

Morning Daily Herald

L. P. FISHER'S
ADVERTISING AGENCY
SAN FRANCISCO

20 CENTS A WEEK.

ALBANY, OREGON, SATURDAY, OCTOBER 3 1891

VOL. VI—NO. 259

FOR SALE, WANTS, ETC.

PAY your school tax.—The school tax for the year 1891, is now due and payable. Tax-payers are requested to call promptly, at the office of the clerk, U. G. Burkhardt and pay the same. Signed, U. G. Burkhardt, clerk.

C. B. WINS, AGENT FOR THE LEADING fire, life and accident insurance companies.

MONEY TO LOAN—HOME CAPITAL ON good real estate security. For particulars enquire of Geo. Humphrey.

160 ACRES OF LAND. All fit for cultivation, and under fence, for sale at \$10 per acre. Within 15 miles from railroad station and 25 miles from Albany. Apply at this office.

ST. W. A. has received a quantity to the Albany, the corner of Second and Lyon streets.

Land for Sale.

5, 10, 20, 40, 80 acres, easy terms, installment plan cheap and prompt. Also a few city lots owned by H. Bryant.

Land Surveying.

Darius Moore surveys and locates all kinds of land, and is prepared to do surveying in any part of Linn county. Postoffice address, Millers Station, Linn county, Oregon.

Notice of Partnership.

NOTICE is hereby given that J. W. Ganser has purchased a one-half interest in the firm of Ganser & Co., with the business will hereafter be conducted by Ganser & Co. Solo August 11, 1891. J. W. GANSER.

Notice of Dissolution.

THE partnership heretofore existing between F. W. Marshall and H. F. Hollenbeck, is this day dissolved by mutual consent. The business will be conducted by F. W. Marshall who will pay all debts of the firm. F. W. MARSHALL.

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease—Henry Billings, U. S. Pension Att'y, Washington, D. C. For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am down on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

We are the only people who carry the celebrated E. & W. collar and cuffs. Always have the latest styles in stock, T. L. Wallace & Co.

TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

Thos. Brink has just received some of the finest lounges ever brought to Albany, and is selling them at a close margin.

Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

Royal Baking Powder

ABSOLUTELY PURE

Cram's Unrivaled Atlas.

The new edition of this unrivaled work is now being delivered by the agent, Mrs. A. M. Tall. The work is a most excellent one, and this edition is a great improvement upon former ones, giving all the latest data and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing P. O. Box No. 60 Albany Oregon.

Nursery.

Messrs. Hyman & Brownell are prepared in their nursery to furnish all kinds of stock, and those intending to plant should call upon them.

School Tax Notice.

The school tax in school district No. 5, is now due and payable. Call at my office and pay the same before it becomes delinquent.

C. G. BURKHARDT.

The men of this vicinity do not buy so constantly about Matheys and Washburn. Its not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

HERB WINS.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve, and Electric Bitters, and have received many testimonials from our customers, every time we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits, Foshay & Mason, Druggists.

A NATIONAL EVENT.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nerve by Dr. Franklyn Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on "Nervous and Heart Diseases," with unqualified testimonials free at Standard & Cusick's. It is warranted to contain no opium, morphine or dangerous drugs.

A SAFE INVESTMENT.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our reliable druggists a bottle of Dr. King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc. etc. It is pleasant and agreeable to take, perfectly safe, and can always be depended upon. Trial bottles free at Foshay & Mason, Druggists.

SPERULATION DANGEROUS.

Scarcely a day passes without the news of some large failure following over the wires—the usual result of speculation in stocks or some equally dangerous venture. The same electric current carries to dear distant friend the sad tidings of death of loved ones—too often the result of speculation in patent nostrums. Moore's Revealed Remedy is no speculation but is sold on positive guarantee. Do not fail to go to your druggist and ask for your money if not satisfied. We know you will go and buy another bottle. For sale by all druggists.

STATE AND COAST.

A Bombshell in the Camp of the Insane Asylum Managers, IN A WRECKED CONDITION.

Superintendent Rowland's Report States Some Plain Facts—The Lane-Pennyroyt Fight.

