Shop on the street car line between Third and Fourth streets.

New jewelry of latest patterns at Will & Stark's.

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease—Henry Billings, U. S. Pension Att'y, Washington, D. C.

For eight-years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am dow on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

We are the only people who carry the celebrated E. & W. collar and cuffs. Always have the latest styles in stock, T. L. Wallace & Co.

TO GOOD TEMPLARS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit $1,000 for any case of dyspepsia it will not cure?

Thos. Brink has just received some of the finest lounges ever brought to Albany, and he is selling them at a close margin.

Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

Royal Baking Powder

ABSOLUTELY PURE

Crane's Unrivalled Atlas.

The new edition of this unrivalled work is now being delivered by the agent, Mrs. A. M. Tait. The work is a most excellent one, and this edition is a great improvement upon former ones, giving all the latest date and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing P. O. Box No. 60 Albany Oregon.

Nursery.

Messrs. Hyman & Brownell are prepared in their nursery to furnish all kinds of stock, and those intending to plant should call upon them.

School Tax Notice.

The school tax in school district No 5, is now due and payable. Call at my office and pay the same before it becomes delinquent.

C. G. BURKHART.
District Clerk.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. Its not their good looks the ladies are talking about, it is the good qualites of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

MERIT WINS.

We desire to say to our citizens, that for years we have been selling Dr King's New Discovery for Consumption, Dr King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as, or that have given such universal satisfaction. We do not hesitate to guarantee them every time and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits, Foshay & Mason Druggists,

A NATIONAL EVENT.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit this nation as much as the discovery of the Restorative Nervine by Dr. Franklyn Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on "Nervous and Heart Diseases," with unequaled testimonials free at Stanard & Cusick's. It is warranted to contain no opium, morphine or dangerous drugs.

A SAFE INVESTMENT.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price, On this safe plan you can buy from our advertised druggists a bottle of Dr King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs, or Chest, such as Consumption, Inflammation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc, etc It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon. Trial bottles free at Foshay & Mason, Druggists,

SPECULATION DANGEROUS.

Scarcely a day passes without the news of some large failure flashing over the wires—the usual result of speculation in stocks or some equally dangerous venture. The same electric current carries to dear distant friends the sad tidings of death of loved ones—too often the result of speculation in patent nostrums. Moore's Revealed Remedy is no speculation but is sold on positive guarantee. Do not fail to go to your druggist and ask for your money if not satisfied. We know you will go and buy another bottle. For sale by all druggists.

1891

TWO MORE INSANE

Fractured Skull Caused the Trouble in One Case.

MRS. G. W. HUNT, OF SALEM.

A Pioneer Lady Dies—Furniture For the Reform School—A Larceny Man Safely Landed.

SALEM, Oct. 10.—George White, a laborer aged 30 years, was to day brought to the asylum from Washington county. He threatens to kill. He is insane through a fracture in the skull. Mrs. Margaret T. M Ine was also brought from the same county to day. She is the wife of a Hillsboro flouring mill man. She is Scotch and aged 43 years.

John Johnson was brought to the penitentiary to day from Clatsop county, and will serve three years for larceny.

Mrs. Geo. W Hunt died at her home in this city this morning, at the age of 57 years. She was for years identified with the Pioneer Association and Grange, and for the latter she was formerly state lecturer. She crossed the plains in 1847.

The first furniture for the state reform school arrived to day, and will at once be taken to the building. Everything will be ready for the reception of youths in a couple of weeks.

Three hundred sacks of peach seeds arrived to day and will be planted in the vicinity of Salem.

COWARDLY MISCREANTS.

Shoot a Young Girl Who Was Defending Her Father.

MACON, Ga., Oct. 10.—Miss Lizzie Gossal, a girl of 17, was shot to death last night by her four male cousins, while defending her father. She was engaged to marry one of the young men who aided in murdering her. The affair occured near Unionville. J. C. Gossal, the father of the murdered girl, is a planter. On an adjoining farm lives his brother-in-law, Edward Thomas, who has four sons, He has had trouble for some time with the Thomas boys, J. R., David, Bones and Jake. They rode over to whip him yesterday about dark, and had him down when his daughter Lizzie, who had been out horseback riding, came up. Seeing four men beating her father, she sprang from her horse, and, grasping one by the collar, threw him upon his back. The flash of several revolvers followed, and the girl fell with the exclamation: "Oh, cousin David!" It was the bullet of her cousin David which pierced her heart. The murderers fled leaving the father and mother alone with their dead child. During the night hundreds of people gathered to see the body of the girl who had died in defense of her parent.

