The Chronicle pertinently remarks that the price of fine silver has declined abroad, taste and can be taken by the pected. The attitude of President Harrison and the Mus wamp press has thoroughly convinced foreigners that we are as far as ever from free coinage, and the white metal suffers in the consequence. A vast majority of the people who have been obliged to write address to the newly admitted states will heartily endorse the tollowing criticism of the Chronicle: The people who are responsible for naming the two Dakotas, North and South Dakota, may be satisfied with their work, but persons compelled to write the mame frequently do not regard them with much favor, because they have constantly forced upon them an unnecessary word. The retention of the name Washington by the new state CALIFORNIA was also a mistake, as every person having occasion to write it will testify. Very often it becomes necessary to explain that the state and not the city is meant by the title, and that is an offense against conciseness which every sensible person rebeis against.

THE Paris public are raising a great disturbance because German music is being performed in some of the places of amusement. It is not because it is Wagner's music that they kick but because Wagner is a German. While the praise for their patriotism will be very "feint" the faith in them as musical critics will be entirely destroyed.

A few days ago the dispatches related how Balmaceda had escaped on the United States war ship San Francisco. Now the same dispatches tell of his suicide in Santiago after a fruitless attempt to escape.
