I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease—Henry Billings, U. S. Pension Att'y, Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am down on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

We are the only people who carry the celebrated E. & W. collar and cuffs. Always have the latest styles in stock. T. L. Wallace & Co.

TO GOOD TEMPLERS. Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

These Brink has just received some of the finest lotions ever brought to Albany, and he is selling them at a close margin.

FIRE AND THIEVES

East Portland Chronicle Office Burned With Contents.

A FRUIT DRYER BURNED. The Positive Burglar—After Pockets Kaliva and Kevlars—A Feast for Silverware.

Portland, Sept. 29.—The East Portland Chronicle office, at the corner of Fourth and Oregon streets, was destroyed by fire at an early hour this morning. About 3:30 o'clock William Wheeler, the manager, was awakened by someone knocking at his door. He looked out and discovered that the publication house next door was on fire. An alarm was rung, and soon the department responded. At the time a strong wind was blowing from the north, and the fire was beyond control and had communicated to Mr. Wheeler's house on the south lot. The fire evidently originated in the rear of the building and took such a firm hold of the structure that not a particle of the contents could be saved. The loss is about \$5000, insured in the Northwestern agencies for \$2000. The origin of the fire is a mystery, but it is supposed to have been the work of an incendiary. Mr. Wheeler's residence was damaged to the extent of \$300; uninsured.

Trustworthy dispatches from Yezan are few and infrequent, but all are to the same effect, namely, that the progress of the rebellion is unchecked. It is even said that the rebels have proclaimed a new Caliph, and have announced the deposition of Sultan Abdul Hamid as commander of the faithful. There are also rumors coming from French and German mediums, that the rebels are being encouraged by the English government. They are armed, it is said, with English rifles and ammunition of the latest pattern, which have been supplied to them from Aden.

Views Him Differently. A Minister Who Thinks Kaiser William Is a Peacemaker.

COLUMBUS, O., Sept. 29.—Rev. Dr. Washington Gladden, a well-known Congregationalist, clergyman of this city who has just returned from Europe, where he attended the international council of Congregationalists as a delegate from America, said in a lecture: "If I live ten years I expect to see another European war. It will be the most disastrous in loss of life and property in the history of the world, but it will be the last. The people of the great nations will then agree on a proposed international board of arbitration, to which their differences will be referred."

THE JAPANESE NAVY. Some Very Large Guns Being Made for It.

Japan's three new men-of-war—the Matsushima and Izukushima built in France, and the Hasketsuki constructed at Yokosuka—will, according to the Jiji, be armed with guns larger than any now in Eastern waters. The weight of the guns, we are told, will be sixty-six tons each, total length of bore of each forty-two English feet, and the manner of working the guns very simple. Tests were recently made of some of these guns before many French and Japanese naval officers near Havre, and the results are said to have been highly satisfactory, the guns exhibiting a maximum penetrating power at the muzzle of 115 centimeters of worked iron, and at 2000 meters distance of ninety-one centimeters thickness, without incurring any damage to their guns or their mountings.—Japan Gazette.

The Wisconsin Poetess Married. LA CHOSE, Wis., Sept. 29.—The marriage is announced of Charles A. Poole of Valparaiso, Ill., to Marion Manville, the well-known Wisconsin poetess and writer. The event occurred at the residence of the bride's parents last Tuesday, but was kept quiet until the parties started on their wedding trip.

Rates of Fare to the Coast. CINCINNATI, Sept. 29.—At a meeting of the general passenger agents of the Central Traffic Association yesterday, rates to the Pacific coast were adjusted. They will be based on a fare of \$15 from Cincinnati to Kansas City, and beyond that to follow the transcontinental rates.

It Seems To Be On Its Last Run. CAIRO, Sept. 29.—The insurrection in the Yemen not only continues, but increases, and now actually threatens the existence of the Turkish empire. In every part of the country the rebels have been successful. An army was sent against them under Mustafa Bey in the middle of July. It set out from Sana for Hadje, but on the way was met by the rebel forces and put to rout. Two other armies marched against the rebels at the same time, under the command of Hassan Edil Pachas, and Ahmed Ruschdi Pachas, and they also were defeated. The rebels then captured and destroyed the town of Hadje and have since occupied Sana. The entire region around Sana and Hodeida, and also Dhuram, Da'war and Jerim, are in possession of the insurgents. Most of the garrison went over bodily, only a few Arabs remaining faithful to the government.
