I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease—Henry Billings, U. S. Pension Att'y, Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

TO GOOD TEMPLARS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit $1,000 for any case of dyspepsia it will not cure?

A NATIONAL EVENT.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nervine by Dr. Franklyn Miles is doubtful. SPECULATION DANGEROUS.

Scarcely a day passes without the news of some large failure flashing over the wires—the usual result of speculation in stocks or some equally dangerous venture. The same electric current carries to dear distant friend the sad tidings of death of loved ones—too often the result of speculation in patent nostrums. Moore's Revealed Remedy is no speculation but is sold on positive guarantee. Do not fail to go to your druggist and ask for your money if not satisfied. We known you will go and buy another bottle. SCHOOL MATTERS.

Oregon's Flourishing Condition in Such Respect.

LARGE ANNUAL INCREASE.

Veronica Publishing Company Incorporated—Governor Pennoyer Appoints Delegates.

SALEM, Oct. 8.—From the tables just computed by the state superintendent of public instruction, from the county school superintendent's annual reports, it is seen that Oregon's thirty-one counties have 106,172 children of school age, and the schools an enrollment of 72,322. The number of teachers employed, 2641; number of children not attending any school, 20,616. During the year 121 school houses were built.

There are fifty universities and academies in the state, and there are 54,487 voters for school purposes.

Articles incorporating the Vernonia Publishing company, of Vernonia, Columbia county, were filed to-day with the secretary of state. Capital stock, $5000, incorporators, David Davis. Charles Davis, Geo. L. Hall, W. H. Braden.

Governor Pennoyer to-day appointed the following delegates to the trans-Mississippi Commercial Congress, which meets at Omaha Oct. 19th, lasting till the 24th: S. W. Blaisdel, M. D. Wisdom, and Frank Clarno, of Portland; J. K. Romig, La Grande, F. E. Bell, Granite.

Poverty in the German Capital.

BERLIN, Oct. 8.—As the cold weather approaches there is a marked increase in the want and misery among the working classes in Berlin. In order to get rid of the more dangerous and able bodied, they are given work in the North sea canal, and other public improvements away from the city. This cannot be done with the aged and infirm, and the departures hardly make any appreciable difference in the number of paupers apparent on every hand. In other cities of the empire, especially the industrial centers, there is more poverty this year than last year about the same period, and the high price of bread makes the lot of the poor more difficult.

The Sutro Tunnel Contract.

SAN FRANCISCO, Oct. 8.—The contract between the Consolidated California & Virginia, Savage, and Hale & Norcross Mining Companies has gone on to New York for the signature of the Sutro Tunnel Company. It provides for the removal of waste rock from the lower levels of these well-known Nevada mines, by way of the Comstock tunnel, at the rate of 40 cents per ton, all waste to be dumped outside the tunnel. The tunnel company will put engines in to take the place of the mules now employed, and will thus effect a great saving to the mines. Other companies along the line of the tunnel will be allowed to enter on similar terms.

German Cable Notes.

BERLIN, Oct. 8.—Preparations are being made at Copenhagen for the celebration of the czar's silver wedding anniversary. Owing to the mourning of the Grand Duchess Alexandria and King Karl of Wurtemburg, the services will be much less magnificent than at first intended.

The Monitz woolen mills at Buda-Pesth have failed for 28,660 florins.

A dispatch says that the kaiser has sent a formal invitation to the queen dowager and young Queen Wilhemina of Holland to visit Berlin.

Very Much in Love.

BERLIN, Oct. 8.—A Vienna dispatch says that the resolution of yound Prince Ferdinand, heir to the Roumanian throne, to resign his inheritance and marry Mlle. Vacaresco, having been communicated to that lady, she has written to the prince to put off until some future time the fulfillment of his purpose. The prince is said, however, to be unalterable in his determination.

Mexican Duties on Wheat.

WASHINGTON, Oct. 8.—The secretary of state is in receipt of a dispatch from the minister to Mexico inclosing the decree of that government amending the tariff in relation to wheat and wheat flour in the Federal district and City of Mexico, as follows: Wheat flour or wheat grain laid for threshing, 100 kil., $1 45; wheat flour in all classes, 100 kil., $1 10; wheat, that which is introduced into the City of Mexico gross weight, 100 kill., 90 cents.

How They Got There.

Back of E. C. Nelson's place, away up in the mountains at a distance of probably 800 or 1000 feet above the Columbia, lies a clear water lake, nestling gently among big firs and spruces. The lake covers an area of about an acre in extent and is filled with splendid trout. As to how the fish got there is a miracle as there is apparently no outlet or inlet of any kind to the lake, which is very deep in places. Along the shores are strewn numerous sea shells, which goes to show that at some period in Washington's history the Pacific ocean had covered this section and left its traces in the shell deposits. The lake apparently has about the same amount of water in it all seasons of the year, the dry weather in summer and the rainy weather in the winter seeming to affect it but very little. Here is a chance for some scientific researchers.—Cathlamet Gazette.

