H. GREGG,

Tailoring & Repairing.

Men's and Boys' clothing made to order or cleaned and repaired on short notice and reasonable rates.

Shop on the street car line between Third and Fourth streets.

Special Notice.

Ladies or gentlemen who contemplate buying gold watches will find it to their advantage to call at F. M. French's jewelry store before purchasing, as there has been quite a reduction in prices. The Corner jewelry store.

Conrad Meyer's new oven is now completed, and he is better prepared than ever to serve his old customers as well as new ones with the best of fresh bread, cakes, in fact everything from the daintiest hot rolls to the most elaborate wedding cakes. Housekeepers are invited to give the product of his new oven a trial.

At Will & Stark's can be seen some of the most beautiful ladies gold watches, which have just been received.

TO GOOD TEMPLARS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is an advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit $1,000 for any case of dyspepsia it will not cure?

Cram's Unrivalled Atlas.

The new edition of this unrivalled work is now being delivered by the agent, Mrs. A. M. Tait. The work is a most excellent one, and this edition is a great improvement upon former ones, giving all the latest date and much new matter that was not in the previous editions. It should be in every family, and on every business man's desk. Those who are not supplied can procure the atlas by addressing P. O. Box No. 60 Albany Oregon.

We are the only people who carry the celebrated E. & W. collar and cuffs. Always have the latest styles in stock, T. L. Wallace & Co.

Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

Royal Baking Powder

ABSOLUTELY PURE

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Att'y, Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

School Tax Notice.

The school tax in school district No 5, is now due and payable. Call at my office and pay the same before it becomes delinquent.

C. G. BURKHART.
District Clerk.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. Its not their good looks the ladies are talking about, it is the good qualites of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

MERIT WINS.

We desire to say to our citizens, that for years we have been selling Dr King's New Discovery for Consumption, Dr King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as, or that have given such universal satisfaction. We do not hesitate to guarantee them every time and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits, Foshay & Mason Druggists,

A NATIONAL EVENT.

The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will realty benefit this nation as much as the discovery of the Restorative Nervine by Dr. Franklyn Miles is doubtful. This is just what the American people need to cure their excessive nervousness, dyspepsia, headache, dizziness, sleeplessness, neuralgia, nervous debility, dullness, confusion of mind, etc. It acts like a charm. Trial bottles and fine book on "Nervous and Heart Diseases," with unequaled testimonials free at Stanard & Cusick's. It is warranted to contain no opium, morphine or dangerous drugs.

A SAFE INVESTMENT.

Is one which is guaranteed to bring you satisfactory results, or in case of failure a return of purchase price. On this safe plan you can buy from our advertised druggists a bottle of Dr King's New Discovery for Consumption. It is guaranteed to bring relief in every case, when used for any affection of Throat, Lungs, or Chest, such as Consumption, Inflamation of Lungs, Bronchitis, Asthma, Whooping Cough, Croup, etc, etc. It is pleasant and agreeable to taste, perfectly safe, and can always be depended upon, Trial bottles free at Foshay & Mason, Druggists,

SPECULATION DANGEROUS.

Scarcely a day passes without the news of some large failure flashing over the wires—the usual result of speculation in stocks or some equally dangerous venture. The same electric current carries to dear distant friend the sad tidings of death of loved ones—too often the result of speculation in patent nostrums. Moore's Revealed Remedy is no speculation but is sold on positive guarantee. Do not fail to go to your druggist and ask for your money if not satisfied. We known you will go and buy another bottle. For sale by all druggists.

Julius GRADWOHL'S

•Bazaar•

THE VERY LATEST NEWS is that you can buy at Julius Gradwohl's Bazaar, for net cash, goods as follows:

15 lbs. granulated sugar	$1.00
18 lbs. extra C sugar	1.00
No. 1 kerosene, per single gal.	.25

CLOSE CASH BUYERS VISITING THIS MARKET ARE ESPECIALLY invited to inspect his stock, which is complete in all his numerous departments, and purchased especially for the fall season of——— 1891

FATAL TRAIN WRECK

Five Persons Killed and Eighteen Seriously Injured.

