NEWS OF THE COAST.

Interesting Items from Exchanges Throughout the Northwest.

The net taxable property of Corvallis is \$712,315. Benton county shows an increase in net valuation of \$150,000 in the past year.

The owners of the coal mines at Fossil have put on a large force of men and are going right ahead developing their property.

A crew of men beat work rebuilding the Western Union's line between Salem and Portland. The best of poles and wire is being used.

The town of Prineville was out of debt on the 1st of October. This is something good many more pretentious towns cannot boast of.

A child about 1 year old had a narrow escape Monday morning in Eugene. It was on the track, and the engineer just had time to stop the north-bound local train.

Nelson Crow, an exemplary and industrious young man engaged in warehousing grain for Hamilton & Rourke at Fossil, Clatsop county, was killed on Tuesday, by the giving way of a break in a car, precipitating him between the cars, fracturing his neck.

East Oregonian: J. O. Moorhouse, of Weston, who recently disposed of his fine farm, is interesting himself largely in Wallawa county mines. He lately purchased two more claims in the Joseph district, and will put in suitable machinery for working one, as soon as possible. It is the intention of Mr. Moorhouse to invest in a small mine at first, as he will do custom work. No doubt his business will be sufficient to demand an increase in machinery after the first season.

Substantial Work. The amount of piling put in the piers of the Albany bridge as well as the solid masonry in which it is being done, speaks loudly for the excellent manner in which the work is being done, in the second pier from this side which stands at the foot of the island formed by the confluence of the Calapooya and Willamette there were put in 43 piles, ranging in depth from 19 to 28 feet. The original intention had been for 39 piles but the number was increased. The next pier, at the end of the 40 foot span, just at the edge of the shore on the Benton county side is equally as solidly put in, as well as the shore piers on this side; and the fourth and fifth piers on the Benton county side will also be put in like solid masonry.

A New River Boat. Corvallis Times: Messrs. Young & Dove have just launched a new little river boat to ply the waters of the Willamette and she is now moored at Cautim's wharf where workmen are putting on a few finishing touches prior to taking her to Salem for machinery. She was built a few miles above the city and is an attractive and trim little craft. Arthur Wallace, of this city, has shown considerable skill in her construction and it is believed she will be a racer. She is 85 feet long, sixteen feet wide and will draw about ten inches of water. Her machinery will be first-class and she will engage in the freight and passenger trade. She has been christened the "R. C. Young" and will be ready for service in about three days.

Philip Phillips. Read the press comments concerning his splendid entertainments.

N. Y. Herald: He is considered peerless as a singer of sacred and descriptive songs.

Boston Journal: Philip Phillips completely captivated his large audience last night at the Tremont Temple. People were extravagant in their praise of his excellent entertainments.

Cincinnati Enquirer: Philip Phillips "Chariot of Song" found the World's "is magnificent."

At the opera house Monday, Tuesday and Wednesday. Seats on sale at Will & Link's.

It Won't Taper. Bob Johnson, of the Corvallis Times, gets off this: "What a fine base Massachusetts will make to the pyramid of democratic states in the presidential election, and how nicely the word 'taper' will taper it off." If Bob depends upon that foundation and taper for his election bets, he will find himself as flat as a pancake on Wednesday following Tuesday after the first Monday in November, 1892. Better not build any pyramids.

Rare Merit. One of Indiana's talented sons, who makes portrait painting his specialty, has recently won the first prize at the Munich exhibition of paintings, an honor that is seldom gained by an American. This gentleman is Mr. T. C. Steele, a brother of Mr. S. N. Steele, of this city. His works include many portraits of famous persons of Indiana, and are fast giving him renown throughout the artistic world.

