TO GOOD TEMPLERS.

Do you know that Moore's Revealed Remedy is the only patent medicine in the world that does not contain a drop of alcohol; that the mode of preparing it is known only to its discoverer; that it is a advance in the science of medicine without a parallel in the nineteenth century; that its proprietors offer to forfeit \$1,000 for any case of dyspepsia it will not cure?

I am an old man and have been a constant sufferer with catarrh for the last ten years. I am entirely cured by the use of Ely's Cream Balm. It is strange that so simple a remedy will cure such a stubborn disease.—Henry Billings, U. S. Pension Atty., Washington, D. C.

For eight years I have suffered from catarrh, which effected my eyes and hearing; have employed many physicians without relief. I am now on my second bottle of Ely's Cream Balm, and feel confident of a complete cure.—Mary C. Thompson, Cerro Gordo, Ill.

The men of this vicinity need not be jealous because their wives talk so constantly about Matthews and Washburn. It is not their good looks the ladies are talking about, it is the good qualities of the cook and heating stoves they sell. Every one seems to be delighted when they buy from M. and W.

PENNOYER'S HASTE

He Issues a Thanksgiving Proclamation Before the President.

SAYS HARRISON "IS RATTLED"

The President's Proclamation is a Sort of Secondary Affair Anyway—News From the State Capital.

SALEM, Or., November 9.—Having waited more than the allotted time for President Harrison to issue the Thanksgiving proclamation Gov. Pennoyer today issued the following Thanksgiving proclamation: Inasmuch as gratitude for favors received should find due expression, I do hereby appoint Thursday the 20th day of November as a day of public thanksgiving to the Almighty God to be observed by the whole people of Oregon in the usual appropriate manner in return for the blessings of peace and plenty which have been bestowed upon them during the past year. When asked if it was not an unusual thing for the governor of a state to issue a Thanksgiving proclamation before the president of the nation issues his, Governor Pennoyer said, "I thought of it long ago, but I have been rattled by the events of last Tuesday and was waiting to hear more fully from New York. The governor said the president really had no authority to issue a proclamation to the people of a state. Lincoln was the first to do it, and the example since set has been followed ever since. The proclamation is usually issued about the first of November."

What a day took a jump from 70¢ to 82½ cents. At the former figure it had been at for many weeks.

The arrival of the steamer to-day were Elizabeth Buchanan, aged 34, from Grant county; John F. Wright, aged 39, from Tiooga, Douglas county; James Dugan, aged 48 years.

The state board of railroad commissioners, after having taken the testimony, found that Thomas J. Finney came to his death on the P. & W. railway, and that the negligence of his own but on account of the defect in condition of the car.

THE CHILIAN AFFAIR.

The War Department Thinks There is No Danger.

WASHINGTON, Nov. 9.—A cablegram received by Secretary Tracy from Captain Shiley, dated Valparaiso, Chili, yesterday, states there is no indication of any feeling of hostility toward the Baltimore company at Valparaiso.

Regarding the report of unusual activity and Sunday work in the navy yard, it is said that the navy department it has no warlike significance. No order has been sent from the department for Sunday work, and it is not known officially that there has been any. It is the common practice to work a force of men over time at the navy yards when there are particular needs of haste, and if the work has been in pursuance of a general order to hasten the work of repairs on the ships in order to have them in readiness for their winter cruises.

A BIG UNDER-taking.

A Movement to Fight the Standard Oil Company.

PITTSBURG, November 9.—It is stated on authority that cannot be questioned that a formidable movement has been inaugurated to organize an opposition to the Standard Oil octopus. The Producers' Protective Association is about to form an opposition trust. The object of the project is to erect of refineries, lay pipe lines and compete with the Standard in its most profitable fields.

The bankers of the new project believe they can command enough capital to begin operations on a large scale as to defy the big monopoly. If this hope is realized and the indications are that it will be, the new trust will be able to secure a good share of the enormous profits which are now being divided among the Standard nabobs.

CHINESE OUTRAGES.

The British Government Will Accept no More Excuses.

LONDON, November 9.—The Foreign Office awaits a response from Peking to the ultimatum demanding the adoption of measures to punish the leaders in the recent outrages. Sir John Walsman, British Minister to China, has been directed to give the Chinese government until the end of the month to reply, when, failing to get satisfaction, the combined foreign fleet will seize Shanghai and other treaty ports on the Yangtze-Kiang and the powers will take control of the customs of each port until the matter is dispute is arranged. The British Admiral now at Cagasaki, two days' steaming distance from Shanghai, has been warned to hold the squadron in readiness.

