TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is a scientific in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

Cram's Unrivaled Atlas.

The new edition of this unrivaled work is now being delivered by the agent, Mrs. A. M. Talk. The work is a most excellent one, and this edition is a great improvement upon former ones, giving all the latest data and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing P. O. Box No. 60 Albany Oregon.

Royal Baking Powder

ABSOLUTELY PURE

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Atty., Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Corro Gordo, Ill.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

John Tabeau was brought to the penitentiary to day from Astoria and will serve a term of seven and a half years for larceny. Tabeau is one of the three men who robbed a gun store. Two of them got a seven and a half years term and one five.

Articles of incorporation were filed to day with the secretary of state by the La Grande Athletic Company. A. C. Miller, H. E. Gillon and A. B. Huler, incorporators; value of property, \$200.

Also the Montgomery Tunnel and Mining Company of Roseburg. Incorporators Julia Grant, L. D. Montgomery, M. E. Napp, A. M. Crawford, Maurice Abraham; capital stock, \$8000.

Also the Big Neck Traction Road Company, of Dolph, Tillamook county. Incorporators, J. C. Landingham, G. W. Landingham, and O. L. Landingham; capital stock, \$50,000. The road is to connect the Pacific coast with the Grande Ronde Indian reservation to Woods, Tillamook county.

Charles F. Schmidt, of Mt. Angel, was arrested to day on two indictments, one giving liquor to minors and the other selling liquor without license.

The Salem Public Schools take a vacation to-morrow to give all an opportunity to visit the Portland Exposition.

The lines, tracks, cars, horses, etc., of the Salem and Roseburg Company to-day, by virtue of a \$10,000 chattel mortgage, passed into the hands of H. W. Cottle, who will operate and manage the road until sold. There are fair prospects for a sale at an early day and if sold to the Pacific coast line, it would be the road to be developed, improved and extended.

KNIGHTS OF PYTHIAS. Election of Officers for the ensuing year.

PORTLAND, Oct. 15.—The grand lodge of the Knights of Pythias, which is now holding its annual session in this city, met this morning at 9:30 in Castle hall. The most important business to come before the assembly to-day was the election of officers for the coming year. As those positions are high ones and the Knights of Pythias are strong in this city and state, the honors conferred by them are watched with much interest. To glance over the body of delegates in attendance is sufficient to convince the observer of the strength and character of the organization. In such a collection of men it would also seem that there might be many fully able to fill the position of honor. No wonder then that candidates were numerous.

The first business transacted was the appropriation of \$400 a year to pay the traveling expenses of the grand chancellor, occasioned by his visiting the several jurisdictions. After which considerable time was taken up in re-districting the state and hearing reports from the committee on appeals and grievances.

The election of officers resulted in the following: grand chancellor J. T. Hayne, of Ivanhoe No. 10 Portland; vice grand chancellor, E. E. Sharon, of Harmony No. 24, Pendleton; grand prelate, J. A. Waddell, of Castle No. 13, Portland; keeper of records and seals, P. A. Wagner, of Phalanx No. 14, East Portland.

FREZZING SALMON. The Fish Preserved for the Eastern Winter Market.

Cold storage is a great thing. The latest marvel which the power to make ice at will has accomplished is the freezing of salmon at Whatcom, which will be eaten next winter all over the United States, just as fresh as when first taken from their native element. As the ice heaped a chamber with gold to secure his liberty, so are the natives heaping high the cold storage rate in the city with the fat and red blooded silver salmon to secure their winter's provisions. On the platform on the long wharf, at all hours of the day, are huge stacks of these magnificent fish,

STATE AND COAST

Marion County is Heavily in Debt and Borrowing Money.

NEWS FROM THE CAPITAL.

The Salem Public Schools Take a Vacation to Visit the Portland Exposition. N-way Notes.

SALEM, Oct. 15.—Marion county finds itself in debt now some \$42,829.00, as shown by the county clerk's semi-annual statement. The county will tide over its financial straits by borrowing money until the taxes come in. A levy can't be made until after the board of equalization meets in December and this will give the taxes coming in about February. The last legislature made such changes in the equalization and assessment laws as to make the county's expenses much heavier.

The fourth quarterly meeting of the Marion County Fruit Growers Association will be held at Salem on Thursday, the 23d. A good programme has been prepared.

John Tabeau was brought to the penitentiary to day from Astoria and will serve a term of seven and a half years for larceny. Tabeau is one of the three men who robbed a gun store. Two of them got a seven and a half years term and one five.

FREZZING SALMON. The Fish Preserved for the Eastern Winter Market.

Cold storage is a great thing. The latest marvel which the power to make ice at will has accomplished is the freezing of salmon at Whatcom, which will be eaten next winter all over the United States, just as fresh as when first taken from their native element. As the ice heaped a chamber with gold to secure his liberty, so are the natives heaping high the cold storage rate in the city with the fat and red blooded silver salmon to secure their winter's provisions. On the platform on the long wharf, at all hours of the day, are huge stacks of these magnificent fish,

ranging in weight from six to ten pounds. These are gutted and packed in the tin boxes in which the ice is made, and then taken to freezing rooms. Here they remain twenty-four hours. When taken out the fish are as hard as a rock, and are frozen in bundles. They are pitched into a wheelbarrow and taken to a cold room, where they will remain until marked next winter. In tossing them into a wheelbarrow very often a frozen tail is broken off, or a head, showing the brittleness of the freeze. Seven thousand of the fish have already been cold away, or say, twenty tons. These fish cost 11 cents a pound, and will be sold in the East at the price of the choicest scalps.—Whatecom Reville.