THE NEW SEA.

The People Like Its Change In Climate.

LOS ANGELES, Cal., Oct. 10.—Dr. P. G. Cotter, of Yuma, is in this city. He says it is estimated that nine-tenths of the Colorado river is flowing into Salton. Nevertheless the sea has not increased but has lowered about three inches. It is now from four to seven feet in depth in various places. The Colorado river is very heavily charged with solids and will percipitate half an inch of alluvium to six feet of water. This matter is being constantly washed down the river, and is forming a bank in the river bed just beyond the break so that shortly the entire body of the river will be turned into the Salton sea. The winter floods, he thinks, will raise the Salton sea until it becomes a lake 300 feet deep and 150 miles long and finds its outlet through the bed of the new river into the Gulf of Mexico. Southern Pacific engineers have examined the river break with a view of finding a way to turn the river back. They reported that such could be done by piling, but that it would be too expensive a job for the company to undertake. Dr. Cotter says the people of Yuma are glad of the change. The new sea will be a benefit to the climate, as well as provide them with a new method of transportation, since vessels could come into the sea from the Gulf of California.

Determined Suicide.

The number of self murders is alarmingly large of late. Fresh accounts come almost with each days mail. One lately committed in West Chehalem by Frank Thompson was unusually effective and horrible. The Yamhill Reporter gives the particulars of the deed, from which we learn: "He was found lying on the floor of his sitting room, with the back of his head blown away and his brains scattered all about the room, even to the ceiling. He had evidently placed the muzzle of the gun, which was an old Zulu, with a big trigger, close against his right temple, and removing the stocking from his right foot with his toe had pulled the trigger. Death had been so instantaneous that those who saw the body said his right eye remained open while the left one was closed, and they could almost see how he had sighted down the muzzle with his right eye to see that his toe accomplished its allotted work. The hand that held the gun and his face was badly powder burned, and the skull and its contents were so promiscuously loosened up that when the head was raised the contents would rattle like the seeds in a gourd. Thompson was about forty years old. On the Tuesday before he had sold his property to J. C. Jensen for $350, and the money had been paid in the presence of a witness. $22.50 was found on his person, which the coroner turned over to the treasurer. A sum of money Thompson had left with a neighbor was ordered paid to the coroner. Thompson was a drinking man, and for this reason his wife had left him a short time before, with the children and was stopping with the family of a neighbor about two miles away."

Visiting Relatives.

Eugene Journal: Mrs. Inman and daughter, of New York, the widow and daughter of the founder and chief owner of the famous Inman line of steamships plying between New York and Liverpool, visited Alaska this summer, and on their return home visited the family of Joel Inman, last Saturday and Sunday, at their home at Elmira, Lane county, Oregon The founder of the great steamship line, the most famous in the world, that for a quarter of a century carried the mails and hundreds of thousands of passengers across the Atlantic without ever loosing a single life, was a brother of our Lane county pioneer. His wife and daughter are now millionaires, and visited their brother and sister and nephews and nieces on the Long Tom last week, and then continued their journey home. W. W. Inman came to Eugene and took his wife, who is teaching school near town, out to see them

Unique Reports from Postmasters.

County seat postmasters are already beginning to send to the postmaster-general their reports of their visitations to the other offices of their counties, and they are proving to be of great interest and significance to those who have had a chance to examine them says the Washington Tribune. The visiting postmaster has shown in almost every case not only a great interest and promptness in his work, but he has prepared his report with great care and originality. An Illinois postmaster evidently took his kodak with him, as he returns in with his report a picture of every postoffice in the county, and many of them are accompanied with maps of the town and much other information of value as well as with suggestion worth studying.

Mothers?

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quites pain, cures diarrhea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Casoria is the children's panacea—the mothers' friend. 35 doses, 35 cents.

O. K. T.—Honest Results.—O K T.

Many of the pioneers of Oregon and Washington have cheerfully testified to the wonderful curative properties of the celebrated Oregon Kidney Tea. Purely vegetable and pleasant to the taste and can be taken by the youngest child or most delicate woman. O. K. T. is a never failing remedy for pains in the back and loins, non-retention of urine, scalding or burning sensation while urinating, mucous discharges and all kidney troubles of either sex. $1 at all druggists. For sale by Foshay & Mason.