BUSINESS AND TRADE

THE OUTLOOK IS ENCOURAGING ALL OVER THE COUNTY.

Plenty and Profit are Already in the Grasp of the Farmer—Money More Plentiful.

Special to the HERALD.

NEW YORK Oct. 5.—The speculative situation shows more uncertainly than two weeks ago. Two causes are responsible for this; first, the rest and reaction which were necessary after a rise of 8 to 20 points within a few short weeks; and, next, the developments concerning Missouri Pacific and Union Pacific, which have brought down a storm of indignation upon the heads of directors.

The solid facts are more in favor of improvement than ever. The harvest has now passed from the range of possibilities into a certainty. Plenty and profit are already in the grasp of the farmer. Debts will be paid, mortgages wiped out, and new enterprises started on a scale hitherto unknown; all of which means expansion of business and increased traffic for railroads. Nor will the effect be restricted to the United States. In a measure the impetus started here will counteract the blight of short crops in Europe. The brunt of that calamity must, of course, be borne there; and yet the rise in American securities has already revived drooping spirits on the foreign bourses and helped restore the confidence destroyed by Argentine and other speculations. Moreover, American prosperity will enable larger purchases of foreign manufactures, in spite of our higher tariff, fear of which has been adding to the depression abroad. The war cloud which has so long threatened still remains, and seems darker than ever. At the same time, hostilities are not likely to begin in the winter; Russia will not have completed her new armament for two years to come, and the relations between the various powers remain too indefinite to calculate upon with certainty. Ultimately, war appears inevitable. At first it may injure American securities, because they will be the best on which to realize; but for just the same reason they will finally be the best to hold; therefore, no serious or lasting depreciation should follow our stocks in event of of a European struggle.

Gold is coming this way with unexpected freedom. This tends to lessen the possibilities of very tight money, which has been a question of doubt to bulls of the prudent sort. The other view of this gold movement is that it causes firmer money abroad where stocks have been carried on American account, and discourages speculation; to that extent depriving this market of important foreign support. Still, the immediate course of the market however seems now more promising again on this side for the bull side as a reaction from the recent depression. For the next few days we look for an active market, with good opportunities for traders.

PARNELL INFLUENCE

It Is Still Dominant In Its Power

THE GREAT CHIEF IS DEAD.

But His Works And Power Continue to be a Living Presence—His Enemies Still Pursue His Cause.

LONDON, Oct. 8.—To-day the prospect of an Irish reunion over the grave of Parnell is less encouraging. The news from Parnellite associations, both in Great Britain and Ireland, confirms the anticipation that an attempt will be made to keep up the organization with the same motive and aims as heretofore. Much depends on a meeting of the Parnellite members of parliament, which will take place soon after the burial of Parnell. If they should resolve to give up the contest, it is thought that the various leagues would follow suit. The chances for harmony have not been increased by the bitter language of the Dublin Catholic, the organ of the bishops, and by the scarcely disguised hatred of the comments of the anti-Parnellite Dublin Press. Even if the Parnellites should dissolve as a party, it is believed that many of them will either vote with the tories, or abstain from voting altogether. The dissolution, however, is at present doubtful, and one of the leading Parnellites said last night that they would probably wait for the other side to act. Undoubtedly one of the main obstacles to the reunion is the bitterness that has characterized the opposition to Mr. Parnell, as voiced more especially by Timothy Healy. In the face of his death the Parnellites feel less than ever like forgetting the cruel attacks on Parnell and the woman who shared his later fortunes. To Healy and one of his associates is attributed the origin of the rumors that Parnell had committed suicide, to refute which the family felt compelled to reveal the scene of the deathbed, with all its saddening circumstances.

ELOPEMENTS.

Popular Portland Young People Run Away to Marry.

PORTLAND, Oct. 8.—Two run away matches have been consummated. They are Ira Powers, jr., son of the prominent and wealthy furniture dealer and manufacturer, Ira Powers, and Miss Mabel Jamieson, who lives on Nob Hill, corner of Sixteenth and B streets

On Tuesday morning last Miss Mabel Jamieson left her home at Sixteenth and B streets, telling her mother that she was going over to Mount Tabor to spend the day with her friend, Miss Lou Morse. She said also that she would probably stay over there until quite late, possibly spending the night, and that her mother should not be worried in the event of her absence until Wednesday noon.