"Oregon on Wheels."

The Oregon Immigration Board's report, "Oregon on Wheels," is lying at the Northern Pacific Terminal Company's Alhambra, all completed, furnished and fitted, and when the exhibits are put in it will be ready for its Eastern journey. The car is longer than the average passenger car. The exterior is painted white, with Oregon in large silver letters on a light blue background. The resources and scenery of the state are represented by paintings on the sides of the car—Wheatfields and of Multnomah and Willamette falls. Some shelving and painting remains to be done on the interior, but Superintendent Morgan has already begun putting in the exhibits, and expects to have everything ready by the end of the week. The capacity of the car is not equal to the number of exhibits offered, and some will probably be declined. Over 50,000 grain bottles of wheat will be taken on the car and distributed along the route. Other products of the state will also be bottled or put up in packages for distribution.

RETURNED THE KING.

Used a Catholic Priest As the One To Do the Returning.

NEW YORK, Oct. 15.—About a week ago a diamond ring worth \$200, was stolen from the residence of Mrs. Pritchett, of 35 West Forty-fifth street. A boy, who was the only person near the room from which the ring was taken, was arrested, but the ring was not found in his possession, and he was set at liberty. This morning Mrs. Pritchett received a letter from a priest of a Roman Catholic church on the east side in forming her that if she would call her ring would be returned to her. Mrs. Pritchett called on the priest, who gave her the missing jewel, but refused to say from whom he received it.

Log School Houses.

Oregon is making rapid advancement in all directions, but in all but eleven counties of the state there are log school houses in which the common schools are taught. How to shoot. Of temples of learning of this style there are in the state a total of 105. Crook county leads with twenty-four and Lane follows with twenty-two. Coos, Multnomah, Multnomah and Tillamook lead one each. Benton has ten, Clackamas two, Columbia three, Douglas two, Grant nine, Gilliam four, Kamath six, Lake two, Linn four, Marion two, Umatilla four, Walbwa two and Wasco three.—Salem Statesman.

Catfish in Cullaby Lake.

Catfish in great numbers are being taken in Cullaby lake, on the A. & S. C. R. R., and President Boxley was exhibiting a few specimens of these villainous looking pests says the Astoria Talk. The fish are very good eating and if they could only be confined to Cullaby lake, or some other worthless piece of water, all would be well, but if they once get among other fish they will soon depopulate our streams of better fish. A catfish will eat everything else that swims, but no other fish can eat a catfish.

THE WORLD ENRICHED.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring-time or, in fact, at any time any the better it is known the more popular it becomes.

LOTTERY MATTERS

Carrying the War Into Canada Against the Lotteries.

WANNAMAKER IN EARNEST.

Canadian Officials Asked to Assist and Uncle Sam Will Reciprocate—Sore Crotch.

WASHINGTON, Oct. 15.—In a letter addressed to the postmaster-general of Canada, Postmaster-General Wannamaker says that the Louisiana Lottery Company has established agencies at Toronto, and is flooding the United States with its circulars, in sealed envelopes, from that point. As a lottery circulars are held liable to customs duties, the postmaster-general of the United States exchange office have been instructed to place upon mail matter which they believe to contain dutiable articles, "Supposed to be liable to customs duty." At the office of destination such matter is opened by the addressee in presence of a customs officer, and if found to contain lottery matter, is forfeited to the United States. Postmaster-General Wannamaker asked the Canadian postmaster-general if it would be proper to instruct the postmaster at Toronto to stop such letters mailed there by an agent of the lottery company. If that course is pursued, postmasters at the United States exchange offices, he says, will make a similar interference on behalf of this country.

VENGEANCE IS SWIFT.

Both the Hope and Cold Lead Aid in the Work.

MAZON, Ga., Oct. 15.—Samuel Wright, colored, was lynched on the public road, near Helena, early this morning near the house where Mrs. Beck and her two daughters live. One of the girls went on a visit yesterday. About midnight last night Samuel Wright broke into the house, knocked Mrs. Beck insensible, and as a desperate struggle with Miss Ada Beck, in which one of her arms was broken, assaulted her. In the meantime the alarm had been spread that fifty men pursued Wright. They found him cowering in the swamps. He was marched back, identified by Miss Beck, and placed under a limb, where he was to be hanged. He confessed the crime, after which he was drawn up to the noise of firing pistols. Fully a hundred men were sent to the scene, near Helena, near Bois la Due, the largest candle factory in Belgium, was totally burned. The loss will be several millions of francs.

A Large Factory Burned.

BRUSSELS, Oct. 15.—The establishment of the Societe Anonyme des Steeles, at Haem, near Bois la Due, the largest candle factory in Belgium, was totally burned. The loss will be several millions of francs.