SALEM, Or., Oct. 2nd.—When Dr. L. C. Rowland took charge of the Oregon State Insane Asylum on Aug. 1, he retiring superintendent filed a report for the preceding month, and when Rowland had been a month he filed with the Board of Trustees his report for the month of August, giving the condition of the institution when it came into his hands. This report like Lane's has been withheld from publication, but being regularly on file with the asylum commissioners is obtained. The report finds the asylum in bad condition in several respects, says "Existing 'lan did not provide the necessary number of attendants for the protection of patients against injury to them, and against the escape of sleepless, restless, and bed-bugged, and against accumulated impurities in many cracks and crannies unused to routine weekly inspections." "Protections against fire," he says, "are inadequate and there were no bath towels, the patients being forced to wipe their bodies on dirty sheets and cloths." "An unusual amount of clothing has been issued in order to meet an unusual want, it having been carefully estimated that there existed on Aug. 1 an actual want. Seventy-five bedsteads have been provided for patients who have heretofore slept on the floor. There was no ladder about the buildings to use in case of fire and there was no fire department organized for either practice or actual service. Fire alarm was useless. This has been remedied, as a light with such fearful odds in its favor would necessarily have to be prompt and vigorous in order to secure the slightest hope of being effective. The work of victory within the first precious moments of a most disastrous defeat.

The effect of their reports will virtually be to shift the fight between Lane and Pennyroyt to Lane and Rowland.

OTHER SALEM NEWS.

Louis Wilson was brought to the penitentiary to lay from Clatsop to serve a one year term for larceny.

Al Carson, the negro arrested for a recent murder, was held to await the action of the grand jury.

Recently the city council ordered the water tanks belonging to the Salem Truck and Dry Co. erected along Salem streets to be torn down. These were used for street sprinkling purposes, and the city council ordered them filled from them. Today John Savage, of the Dry Co., instituted suit against the city, claiming damages in the sum of five hundred dollars occasioned by the removal of the company's tanks.

Ira Adams, who recently accidentally shot a woman, today brought suit for \$1700 against the Pacific Mutual Accident Ins. Co., in which he was insured. The company never paid him for the loss of his arm.

On a requisition from the Governor of Utah Governor Pennyroyt today issued a warrant for the arrest of G. Clements, who is held at Portland charged with embezzlement.

HATED OF AMERICANS.

The Victorious Chilians Do Not Like the American People.

SALEM, Cal., Oct. 2.—The British steamer West India, from Iquique and Valparaiso, for Salem, has stopped in the harbor for coal and provisions. Her captain confirms the reports of ill-feeling and abuse of Americans since the defeat of Balmaceda. His vessel was at Iquique when the news of the fall of the dictator was received, and he says that a terrific celebration immediately began. Carousing, dancing and all manner of excesses were indulged in, night and day, for a week. The feeling against Americans is especially bitter and outspoken at Valparaiso and Iquique, where one of the first moves made was to oust tall Americans from the social and political clubs. In Valparaiso the congressionalists formed a great procession with the Chilean flag in the van and the British flag in the rear, amid cries of "God save the queen" and "Hurrah for England." England is on top as far as commercial interests are concerned, says the captain, and will remain so for a great many years to come, but the trade of the country is greatly overdone just now and no one will make any great profit out of it.

CURE FOR STUTTERING.

Medicine Must Be Dropped and an Educational Method Adopted. Medical treatment is of little avail for stuttering. The main reliance is on educational methods. The patient must train himself to speak with calm deliberation, to keep his lungs well filled with air, and to check himself and begin

the sentence again, instead of struggling with the impending letter. He should also give much attention to deliberate reading.

An eminent physician, who had been a terrible stammerer in boyhood and who never fully overcame the defect, says the letter 'n' gave him special trouble. But he could speak it readily if he uttered the letter 'g' before it. His upper teeth would wound his under lip in the effort to speak the word method in public. He found great difficulty in saying "good morning," the 'g' as well as the 'm' troubling him, but he could say it if at the same moment he raised his hat. He could easily read a lecture in public if he had car fully read it beforehand and thus secure calmness. Sometimes, finding himself about to stammer over a particular word, he would substitute an equivalent expression and thus escape.—Youth's Companion.