AN OPEN SWITCH THE CAUSE.

Heartrending Scenes at the Wreck—A Belief That the Switch Had Been Tampered With.

GALESBURG, Ill., Oct. 21.—The Chicago, Burlington & Quincey fast passenger train, which left here at 10:30 last night, was derailed at Pottery switch, near Monmouth, sixteen miles west of here, by an open switch. The whole train of seven cars, save the sleeper, turned over on its side. The killed are: Engineer A. L. Emery, of Galesburg; Traveling Engineer George Courtney, of Galesburg; Mrs George Allen, of Lamoni, Ia., and Frank L. Johnson, of Avon, Ill. About eighteen are seriously injured. Great surprise is expressed that the list of casualities was not larger. The saddest casualities happened in the first chair car. George Allen, his wife and baby were seated near the middle of the car when the accident occurred. The car tipped over and Mrs. Allen was killed. The baby was hurled across the car, and except a cut on the head, was uninjured. Allen received only a few bruises. The scene after the wreck was heartrendering. The imprisoned passengers broke out the windows of the cars to effect their escape. A large force of surgeons and railroad officials were from here and Burlington. The coroner visited the wreck, and will hold an inquest to-morrow. F. C. Rice, superintendent of Illinois lines of the Burlington road expressed an opinion that the switch had been tampered with after the wreck, as it was found half turned. The news of the wreck created great excitement here, and hundreds are visiting the scene.

Must Pay Balmaceda's Debts.

CHICAGO, Oct. 21.—Pedro Montt, of Santiago, Chili, arrived to-day on his way home from Washington. "The enormous debts piled upon Chili by Balmaceda will be a heavy burden on the land for several years to come," said Mr. Montt. "Balmaceda went into a wild career of extravagance toward the last, and yet the debts he contracted the Chilian republic will be compelled to pay. The junta, or present provisional government, will be supplanted by a permanent government organization to take place immediately after the coming election. As soon as the new president and new congress shall have been elected, the work of reconstruction will progress rapidly."

The Sanity of the Czar.

BERLIN, Oct. 21.—The Paasch pamphlet, arguing that the czar is a madman, is one of the strongest publications ever issued from the press in Germany. The writer goes into a history of Russian rulers from the time of Ivan the Terrible, and traces an insane taint through the Romanoff dynasty. The writer argues that the insanity in the present czar is directly inherited from his grandfather Nicholas, who was driven to madness and death by defeat in the Crimean war, and he prophesies a similar fate for the present czar. The pamphlet aroused the anger of the kaiser, it is said, because it reminds him closely of the attacks of the French press upon himself, and he therefore caused the sale to be forbidden.

Aid for the Distress in Russia.

ST. PETERSBURG, Oct. 21.—The czar gives 3,000,000 rubles from his own private purse to the famine fund and has issued an appeal to members of the nobility and landed gentry to form another fund for the relief of the famishing people. Anti-Jewish riots have occurred at Ternicoff. The troops had to interfere to protect Jews from the violence of their persecutors, whose hatred is animated by the belief that they had caused the scarcity of grain and the consequent distress.

A Dishonest Jockey.

BUDA-PESTH, Oct. 21.—Sporting circles throughout Hungary are excited at the discovery of a series of extensive frauds committed by a jockey who has been riding for Herr Blaskovitz, owner of the largest racing stable in this country. The jockey, it appears, has been betting on and against his own mounts and thereby netted large sums of money. The disgraced rider had a number of confederates and further important revelations may be expected.

Fighting the Sugar Trust.

CHICAGO, Oct. 21.—A special dispatch from Philadelphia says Claus Spreckels, the independent sugar refiner, has reduced the price of granulated sugar to 4 cents a pound. The trust met reductions to 4⅛ cents and 4 1-16, but when the price dropped to 4 cents it began to buy.

