The Question of the Hour. And one that is frequently asked Mr. Wilson, "what is it in your R. Berlin that produces such a delightful cooling and refreshing sensation and adds a most delicate tint to the complexion?" to which we answer: It is a combination of rare and harmless ingredients scientifically prepared. Then enters into the composition of this article ingredients which have never before been used in proportions of this kind, hence the effect is so strikingly different from that produced by all other toilet remedies. Some considerers used in the composition of Roberts' are all of the very smoothest and finest division it is possible to produce, further more each and every ingredient must stand the crucial test of chemical purity, insuring freedom from all foreign and deleterious substances. Thus with rare and harmless ingredients of the very finest division it is possible to make oil of absolute purity an ingredient with scientific precision, it is but natural that we should produce a superior article and one that has long been aptly termed the "Peerless Beautifier."