A NOTABLE PARTY.

Distinguished Geologists on a Visit to the Colorado Desert.

FLAGSTAFF, A. T., Oct. 2.—Thirty-five members of the fifth international congress of geologists returned from the Grand canyon of the Colorado desert last night, and to-day will visit the cave and cliff-dwellers. The party left Washington September 22, being composed of ninety-one members at the time. Major Powell, of the United States geological survey, took charge of the distinguished visitors here, and conducted them to the canyon. Some of the most notable foreign scientists who have visited this country are with the party, and are greatly pleased with the result of their labor. Several of the party will continue their work in California, among whom is Professor Wheeler, who has written several valuable works on deserts.

From the Sealing Grounds.

SAN FRANCISCO, Oct. 2.—The United States revenue cutter Richard Rush arrived here from the British sea this morning. The Rush left Ouniaska September 22. Among those whom the cutter brought down were Special Agent J. Stanley Brown, from the seal islands; Dr. Sheldon Jackson, government agent for education in Alaska; and the McGrath party. No have been two years in Upper Alaska about Fort Yukon surveying the United States boundary line. Sealing schooners had been seen in Bering sea for some time before the Rush left. May had been warned during the season, but only the British schooner E. B. Martin was seized by the Rush.

England Will Not Be Coerced.

LONDON, Oct. 2.—No importance is attached by the British foreign office to Russia's threat of hostility in the event of a Russian consent to come to terms with Russia in Europe. A retired official of the foreign office said today that substantially the same menace was held out by Emperor Nicholas before the Crimean war to induce England to withdraw its troops from Russia on Turkey, but the British government refused either to be coerced or cajoled, and Russia was beaten in the war that followed. The ex-official said he believed Russia's object in making the threat was to clear the deck for a descent on Constantinople by way of the Balkans, and with the co-operation of the Russian Black sea fleet.

Tried to Kill His Wife.

TRUMBULL, O., Oct. 2.—Joseph Hob, a German from Toledo, made an attempt last night to murder his wife, who had left him and is living in this city. He then shot himself through the head with a revolver and died almost instantly. Mrs. Hob is not seriously injured, the bullet cutting through the forehead of her right hand.

The Grain Harvest in France.

PARIS, Oct. 2.—An official estimate of the yield of harvest for 1891 is as follows: Wheat, 81,889,000 hectolitres, (a hectolitre is two and a quarter bushels); mixed grain, 3,637,030 hectolitres; rye, 21,152,030 hectolitres.

A Mysterious Explosion.

A mysterious accident occurred at Monmouth, Polk county Thursday, in which the 12 year old daughter of W. H. Parrish, a prominent physician of that place, was seriously injured. While she was sitting near an open fireplace a terrible explosion occurred in the fire, filling the room with the debris. The noise soon brought a crowd of people to the spot, and when the excitement had subsided, it was found that the little girl's lower lip was literally filled with what was at first supposed to be shot from a cartridge. Dr. Parrish, however, could find no shot in the wounds, nor could the least vestige of any explosion be found in the fireplace. In or in the day some small metallic fragments, resembling brass, were removed from the wounds. What the explosion was or how it got in the fire, is wholly a mystery. The little girl is resting well, and it is thought will soon recover.

A Likely Diagnosis.

Doct'r—I believe you have a sort of poison in your system. Patient—Shouldn't wonder. What was that last stuff you gave me?—New York Weekly.

A DISASTROUS FIRE

Halifax, Nova Scotia, Wiped Off the Face of the Earth.

THE FLAMES SPREAD RAPIDLY

A Gentle Breeze Helped the Fire Flood in His Work—It Is Impossible to Estimate the Loss.