At the same time young Ira Powers, jr, told his father that he had business over in Vancouver and would be over there nearly all day, attending to an order for furniture. These two statements were implicitly believed by the respective parents, and the young couple had ample time to prepare for their intended marriage. Powers had bought a trunk full of clothes for himself and prospective bride, all of which, together with engagement and wedding rings, he dutifully had charged to his father.

They met down town, and without saying a word to any one, took the 11:45 A. M. train over the Norther Pacific for Tacoma, where they arrived at 6:30 and were met by Mr. Kreider, a lawyer and friend of young Powers, who had obtained a marriage license for them. The marriage cermony was performed in the Episcopal church at Tacoma at 7:30 P. M. Tuesday, Oct. 6, by the Rev. W. F. Harper.

The other couple are Dr. Robt. Pilkington, government physician the Lapwai Indians, and son of of Dr. J. B. Pilkington, and Miss Lota Brown, a well-known Oreg society lady, and sister of Sherman D. Brown. They were married by Rev. T. L. Eliot, at the Unitarian church, and then sent word to the bride's mother, and departed for the Sound and the Lapwai reservation. Miss Brown's people were terribly opposed to the marriage.

COULD NOT ESCAPE.

But Had to Pay His Gambling Debt.

PARIS, Oct. 8.—A judgment has just been rendered that strikes pretty hard at Prince von Hatzfeldt, the son-in law of the American millionaire, C. P. Huntington. Some time before the marriage of the prince he had a game of baccarat with a man named Dutugue, living in Geneva, the result of which was that Hatzfeldt gave Dutugue his note for 10,970 francs. Dutugue assigned the note to a man named Bietrix, who was unable to get the money, and Dutugue thereupon brought suit. Prince von Hatzfeldt fought the suit on the ground that the note, having been given for a gambling debt, could not be collected under the civil code of France. The plaintiff contended that Dietrix discounted the note in good faith, being aware that Hatzfeldt has met similar notes to the amount of 800,000 francs. The court had the case under consideration for some months, and has now decided that the prince must pay the note, together with the costs of action and interest. This decision shows that gambling debts may be collected by law in France.

Cigar Manufacturers Combine.

NEW YORK, Oct. 8.—The leading cigar manufacturers of this city held a meeting yesterday for the formation of a gigantic cigar trust, to include all the prominent cigar manufacturers of the United States. It is proposed to organize on the same basis as the consolidation of leading cigarette men. The combination will include 25,000 manufacturers, which aggregate a capital of $25,000,000. A committee was appointed, and arrangements are well under way. It is proposed for the combine to buy leaf tobacco, direct from the planters and save the middlemen's profits.

Burned to Death.

DETROIT, Mich, Oct. 8.—Parker, Webb & Co's packing house, between Nineteenth and Twentieth streets in this city, was damaged $100,000 by fire this morning. One man was burned to death, and about a dozen others more or less seriously injured.

HORRIBLE FIGHT

A SHEEP KILLING DOG AND A FARMER COMBAT.

Sixty Years Old But Plucky Still—A Blood-Thirsty Brute—Almost Kills the Man.

PARKERSBURG, W. Va., Oct. 8.—A terrible fight is reported from Rock Castle, in Mason county, between a large mastiff weighing 100 pounds, and Daniel Olver, a very wealthy farmer more than 60 years of age. For some time dogs have been killing sheep in that neighborhood, and hearing a commotion among his sheep Mr Oliver went out with a large knife in his hand. He grappled with the dog, which was among the sheep. After a terrific struggle he succeeded in plunging the knife several times into the dog's breast. Thinking he had fatally wounded the animal, he then threw it off. The dog rallied, and starting at Mr. Oliver, grasped him by the throat and threw him down. Another struggle ensued, in which Mr. Oliver was badly bitten. At last by a dexterous thrust he plunged his knife into the dog's heart, and the animal fell over dead just as the old man was about to succumb.

BRUTAL PRIZE FIGHT.

Two Bruisers Fight for the Love of a Girl.

WILKESBARRE, Pa., Oct. 8.—Edward Boone, a prizefighter, is lying in a hotel in Berwick in a very precarious condition from a beating received from Hudson Kline, another fighter. The men are well known as local bruisers in Berwick, and have had some trouble over a girl which resulted in an agreement to fight four rounds for blood. The fight was a terrific one while it lasted. Boone being knocked out in the third round. His jaw is broken, his face badly cut and there is a large swelling on his left side near the heart. Kline is in hiding and the police are looking for him.

Fire in San Francisco.

SAN FRANCISCO, Oct. 8.—Ixora hall, a substantial brick block on Mission street, was badly damaged and a row of buildings adjoining occupied as stores and lodging houses were destroyed by fire last night. The total loss exceeds $25,000: partly insured.