Dirty Work of Striking Men.

BUFFALO, N. Y., Oct. 10.—During the past week about forty men have been discharged from the employ of the Wagner Palace Car company, at East Buffalo, because they were members of an organization of anarchists. A short time ago, a number of men who were employed on piece work had arranged to strike on a certain day, but on arriving at the works, found a force of men ready to take their places. Six men were discharged to-night. They mixed lye with the paint used in finishing cars. Trouble is likely to follow.

Anti-Railroad Legislation Killed.

ATLANTA, Ga., Oct. 10.—The state senat has effectually killed the extreme anti-railroad legislation in Georgia by defeating the bill known as the Berner bill, which passed the house last week. This bill was aimed at the West Point Terminal Company, and, if passed, would have involved the railroads in a large amount of litigation.

If you want a durable monument go to E. W. Achison, who are handling nothing but the best grades.

Quick sales and small profits at the Ladies Bazaar.

THE DEAD LEADER

His Funeral Shows Great Inaufluence.

TROUBLE IS ANTICIPATED.

Mrs. Parnell Prostrated—Great Respect Paid in London and Other European Cities.

LONDON, Oct. 10.—The apprehensions of trouble at the funeral of Parnell to morrow are so serious that the troops in Dublin have been strengthened by order of the Lord lieutenant. The soldiers will remain under arms without interfering with the celebration unless summoned to do so by the lawful authorities, and then only in extremity. The feeling for Parnell and against his opponents runs very high, not only in Dublin, but throughout Ireland, and the chief apprehension seems to be that the delegation from other places may see fit to attack and wreck the offices of newspapers that have been harsh in their treatment of Parnell when he was alive, and scarcely less so since his death.

A Dublin letter says that the Irish hierarchy is nonplussed by the situation, and that the bishops, or a majority of them, would prefer to let recent matters be forgotten and Irish affairs go on as they were going on before the struggle was begun that ended in the death of Parnell. The hierarchy and Timothy Healy made the warfare against Parnell so personal that they are really at a loss what to say now that he is gone. The people were appealed to from the pulpit not to follow Parnell because he had been implicated in the divorce scandal.

There was a terrible scene in the house when the casket was about to be removed. The grief of Mrs. Parnell was most poignant, and she could with difficulty be persuaded to allow the coffin to be taken away. As a mark of respect to the dead, the blinds of many houses along the route of the funeral procession were drawn down. On every side were signs of sincere sympathy. As the hearse passed them, despite a pouring rain, the spectators took off their hats and stood uncovered until the last carriage had gone by. A dozen carriages followed the hearse. They contained Mrs. Dickinson, Parnell's sister; Henry Parnell and John Redmond and a number of other members of parliament, and a deputation from the Dublin corporation. The leadership committee was also in carriages. At the railroad station at Brighton, the funeral party waited an hour, the building being packed with people anxious to get a glimpse of the casket.

STRANGE STORY.

The Exploding Mountain Brings Forth A River.

CITY OF MEXICO, Oct. 10.—Vicente Loaza, an agent of a sewing machine company, whose headquarters are in Toluca, came to this city to day, and tells a most remarkable story. He says that he had occasion to visit a town twenty-five leagues south of Toluca, and last Monday a small mountain or high hill about half way between the town of Tenancin and Tecualya, without warning, exploded with a most terrific report, and immediately an immense volume of water commenced to flow from the newly-formed crater over the surrounding country. The Indians fled to the hills, and the church bells in the villages were rung. A general panic ensued. The water soon found its level and poured through a gorge 150 feet deep, and continued to flow until the next day when Mr. Loaza left. The inhabitants were so frightened that they would not approach the stream. Loaza did not take the temperature of the water, but supposes it was hot as he saw vapor rising from it. The volume of water was so great that it carried away two high bridges which crossed the ravine far above high water-mark. The crater formed by the explosion was quite large, and rock and earth were scattered far and wide. Loaza is not a scientific man but intelligent and is one of the successful men of the company, by which he is regarded as a thoroughly reliable man.

BUILDING SHIPS.

The Sugar King Invading Niptunes Realm.

