Highest of all in Leavening Power.—Latest U. S. Gov't Food Report.

Royal Baking Powder

ABSOLUTELY PURE

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease—Henry Billings, U. S. Pension Atty., Washington, D. C.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

SCHOOL TAX NOTICE.
The school tax in school district No. 5, is now due and payable. Call at my office and pay the same before it becomes delinquent.

MENT WINS.
We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Buckler's Arnica Salve and Electric Bitters, and have never had a remedy that sell as, or that have given such universal satisfaction. We do not hesitate to guarantee them every time and we stand ready to refund the purchase price, if satisfactory results do not follow their use.

A NATIONAL EVENT.
The holding of the World's Fair in a city scarcely fifty years old will be a remarkable event, but whether it will really benefit the nation as much as the discovery of the Restorative Nerve by Dr. Franklyn Miles is doubtful.

SUICIDE IN PORTLAND.
Mrs. Paige Takes Strychnine and Dies in Great Agony.

A SAFE INVESTMENT.
The act seems to have been a deliberate one and premeditated. Mrs. Paige, who is the landlady of the lodging house in which Mrs. Paige lived, says that she has been a lodger in the house for about four or five weeks, and was always quiet and reserved.

SECURATION DANGEROUS.
A day passes without the news of some large failure flitting over the wires—the usual result of speculation in stocks or some equally dangerous venture.

FLORENCE NOTES.
The Florence public school starts up on Monday Nov. 2nd, with T. M. Martin as principal.

Hard Times in England.
LONDON, Oct. 26.—At the quarterly meeting today of the Manchester Chamber of Commerce the president said trade was still depressed, and that the latest returns received were unsatisfactory.

"Jack the Ripper" in Germany.
BERLIN, Oct. 26.—A man named Schlutz, a clerk, out of employment, was arrested on suspicion of being the murderer of Hedwig Nitsche, the woman who was found murdered and mutilated in the Holz Market Case yesterday morning.

Beautiful Women.
The magical effects of Wisdom's Roborant as a beautifier and preserver of the complexion have been attested by thousands of leading ladies of society and the stage.

Preparation for the jetty work goes right along. A pile-driver and stone scows are being prepared.

Florence is now a rapidly growing town. Many houses have been built during the past summer. Great avenues are cut through the

STATE AND COAST

A Discovery of Coal Reported in Marion County.

THE STATE RAILROAD CASES.
Mrs. Lulu Pace Commits Suicide in Portland News from the State Capital.

SALEM, Oct. 26.—Considerable excitement is being created in this county, twelve miles east of Salem, over reported coal discoveries and the rumored development of a find. A visit to the mines to day found a small force of men at work taking out black diamonds in good quantities. The shaft is now in 100 feet and working a five foot vein. It is semi-anthracite coal which burns freely, is of good quality and free from sulphur or impurities.

HE ARRIVES IN PORTLAND WITH HIS FAMILY.
They Left Turkey in June and Have Made a 10,000 Mile Trip.

PORTLAND, Oct. 26.—Hon. Sol Hirsch, United States minister plenipotentiary and envoy extraordinary to Turkey, arrived in Portland this morning.

Mr. Hirsch has been traveling through Europe and has spent much time in Switzerland. He left Turkey some months before the late political events had transpired there, and so is not fully acquainted with them.

Mr. Hirsch is very reticent concerning European complications, and especially the politics of Russia and Turkey. It is impossible for him to say much, as it might be construed as favoring one country or the other.

Trade with the United States.
Mr. Hirsch, "is principally an opium and wool. These, with rugs, carpets, etc., of Oriental manufacture, are also the principal exports to European countries. Turkish trade with the United States has developed wonderfully since the Centennial in 1876, at Philadelphia. Before that time it was comparatively small."

A Stage Robber Confesses.
REDDING, Cal., Oct. 26.—As predicted the boy arrested for robbing the Redding and Weaverville stage last Monday night made a full confession this morning to detective Thacker and under sheriff Ross. He then took them to where Wells Fargo & Co.'s box and where the gun were thrown into the river.

Robbed and Murdered.
FORT WORTH, Tex., Oct. 26.—Martin Mooney, a Fort Worth & Rio Grande employe, was found hanging to a limb of a tree in the outskirts of the city this morning. Mooney had just been paid \$178. The supposition is that he was drugged and robbed, died from the effects of the drug, and was placed where found to convey the impression that it was a case of suicide.

Dr. Spurgeon Able to Travel.
LONDON, Oct. 26.—Rev. Charles H. Spurgeon, pastor of the tabernacle, who has been seriously ill for months past, has so far recovered his health as to be able to start to day for Mentone.

