out where the threshers were at work, and while playing in the straw, fell in such a manner that the hind wheel of a heavily loaded wagon passed over his body. He was carried to the house of Dr. E. O. Hyde, of Scio, was called, under whose treatment the child is resting easily, and hopes are entertained for his complete recovery.

Juveniles Play Ball.

The young Willamettes and the Tangent juvenile baseball clubs engaged in an exciting contest on the diamond in front of the court house yesterday afternoon. One of the largest ranches in Eastern Oregon, without question, lies south of Heppner, in Morrow county. The ranch is owned by William Penland, and contains 20,000 acres of good tillable and productive land. He has just finished harvesting his hay crop, which amounts to over 1,000 tons. This large body of land is all under fence, and affords excellent pasturage for stock during the entire winter season.

William Culbert, the young man who had his foot torn off by a train at Penleton some months ago, has entirely recovered, and is able to walk briskly on a wooden leg and is very thankful for the county physician's treatment and the attention received from the hospital superintendent. He goes into Eastern Washington, and will crop a patent varnish preparation and other articles to secure money enough to buy a cow limb.

A 5-year-old son of Rev. Shangle, who lives sixteen miles north of Oakland, was probably fatally injured last Thursday. He was falling a large fir tree, and his two little boys were standing at an apparently safe distance watching him. The tree in falling struck a tall dead tree breaking the top of it and hurling it with great violence to the spot where the children were standing. Both were struck, but the youngest was not seriously hurt. The eldest boy, however, was struck squarely on the head and is hardly expected to recover.