HALIFAX, N. S., Oct. 2.—The most disastrous fire that has visited Halifax for years occurred this morning. It broke out before 1 o'clock in the Merin planing mill, on Taylor's wharf, near the Cunard wharves. In a few minutes the place was all ablaze, and the fire spread rapidly. A gentle breeze from the north carried showers of live sparks to the buildings, vessels and wharves south of the fire. The whole department was called out, and engines from northmouth came over to render assistance. Within an hour Merin's mill, Wilson's blacksmith shop, John Taylor & Co.'s big fish warehouse filled with pickled fish, Brookfield Bros' lumber warehouse and yards, and Taylor & Brookfield's wharves were destroyed. By this time the fire had spread to Liverpool wharf on the north and burned out Butler's spar yard, B. Swenerton, miller's agent, Halifax broom factory, J. B. Neilley & Co., commission merchants, and Stratford Bros, oil dealers. Large quantities of petroleum were stored on this wharf and there were great fears of an explosion. This was prevented by rolling the oil into the dock. The fire spread simultaneously to the south wharf, and soon the immense fish warehouses of John Taylor & Co. were a prey to the flames. The loss will be heavy. A score of schooners at the burning wharves were moved out into the harbor.

CALIFORNIA'S COMMISSION.

Its Novel Method of Advertising the State's Exhibits at the Fair.

SAN FRANCISCO, Oct. 2.—California's world's fair commissioners have called a meeting for the 13th inst. They think by that time that the supreme court will have filed a decision as to the constitutionality of the \$300,000 appropriation made by the last legislature. In the meantime Secretary Thompson is engaged in working up the county organizations, so that there is sure to be a California display at Chicago in 1893, whether the \$300,000 is secured or not. The secretary is communicating with the county boards of supervisors and prominent citizens in the interior so as to secure membership in the World's Fair exhibition. Those who join are required to pay only \$1 for a nicely engrossed certificate, and for \$1 they may name honorary members outside of the state. Certificates will then be forwarded to the Eastern and other non-resident members, accompanied by an invitation to visit the California exhibit and view the state's resources, if the recipient goes to the exposition. This is considered an excellent way to advertise the state.

RUSSIAN INTRIGUE.

Did the Figure in the Attempt to Assassinate the Emperor of Austria.

VIENNA, Oct. 2.—The impression is gaining ground that Russian enmity to Austria and Germany had something to do with the attempt to assassinate the Kaiser Francis Joseph. While it is not believed that the czar, or any other European prince, could wink at the attempted assassination of another ruler, yet the Russ an secret service has, as it is well known, taken a leading part in such conspiracies, as witness the Panin plot, which, when detected in time, was aimed at the life of Prince Ferdinand of Bulgaria. It has been thought that the lesson given in the execution of Ferdinand's would-be assassin would prevent such conspiracies thereafter, but there is reason to assume that Russian intrigue is also at the bottom of the plan to destroy the ruler of the Austro-Hungarian empire. The authorities are determined to probe the conspiracy to the bottom, and will have no scruples in employing any method in getting at the truth.

To-morrow War Will Be Predicted.

NEW YORK, Oct. 2.—Mr. Jacob Raiz, consul-general from Guatemala, has just received the following cable from Guatemala, under date of October 1: "Absolute peace reigns in Guatemala. Deny all rumors of revolution, which are false and malicious." The dispatch is signed "Barillas."

A Heavy Snowfall in Montana.

RED LODGE, Mont., Oct. 2.—It has been snowing and drifting incessantly for the past forty-eight hours, and now there is three feet of snow on a level. Business is practically at a standstill.

Gold for the United States.

LONDON, Oct. 2.—Bullion to the amount of £103,000 was withdrawn from the Bank of England today for shipment to the United States.

Bears Steal Sheep.

For some time Ed. Birch has been employed in herding a band of sheep on Linkton moun-

tain, and although careful watch has been kept, the sheep have been disappearing every day. The W. W. Wallis Statesman reports that on a log watching the sheep grazing he heard a crackling noise in the brush, and suddenly two large bears appeared and started toward the band. As it happened Birch had his rifle with him, and he waited until the bears were within easy range when he fired, resulting in shooting the largest one through the head, killing him instantly. At the report from the rifle the other one ran back into the brush and escaped. That evening before retiring Mr. Birch built a gun trap, and placed the carcass of a dead sheep upon it, with the intention of capturing the other bear. About midnight Birch was awakened by the report of a gun. He got up, and going out to the trap, he found the other bear lying on the ground with a bullet hole through his head.