FIRE AT ALBINA.

The Post-office and Other Houses Burned—A Loss of \$12,000.

ALBINA, Nov. 9.—Albina was visited by a \$12,000 fire this morning. The department rendered excellent service and responded at the alarm in 11 minutes. A room has been shot by before 2 o'clock, smoke was seen issuing from the rear of the San John building at the corner of Russell and Helm streets. The alarm was at once sounded, and a thin but ample rain fell, flames broke from the roof and began their work of destruction in deadly earnest. After a fight of an hour and a half the flames were put out, but everything was burned save the front walls and the fixtures of the postoffice.

Losses and insurance.

A. J. Smithson, owner of the building, estimates his loss at \$40,000. He carried that amount of insurance with Hewitt & Co. Mr. Smithson will at once begin rebuilding with brick.

Mrs. Dalgleish calculates her loss at \$20,000. A large amount of her stock was saved. She carried \$15,000 insurance in the Hamburg Company and \$600 in the Sun.

The damage to the postoffice fixtures is estimated by Mrs. McKenzie at \$400. A room has been rented in the McKay block six doors from the old office, and mails will be delivered there to-morrow morning.

Otto Meesman's loss in drug stock and fixtures is estimated at \$1200 in the Oakland, California.

Schade & Oswald, the barbers, estimate their loss at \$500. They are insured for \$400.

Leo Gerhart, proprietor of the saloon, fixes his loss at \$1500. He held \$500 in the Sun and \$400 in the Oakland insurance companies.

Peter Kline, the butcher, places his loss at \$350. No insurance.

L. Larsen, the boat and shoemaker, places his loss at \$250 with no insurance.

Nobody seems to know how the fire originated. Some are inclined to think it the result of an incendiary's work.

A MINERS REBELLION

The Situation in Tennessee Becoming Alarming.

BLOODSHED IS THREATENED.

Not Since Secession Days has There Been Such a Depressing Condition of Things.

Op 1 Law's ..

NASHVILLE, Tenn., Nov. 6.—The situation of affairs in Tennessee is becoming alarming. It has but one equal in the history of America, and that was when Carolina attempted to secede from the United States. It has been stated of the miners, so far as estimated, has damaged to the commercial standing of East Tennessee to an amount of millions of dollars. It is two towns companies—one with \$50,000,000 capital, located at Bris 3; the other with \$100,000,000 located at Elizabethtown—have refused to enter the state, claiming that the state, not being able to protect its own interests, cannot protect the interests of capital. Suspicious communication is being held between the East Tennessee miners and the miners of Kentucky, Alabama and Virginia. The hardy mountaineers who revealed the convicts have sworn that the government shall not rebuild the stock piles, and that if he sends the convicts back to the Breckville and Coal Creek mines, they will be butchered in cold blood. Sheriff Rutherford, of Anderson county, who was notified by Governor Buchanan yesterday that if he could not sustain order and protect the people that his resignation would be required, received a notice a day or two death heads with grinning skulls and bones, which were marked on the paper and under this significant message:

Tell your governor that if he sends the convicts back again we will kill them one by one. We mean business.

The MINERS' COMMITTEE. The law is now openly defied. There can be nothing but bloodshed if the governor really intends to rebuild the stockpiles. Governor Buchanan means business, too. He has had fifty new firing guns and thousands of spent arms purchased. The state has paid out to date \$16,800 for the capture of convicts and the losses steadily refuse to keep their part of the contract.

THE CZAR'S ANNIVERSARY

Silver Wedding Ceremonies are Quietly Observed.

VENNA, Nov. 9.—A dispatch from Livia says that the silver wedding of the czar is being celebrated without much display. The gathering is but little more than a family party. There are several reasons for this. The Russian famine is understood to be the chief, both the czar and czarina being deeply touched by the sufferings of their subjects. Another reason is the czar's second son, the Grand Duke George, of whose recovery there is also but little expectation. The czar and czarina are deeply plunged in grief over this prospective bereavement, and it is to be near their son as long as possible that they chose Livia as the place to celebrate their silver wedding. George has been ill nearly a year. He started on a tour of the east with his brother, the czarowitz, and had to return from India, owing to failing health. Since then every care possible has been bestowed on him, but he has continued to decline. Another reason is the recent death of Grand Duchess Alexandra. The archbishop of Olesca officiates to-day at the religious part of the celebration, which, according to the peculiar tenets of the Russian church, is virtually a repetition of the marriage ceremony. The czar is in receipt of many presents, including the splendid silver pilgrim bottles from the Prince and Princess of Wales, the royal family of Denmark and the Duke of Cumberland.

