There is no excuse for idleness in Albany. There is an active demand for laborers on the sewer work, the bridge, and the building and other improvements about the city. For a Fruit Cannery.

Hon. Allen Parker, of Yaquina, while in this city the other day stated to some of his friends that if citizens here would organize a joint stock company for a cannery, or would offer him sufficient other inducement, he would remove his cannery from Yaquina to Albany, enlarge it and run an extension fruit canning establishment. This subject has been talked of here, and a cannery ought to be started. It would be a valuable industry of properly conducted. Mr. Parker has heretofore been engaged in \$5,000 worth of machinery all ready for operation. His proposition is certainly here worth considering. Those interested in the cannery enterprise could obtain the details of this place by corresponding with him. Albany ought to have a cannery in operation next year.

OREGON BAPTIST CONVENTION.

The Second Day's Proceedings—Additional Officers Elected—Reports, Etc.

The second days session of the Oregon Baptist convention was called to order at 10 a. m. by president A. Latourette. Prayer by Rev. Gilman Parker.

Rev. J. H. Teale introduced Rev. E. Stillwell, of Tacoma, who was cordially welcomed. Rev. T. G. Brownson introduced Rev. J. Sunderland, of Oakland, Cal., district secretary of the Baptist missionary union for the Pacific Coast, who made a warm speech of greeting and an explanation of Foreign Missions.

The committee on nominations made an additional report as follows, and they were elected: Board of managers to serve for three years: H. M. Clifton, Portland; D. C. Latourette, Oregon City; N. B. Hall, East Portland; Dr. S. R. Jessup, Salem; Rev. Geo. T. Ellis, Baker City; Rev. W. J. Crawford, Roseburg. Auditing committee: N. S. Dyert, W. H. Mitchell. Place of next meeting, Independence. Preacher for next annual session, Rev. J. C. Reed, Rev. T. G. Brownson alternate.

The committee on denominational paper presented their report which was adopted. The committee recorded their satisfaction in the continued growth and excellence of the Pacific Baptist, to which the church is indebted for its faithfulness to the various interests of the denomination in the state. The committee regards with favor the effort to unite Oregon and Washington in a common effort to sustain a denominational paper and believes the management of the paper deserves approval under the superintendence of Rev. C. A. Woody as editor.

Rev. R. Whitaker, of Salem, presented an address on this topic in which he first gave a sketch of the history of the Pacific Baptist, and then presented a strong appeal for its support.

The subject of home mission work was resumed and addresses were made by Rev. G. W. Donnel, of Oakland, Or.; Rev. G. T. Ellis, of Baker City; Rev. S. J. Nunn, of Albina; Rev. W. J. Crawford, of Roseburg; Rev. J. H. Teale, of Calvary church, East Portland; Rev. C. C. Lamm, of Lebanon; Rev. L. T. Bush, Emanuel church, Portland; Rev. J. H. Hargreaves, Missionary, near Oregon City; Rev. L. D. Goodwin, of Central Point.

AFTERNOON SESSION. The report of the Sunday School committee was presented by W. B. Hall. Sunday school institutes have been held in various parts of the state resulting in an increased interest in the Sunday school work. The Sunday school convention held in Oregon City in May was an important advance. It recommends a larger attendance of adults in the Sunday schools, and the observance of the days appointed by the denomination for special prayer and fasting and the contribution of funds for this work. The question was further discussed by Rev. R. Whitaker, Deacon W. B. Hall, Rev. E. G. Wheeler, Rev. G. Parker, Rev. J. Sunderland, Rev. J. C. Reed, Rev. D. D. Proser, Rev. S. J. Nunn, H. M. Clinton and L. L. Whitcomb. The report was adopted.

Miss Addie Williams, by request, sang an original song composed by Rev. G. Parker.

The work of the American Baptist Publication Society was then taken up in a report by Rev. E. G. Wheeler, the agent of that society for the Pacific Northwest. He gave some interesting accounts of work of that society and his own work in organizing his Sunday schools throughout the state, and also the work of Mr. Nutley, a co-pioneer in Oregon.

The report of the committee on education was presented by Rev. F. G. Brownson, president of the McMinnville college. This is his fifth year at McMinnville and never before was the outlook at that institution brighter than today. He alluded to the process of educational evolution that is now going on for higher education in Oregon, especially with reference to the removal of the collegiate department of this college to Portland. The very discussions of these matters, instead of being an injury to McMinnville college, was working a decided benefit.

Further remarks on this topic were made by Rev. E. Stillwell, Rev. J. Sunderland, Rev. D. D. Proser, Rev. G. G. Parker, Rev. W. J. Crawford and Rev. R. McKillop. The report was adopted.

EXERCISES SESSION. The exercises of the evening were presided by a half hour of devotional service conducted by Rev. S. J. Nunn.

The session of the convention was opened with prayer by Rev. R. McKillop, Rev. G. T. Ellis, vice-president in the chair.