THE SANDWICH ISLANDS.

Rival Native Chiefs are Still Quarrelling With Each Other.

SAN FRANCISCO, Oct. 2.—The steamer Monowai arrived from Sydney, Auckland and Honolulu late last night. When the steamer reached Tutuila on September 17, the United States cruiser Itoumou was then en route to Pago-Pago. Among the passengers of the Monowai were Captain G. C. Loholland, of the brig Douglas, wrecked among the Gilbert islands.

The trouble at Samoa between the rival Kings Mataafa and Malietoa is by no means at an end. Mataafa is residing at Malie, and assumes a degree of authority above that accorded to his rank as high chief. King Malietoa for some reason seems loath to check the arrogance of his popular rival, for the reason it is supposed that he knows a serious quarrel will ensue. At Manawa recently followers of several chiefs, who are ardent supporters of Mataafa, caused a disturbance at a gathering to elect a native governor. They tried to enlist the sympathies of the Manawa natives in Mataafa's cause, but the natives were loyal to Malietoa and rejected the advances made. An outbreak followed, during which several houses and villages were destroyed. The Malietoa government demanded that the offenders be taken to Apia for trial, and the United States warship Itoumou captured six of the Mataafa agitators, who were sentenced to six months' imprisonment. The situation at Samoa is considered unsettled.

A CRAZY BRIDEGROOM.

Queer Antics of a Demented West Virginia Preacher.

ATLANTA, Ga., Oct. 2.—A stylish-looking bride was registered at the Kimball house last night as George W. Kildow and wife. They were assigned to the bridal chamber. An electric war upon the annunciator this morning called the hotel clerk to the room. The door was opened by Mr. Kildow, who inquired: "Is Jesus Christ in the Lord Jesus Christ?" "I do," most humbly answered the clerk. "Enter thou then into the abode," said Kildow, and he quickly turned the key upon the clerk, who found himself in the room with a raving lunatic on one side of him, while on the other corner crouched the terrified and weeping bride. The mad man's antics were curious, but he was soon quieted and placed under arrest, while some ladies came to the relief of the bride. The unfortunate man was so violent that he had to be taken down to the calaboose and put in a cell. He is a well-known Presbyterian preacher of West Virginia. He had married Miss McNaughton in Richville and started on his bridal trip. The bride had spent the night dodging the movements of a mad man not knowing what to do. Later in the day the Presbyterian clergymen of the city interested themselves in the case. The doctors declare that the aberration is only temporary.

To Protect Foreigners in China.

BERLIN, Oct. 2.—The brisk exchange of telegrams between the European capitals continues, with a few of reinforcing the European squadrons in Chinese waters and affording better protection to European colonists.

Accused the Milk.

"That cow is awfully cross, don't you hear her." "I had some of her milk this morning." "How do you know it was hers?" "It was sour."—Epoch.

Tables Turned.

Mr. Benedict—Will you be my wife? Miss Beatrice—Yes. Mr. Benedict—Oh, Miss Beatrice, this is so sudden. Give me time to reconsider.—Harper's Bazar.

Deep Sarcasm.

"You've made your share of noise in the world," remarked the cigar stump. "Yes," mournfully replied the fire cracker. "And I'm busted." Kate Field's Washington.

Oregon State Normal School, MONMOUTH, OREGON.

Board of Regents: State Board of Education, ex-officio, His Excellency, Sylvester Pennyroyt governor; Hon. G. W. Meade, secretary of state; Hon. E. R. McKeloy, superintendent of public instruction; Benjamin Scholfield, president; J. B. V. Butler, secretary; executive committee, Hon. J. J. Pavy, Hon. P. W. Haley and J. B. V. Butler, Pavy; Jacob Voorhees, Maric; J. C. White, Poak; Alfred Lacey, Clackamas; A. Nuttner, Multnomah; W. H. Holmes, Marion. The leading Normal School of the Northwest.