France's Minister of Worship.

PARIS, Oct. 21.—The indignation of the prelates against the circular order of M. Falliers, minister of public worship, forbidding them to indulge for the present in pilgrimages to Rome, threatens to entirely undo the work of reconciliation between the church and the republic, which has been carried on successfully for several months past. The prelates all stand by the archbishop of Aix in his letter repudiating the command, as an unjustifiable interference with his rights as a prelate and as a citizen of France, and should legal action be taken against him, they will espouse his cause to a man. The government, on the other hand, is not at all sure of its position, and M. Falliers has been called to account, it is said by President Carnot.

COAST NOTES.

The whistle of the locomotive on the Coos bay railroad will in a few days be heard at Coaledo, and shortly afterwards at Coquille City.

The Union city treasurer received notice a few days ago that a bank robbery had been committed in the East and $50,000 in securities stolen, among them $10,000 of the Union city bonds. This of course can cause no loss to that city as the bonds have been sold and the cash received, yet the treasurer was notified not to cash them if presented.

The 2-year-old son of Frank Raymond a farmer on the reservation, near Pendleton, fell head first into a large keg of blue vitriol, such as is used for steeping seed grain. The little fellow was got out just in time, but not before a considerable quantity of the noxious liquor had been swallowed. A doctor was called and the boy is doing favorably.

Some parties burglarized Mr. A. H. Blakesley's potato patch at St. Helen's one night last week, and carried away five sacks of potatoes which had just been dug, and the remaining empty sacks that were found by the thief were filled with cabbages and carried away also. The man who would steal spuds this year would rob a last year's bird's nest.

THE CASCADE LOCKS.

The Gigantic Engineering Feat Under Way on the Columbia.

Colonel S. L. Lovell has just returned from The Dalles, where he was superintending the building of the Oregon portage railway, which is, perhaps, the only line of railroad owned and operated by any state of the union. While at The Dalles Colonel Lovell visited the government locks being built at the Cascades. He says the locks are going up at the rate of a foot and a half per day. The lower gate will be completed by the middle of next month. Heretofore the work has been slow, as it was all under water, but now they can hurry it. The south gate is completed and the north one is up probably a third of the way—twenty feet. The building of these great locks is a magnificent piece of work, which, when completed, will stand as a monument to the engineering skill of this age. The gates, when hung, will be the largest lock gates in the world, being 93x40 feet and weighing 130 tons. They are of steel and are to swing on giant hinges. Working at the present rate, these locks will be completed in a year and a half, if funds are forthcoming. It will require appropriations of $1,700,000 to finish the work. The last Congress appropriated $430,000, and this will keep work going on until about the first of December of the present year.—Salem Statesman.

A watch is useful in a number of ways besides mere time indicating. In a civilized community its value as a compass is not very great, but a man traveling around and occupying strange beds can protect himself from pneumonia by its aid. If there is suspicion of damp about the sheets lay the watch between them and either smoke a cigar or read awhile. Then take out the watch and if there is any film or mist on the glass do not go to bed, or if you do, sleep between the blankets, which are never damp. Hundreds of drummers, and especially men past youth or middle age, take this precaution and profit considerably thereby.

Somebody who has time on his hands has been figuring the whole thing out and finds that it costs the people of the United States $250,000,000 a year to be born, $300,000,000 to be married, $75,000,000 to be buried, and $900,000,000 to get drunk. These are positively alarming figures. Can't we knock off a little on the expenses of birth, marriage and burial?

A famous dog fancier says there is no improvement on the old-fashioned way of telling a well-bred dog. Lift him by the neck and if he is a cur he will yelp; if well bred he won't whimper. If you don't like this way, however, you can tell by kicking him. If he is a cur he will leave your pants on you; if he is a thoroughbred you'll have to stand in a barrel until somebody fetches another pair.

Exports to be Stopped.

LONDON, Oct. 21.—The Moscow Gazette publishes a report that the government of Russia is about to stop the export of buckwheat and millet

EAST OF THE ROCKIES

The Romantic Story of a Young Lady's Prize Essay.