The enjoyment of the services of the evening were greatly enhanced by the admirable singing by an excellent choir.

The session was in the nature of a platform meeting on education. Rev. C. A. Woody, editor of the Pacific Baptist, made an address on "Progress in Denominational Education." He first spoke of the growth of Baptists in their appreciation of the value of education. First of the value of an educated ministry, and then of education in other lines of life.

The growth of the facilities for denominational education, was then described, beginning with a grammar school at Warren R. L., which was afterwards permanently established at Providence, which developed into the great Brown University in that city with its 100 students, and then the long list of higher educational institutions all over our land at the present time, were vividly described.

Baptist growth as to methods or plans, was then described showing that this denomination has kept

pace in other parts of the country with the changes or progress in other colleges and universities and he closed with the statement that there will have to be changes in our own methods of higher education in Oregon.

Rev. G. W. Donnel made an address on the duty of Oregon Baptists to provide a higher education for their children. The advantage of training was described as applied to all professions and occupations of life. How much more should christian parents see that their children are trained in christian schools, and to bring them up to the highest development possible. He urged that the collegiate department of the McMinnville college be removed to Portland and used as the beginning of a greater institution and after a while into the theological seminary, and let McMinnville be an academy and others of the same character be organized in other parts of the state as feeders to the university or higher institution at Portland.

Rev. G. W. Hill gave an address on "The True Education." First the proper education of the body. A sound mind is the accompaniment of a sound body. I will said he "kept his body under." There should be in every college campus a well equipped gymnasium. In the latter of the mental education the man should not be trained one sided. True education is not a matter of storing up of knowledge. He should be trained in symmetrical development. True education fits a man for life. The world to-day asks not so much what a man knows, as what he can do. True education does not neglect the moral and spiritual nature. Man has not reached his full stature if he neglects his immortal nature, and need to know that the fear of the Lord is the beginning of wisdom.

Declared Unconstitutional. In the circuit court at Salem Judge Boise rendered a decision declaring unconstitutional section 8 of the fish law passed by the legislature. This is the "sawdust" section of the law to protect salmon and other fish. Judge Boise declares it in conflict with section 20 of the constitution, which says every act shall be embraced but one subject, which shall be expressed in the title to the act. This is not the case with section 8. The decision was rendered in the case of the state versus John A. Shaw, for putting sawdust in the river, at Mill City, Santiam Lumbering Co., has already expended about \$5,000 to prevent carrying the sawdust into the river.

To Improve the College Building. Rev. Mr. Dobbins, of Berkeley, California, acting under the sanction of the Presbyterian synod, is in the city for the purpose of assisting in raising \$10,000 to be used in improving the Albany College building, and making some additions to this popular institution of learning. Already two subscriptions of \$500 each have been secured, and the amount will doubtless be raised.

Up in a Balloon. Prof. Whitney, the aeronaut who announced that he would make a 500 foot parachute jump in this city yesterday, made a balloon ascension, but it was not a daring one, and the parachute jump was not attached to the performance. The aeronaut went up a few hundred feet and landed safely in Mrs. Hand's garden, in the eastern suburbs of the city.

A Runaway Accident. While the balloon was going up last evening the team of James Hunter attached to a buggy in which himself and wife were seated, became frightened and ran away. The buggy was overturned and broken, and Mrs. Hunter was thrown out and severely bruised, but fortunately was not dangerously injured.

The Bohemia mines situated east of Cottage Grove, are a tract of great deal of attention at present, some rich finds being reported. A small mill is in operation. One of Taylor came down from there last week with \$2,500 in gold, the product of a run of four days and four hours. This is from the Anna mine, the principal one in that region. It has a five foot vein of fine milling ore which assays at \$160 per ton. The vein has been prospected 200 yards and shafts sunk and drifts run. The owners of the mine have returned \$31,000 for their property.

A number of citizens of Pendleton have organized a reform league, which has its object the suppression of gambling and other vices, if possible. A number of gamblers have already been arrested and fined. Members of the reform league say they intend to keep on carrying arrests as the law is violated, and that gamblers who allow gambling in their homes, may as well understand this first as last. Complaints were made in this first instance by S. T. Hinkle, Frank Lee, N. H. Tenney, Levi Hays, Clarence Hays, T. E. James, and Peter Smith. It is said over 100 citizens are backing the movement.

A. M. Lee, a barber of Puyallup, was driven out of that town late Monday night by a party of indignant citizens. The Puyallup Commerce says Lee became too intimate with Mrs. W. P. Bell while her husband was dying with consumption. On Monday he died, and Lee immediately installed himself in the dead man's place while the corpse was still in the house. "Such indecent brutality was not to be tolerated," says the Commerce, "so a party of citizens called at the Bell residence and found that the woman and Lee had retired. Tar and feathers were freely talked of, but finally Lee and his brother were ordered to leave town and were escorted to the Tacoma train, and are now supposed to be in Olympia."