The Corvallis Colt. Corvallis Times: It always gives pride to the sporting public in this neighborhood to learn of the victories of Oregon Eclipse, the Corvallis colt. He belongs to James Foster, formerly of this city, and has just come to the front in San Francisco, winning a \$400 purse at a distance of seven and a half furlongs. As yet he has made a mile, it will be seen that fast time was made, as the time given by the judges was 1:35 4/5. The record for this distance, seven and a half furlongs, is at present 1:34 1/2, held by Leo H. as a 3-year-old, with 39 pounds up at Nashville, Tenn., on Nov. 1888. On November 4th at San Francisco, out of some seven starts, among whom was Geraldine, 6 years old, who as a 3-year-old at Morris Park, N. Y., on August 29, 1889, ran a half mile in 1:40 carrying 122 pounds. By a San Francisco paper of November 4th, it is seen Geraldine was accorded a "cinch," but made the six and a half furlongs in 1:46 1/5 with Oregon Eclipse second by two lengths. It seems Oregon Eclipse must have had some of the "cinch" stuff, as he has previously run the distance in 1:29, so that this now stands as a world's record for that distance. It can be remarked just here that Blabo Chip, who had eighty pounds put against Oregon Eclipse's ninety seven pounds, in this race, ran unplaced, in fact was sixth. It will be remembered that at the last meeting of the Oregon agricultural society Oregon Eclipse was beaten by Blabo Chip, for which the Fosters paid a \$100 fine. On November 4th, Geraldine and Oregon Eclipse met in the seven and one-half furlong race and Geraldine was beaten as noted at the head of this article. The rider of Oregon Eclipse is an Independence by named Bell, son of the late Thomas Bell, and well known in this city.

The Australian Ballot Law. On all hands, wherever tried, the Australian ballot law seems to have met with general approval, and we predict that time and experience will justify the present impression in its favor, says The Dallas Chronicle. With us it is yet an untried experiment, but almost any method we'd be an improvement on the old method of ward strikers corraling voters in a back room, filling them full of whisky, fixing their tickets and leading them up to the polls like so many silly sheep. The business, too, of buying votes at such a head will be at an end, because the buyer will never know if the contract has been kept, the ward-walkers will be kept away from the polls, and the voter will be permitted to cast his ballot quietly and without interference from any one. The new system will be a vast improvement on the old, because it will far more nearly give an expression of the people's choice of the candidates for office.

Oregon on Wheels. The Oregon Immigration Board's car, "Oregon on Wheels," appears to have made a decided hit in the Northwestern states. Last week it was on exhibition in St. Paul, Minneapolis and other Minnesota cities, and the inhabitants of those towns are enthusiastic about it. Secretary Masten has received scores of letters from people living in cities where the car was exhibited, complimenting the board on the car and its exhibits, and asking for further information about the resources of Oregon.

A CANARD.

The New York Press Exposes That "Important Bill" Business.

The article credited to the New York Press in a recent issue of this paper, in which it was alleged that unfavorable action had been taken in the New York legislature against the Royal Baking Powder, proves to have been a canard, gotten up and circulated by opposition bakers powder makers for purposes quite apparent to every one.

The New York Press, in exposing the fraud, says: "No such legislation as that stated in this article has ever been had in this state—of any legislature, to our knowledge." The article was taken from whole cloth. The Press disclaims any responsibility for the publication, and objects to being made a party to such methods adopted by some baking powder manufacturers in their efforts to sustain their goods for others now in use.

Cooler Lodgers. Hotel de Hoffman had four lodgers last night; two of them claimed to be deserters from the 8th U. S. cavalry, one deserting in 1880 and the other in 1888, while the regiment was in Texas. The other two were the victims of too much ardent spirits.

T. Lynch of the barber shop, was so completely done up with the jim jans that he wanted to kill everybody who came near him, and became so violent that Engineer Lee concluded that the cooler was the safest place to keep him, and administered the medicine necessary for him to take. So there he rested.

Mothers? Castoria is recommended by physicians for children teething. It is a purely vegetable preparation and its ingredients are published on each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhoea and wind colic, allays feverishness, destroys worms, and prevents convulsions, soothes the child, and gives a refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 35¢ per box, 35 cents.

Teachers' Local Meeting. A local teachers' meeting will be held at Lebanon on Friday evening and Saturday the 20th and 21st of Nov. 1891.

Prof. J. B. H. of Albany will be present on Friday evening and we predict that time and experience will justify the present impression in its favor, says The Dallas Chronicle. With us it is yet an untried experiment, but almost any method we'd be an improvement on the old method of ward strikers corraling voters in a back room, filling them full of whisky, fixing their tickets and leading them up to the polls like so many silly sheep. The business, too, of buying votes at such a head will be at an end, because the buyer will never know if the contract has been kept, the ward-walkers will be kept away from the polls, and the voter will be permitted to cast his ballot quietly and without interference from any one.