PHILADELPHIA, Oct. 10.—C. A. Spreckles, Rudolph Spreckles, J. C. Uhler, Charles Watson, William O. Hempstead and Louis Spreckles will make an application next month for a charter of incorporation to be known as the Spreckles Steamship Company. The application states that the object of the company is to engage in ship building and transportation business and "whatever shall be incidental to the said business. C. A. Spreckles, who is the Philadelphia representative of the great sugar-refining firm, said yesterday that it was not the intention of the company to engage in the business of building steamers at present, and that ships would be built simply for the use of the company. At the present time the firm is running two steamers to Hamburg. The present steamship company has been organized for the sole purpose of facilitating the transportation business of the refinery. At the office of the refinery it was stated that additional vessels would be chartered as soon as possible, and that the firm would make additions to the line as demanded by the requirements of business.

BIG ENTERPRISE.

Far Reaching In Its Scope With Large Means.

PITTSBURG, Oct. 10.—Next Thursday the executive committee of the National Butchers' Association will meet at St. Louis to perfect a scheme that is likely to be far-reaching in its effects. It will be the organization of a supply plant at Dallas, Tex., which will furnish the 50,000 members of the association with all the beef, live or dressed, that they may require. The project is in opposition to the Armour and Swift concerns, and was formulated at the meeting of the association held in Pittsburg some months ago. The committee has been offered $350,000 to locate the plant at Dallas. Of this sum $200,000 has been subscribed by the Dallas Board of Trade, and the other $150,000 by the city council. President Charles James, of St. Louis, is at the head of the committee, and J. F. Beilstein and William Hackenberger are the Pittsburg members. The entire committee will go to Dallas to formally accept that city's terms.

A Very Lucky Dismissal

BERLIN, Oct. 10.—The sultan, says a Constantinople dispatch, has granted a pension to the former grand vizier, Kiamil, and a palace in Asia Minor, where the dismissed official must live the greater portion of the year. While the sultan thus bestows favors on his former head servant, it is said he has no intention of restoring him to high official responsibility, as he believes that Kiamil failed to handle the Egyptian question with the tact and energy that it called for, while at the same time he was on too familiar terms with the British and German ambassadors.

The President's Secretary Ill.

WASHINGTON, D. C., Oct 10.—Private Secretary Halford's illness is proving to be more serious than was at first expected after he had been relieved of the earlier painful symptoms. He is still in bed and for several days his system has refused to respond to the remedies prescribed by the physicians. Thinking that a change of air would be beneficial to him, Colonel Henry in command at Fort Myer, where Miss Halford is a guest, suggested a change to that post. He was promptly told by the physicians that Mr. Halferd was not in a condition to bear a change.

Poor Crops in Great Britain.

LONDON, Oct. 10.—The Times to-day publishes a final estimate of the state of crops in Great Britian and says it anticipates but an indifferant quality. The real state of affairs will not be known for months. It is possible the harvest, as a whole, may not be worse than that of recent years, but in many districts the crops will be the worst in forty years.

Attempt to Rob a Train.

PARIS, Tex., Oct. 10.—An attempt was made to hold up a south-bound passenger train near Frisoo at 3 o'clock this morning. Several shots were fired. The conductor knocked one of the robbers down with his lamp just as the man was preparing to fire with his pistol at the conductor's breast.

Using Our Own Salt.

LONDON, Oct. 10.—Members of the Salt Union complain of a considerable decrease in the exports of salt from this country to the United States, owing to the fact that the latter country is now largely supplying its own wants with the home products.

Rioting in Rio Janeiro.

RIO JANEIRO, Oct. 10.—The rioting which began at the Italian theater Thursday evening, continued during the night. Troops were called out and patrolled the city until this morning. A number of persons are said to have been killed. Further trouble is apprehended.

"Bad Indian."

The Dalles Times-Mountaineer: A son of Columbus Jack, an Indian, is an outlaw from justice charged with manslaughter. On Sunday last he filled his carcasss full of lemon extract or some of the patent medicines and in a delirious state rode his poney over a four-year old boy at Capt Dunn's ranch, killing the youngster almost instantly. When brought to a full realization of his crime, the Indian mounted his horse and left for other parts.

Deer are Plentiful.

Deer are thick in the vicinity of Yaquina Bay, with a sprinkling of elk. We noticed an immense buck, among a lot of deer in the express car, Saturday. He was a bouncer, with very large antlers, and as fat as butter. The boys say the woods are full of them, and all in prime order.—Yaquina Post.