IT WON HER A RICH HUSBAND

A Salvation Army Murderer Wants to Be Hung in Public—The Fire Record.

MEMPHIS, Tenn., Oct. 21.—Last winter the Sunday Times of this city offered a prize of $20 to the young women who should write the best letter or essay on "The Model Husband." Miss Lillian B. Perry of Covengton, thirty miles north of this city, won the prize. The letter was copied in the Minneapolis Tribune, where Fremont Reid, a banker and rich business man of that city, saw it. He much admired the beautiful sentiments. Going to New York, Reid came across the letter, reprinted in one of the metropolitan journals. Reaching Chicago on his return, he read the prize letter in a Chicago paper. By this time he felt sure that his fate was interwoven with that of the fair unknown essayist. Mr. Reid wrote to her, asking to be allowed to correspond. She answered no letters of this kind, having received many. Mr. Reid was persistent and wrote a second letter and inclosed indorsements, and Miss Perry consented to correspond with her unknown admirer. Later Mr. Reid visited her. A second visit ended in a promise to be his wife. To day he arrived in this city and this afternoon they were married at the bride's home. Mr. Reid is 35 years old and handsome. The bride is a typical Southern beauty, the daughter of a once wealthy family, impoverished by the war, and, though reared in a country town, is a young woman of rare accomplishments.

The Request of a Murderer.

SEDALIA, Mo., Oct. 21.—Thomas A. Williamson, the Salvation Army murderer of the Moores, father and son, and who is to be hanged on October 31, has written the following note to Governor Francis: "Dear Governor: I want to ask you for a favor. Will you let me hang in public? Your friend, Thomas A. Williamson." "People have expressed the fear that I will break down," said the condemned man, "to such I will accept such as fate has ordained like a man who is ready and willing to die. I have spent the greater part of my life behind iron bars and stone, and it would only be a very short time that I would have on this earth contined in the prison, so prefer hanging. If allowed this privilege on the gallows I will tell the people of the treatment I received at the hands of one whose duty it was to stay by me to the last."

Shot and Killed Himself.

PLYMOUTH, Pa., Oct. 21.—Jacob Masterman, an aged wealthy farmer, residing in Fairmount township, sixteen miles from here, committed suicide yesterday morning because his young wife eloped with William Belas, one of his farm hands. He tracked them to the railroad station, where he learned they had bought tickets to Philadelphia. Seven hundred dollars in money and his best team and carriage disappeared at the same time. He returned home and shot himself.

An Editor Gone Insane.

BUFFALO, N. Y., Oct. 21.—Geo. F. Chandler, editor of the Sunday Truth, has gone hopelessly insane Some time ago, together with the proprietors of the paper, he was arrested on a charge of blackmail, preferred by Pascal L. Taylor, of the Standard Oil Company. Monday the grand jury indicted Chandler and his employers, and he went into violent fits of madness.

Was Tired of Living.

NEW YORK, Oct. 21.—William E. Whitehouse, 40 years old, residing at 127 Pacific street, Brooklyn, and a member of the New York Stock Exchange, shot himself this morning at the Clarendon hotel at Brooklyn. He left a letter addressed to the hotel keeper and one to his wife. The wound is fatal.

They Do Not Like the Duke.

LONDON, Oct. 21.—Agitation is growing in Bristol in protest against conferring the freedom of the city on the Duke of Edinburgh. The newspapers there and elsewhere are devoting editorials to the subject.

An Expensive Blaze.

MINNEAPOLIS, Oct. 21.—The warehouse of Bardwell Robinson & Co., sash, doors and blind manufacturers, were burned this morning. Loss, $100,000; insurance, about half.

Loss at the Brooklyn Fire.

NEW YORK, Oct. 21.—The loss by fire last night in Brooklyn was only $65,000.

Cattle Thieves Captured.