THE BEHRING SEA CASE.

Argued in the United States Supreme Court.

WASHINGTON, Nov. 9.—The United States supreme court chamber was crowded this morning, distinguished members of the bar being present to hear the arguments in the "Sayward Behring sea case." ex-Secretary Fayard, and ex-Attorney-General Gresham, of President Cleveland's cabinet, ex-Senator Edmunds, Senator Mitchell, of Oregon, Representative Springer, of Illinois, and others present besides Attorney-General Miller, Solicitor-General Tait, Joseph H. Choate, of New York, and others who took part in the argument. Justice Bradley, who has been in feeble health for several months past, was present. The court will therefore hear this and other important cases, and Justice Bradley will take part in hearing such of them as his health will permit and others will go on without him.

Negro Fiends Captured.

PELHAMTON, Kan., Nov. 9.—Saturday afternoon Dan Austin, and William and Bert Austin,

NEGRO COAL MINERS

Were arrested and taken to the county jail at Mound City, charged with a fenceable outrage on Maggie Luce, a 16-year-old demented girl of good family. The girl is not expected to recover. Yesterday two little attempts to lynch the fiends were made. The prisoners were taken to Fort Scott. Trouble is looked for today, when the prisoners have a preliminary examination.

FIFTY YEARS OLD.

Celebrating the Birthday of the Heir to England's Throne.

LONDON, Nov. 9.—The 50th birthday of the Prince of Wales is being celebrated with royal enthusiasm. It is said that ever since early morning congratulatory messages have been pouring in to Sandringham with gifts, those from the German Kaiser and Prince Henry alone amounting in value to 100,000 marks. This munificence would seem to dispose of any coldness between the Kaiser and the Prince of Wales, and contrasts with Wilhelm's treatment of the czar and czarina on the occasion of their silver wedding today. The fact that the Prince of Wales did not accompany the princess to the family party at Frederickburg this autumn may, it is thought, have tended to make the Kaiser think more of him. To-day fathers of London are celebrating at the Guildhall in honor of the occasion, and in every part of Great Britain there is some recognition of the day.

ENGLISH CAPITAL.

Buying Up American Industries Wherever It is Possible.

NEW YORK, Nov. 9.—According to one of the gentlemen who, it is said, will constitute the American board of directors of the Copper-Heavit iron works, a sale has taken place whereby a syndicate consisting mainly of Englishmen takes possession on January 1 of all the iron mills, mines, furnaces and all other works now controlled by Edward Cooper and Abraham S. Hewitt.

The Visible Supply of Grain.

They Both Died.

BURTON, Nov. 9.—The Summerhills, father and son, both members of the firm of Friedlander & Summerhills, bankers, of this city, who failed Saturday last, and who, after the close of the day's business, opened veins in their arms and then shot themselves in the head with revolvers, have both died.

Plot to Depose the Sultan.

LONDON, Nov. 9.—The Times has a dispatch from Tangiers, saying: "A plot has been discovered to depose the Sultan's favorite brother, Sultan Ismail, on the throne. The Sultan's chief adviser has been disgraced and dismissed, and Ismail, who is Khalid of Fez, has been deposed and sent to Morocco with several noble accomplices."

SPARKS FROM THE WIRES.

William Lannsen was killed near Zena, Tok county Sunday, while out hunting. It is thought that his gun was accidentally discharged.

A report in circulation that the cruiser Baltimore had been blown up by a Chilean torpedo boat is officially denied at Washington.

James R. Wright, while walking on the road track near Stockton, Cal., was struck by a train and killed. He was very dead.

Six men were killed by a gas explosion in the shaft of the Sasuga banana coal mine, at Nanticoke, Pa. Several others were badly injured, so none of whom will die.

Samuel Stalling, of Denver, Colo., was last night shot and killed by his mistress, Lucy Swarthout. Stalling's wife and children lived in the same house with the pair, and the mistress was jealous of the wife.

The Brooklyn navy yard has never presented such a scene of activity since the days of the Rebellion as it does at present. A large force of men are at work day and night getting the war vessels ready for sea.