Alfalfa Farming Near the Rockies.
As the time approaches for the World's Fair, greater interest is being felt in the marvellous City of the Lakes. The Cosmopolitan Magazine has devoted 28 pages of the most charming features of the city by twenty-eight sketches. An article upon Alfalfa Farming in this number, is by John Brisbane Walker, who as the result of ten years spent in the saddle, in direct superintendence of his farm "Berkeley," one of the largest alfalfa farms in Colorado, gives the reader much valuable information in regard to the irrigation and curing of the wonderful plant

AT THE WHITE HOUSE

Secretary Blaine Resumes the Duties of His Department.

HE IS AGAIN HARD AT WORK.
A Long Consultation With President Harrison No News of the Obilias Trouble.

WASHINGTON, Oct. 26.—Secretary Blaine this morning resumed the discharge of his duties as secretary of state. He rose early, and soon after breakfast went over to the White house. Secretary Tracy soon joined him there, and together they had a long consultation with the president. It was nearly noon when Secretary Blaine left the White house, and walked over to the department of state. He at once entered his private office and plunged into business.

THE SILVER QUESTION.
A Proposition to Hold an International Silver Congress.

New York, Oct. 26.—A Washington special says: "The feeling in favor of international bimetalism seems to be growing and to be likely to prevail in European cabinets if the leading European powers can be convinced that the United States does not intend to plunge into free coinage in its notions."

Several gentlemen of standing privately agreed early in the summer to make some inquiries of foreign financiers with a view to an international agreement, and to report the result to the president and secretary of the treasury without a expense to the government. They have discovered so friendly a feeling to the use of silver in Europe, that they recently asked and obtained credentials from our government showing who they are, and who their instructions are, without having authority to commit the United States officially to any programme. The fact that these credentials have been asked by a very encouraging indication of the attitude in England, France and Germany in regard to the renunciation of silver. The gentlemen who had been making inquiries would not have asked for such credentials if they had not felt the time approaching for serious negotiations with the European powers, for they have no personal or financial interest in magnifying their office.

AN ENGLISH CAPITALIST.

Is Said to Have Millions to Invest in the Northwest.

ST. PAUL, Oct. 26.—George N. Sims, managing director of the London and New York, was in the city yesterday for a short time. "I have been made the representative of about \$5,000,000 of English capital, and am directed to place it where the greatest benefit will be derived," said Sims. "I am not to use it for speculation, but to invest it in safe real estate, factories and industries. It is my intention to go to Tacoma, Seattle, Portland, and other cities. I shall probably put a great deal of money in the seaport towns, as we believe the Panama canal will be opened in five years, perhaps less."

What Villard Thinks.
Seattle Press Times: Henry Villard, who will be in Seattle within a day or two, is an enthusiastic and intelligent believer in electricity. He thinks steam will soon be superseded by electricity in the propulsion of the Northern Pacific railroad trains. Mr. Villard could visit no city in the United States where he would find more enthusiastic believers in the potency of the subtle fluid, or its greater practical application, than Seattle.

WENT DOWN AT SEA.

NINETEEN LIVES LOST IN A STEAMSHIP COLLISION.

Only Two Were Saved of All on Board the Ill-Fated Tessel.—The Captain and Wife Drowned.

LONDON, Oct. 26.—The British steamer Boston, from Cardiff for London, arrived at Falmouth after having been in a collision with the British bark Charwood, from Antwerp for Valparaiso. The Charwood foundered almost immediately after the collision, with a loss of nineteen lives. Thirteen persons were killed on board the Boston, and the captain and wife were drowned, in spite of desperate efforts made by the lifeboats of vessels which happened to be near the scene of the collision to rescue them. The efforts of the would-be rescuers were greatly hampered by the darkness which prevailed at the time of the accident. The spot where the two vessels met is not far from Eddystone rocks, fourteen miles from Plymouth. Only an apprentice and the captain's daughter were saved.

Kidnappings of the Mississippi.
NEW ORLEANS, Oct. 26.—The saving in of the levee wharf at the foot of St. Philip, Dumaine and Ursuline streets continued today. The land has sunk from three to eighteen feet. The sunken lands are five acres in extent. The wharf of the Harrison line vessels is cracked and out of gear and looks as though it would tumble over. The Louisville & Nashville railroad has abandoned its depot at the foot of Canal street because of the danger, and transferred its business to the Pontchartrain depot at the foot of Elysian Fields. The railroad has a large force of men at work, but as often as they raise the tracks the ground gives way under them. It looks as though all the land up to the French market would sooner or later go into the river.

Robbed and Murdered.
FORT WORTH, Tex., Oct. 26.—Martin Mooney, a Fort Worth & Rio Grande employe, was found hanging to a limb of a tree in the outskirts of the city this morning. Mooney had just been paid \$178.