MODESTO, Cal., Oct. 21.—Sheriff Purvis and Deputy McGinnes brought Charley Fagan, his son, Frost Fagan, and William Ducker into town last night on a charge of cattle stealing. The men [illegible] rested in the Coast Range mountains yesterday while asleep, and in a corral near were eleven head of cattle, stolen from the Booth ranch belonging to Fred Weyer. This morning the men were taken before Justice Townes.

AMERICAN TIN.

President Harrison Writes a Letter About It.

PITTSBURG, Oct. 21.—Last week W. C. Cronemeyer, of the United States iron and tin plate works, at Demmler, Penn., sent President Harrison a box of tin manufactured at the Demmler works. This morning Cronemeyer received the following letter from President Harrison, dated Washington, October 19: "My Dear Sir: I have your letter of October 15, and also a box of bright tin plate, which you send as a specimen of the product being turned out by the United States Iron and Tin Plate Company. I have no skill in determining the character of this work, but to the eye it seems to be eminently satisfactory, and I thank you for this evidence of a new industry that has been established in the United States. I cannot quite understand how any American can doubt we have mechanical skill and business sagacity to establish successfully her manufacture of tin plate. No other country certainly surpasses us in inventive genius of its citizens or in the business sagacity of its capitalists. It is surprising to me that any patriotic American should approach this question with a desire to see this great and interesting experiment fail, or with an unwillingness to accept the evidences of its success. It will be a great step in the direction of commercial independence when we produce our own tin plate. It seems to me nothing unless it be lack of faith in the maintenance of law, can thwart this desirable achievement. I can understand, however, that success should be doubted and our failure accepted with satisfaction in Wales, but I cannot understand how any American can take that view of the question or why he should always approach every evidence of the success of the establishment of this industry in this country with a disposition to discredit and regret it. If the great experiment is to fail, our own people should not add to the mortification of the failure the crime of rejoicing in it."

FLOODS IN MEXICO.

Batista, the Capital, in Great Danger.

CITY OF MEXICO, Oct. 21.—The San Juan and Papoosan rivers are rising rapidly and have overflowed their banks in many places. Several towns have been inundated, and there has also been a great destruction of crops. Heavy rains have fallen in the state of Tabasco and the city of San Jaun. Batista the capital is in great danger.

Miners Crushed to Death.

MONARCH, Col., Oct. 21.—William Davis and L. Lock, miners, were overcome by foul air while descending a mine near here yesterday morning. They fell out of the basket to the bottom of the shaft fifty feet below and were crushed to death.

No Land for Foreigners.

SHANGHAI, Oct. 21.—The Chinese government has resolved to make no more concessions to foreigners outside of the treaty ports, and hereafter any native selling land to a foreigner for settlement or residence will be severely punished.

Killed in a Collision.

WINNIPEG, Manitoba, Oct. 21.—In a collision near Brandon and Kearney last night between two freight trains, James Bell, a Brandon conductor, and J. Joil, a builder, who were riding in the caboose, were instantly killed.

The Weather To-Day.

Following is the forecast of the signal service for the next twenty-four hours: Rain; coller weather.

Dr. Lennox Wainwright, in The American Journal of Medicine, strongly recommends the use of menthol in hay fever. He considers it, however, most efficient when mixed with carbonate of ammonia and used as a smelling salt. When so used by his patients, all irritation of the nasal membrane disappeared, and in many cases did not return. This is a harmless and easily obtained compound, and worthy of a trial.

Artificial quinine has been successfully produced by MM. Grimaux and Arnaud, of Paris. It is said to be chemically identical with the drug with which the world has become so familiar. It is obtained by treating the base cupreine—a vegetable alkaloid, of a Brazilian shrub—with sodium, and the resulting compound with chloride methyl.

The Thomas Kay Woollen Mills of Salem, have appointed G. W. Simpson their agent in Albany. A full line of men and boys clothing blankets and flannels and all articles manufactured by the mill will be kept in stock. These goods are the best in the market and will give entire satisfaction.
